**"Final Valuation Date"** means 5 November 2021.

**"Futures Exchange"** refers to the exchange with the largest trading volume in futures and options contracts in relation to an Index Share. If no futures or options contracts in relation to the Index Share are traded on any exchange, the Futures Exchange shall be the exchange with the largest trading volume in futures and options contracts in relation to shares of companies whose registered office is in the same country as the registered office of the Index Company. If there is no futures and options exchange in the country in which the Index Company has its registered office, the Issuer shall determine the Futures Exchange in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (BGB)) and shall announce its choice in accordance with § 13.

**"Index"** or **"Underlying"** means the EURO STOXX 50<sup>®</sup> Index (ISIN EU0009658145) as determined and published by STOXX Limited (the **"Index Sponsor"**).

**"Index Business Day"** means a day on which the level of the Index is usually determined and published by the Index Sponsor.

**"Launch Date"** means 5 November 2013.

**"Market Disruption Event"** means the occurrence or existence of any suspension of, or limitation imposed on, trading in the securities contained in the Index on the stock exchanges or trading systems the prices of which are the basis for the calculation of the Index, or the suspension of or limitation imposed on trading in option or futures contracts on the Index on the Futures Exchange, provided that any such suspension or limitation is material. The decision whether a suspension or limitation is material will be made by the Issuer in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (BGB)). The occurrence of a Market Disruption Event shall be published in accordance with § 13.

A limitation regarding the office hours or the number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange. A limitation on trading imposed during the course of a day by reason of movements in price exceeding permitted limits shall only be deemed to be a Market Disruption Event in the case that such limitation is still prevailing at the time of termination of the trading hours on such date.

**"Maturity Date"** means 19 November 2021, subject to postponement in accordance with § 6 paragraph 2.

**"Reference Price"** means the level of the Index last determined and published by the Index Sponsor on any day (official closing level).

**"Strike"** means 3,035.92 index points.

**"Valuation Date"** means each Early Valuation Date and/or the Final Valuation Date.

If on a Valuation Date there is no Reference Price of the Index or if on a Valuation Date a Market Disruption Event occurs, the relevant Valuation Date shall be postponed to the next following Index Business Day on which there is again a Reference Price of the Index and on which a Market Disruption Event does not occur.

If, according to the before-mentioned, a Valuation Date is postponed to the third Payment Business Day prior to the directly following Automatic Early Redemption Date or the Maturity Date, as the case may be, and if also on such day there is no Reference Price of the Index or a Market Disruption Event occurs on such day, then this day shall be deemed to be the relevant Valuation Date and the Issuer shall estimate the Reference Price of the Index in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (*BGB*)), and in consideration of the prevailing market conditions on such day and make a notification thereof in accordance with § 13.

### § 3 INTEREST

The Notes shall not bear any interest. However and subject to the provisions contained in § 5, each Noteholder shall receive the relevant Bonus Amount per Note on a Bonus Amount Payment Date, but only if on the Valuation Date directly preceding the respective Bonus Amount Payment Date the Reference Price of the Underlying is equal to or above 60% of the Strike. In all other cases, a Bonus Amount shall not be payable on the respective Bonus Amount Payment Date.

### § 4 MATURITY

1. Subject to the provisions contained in § 7 and § 11, the Note will be redeemed on the Maturity Date. Subject to paragraph 2, each Note is redeemed by payment of an amount equal to the Denomination.
2. If on the Final Valuation Date the Reference Price of the Underlying is below 60% of the Strike (the "**Barrier**"), then each Note shall be redeemed, instead of payment of the Denomination, at an amount (the "**Redemption Amount**") which shall be calculated in accordance with the following formula:

$$RA = N \times \frac{\text{Underlying}_{\text{final}}}{\text{Underlying}_{\text{initial}}}$$

### § 5 EARLY REDEMPTION; REPURCHASE

1. Except as provided in § 7, the Issuer shall not be entitled to redeem the Notes prior to the Maturity Date.

2. Except as provided in § 11, the Noteholders shall not be entitled to call for redemption of the Notes prior to the Maturity Date.
3. Notwithstanding any other rights to redeem the Notes prior to the Maturity Date in accordance with these Terms and Conditions, the Notes shall be terminated automatically and redeemed on an Automatic Early Redemption Date at the Automatic Early Redemption Amount per Note if on the Early Valuation Date directly preceding such Automatic Early Redemption Date the Reference Price of the Underlying is equal to or above 100% of the Strike.

The rights in connection with the Notes shall expire upon the payment of the Automatic Early Redemption Amount and the relevant Bonus Amount on the relevant Automatic Early Redemption Date.

4. The Issuer may at any time purchase Notes in the market or otherwise. Notes repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued or resold.

## § 7

### ADJUSTMENTS; TERMINATION RIGHT OF THE ISSUER

1. If the Index is no longer calculated and published by the Index Sponsor but by another person, company or institution acceptable to the Issuer in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (*BGB*)) as the new Index Sponsor (the "**Successor Sponsor**"), the Redemption Amount will be determined on the basis of the Index being calculated and published by the Successor Sponsor and any reference made to the Index Sponsor in these Terms and Conditions shall, if the context so admits, then refer to the Successor Sponsor.
2. If the Index is cancelled or replaced or if the Index Sponsor is replaced by another person, company or institution not acceptable to the Issuer in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (*BGB*)), the Issuer will determine in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (*BGB*)) another index on the basis of which the Redemption Amount will be determined (the "**Successor Index**"). The respective Successor Index as well as the time of its first application will be notified pursuant to § 13. Any reference made to the Index in these Terms and Conditions shall, if the context so admits then refer to the Successor Index. All related definitions shall be deemed to be amended accordingly. Furthermore, the Issuer will make all necessary adjustments to the Terms and Conditions resulting from a substitution of the Index.
3. If the occurrence of an Adjustment Event (as defined below) has a material effect on the price of the Index, the Issuer will make adjustments to the Terms and Conditions taking into consideration the provisions set forth hereinafter. The Issuer shall act in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (*BGB*)).

Adjustments and determinations shall become effective on the date on which the occurrence of the Adjustment Event has its effect on the price of the Index.

Adjustments and determinations as well as the effective date shall be notified by the Issuer in accordance with § 13.

Any adjustment in accordance with this § 7 paragraph 3 does not exclude a later termination in accordance with this paragraph on the basis of the same event.

"**Adjustment Event**" means:

- (a) the substitution of the Index by a Successor Index pursuant to paragraph 2;
- (b) any of the following actions taken by the company issuing the share contained in the Index (the "**Index Share**") (the "**Index Company**"): capital increases through issuance of new shares against capital contribution and issuance of subscription rights to the shareholders, capital increases out of the Index Company's reserves, issuance of

securities with option or conversion rights related to the Index Share, distributions of ordinary dividends, distributions of extraordinary dividends, stock splits or any other split, consolidation or alteration of category;

- (c) a spin-off of a part of the Index Company in such a way that a new independent entity is formed, or that the spun-off part of the Index Company is absorbed by another entity;
  - (d) the adjustment of option or futures contracts relating to the Index Share on the Futures Exchange or the announcement of such adjustment;
  - (e) a takeover-bid, i.e. an offer to take over or to swap or any other offer or any other act of an individual person or a legal entity that results in the individual person or legal entity buying, otherwise acquiring or obtaining a right to buy more than 10% of the outstanding shares of the Index Company as a consequence of a conversion or otherwise, as determined by the Issuer in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (*BGB*)) based on notifications to the competent authorities or on other information determined as relevant by the Issuer;
  - (f) the termination of trading in, or early settlement of, option or futures contracts relating to the Index Share on the Futures Exchange or relating to the Index itself or the announcement of such termination or early settlement;
  - (g) the termination of the listing of the Index Share at the exchange on which the respective Index Share is traded (provided that the quotations of the prices of the Index Share on such exchange are taken for the calculation of the Index) (the "**Relevant Exchange**") to terminate the listing of the Index Share on the Relevant Exchange due to a merger by absorption or by creation or any other reason or the becoming known of the intention of the Index Company or the announcement of the Relevant Exchange that the listing of the Index Share at the Relevant Exchange will terminate immediately or at a later date and that the Index Share will not be admitted, traded or listed at any other exchange which is comparable to the Relevant Exchange (including the exchange segment, if applicable) immediately following the termination of the listing;
  - (h) the Issuer and/or its affiliates (in the meaning of § 1 paragraph 7 German Banking Act (*KWG*), § 290 paragraph 2 German Commercial Law (*HGB*)) are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any transactions or investments that the Issuer considers necessary to hedge its risks resulting from the assumption and performance of its obligations under the Notes or (ii) to realize, regain or transfer the proceeds resulting from such transactions or investments (in each case a "**Hedging Disruption**");
  - (i) a procedure is introduced or ongoing pursuant to which all shares or the substantial assets of the Index Company are or are liable to be nationalized or expropriated or otherwise transferred to public agencies, authorities or organizations;
  - (j) the application for insolvency proceedings or for comparable proceedings with regard to the assets of an Index Company according to the applicable law of such company; or
  - (k) any other event being economically equivalent to the afore-mentioned events with regard to their effects.
4. If (i) the determination of a Successor Index in accordance with the paragraph 2 is not possible or is unreasonable (*unzumutbar*) or (ii) if the Index Sponsor materially modifies the calculation method of an Index with effect on or after the Launch Date, or materially modifies the Index in any other way (except for modifications which are contemplated in the calculation method of the Index relating to a change with respect to shares comprising the Index, the market capitalisation or with respect to any other routine measures), then the Issuer is entitled to (a) continue the calculation and publication of the Index on the basis of the former concept of the Index and its last determined level or (b) to terminate the Notes prematurely with respect to an Index

Business Day (the "**Termination Date**") with a prior notice of seven Payment Business Days in accordance with § 13. Any termination in part shall be excluded.

The Issuer may also terminate the Notes in accordance with the above in the case of a Hedging Disruption.

5. In the case of a termination of the Notes pursuant to paragraph 4 the Notes shall be redeemed on the Termination Date at the termination amount (the "**Termination Amount**") which shall be calculated by the Issuer in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (*BGB*)) by taking into account prevailing market conditions and any proceeds realised by the Issuer in connection with transactions concluded by it in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (*BGB*)) for hedging measures in relation to the assumption and fulfilment of its obligations under the Notes (the "**Hedging Transactions**"). Expenses for transactions that were required for winding up the Hedging Transactions will be taken into account as deductible items.

The Issuer shall pay the Termination Amount to the Noteholder not later than on the tenth Payment Business Day following the Termination Date to the Clearing System. Such payment shall be made to the Paying Agent for transfer to the Clearing System or pursuant to the Clearing System's instruction for credit to the relevant accountholders. Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Notes in the amount of such payment.

## **§ 10 PAYING AGENT**

# **SUMMARY**

Summaries are made up of disclosure requirements known as 'Elements'. These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. There may be gaps in the numbering sequence of the Elements in cases where Elements are not required to be addressed.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of '- not applicable -'. Certain provisions of this summary are in brackets. Such information will be completed or, where not relevant, deleted, in relation to a particular issue of securities, and the completed summary in relation to such issue of securities shall be appended to the relevant final terms.

**B.13 Recent developments**

In November 2012 Commerzbank published its strategic and financial goals until 2016. Thus Commerzbank plans to adapt its business model to the changing framework conditions in the financial industry in the coming years. In the framework of its strategic agenda for the period to 2016, Commerzbank intends to invest more than EUR 2.0 billion in the earnings power of its core business in the segments Private Customers, Mittelstandsbank, Corporates & Markets and Central & Eastern Europe. Furthermore, costs shall be kept stable and the capital base shall be further optimised by implementing additional efficiency measures.

As part of its implementation of the strategic agenda, Commerzbank is to eliminate around 5,200 full-time posts by 2016.

On 13 March 2013 Commerzbank announced that it is planning an early repayment in full of the silent participations of the Financial Market Stabilization Fund (SoFFin) of about EUR 1.6 billion and Allianz of EUR 750 million. To this end, a capital reduction through the consolidation of shares in the ratio of 10:1 was implemented in a first step on 22 April 2013. In a further step, a capital increase was implemented and registered in the commercial register of the Local Court of Frankfurt am Main on 28 May 2013. A total of 555,555,556 new shares were issued at a subscription price of EUR 4.50 per share. The silent participations of SoFFin and Allianz were repaid in full as of 31 May 2013.

In mid-July 2013 Commerzbank signed an agreement regarding the sale of its commercial real estate portfolio in the United Kingdom to a consortium. The transaction covers commercial real estate loans totalling EUR 5.0 billion, including the associated interest rate and currency hedging derivatives as well as the entire operating business of Hypothekenbank Frankfurt in the UK.

At the end of July 2013 Commerzbank reached an agreement with BNP Paribas regarding the sale of its "Depotbank" business. In the course of the transaction the customer relationships are being transferred to BNP Paribas. This transaction is still subject to the approval of the relevant supervisory authorities. The custody business for customers of Commerzbank, which provides a comprehensive custody service for the Bank's private, business and corporate customers as well as for institutional investors, and forms part of Commerzbank's core business, is not affected by the deal.

| <b>D.2</b>     | <b>Key risks specific to the Issuer</b> | The Notes entail an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the risk that Commerzbank becomes temporarily or permanently unable to meet its obligations to pay interest and/or the redemption amount. |

Furthermore, Commerzbank is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:

### Global Financial Market Crisis and Sovereign Debt Crisis

The global financial market crisis and sovereign debt crisis in the eurozone in particular have put a very significant strain on the net assets, financial position and results of operations of the Group in the past, and it can be assumed that further materially adverse effects for the Group can also result in the future, in particular in the event of a renewed escalation of the crisis. A further escalation of the crisis within the European Monetary Union can have material adverse effects with consequences that even pose a threat to the Group's existence. The Group holds a large amount of sovereign debt. Impairments and valuations of such sovereign debt at lower fair values have material adverse effects on the Group.

### Macroeconomic Environment

The macroeconomic environment prevailing for some time adversely affects the results of operations of the Group and the strong dependence of the Group on the economic environment, particularly in Germany, can lead to further substantial burdens in the event of a renewed economic downturn.

### Counterparty Default Risk

The Group is exposed to counterparty default risk (credit risk) also in respect of large individual commitments, large loans and advances, and commitments that is concentrated in individual sectors, so-called "cluster" commitments, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. Real estate finance and ship finance are exposed to risks associated in particular with the volatility of real estate and ship prices, including counterparty default risk (credit risk) and the risk of substantial changes in the values of private and commercial real estate and ships held as collateral. The Group has a substantial number of non-performing loans in its portfolio and these defaults may not be sufficiently covered by collateral in combination with previously conducted write-downs and established provisions.

### Market Risks

The Group is exposed to market price risks in the valuation of equities and investment fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and

correlation risks, commodity price risks.

#### Strategic Risks

There is a risk that the Group may not be able to implement its strategic plans, or only implement them in part or at higher costs than planned. The synergy effects anticipated from Dresdner Bank's integration into the Group may be less than expected or begin to materialize at a later date. In addition, ongoing integration is causing considerable costs and investments that may exceed the planned limits. Customers may not be retained in the long run as a result of the takeover of Dresdner Bank.

#### Risks from the Competitive Environment

The markets in which the Group is active, particularly the German market and there, above all, activities in business with private and corporate customers as well as investment banking, are characterized by heavy competition on the basis of prices and conditions, which results in considerable pressure on margins. Measures by governments and central banks to combat the financial crisis and the sovereign debt crisis have a significant impact on the competitive environment.

#### Liquidity Risks

The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations. Currently, the liquidity supply of banks and other players in the financial markets is strongly dependent on expansive measures of the central banks.

#### Operational Risks

The Group is exposed to a large number of operational risks including the risk that employees enter into extensive risks for the Group or violate compliance-relevant regulations in connection with the conducting of business activities and thereby cause suddenly occurring damages of a material size.

#### Risks from Equity Participations

With respect to holdings in listed and unlisted companies, Commerzbank is exposed to particular risks associated with the soundness and manageability of such holdings. It is possible that goodwill reported in the consolidated balance sheet will have to be written down, in full or in part.

#### Risks from Bank-Specific Regulation

Ever stricter regulatory capital and liquidity standards may bring into question the business model of a number of the Group's operations and negatively affect the Group's competitive position. Other regulatory reforms proposed in the wake of the financial crisis, e.g., statutory charges such as the bank levy or a possible financial transaction tax or stricter disclosure and organizational obligations can materially influence the Group's business model and competitive environment.

## Legal Risks

Claims for damages on the grounds of faulty investment advice and the lack of transparency of internal commissions have led to substantial charges and may also in the future lead to further substantial charges for the Group. Commerzbank and its subsidiaries are subject to claims, including in court proceedings, for payment and restoration of value in connection with profit participation certificates and trust preferred securities it issued. The outcome of such proceedings can have material negative effects on the Group, beyond the claims asserted in each case. Regulatory, supervisory and judicial proceedings may have a material adverse effect on the Group. Proceedings brought by regulators, supervisory authorities and prosecutors may have material adverse effects on the Group.

### **D.6 Key information on the key risks that are specific to the securities**

#### No secondary market immediately prior to the final exercise

The market maker and/or the exchange will cease trading in the Notes no later than shortly before their scheduled Maturity Date. However, between the last trading day and the Valuation Date, the price of the Underlying, which is relevant for the Notes may still change and any kind of barrier could be reached, exceeded or breached in another way for the first time. This may be to the investor's disadvantage.

#### No Collateralization

The Notes constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (*Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.*) nor by the German Deposit Guarantee and Investor Compensation Act (*Einlagensicherungs- und Anlegerentschädigungsgesetz*). This means that the investor bears the risk that the Issuer can not or only partially fulfil the attainments due under the Notes. Under these circumstances, a total loss of the investor's capital might be possible.

This means that the investor bears the risk that the Issuer's financial situation may worsen - and that the Issuer may be subjected to a reorganisation proceeding (*Reorganisationsverfahren*) or transfer order (*Übertragungsanordnung*) under German bank restructuring law or that insolvency proceedings might be instituted with regard to its assets - and therefore attainments due under the Notes can not or only partially be done. Under these circumstances, a total loss of the investor's capital might be possible.

#### Foreign Account Tax Compliance withholding may affect payments on Notes

The Issuer and other financial institutions through which payments on the Notes are made may be required to withhold at a rate of up to 30% on payments made after 31 December 2016 in respect of any Notes which are issued or materially modified after 31 December 2013, pursuant to Sections 1471 to 1474 of the U.S. Internal Revenue Code, commonly referred to as "**FATCA**" (Foreign Account Tax Compliance Act). A withholding obligation may also exist – irrespective of the date of issuance – if the Notes are to be treated as equity instruments according to U.S. tax law. The FATCA regulations outlined above are not yet final. **Investors in the Notes**

**should therefore be aware of the fact that payments under the Notes may, under certain circumstances, be subject to U.S. withholding, which may lower the economic result of the Notes.**

#### Impact of a downgrading of the credit rating

The value of the Notes could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Notes.

#### Termination, early redemption and adjustment rights

The Issuer shall be entitled to perform adjustments with regard to the Terms and Conditions or to terminate and redeem the Notes prematurely if certain conditions are met. This may have a negative effect on the value of the Notes as well as the Termination Amount. If the Notes are terminated, the amount payable to the holders of the Notes in the event of the termination of the Notes may be lower than the amount the holders of the Notes would have received without such termination.

#### Market disruption event

The Issuer is entitled to determine market disruption events that might result in a postponement of a calculation and/or of any attainments under the Notes and that might affect the value of the Notes. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of barriers. These estimates may deviate from their actual value.

#### Substitution of the Issuer

If the conditions set out in the Terms and Conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Notes, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection with the Notes in its place. In that case, the holder of the Notes will generally also assume the insolvency risk with regard to the new Issuer.

#### Risk factors relating to the Underlying

The Notes depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Notes.

#### Risk relating to an automatic early redemption

Under certain circumstances as set forth in the relevant Final Terms, the Notes may be redeemed early if certain conditions are met, which may adversely affect the economics of the Notes for the investor.

#### Risk at maturity:

The Notes could be redeemed on the Maturity Date by payment of a Redemption Amount, which will be significantly below the initial

issue price of 100% per Note. In this case the investor could suffer a loss. This is - disregarding the costs incurred in connection with the purchase of the Notes - the case, if on the Final Valuation Date the Reference Price of the Index underlying the Notes is equal to or below the Strike of the Underlying.

The investor will suffer a loss if the Redemption Amount which will be depending on the performance of the Underlying (plus Bonus Amount(s) and less local taxes) is below the purchase price paid for the Notes. The lower the Reference Price of the Index and thus the lower the Redemption Amount, the greater will be the loss. Worst Case: The Index is worthless on the Final Valuation Date. In this case the Redemption Amount will be equal to zero and the investor will only receive the Bonus Amount(s) less local taxes.

Risks if the investor intends to sell or must sell the Notes during their term:

*Market value risk:*

The achievable sale price prior to final exercise could be significantly lower than the purchase price paid by the investor.

The market value of the Notes mainly depends on the performance of the Underlying, without reproducing it accurately. In particular, the following factors may have an adverse effect on the market price of the Notes:

- Changes in the expected intensity of the fluctuation of the Underlying (volatility)
- Interest rate development
- Remaining term of the Notes
- Developments of the dividends of the shares comprising the Index

Each of these factors could have an effect on its own or reinforce or cancel each other.

*Trading risk:*

The Issuer is neither obliged to provide purchase and sale prices for the Notes on a continuous basis on (i) the exchanges on which the Notes may be listed or (ii) an over the counter (OTC) basis nor to buy back any Notes. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Notes could be temporarily limited or impossible.

## **B.13 Événements récents**

En novembre 2012 Commerzbank a publié ses objectifs stratégiques et financiers jusqu'en 2016. Ainsi, Commerzbank prévoit d'adapter son modèle économique à l'évolution des conditions générales du secteur financier dans les années à venir. Dans le cadre de son programme stratégique pour la période allant jusqu'en 2016, Commerzbank envisage d'investir plus de EUR 2,0 milliards dans la rentabilité de son activité principale dans les segments Clients Privés, *Mittelstandbank*, Entreprises & Marchés et Europe Centrale & Orientale. En outre, les coûts devraient rester stables et les fonds propres devraient encore être optimisés par la mise en œuvre de mesures supplémentaires de rentabilité.

Dans le cadre de la mise en œuvre du programme stratégique, Commerzbank va supprimer environ 5.200 postes à temps plein d'ici 2016.

Le 13 mars 2013, Commerzbank a annoncé son intention de rembourser en totalité par anticipation les participations silencieuses du Fond de Stabilisation des Marchés Financiers (SoFFin) pour approximativement EUR 1,6 milliard et d'Allianz pour EUR 750 millions. A cette fin, une réduction du capital social par regroupement d'actions sur la base d'un ratio de 10:1 a été dans un premier temps mise en œuvre le 22 avril 2013. Dans un second temps, une augmentation de capital a été mise en œuvre et enregistrée auprès du registre du commerce du Tribunal Local de Francfort-sur-le-Main le 28 mai 2013. Un total de 555.555.556 actions nouvelles ont été émises à un prix de souscription de EUR 4,50 par action. Les participations silencieuses de SoFFin et d'Allianz ont été remboursées en totalité au 31 mai 2013.

Mi-juillet 2013, Commerzbank a signé un accord sur la vente de son portefeuille immobilier commercial au Royaume-Uni à un consortium. La transaction couvre des prêts immobiliers commerciaux pour un montant total de 5 milliards d'euros, incluant les dérivés de couverture de taux et de change correspondants ainsi que de l'ensemble des activités de Hypothekenbank Frankfurt au

Royaume-Uni.

Fin juillet 2013, Commerzbank est parvenue à un accord avec BNP Paribas sur la vente de son activité de "Depotbank". Dans le cadre de cette opération, les relations avec la clientèle sont transférées à BNP Paribas. Cette opération est toujours sous réserve de l'approbation des autorités de contrôle compétentes. L'activité de conservation pour les clients de Commerzbank, qui fournit un service complet de dépositaire pour sa clientèle privée, commerciale et d'entreprises de la Banque ainsi que pour les investisseurs institutionnels, et qui fait partie du cœur d'activité de Commerzbank, n'est pas affectée par la transaction.

### Rang des Titres

Les obligations au titre des Notes constituent des obligations directes et inconditionnelles de l'Emetteur, qui ne bénéficient d'aucune sûreté (*nicht dinglich besichert*) et, sauf disposition contraire de la loi applicable, viennent au moins au même rang que toutes les autres obligations non subordonnées de l'Emetteur qui ne bénéficient d'aucune sûreté (*nicht dinglich besichert*).

### Périodes de présentation, Prescription

La période de présentation des Notes (§ 801 paragraphe 1, 1<sup>ère</sup> phrase du Code Civil Allemand (BGB)) sera de 10 ans et le délai de prescription des créances au titre des Notes présentées pendant la période de présentation sera de deux ans calculé à compter de la fin de la période de présentation applicable.

**C.11 Admission à la cotation et à la négociation sur un marché réglementé ou un marché équivalent**

L'Emetteur a l'intention de demander l'admission à la cotation et à la négociation des Notes sur le marché réglementé de Euronext Paris S.A.

**C.15 Influence du Sous-Jacent sur la valeur des titres :**

Le remboursement des Notes à la Date d'Echéance dépend de la performance du Sous-Jacent.

En détail :

Il existe deux scénarios possibles pour le remboursement des Notes à la Date d'Echéance :

- (a) Si à la Date d'Evaluation Finale le Prix de Référence du Sous-Jacent est égal ou supérieur à 60% du Prix d'Exercice, l'investisseur recevra un montant en numéraire par Note égal à la Valeur Nominale de 1.000 EUR
- (b) Dans tous les autres cas, chaque Note sera remboursée, non par le paiement de la Valeur Nominale, mais par le paiement d'un montant (le "**Montant de Remboursement**") qui sera calculé selon la formule suivante :

$$N \times \frac{\text{Sous-Jacent}_{\text{final}}}{\text{Sous-Jacent}_{\text{initial}}}$$

Où,

"N" désigne 1.000 EUR (la "**Valeur Nominale**"),

"**Sous-Jacent**<sub>final</sub>" désigne le Prix de Référence du Sous-Jacent à la Date d'Evaluation Finale et

"**Sous-Jacent**<sub>initial</sub>" désigne le Prix d'Exercice.

Sans préjudice des autres droits de procéder au remboursement des Notes avant la Date d'Echéance conformément aux Modalités, les Notes prendront automatiquement fin et seront remboursées à une Date de Remboursement Anticipé Automatique à 1,000 EUR par Note (le "**Montant de Remboursement Anticipé Automatique**") si à la Date d'Evaluation Anticipée précédant

directement cette Date de Remboursement Anticipé Automatique le Prix de Référence du Sous-Jacent est égal ou supérieur à 100% du Prix d'Exercice.

**"Date de Remboursement Anticipé Automatique"** désigne chaque Date de Paiement d'un Montant Bonus sauf la Date d'échéance, toutes pouvant être reportées conformément aux modalités.

Les droits au titre des Notes prendront fin à compter du paiement du Montant de Remboursement Anticipé Automatique et du Montant Bonus applicable à la Date de Remboursement Anticipée Automatique concernée.

Sous réserve des stipulations mentionnées dans les Modalités, chaque Porteur de Note recevra le Montant Bonus applicable par Note à une Date de Paiement d'un Montant Bonus, mais uniquement si à la Date d'Evaluation précédant directement la Date de Paiement du Montant Bonus concernée le Prix de Référence du Sous-Jacent est égal ou supérieur à 60% du Prix d'Exercice. Dans tous les autres cas, aucun Montant Bonus ne sera dû à la Date de Paiement d'un Montant Bonus concernée.

**"Montant Bonus"** par Note désigne dans le cadre d'une Date de Paiement d'un Montant Bonus un montant en EUR calculé selon la formule suivante

$$MB = N \times 5,25\% \times (1 + NDPMB)$$

où

**"MB"** désigne le Montant Bonus par Note,

**"N"** désigne la Valeur Nominale, et

**"NDPMB"** désigne le nombre de Dates de Paiement d'un Montant Bonus entre la Date de Paiement d'un Montant Bonus applicable (exclue) et la dernière Date de Paiement d'un Montant Bonus précédente pendant laquelle un Montant Bonus a été payé conformément aux dispositions du § 3 (exclue) ou, lorsqu'un Montant Bonus n'a pas été payé avant la Date de Paiement d'un Montant Bonus concernée, la Date de Lancement.

**"Date de Paiement d'un Montant Bonus"** désigne chacune des dates figurant ci-après, toutes pouvant être reportées conformément aux Modalités.

20 novembre 2017, 19 novembre 2018, 19 novembre 2019,

| <b>D.2</b>     | <b>Principaux risques propres à l'Emetteur</b> | Les Notes comportent un risque émetteur, également appelé risque débiteur ou risque de crédit pour les investisseurs potentiels. Un risque émetteur est le risque que Commerzbank devienne temporairement ou définitivement incapable de respecter ses obligations de payer les intérêts et/ou le montant de remboursement. |

En outre, Commerzbank est soumise à divers risques au sein de ses activités commerciales. De tels risques comprennent en particulier les types de risques suivants :

### Crise financière mondiale et crise de la dette souveraine

La crise financière mondiale et la crise de la dette souveraine au sein de la zone euro en particulier ont très fortement pesé sur l'actif, sur la situation financière et sur les résultats d'exploitation du Groupe par le passé et on peut s'attendre à ce que des effets défavorables significatifs supplémentaires puissent se produire à l'avenir, notamment dans l'hypothèse d'une nouvelle aggravation de la crise. Une aggravation supplémentaire de la crise au sein de l'Union Monétaire Européenne peut avoir des effets défavorables significatifs dont les conséquences constitueraient une menace pour l'existence même du Groupe. Le Groupe détient un montant important de dette souveraine. Les dépréciations et les évaluations de cette dette souveraine à une juste valeur plus faible ont des effets défavorables significatifs sur le Groupe.

### Environnement macroéconomique

L'environnement macroéconomique qui prévaut depuis un certain temps affecte défavorablement les résultats des opérations du Groupe et la forte dépendance du Groupe à l'environnement économique, notamment en Allemagne, peut conduire à des charges encore plus importantes dans le cas d'un nouveau ralentissement économique.

### Risques de contrepartie

Le Groupe est soumis à des risques de contrepartie (risques de crédit) également en ce qui concerne des engagements individuels importants, prêts et avances importants, et des engagements qui sont concentrés sur des secteurs particuliers, appelés risques de concentration, ainsi qu'en ce qui concerne des prêts consentis à des débiteurs pouvant être particulièrement affectés par la crise de la dette souveraine. Le financement immobilier et le financement maritime sont exposés aux risques associés notamment à la volatilité des prix de l'immobilier et des prix des navires, y compris le risque de contrepartie (risque de crédit) et le risque de modifications importantes de la valeur des actifs immobiliers et maritimes donnés à titre de sûreté. Le Groupe a un nombre important de prêts non-productifs dans son portefeuille, et il est possible que ces défauts ne soient pas suffisamment couverts par des sûretés en sus des

dépréciations et dotations aux provisions précédemment effectuées.

#### Risques de marché

Le Groupe est exposé à un risque de prix de marché lié à la valorisation des titres de capital et des parts de fonds d'investissement ainsi que sous la forme de risques de taux d'intérêt, de risques de différentiel de taux, de risques de change, de risques de volatilité et de corrélation, de risques liés au prix des matières premières.

#### Risques stratégiques

Il existe un risque que le Groupe ne puisse pas mettre en œuvre ses plans stratégiques ou qu'il ne puisse les mettre en œuvre que partiellement ou à des coûts supérieurs à ceux envisagés. Les effets de synergie attendus de l'intégration de Dresdner Bank dans le Groupe pourraient être moins importants que prévus ou se produire plus tard que prévu. De plus, l'intégration en cours entraîne des coûts et des investissements considérables qui pourraient être supérieurs aux limites prévues. Il est possible que des clients ne soient pas conservés sur le long terme du fait de l'acquisition de Dresdner Bank.

#### Risques liés à l'environnement concurrentiel

Les marchés dans lesquels le Groupe est actif, en particulier le marché allemand et, tout particulièrement au sein de ce dernier, les activités avec la clientèle de particuliers et d'entreprises ainsi que les activités de banque d'investissement, sont caractérisés par une forte concurrence en termes de prix et de conditions, ce qui entraîne une pression considérable sur les marges. Les mesures prises par les gouvernements et les banques centrales destinées à juguler la crise financière et la crise de la dette souveraine ont un impact significatif sur l'environnement compétitif.

#### Risques de liquidité

Le Groupe est dépendant d'un approvisionnement régulier de liquidités et une pénurie de liquidités sur le marché ou relative à une entreprise en particulier peut avoir un effet défavorable significatif sur l'actif du Groupe, sa situation financière et ses résultats d'exploitation. Actuellement, l'approvisionnement en liquidités des banques et autres acteurs des marchés financiers est fortement dépendante de mesures expansives des banques centrales.

#### Risques opérationnels

Le Groupe est exposé à un grand nombre de risques opérationnels dont notamment le risque que des salariés fassent souscrire des risques importants au Groupe ou violent les règles de conformité dans le cadre de la conduite des activités et puissent ainsi provoquer des dommages importants apparaissant brusquement.

#### Risques liés aux participations

S'agissant de participations dans des sociétés cotées et non cotées, Commerzbank est exposée à des risques particuliers liés à la solidité et au caractère gérable de ces participations. Il est possible que les écarts d'acquisition reportés au bilan consolidé doivent faire l'objet d'une dépréciation totale ou partielle.

### Risques liés à la réglementation bancaire

Le renforcement des exigences réglementaires relatives aux fonds propres et à la liquidité sont susceptibles de remettre en cause le modèle économique d'un certain nombre d'opérations du Groupe et d'affecter défavorablement la position concurrentielle du Groupe. D'autres réformes réglementaires proposées à la suite de la crise financière, telles que, par exemple, les charges obligatoires comme la taxe bancaire, une éventuelle taxe sur les transactions financières ou des obligations d'information et d'organisation plus strictes, peuvent influencer de façon importante le modèle d'entreprise du Groupe et son environnement concurrentiel.

### Risques juridiques

Des demandes de dommages-intérêts fondées sur des conseils en investissement erronés ou pour défaut de transparence concernant les commissions internes ont entraîné des charges substantielles et peuvent à l'avenir entraîner de nouvelles charges substantielles pour le Groupe. Commerzbank et ses filiales font l'objet de réclamations, y compris aux termes de procédures judiciaires, aux fins d'obtenir le paiement et la restitution de valeur de titres participatifs et de "*trust-preferred securities*" émis par Commerzbank. L'issue de ces procédures pourrait avoir un effet négatif significatif sur le Groupe, au-delà des prétentions formulées au titre de chaque réclamation. Les procédures introduites par les régulateurs, les autorités de tutelle et les ministères publics peuvent avoir des effets défavorables significatifs sur le Groupe.

#### **D.6 Informations clés concernant les principaux risques propres aux titres**

##### Absence de marché secondaire immédiatement avant l'exercice finale

Le teneur de marché et/ou la bourse mettront fin à la négociation des Notes au plus tard peu de temps avant leur Date d'Echéance prévue. Cependant, entre le dernier jour de négociation et la Date d'Evaluation, le prix du Sous-Jacent qui est pertinent aux Notes, pourront encore évoluer et tout type de barrière pourrait être atteint, dépassé ou franchi d'une autre manière pour la première fois. Ceci peut désavantager l'investisseur.

##### Absence de sûreté

Les Notes constituent des obligations inconditionnelles de l'Emetteur. Ils ne sont ni assurés par le Fonds de Protection des Dépôts de l'Association des Banques Allemandes (*Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.*) ni par la loi allemande sur les dépôts et l'indemnisation des investisseurs (*Einlagensicherungs- und Anlegerentschädigungsgesetz*). Cela signifie que l'investisseur supporte le risque que l'Emetteur ne puisse pas honorer ses engagements au titre des Notes ou ne puisse le faire en partie seulement. Dans ces circonstances, l'investisseur pourrait supporter une perte totale du capital investi.

Cela signifie que l'investisseur supporte le risque de la dégradation de la situation financière de l'Emetteur – et que l'Emetteur puisse faire l'objet d'une procédure de restructuration (*Reorganisationsverfahren*) ou d'ordre de transfert (*Übertragungsanordnung*) en vertu de la loi allemande sur la restructuration bancaire ou qu'une procédure d'insolvabilité soit engagée au titre de ses actifs – et, par voie de conséquence, que

les paiements dus au titre des Notes ne puissent être honorés ou ne le soient qu'en partie. Dans ces circonstances, l'investisseur pourrait supporter une perte totale du capital investi.

Les retenues liées au "Foreign Account Tax Compliance" pourraient affecter les paiements au titre des Notes

L'Emetteur et les autres institutions financières par l'intermédiaire desquelles des paiements sont réalisés sur les Notes pourraient devoir procéder à des retenues à la source au taux de 30 % sur les paiements réalisés après le 31 décembre 2016 au titre de tous Notes qui sont émises ou significativement modifiés après le 31 décembre 2013, conformément aux Articles 1471 à 1474 du Code des Impôts américain, communément appelés "**FATCA**" (*Foreign Account Tax Compliance Act*). Une obligation de retenue à la source pourrait également exister – peu important la date d'émission – si les Notes doivent être traitées comme des instruments de capital en application de la loi fiscale américaine. Les réglementations de la FATCA mentionnées ci-dessus ne sont pas définitives. **Les Investisseurs dans les Notes doivent en conséquence être conscients du fait que des paiements au titre des Notes peuvent, dans certaines circonstances, être soumis à des retenues à la source américaines, qui peuvent diminuer le résultat économique des Notes.**

Effet d'une baisse de notation

La valeur des Notes pourrait être affectée par les notes données à l'Emetteur par les agences de notation. Toute baisse de la notation de l'Emetteur, ne serait-ce que par l'une de ces agences de notation, pourrait entraîner une réduction de la valeur des Notes.

Droits de résiliation, de remboursement anticipé et d'ajustement

L'Emetteur sera en droit de réaliser des ajustements conformément aux Modalités ou de résilier et rembourser les Notes de manière anticipée si certaines conditions sont remplies. Ceci peut avoir un effet négatif sur la valeur des Notes ainsi que sur le Montant de Remboursement. Si les Notes sont résiliées, le montant dû aux porteurs de Notes en cas de résiliation des Notes peut être inférieur au montant que les porteurs de Notes auraient reçu en l'absence de cette résiliation.

Perturbation de marché

L'Emetteur peut déterminer des cas de perturbation de marché qui pourraient retarder un calcul et/ou tout paiement au titre des Notes et qui pourraient affecter la valeur des Notes. En outre, dans certains cas mentionnés, l'Emetteur peut estimer certains prix qui sont pertinents au regard des paiements devant être réalisés ou de barrières devant être atteintes. Ces estimations peuvent s'écarter de leur valeur réelle.

Substitution de l'Emetteur

Si les conditions prévues par les Modalités sont remplies, l'Emetteur pourra à tout moment, sans devoir obtenir l'accord des porteurs de Notes, désigner une autre société en qualité de nouvel Emetteur aux fins d'exécuter à sa place toutes les obligations découlant des Notes ou s'y rapportant. Dans ce cas, le porteur des Notes assumera généralement également le risque d'insolvabilité du nouvel Emetteur.

### Facteurs de risques liés au Sous-Jacent

Les Notes dépendent de la valeur du Sous-Jacent et des risques liés à ce Sous-Jacent. La valeur du Sous-Jacent est fonction d'un certain nombre de facteurs qui peuvent être liés entre eux. Ces facteurs peuvent inclure des événements de nature économique, financière et politique échappant au contrôle de l'Emetteur. Les performances antérieures d'un Sous-Jacent ne doivent pas être considérées comme un indicateur de ses performances futures pendant la durée des Notes.

### Risque lié à un remboursement anticipé automatique

Dans certains cas mentionnés dans les Conditions Définitives applicables, les Notes peuvent être remboursées par anticipation si certaines conditions sont remplies ce qui peut affecter de manière défavorable les termes financiers des Notes pour l'investisseur.

### Risque à l'échéance:

Les Notes pourraient être remboursées à la Date d'Echéance par le paiement d'un Montant de Remboursement qui sera significativement inférieur au prix d'émission initial de 100% par Note. Dans ce cas, l'investisseur pourrait subir une perte. C'est le cas – sans compter les coûts supportés dans le cadre de l'achat des Notes – si, à la Date d'Evaluation Finale le Prix de Référence de l'Indice sous-jacent des Notes est égal ou inférieur au Prix d'Exercice du Sous-Jacent.

L'investisseur subira une perte si le Montant de Remboursement qui dépendra de la performance du Sous-Jacent (plus le(s) Montant(s) Bonus et moins les taxes locales) est inférieur au prix d'achat payé pour les Notes. Plus le Prix de Référence de l'Indice est faible et ainsi le Montant de Remboursement, plus la perte sera importante. Pire scénario : L'Indice n'a aucune valeur à la Date d'Evaluation Finale. Dans ce cas le Montant de Remboursement sera égal à zéro et l'investisseur recevra uniquement le(s) Montant(s) Bonus moins les taxes locales.

### Risques si l'investisseur à l'intention de vendre ou doit vendre les Notes pendant leur durée :

#### *Risque de valeur de marché :*

Le prix de vente réalisable avant exercice final pourrait être significativement inférieur au prix d'acquisition payé par l'investisseur.

La valeur de marché des Notes dépend principalement de la performance du Sous-Jacent, sans la reproduire exactement. En particulier, les facteurs suivants peuvent avoir un effet défavorable sur le prix de marché des Notes :

- Changements dans l'intensité attendue de la variation du Sous-Jacent (volatilité)
- Evolution du taux d'intérêt
- Durée restante des Certificats Notes
- Evolutions des dividendes des actions comprises dans l'Indice

Chacun de ces facteurs pourrait produire en lui-même un effet ou renforcer ou annuler les autres.

*Risques de négociation :*

L'Emetteur n'est ni tenu de fournir des prix d'achat et de vente des Notes sur une base continue (i) sur les bourses sur lesquelles les Notes sont admis à la négociation ou (ii) sur une base hors bourse (OTC) ni de racheter des Notes. Même si l'Emetteur fournit généralement des prix d'achat et de vente, dans le cas de conditions de marché exceptionnelles ou de problèmes techniques, la vente ou l'achat des Notes pourrait être temporairement limitée ou impossible.
