Activity

During the 4th quarter of 2015 the Precia Molen Group achieved a turnover of 27.6 M€.

For the twelve months of the year 2015, the turnover is 105.3 M€, increasing by 10.4% compared to the same period in 2014. At constant perimeter and currencies rates, organic growth amounted to 3.5%; with acquisition growth reduced to 5.9% while currencies effects amount to 1.0%.

The fourth quarter of the year confirm thus the level of organic growth already achieved on 9 months (3.8%) and overall growth of the Group of 10.4% over 12 months.

This year of 2015, our group has therefore benefited from increased sales and volumes. The very positive effects of external growth, developments in existing markets and the evolution of the euro influenced positively the group development. In detail, the progression is clear in France (+ 9.8% of which 6.0% is associated with external growths), higher in the rest of Europe (+ 13.5%, 6.9% related to the perimeter) as well as outside Europe (6.5% no effect of perimeter) where our Indian reported very sales while the Morocco is indented on 2015.

Forecasts and outlook

The backlog of the company remains well oriented by the year-end and the beginning of 2016. Development and the Group's should mainly be localised on the India-Asia-Pacific region but also in Africa (Morocco) where an increase in investments levels is currently observed.

The company has undertaken to sustain its investment and presence by the purchases of industrial buildings in the United Kingdom (Shering production plant) and in Belgium (headquarters of Precia Molen Belgium) as well as the transformation of its Malaysian representative office into subsidiary this first quarter.

Annual results

Annual results will be released on April 12th.

About Precia Molen

PRECIA MOLEN designs and manufactures, sales and maintains systems and solutions of industrial and commercial static weighing and of continuous weighing and dosing equipments. Main clients are heavy industries (mines, quarries, steel, environment, energy...) and light industries (food, chemicals, transportation and logistic...) and also public sectors (posts, local authorities...).

From design to after sales service, PRECIA-MOLEN is able to provide total weighing solutions for all businesses. Precia Molen is present in 42 countries, with 11 commercial subsidiaries and a large network of selling agents. It has four production sites in France, The Netherlands and India. The Group pursues a large research and innovation program, and has been granted an "Innovating Company" status by French authority Oseo.

Precia Molen is listed on NYSE Euronext's C compartment in Paris (code ISIN FR0000060832 - Mnemo: PREC).
