Activity

During the first quarter of 2014, the Precia Molen Group achieved a turnover of € 21.6 million, increasing by 5.7% compared to the same period in 2013

At constant perimeter and currencies rates, the increase is limited to 4.3%. The variance corresponds to impacts of currencies changes for 0.8% (in India mainly) and the consequence of changes in IFRS where Precia Molen (IRL) Ltd will now be included in the consolidation perimeter.

This first 2014 quarter has seen an increase in the sales on export and domestic markets. Moreover, the service business has been facilitated by an improved weather.

The international activity remains highly vigorous as the sales (excluding Europe) increased by 15.1% mainly in Morocco, where the completion of significant deliveries occurred in early January.

Forecasts and outlook

The company's order intake is strengthening as a consequence of an increase in the level of capital expenditure of our customers. As per the service activity, it should continue to grow in the second quarter.

International development remains a major objective of the Group and the actual forecast for Asia-Pacific and Latin America regions are in line with expectations.
