ANNEXE - ISSUE SPECIFIC SUMMARY

Summaries are made up of disclosure requirements known as 'Elements' the communication of which is required by Annex XXII of the Regulation EC No 809/2004 of 29 April 2004 as amended by Commission Delegated Regulation (EU) n°486/2012 of 30 March 2012 and Commission Delegated Regulation (EU) n°862/2016 of 4 June 2012. These Elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities, Peugeot S.A. (the **Issuer**) and GIE PSA Trésorerie (the **Guarantor**). Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the summary because of the type of securities, Issuer and the Guarantor, it is possible that no relevant information can be given regarding such Element. In this case a short description of the Element is included in the summary and marked as 'Not applicable'.

This summary is provided for purposes of the issue by the Issuer of Notes of a denomination of less than €100,000 (or its equivalent in any other currency) which are offered to the public or admitted to trading on a Regulated Market of the European Economic Area (the **EEA**). The issue specific summary relating to this type of Notes will be annexed to the relevant final terms (the **Final Terms**) and will comprise the information below.

Section A – Introduction and warnings		
A.1	General disclaimer regarding the summary	This summary must be read as an introduction to this Base Prospectus. Any decision to invest in the Notes should be based on a consideration by any investor of the Base Prospectus as a whole, including any documents incorporated by reference and any supplement from time to time. Where a claim relating to information contained in this Base Prospectus is brought before a court, the plaintiff may, under the national legislation of the Member State of the EEA where the claim is brought, be required to bear the costs of translating this Base Prospectus before the legal proceedings are initiated. Civil liability attaches only to those persons who have tabled the summary, including any translation thereof, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of this Base Prospectus or it does not provide, when read together with the other parts of this Base Prospectus, key information in order to aid investors when considering whether to invest in the Notes.
A.2	Information regarding consent by the Issuer and the Guarantor to the use of the Prospectus	Not applicable. There is no Non-exempt Offer.

	Guarantor	
B.2	The domicile and legal form of the Issuer and the Guarantor, the legislation under which they operate and their country of incorporation	<p>Peugeot is a <i>société anonyme</i> with a management and supervisory board incorporated in France and governed by French law, having its registered office located 75, avenue de la Grande Armée, 75016 Paris, France and registered with the <i>Registre du commerce et des sociétés</i> of Paris under number 552 100 554.</p> <p>GIE PSA is a <i>groupement d'intérêt économique</i> incorporated in France and governed by French law, having its registered office located 75, avenue de la Grande Armée, 75016 Paris, France and registered with the <i>Registre du commerce et des sociétés</i> of Paris under number 377 791 967.</p>
B.4b	A description of any known trends affecting the Issuer and the Guarantor and the activities in which they operate	<p>Issuer:</p> <p>The Issuer has identified the following trends:</p> <p>In a challenging European environment, the Group implemented a cash management plan for €1 billion and proposed asset disposals totalling €1.5 billion whose objectives were met or exceeded. To deal with the continued degradation of European markets, the Group has decided to put in place a “Rebound 2015” Plan for the years 2012-2015.</p> <p>To deal with the extended volume decline in Europe, a project to reorganise manufacturing operations and the redeployment of the workforce was presented on 12 July 2012, in order to restore the Group’s competitiveness and ensure its future.</p> <p>The first quarter of 2013 was shaped by a persistently tough environment, with sharp downward pressure on European volumes, difficult markets in France and Germany, and declining demand in Southern Europe, which unfavourably impacted the country mix. Pricing pressure, which continued unabated from fourth-quarter 2012, was exacerbated by an unfavourable distribution channel mix, with a decline in retail sales and an increase in fleet business.</p> <p>For the full year, the Group expects automobile demand to contract by around 5% in the Europe 30 region, to grow by around 8% in China, 2% and in Latin America and to remain stable in Russia.</p> <p>In this challenging environment, Peugeot is continuing to deploy its Rebound 2015¹ plan designed to restore the profitability of Automotive Division in Europe.</p> <p>The Group confirms its objective of halving its operational cash consumption² in 2013. In the event that the 2014 European market environment is worse than previously expected, operational initiatives to offset such potential deterioration are under review to maintain the Company’s objective of restoring breakeven in Group operational free cash flow by end 2014.</p>

¹ 2012-2015 assumptions: European demand and prices stable at 2012 levels, European market share maintained at 13%, supported by new model introductions.

² Operating free cash flow, excluding non-recurring items and restructuring costs, stood at a negative €3 billion in 2012, of which a negative €2.5 billion for the Automotive Division and a negative €0.5 billion for Faurecia.

		<p>Guarantor:</p> <p>There are no known trends affecting the Guarantor and the industries in which it operates other than those affecting the Issuer.</p>

The Group has a commercial presence in 160 countries, and more than one third of its sales come from outside Western Europe. Section D – Risks Factors		
D.2	Key information on the key risks that are specific to the Issuer and the Guarantor	<p>Issuer:</p> <p>The principal risk factors specific to the Issuer include:</p> <p>(i) Operational risks, in particular:</p> <ul style="list-style-type: none"> • Risks related to the Group’s economic and geopolitical environment: the Group’s operations and earnings can be adversely affected by difficult economic conditions as demand in one or more geographic markets can decline sharply if the economic context turns morose, and particularly in the event of a recession; • New vehicle development, launch and marketing risks: profitability calculations are based primarily on unit sales

		<p>forecasts. Any downward adjustment in a unit sales forecast may lead to the recognition of an impairment loss on moulds and tooling or capitalised development costs depreciated/amortised over the commercial life of the vehicle models concerned or a provision to cover any contractual penalties that may be imposed in the event of a breach of take-or-pay clauses included in the Group's cooperation agreements with other carmakers;</p> <ul style="list-style-type: none"> • Customer and dealer risk: the Group is exposed to the risk of customer default in the normal course of its distribution and lending activities and for used vehicles, the risk concerns the valuation of vehicles in inventory; • Raw materials risk: the Group's Automotive Division and Automotive Equipment Division (Faurecia) are exposed to raw materials risk either as a result of their direct purchases of raw materials or indirectly when purchasing components from suppliers; • Supplier risk: temporary or permanent failure by suppliers to fulfil their commitments have an impact on the Group, the most serious risk being an interruption of parts deliveries leading to production stoppages at the plants and delays in the execution of vehicle, mechanical engineering or industrial projects; • Industrial risks: a major incident at one of Group 's manufacturing facilities (fire, natural disaster, damage to equipment, etc.) that leads to a disruption of business risk could compromise the production and sale of vehicles, leading to several hundred million euros of losses; • Environmental risks: the Group may be exposed to environmental risk arising from its manufacturing, sales and logistics activities; • Workplace health and safety risks: as an employer, the Group is faced with a wide range of situations that could affect employee health, safety and wellbeing; • Risks associated with the cooperation agreements with other carmakers: in the pre-signature negotiation phase there is a risk that the partner concerned could use the information provided to it by PSA Peugeot Citroën. Once a cooperation agreement has been signed, the risks faced by PSA Peugeot Citroën are mainly financial; • Information system risks: include system downtime, damage to data integrity, breach of data confidentiality; <p>(ii) Financial market risks: the Group is exposed to liquidity risk, as well as interest rate risks, counterparty risks, exchange rate risk and other market risks related in particular to fluctuations in commodity prices and in equity markets. In addition, the risk of any downgrade of the Group's credit ratings could drive up its financing costs and make access to the</p>

		<p>financial markets more difficult;</p> <p>(iii) Banque PSA Finance risk exposures, in particular:</p> <ul style="list-style-type: none"> • Business risk: seven main risk factors influence Banque PSA Finance's activity levels: external factors which contribute to vehicle purchases: public authority policy incentives to purchase new vehicles, changes in regulations and taxation that might alter the business or its profitability, the sales volumes and marketing activities of the Peugeot and Citroën brands, which determine the number of joint campaigns they run with Banque PSA Finance, Peugeot's rating and, as a knock-on effect, that of Banque PSA Finance, which could increase Banque PSA Finance's refinancing costs or, at the very least, the cost of its refinancing via the financial markets, the competitive position of Banque PSA Finance's offering and prices and country risk, with management seeking to secure financing locally insofar as is possible; • Credit risk: the concentration risk arising from the failure of a customer to meet the payment or other terms of a contract with Banque PSA Finance; • Market risks and financial risks include liquidity risk, interest rate risk, counterparty risk, currency risk and market risk; • Risks relating to asset-backed-securities: beside holding portions of loan funds, the risks borne by Banque PSA Finance are an unexpected, unusual downgrade in the quality of the assets sold; a sharp drop in the production of new financings, affecting the production of reloaded securitisations and poor valuation of the economics of the transaction or of the quality of the assets at the time the transaction is originated; • Concentration risk: Banque PSA Finance is exposed to several types of concentration risks - the concentration risk of each loan transaction, the segment concentration risk of each loan transaction and the concentration risk of its bank loans; • Operational risk defined as the risk of loss arising from inadequacy or failure attributable to procedures, employees, internal systems or external events, including events which, although very unlikely to happen, would carry a high risk of loss; • Non-compliance risk: the risk of court, administrative or disciplinary sanctions, major financial loss or injury to reputation arising from failure to comply with the statutory provisions and regulations of the banking and financial sectors; • Reputation risk includes a specific risk to its "reputation and image, particularly in the eyes of its end customers, dealerships, other banks and supervisory authorities (excluding internal image risk)" and the possible repercussions of an operational incident;

		<ul style="list-style-type: none"> • Insurance business risk which consist of an underwriting risk, the risk of under-provision, the financial risks of the markets on which it invests and counterparty risk. • Correlation between Banque PSA Finance and its shareholder: a number of factors originating within the Group, including financial and economic factors, strategic factors and factors linked to the Group's reputation and brand image, may partially affect the Banque PSA Finance's activity and profitability; • Liquidity risk and in particular, Banque PSA Finance's need for the application of the French State guarantee to raise finance: <ul style="list-style-type: none"> ○ the maximum aggregate principal amount of all debt securities issued by Banque PSA Finance which may be guaranteed under the State guarantee is for the time being capped at €1,200,000,000, which amount was deployed on 8 April 2013 when Banque PSA Finance issued €1,200,000,000 0.625 per cent. notes due 8 April 2016; ○ the approval by the EU Commission of the State guarantee has been granted on a temporary basis only pending further examination of the Group restructuring plan and the decision relating thereto has not yet been published although the EU Commission has confirmed in writing that any potential negative decisions on the restructuring plan would not affect the validity of the State guarantee applicable to any State guaranteed Banque PSA Finance notes issued prior to the date of any negative decision; ○ the decision relating to the State guarantee may also be modified, repealed, withdrawn, suspended or annulled by the EU Commission for various reasons including the possibility that the decision has been taken on the basis of information supplied by a Member State of the EU which proves to be incorrect and a determining factor for such decision or that the relevant aid will be used in contravention of any conditions applying to the application of such aid and the validity of any European Commission decision relating to the approval of state aid may be open to challenge on various grounds by other member States or interested parties. If any such action by the EU Commission were taken or if any such challenge were to arise and were to be successful, then it may have a material adverse effect on the validity of the State guarantee including in respect of any outstanding series of notes issued purportedly with the benefit of the State guarantee; <p>(iv) Legal and contractual risks, in particular:</p>

		<ul style="list-style-type: none"> • Legal and arbitration proceedings; • Financial covenants to be complied with in financial contracts of companies of the Group; • Risks related to pension and other postretirement benefit obligations which directly impact the Group's consolidated income statement; • Risks related to intellectual property rights: the Group pays careful attention to protecting its intellectual property rights and legal action is taken against producers of counterfeit replacement parts and any other parties that breach the Group's rights; • Off-balance sheet commitments: which concern guarantees, bonds and endorsements issued by the Group in the normal course of business, as well as commitments undertaken as part of cooperation agreements; and <p>(v) Risk coverage - Insurance.</p> <p>Guarantor:</p> <p>The principal risk factors specific to the Guarantor include:</p> <ul style="list-style-type: none"> • Risks arising from changes to interest rates due to the activities of GIE PSA which are affected by fluctuation in interest rates; • Operational risk: the risk of loss arising from inadequacy or failure attributable to procedures, employees, internal systems or external events, including events which, although very unlikely to happen, would carry a high risk of loss; • Funding and liquidity risk: the average maturities of loans as well as the degree of diversification of shorter-term and longer-term lending contracts, liquidity limits and exposures are regularly monitored; • Counterparty risk which represents GIE PSA's exposure to incur a loss in the event of non-performance by a counterparty; and • Market risk may affect the value of any financial assets held which are subject to risks arising from price movements in the market.
D.3	<p>Key information on the key risks that are specific to the Notes</p>	<p>There are certain factors which are material for the purpose of assessing the market risks associated with Notes, including the following:</p> <p>(i) General risks relating to the Notes (<i>e.g.</i> independent review and advice, potential conflicts of interest, legality of purchase, modification, waivers and substitution, regulatory restrictions, taxation, change of law, insolvency law, liquidity risks, exchange rate risks and exchange controls) such as:</p> <ul style="list-style-type: none"> • Each prospective investor in the Notes must determine, based on
