If necessary, the Calculation Agent will make further adjustments to the Terms and Conditions of these Securities (in particular to the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Issuer) and/or all prices of the Underlying determined by the Calculation Agent pursuant to the Terms and Conditions of these Securities in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. - (4) *New Index Sponsor and New Index Calculation Agent:* If the Underlying is no longer determined by the Index Sponsor but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of the Underlying as determined by the New Index Sponsor. In this case, any references to the replaced Index Sponsor in the Terms and Conditions of these Securities shall be deemed as referring to the New Index Sponsor. - (6) The application of §§ 313, 314 BGB remains reserved.

Even in the case of an existing secondary market it cannot be ruled out that the Security Holder may not be in a position to dispose of the Securities in the case of an unfavourable development of the Underlying or its components or of a currency exchange rate, e.g. if such development occurs outside of the trading</p> |

| | | |
|--|--|--|
| | | <p>hours of the Securities.</p> <p>The market value of the Securities will be affected by the creditworthiness of the Issuer and a number of other factors (e.g. exchange rates, prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability of the Securities and Underlying-related factors) and may be substantially lower than the Purchase Price. Security Holders may not rely on being able to sufficiently hedge against price risks arising from the Securities at any time.</p> <p>Key risks related to the Securities in general</p> <p>The Issuer may possibly fail to perform its obligations under the Securities in whole or in part, e.g., in case of an insolvency of the Issuer or due to governmental or regulatory interventions. Such risk is not protected by a deposit protection scheme or any similar compensation scheme.</p> <p>An investment into the Securities may be illegal or unfavourable for a potential investor or not suitable, with regard to his knowledge or experience and his financial needs, goals and situation.</p> <p>The real rate of return of an investment into the Securities may be reduced or may be zero or even negative (e.g., due to incidental costs in connection with the purchase, holding and disposal of the Securities, future money depreciation (inflation) or tax effects).</p> <p>The differential amount may be less than the Issue Price or the respective purchase price and, under certain circumstances, no interest or ongoing payments will be made.</p> <p>The proceeds from the Securities may possibly not be sufficient to make interest or principal payments arising from a financing purchase of the Securities and require additional capital.</p> <p>Risks related to Underlying-linked Securities</p> <p><i>Risks arising from the influence of the Underlying or its components on the market value of the Securities</i></p> <p>The market value of the Securities and the amounts payable under the Securities significantly depend on the price of the Underlying or its components. It is not possible to predict the price development of the Underlying or its components in the future. Additionally, the market value of the Securities will be affected by a number of Underlying-related factors.</p> <p><i>Risks arising from the fact that the observation of the Underlying or its components occurs only at specified dates or times or periods</i></p> <p>Due to the fact that the observation of the Underlying or its components may occur only at specified dates, times or periods, amounts payable under the Securities may be considerably lower than the price of the Underlying or its components may have suggested.</p> <p><i>Risks related to a Strike</i></p> <p>A strike can lead to the Security Holders participate either to a lesser extent in a favourable performance of the Underlying or its components or to a greater extent in an unfavourable performance of the Underlying or its components.</p> <p><i>Risks related to a Ratio</i></p> <p>A ratio may result in the Security being in economic terms similar to a direct investment in the relevant Underlying or its components, but being nonetheless not fully comparable with such a direct investment</p> |
|--|--|--|

| | | |
|--|--|--|
| | | <p><i>Risks related to Adjustment Events</i></p> <p>Adjustments may have a substantial negative impact on the value and the future performance of the Securities as well as on the amounts to be distributed under the Securities. Adjustment events may also lead to an extraordinary early termination of the Securities.</p> <p><i>Risks related to structure specifics</i></p> <p>Because of the leverage typical for the Securities, the performance of the Underlying may have a disproportionately strong adverse effect on the value of the Securities. The time value declines in relation to the time remaining to maturity. In this case the market value of the Securities will fall to zero by the last possible Exercise Date.</p> <p><i>Risks related to Call Securities</i></p> <p>If the price of the Underlying falls, the Security Holders may suffer a total loss of their invested capital.</p> <p><i>Risks related to Put Securities</i></p> <p>If the price of the Underlying rises, the Security Holders may suffer a total loss of their invested capital.</p> <p><i>Risks related to the Knock-out Barrier</i></p> <p>If a Knock-out Event occurs, the Security Holder may suffer an immediate partial or total loss of his investment or lose the right to demand payment of certain amounts under the Securities.</p> <p><i>Risks related to Call Events</i></p> <p>Upon the occurrence of a Call Event the Issuer has the right to extraordinarily call the Securities at their market value. If the market value of the Securities at the relevant time is lower than the Issue Price or the Purchase Price, the respective Security Holder will suffer a partial or total loss of its invested capital even if the Securities provide for a conditional minimum payment.</p> <p><i>Risks related to Market Disruption Events</i></p> <p>The Calculation Agent may defer valuations and payments and make determination in its reasonable discretion. Security Holders are not entitled to demand interest due to such delayed payment.</p> <p><i>Risks arising from negative effects of hedging arrangements by the Issuer on the Securities</i></p> <p>The entering or the liquidation of hedging transactions by the Issuer may, in individual cases, adversely affect the price of the Underlying or its components.</p> <ul style="list-style-type: none"> • Key risks related to the Underlying or its components <p>General risks</p> <p><i>No rights of ownership of the Underlying or its components</i></p> <p>The Underlying or its components will not be held by the Issuer for the benefit of the Security Holders, and as such, Security Holders will not obtain any rights of ownership (e.g., voting rights, rights to receive dividends or other distributions or other rights) with respect to the Underlying or its components.</p> <p>Key risks related to indices</p> <p>The performance of Index-linked Securities depends on the performance of the respective indices, which largely depend on the composition and the performance of their index components. The Issuer may neither have influence on the respective index nor the index concept. If the Issuer also acts as sponsor</p> |

Generally, an index may at any time be altered, terminated or replaced by any successor index. Security Holders may not or only partly participate in dividends or other distributions in relation to the index components. If the index entails a leverage factor, investors bear an enhanced risk of losses. Indices may include fees which negatively affect their performance.</p> <p>The Securities are not capital protected. Investors may lose the value of their entire investment or part of it.</p> |

| D.6 | Informations clés sur les principaux risques propres aux titres | <p>De l'avis de l'Emetteur, les risques principaux présentés ci-dessous pourraient, pour le Porteur de Titre, affecter de manière négative la valeur des Titres et/ou les montants devant être distribués en vertu des Titres et/ou la possibilité pour le Porteur de Titres de vendre les Titres moyennant un prix raisonnable avant leur remboursement.</p> <ul style="list-style-type: none"> • Conflits d'intérêts potentiels <p>Le risque de conflits d'intérêt (tels que décrits à la section E.4) est lié au fait que l'Emetteur, les distributeurs ou une quelconque société apparentée à l'un d'eux, dans le cadre de certains rôles ou certaines opérations, pourraient protéger des intérêts potentiellement contraires ou ne tenant pas compte des intérêts des Porteurs de Titres.</p> <ul style="list-style-type: none"> • Principaux risques relatifs aux Titres <p><i>Principaux risques relatifs au marché</i></p> <p>Dans certaines circonstances un Porteur de Titres pourrait ne pas pouvoir vendre ses Titres ou ne pas pouvoir les vendre à un prix adéquat avant leur remboursement. Même dans le cas où un marché secondaire existe, il ne peut pas être exclu que le Porteur de Titre ne pourrait pas être en mesure de disposer des Titres dans le cas d'une évolution défavorable du Sous-Jacent [ou de ses composants] ou d'un taux de change, e.g. si un tel développement se produit en dehors des heures de négociation des Titres.</p> <p>La valeur marchande des Titres sera affectée par la solvabilité de l'Emetteur et par un certain nombre d'autres facteurs (par exemple les taux de change, les taux d'intérêts et de rendement en vigueur, le marché des titres similaires, les circonstances générales économiques, politiques et cycliques, la négociabilité des Titres et des facteurs liés aux Sous-Jacents) et pourrait être inférieure de manière significative au Prix d'Achat. Les Porteurs de Titres ne peuvent pas compter sur la possibilité de couvrir de manière suffisante les risques de prix liés aux Titres à tout moment.</p> <p><i>Risques principaux relatifs aux Titres en général</i></p> <p>L'Emetteur pourrait manquer à toutes ou partie de ses obligations liées aux Titres, par exemple en cas de faillite de l'Emetteur ou en raison d'interventions gouvernementales ou réglementaires. Il est impossible de prédire l'évolution à venir du prix du Sous-Jacent ou de ses composants. De plus, la valeur marchande des Titres sera affectée par certains facteurs liés au Sous-Jacent.</p> <p><i>Risques liés au fait que l'observation du Sous-Jacent ou de ses composants n'a lieu qu'à certaines dates, horaires ou périodes déterminées</i></p> <p>Etant donné le fait que l'observation du Sous-Jacent ou de ses composants ne peut intervenir qu'à des dates, horaires ou périodes déterminées, les montants dus en vertu des Titres pourraient être largement inférieurs au prix suggéré par le Sous-Jacent ou ses composants.</p> <p><i>Risques liés à un Strike</i></p> <p>Un Strike peut conduire les Porteurs de Titres à participer soit, dans une moindre mesure, à une performance favorable du Sous-Jacent ou de ses composants ou, dans une plus grande mesure, dans une évolution défavorable du Sous-Jacent ou de ses composants.</p> <p><i>Risques liés à un Ratio</i></p> <p>L'effet d'un ratio pourrait être que le Titre devienne en termes économiques semblable à un investissement direct dans le Sous-Jacent en question, ou ses composants, mais sans être toutefois totalement comparable à un tel investissement direct.</p> <p><i>Risque lié aux Devises et aux Taux de Change à l'égard du Sous-Jacent ou de ses composants</i></p> <p>Si le Sous-Jacent ou ses composants sont libellés dans une devise autre que la Devise Prévue, il existe un risque de Taux de Change, à moins qu'il ne soit exclu dans les Conditions Définitives concernées.</p> <p><i>Risques liés aux Cas d'Ajustement</i></p> <p>Les ajustements peuvent avoir un effet négatif significatif sur la valeur et la performance future des Titres ainsi que sur les montants distribués en vertu des Titres. Les cas d'ajustements peuvent éventuellement donner lieu à une résiliation anticipée exceptionnelle des Titres.</p> <p><i>Risques liés aux particularités de structure</i></p> <p>En raison de l'effet de levier caractéristique des Titres, la performance du Sous-Jacent pourrait avoir un impact négatif démesurément important sur la valeur des Titres. La valeur temporelle diminue en fonction du temps restant pour atteindre la maturité. Dans ce cas la valeur marchande des Titres deviendra nulle à la dernière Date d'Exercice possible.</p> <p><i>Risques liés aux Titres Call</i></p> <p>Si le prix du Sous-Jacent diminue, les Porteurs de Titres pourraient perdre la totalité de leur capital investi.</p> <p><i>Risques liés aux Titres Put</i></p> <p>Si le prix du Sous-Jacent augmente, les Porteurs de Titres pourraient perdre la</p> |

Si la valeur marchande des Titres au moment opportun est inférieure au Prix d'Emission ou au Prix d'Achat, le Porteur de Titres concerné subira une perte totale ou partielle de son capital investi même si les Titres prévoient un versement minimum conditionnel.</p> <p><i>Risques liés aux Cas de Perturbation du Marché</i></p> <p>L'Agent de Calcul peut différer les valorisations et les versements et effectuer des déterminations selon son appréciation raisonnable. Les Porteurs de Titres ne sont pas en droit d'exiger des intérêts en raison de tels délais de paiement.</p> <p><i>Risques liés aux effets négatifs des accords de couverture par l'Emetteur sur les Titres</i></p> <p>La conclusion ou la liquidation des opérations de couverture par l'Emetteur pourraient, dans certains cas, nuire au prix du Sous-Jacent ou de ses composants.</p> <p>• Principaux risques relatifs au Sous-Jacent ou ses composants</p> <p><i>Risques généraux</i></p> <p><i>Absence de droit de propriété concernant le Sous-Jacent ou ses composants</i></p> <p>Le Sous-Jacent ou ses composants ne seront pas détenus par l'Emetteur pour le bénéfice des Porteurs de Titres, et par conséquent, les Porteurs de Titres n'obtiendront aucun droit de propriété (par exemple, droits de vote, droite de percevoir des dividendes ou d'autres distributions, ou autres droits) concernant le Sous-Jacent ou ses composants.</p> <p><i>Risques principaux relatifs aux indices</i></p> <p>La performance des Titres liés à des Indices dépend de la performance des indices en question, qui dépend en grande partie de la composition et de la performance des composants de ces indices. L'Emetteur ne pourrait pas influencer ni l'indice en question ni le concept de l'indice. Si l'Emetteur intervient également en tant que sponsor ou agent de calcul de l'indice, ceci pourrait donner lieu à des conflits d'intérêt. De manière générale, la responsabilité du sponsor d'un indice n'est pas engagée. En général, un indice peut être modifié, résilié ou remplacé à tout moment par un autre indice lui succédant. Les Porteurs de Titres ne pourraient pas, ou alors seulement en partie, bénéficier des dividendes ou autres distributions liés à des composants de l'indice. Si l'indice comporte un élément de levier, les investisseurs sont exposés à un risque de pertes accru. Les indices peuvent prévoir des frais qui impactent leur performance de manière négative.</p> <p>Les Titres ne sont pas à capital garanti. Les investisseurs doivent être conscients qu'ils sont susceptibles de perdre tout ou partie de la valeur de leur investissement.</p> |
