

CAISSE FRANÇAISE DE FINANCEMENT LOCAL
Euro 75,000,000,000 Euro Medium Term Note Programme
for the issue of *Obligations Foncières*
Due from one month from the date of original issue

Under the Euro Medium Term Note Programme described in this Base Prospectus (the “**Programme**”), Caisse Française de Financement Local (the “**Issuer**” or “**Caffil**”), subject to compliance with all relevant laws, regulations and directives, may from time to time issue *obligations foncières* (the “**Obligations Foncières**”). The aggregate nominal amount of *Obligations Foncières* (issued under the Programme) outstanding will not at any time exceed Euro 75,000,000,000 (or the equivalent in other currencies).

This Base Prospectus supersedes and replaces the Base Prospectus dated 23 June 2014 as supplemented and shall be in force for a period of one year as of the date of its approval by the *Autorité des marchés financiers* (the “**AMF**”).

Application has been made for approval of this Base Prospectus to the AMF in France in its capacity as competent authority pursuant to Article 212-2 of its *Règlement Général* which implements Directive 2003/71/EC of 4 November 2003 on the prospectus to be published when securities are offered to the public or admitted to trading, as amended (the “**Prospectus Directive**”).

Application has been made to Euronext Paris for *Obligations Foncières* issued under the Programme during a period of 12 months from the date of this Base Prospectus to be listed and admitted to trading on Euronext Paris. Euronext Paris is a regulated market for the purposes of the Markets in Financial Instruments Directive 2004/39/EC, as amended (a “**Regulated Market**”). Application may also be made to the competent authority of any other Member State of the European Economic Area (the “**EEA**”) for *Obligations Foncières* issued under the Programme to be listed and admitted to trading on any other Regulated Market in such Member State.

However, *Obligations Foncières* which are not admitted to trading on a Regulated Market, or which are not offered to the public, in a Member State of the EEA may also be issued under the Programme and may also be listed on an unregulated market or may not be listed at all. The relevant final terms (the “**Final Terms**”) (forms of which are contained herein) in respect of the issue of any *Obligations Foncières* will specify whether or not such *Obligations Foncières* will be admitted to trading and/or offered to the public and, if so, the relevant Regulated Market in the EEA and/or the Member State(s) in the EEA where the *Obligations Foncières* will be offered to the public and will be published, if relevant and if required by any applicable regulation, on the website of the Regulated Market where the admission to trading is sought.

Obligations Foncières may be issued either in dematerialised form (“**Dematerialised Obligations Foncières**”) or in materialised form (“**Materialised Obligations Foncières**”) as more fully described herein.

Dematerialised *Obligations Foncières* will at all times be in book entry form in compliance with Articles L. 211-3 and R. 211-1 of the French *Code monétaire et financier* (the “**French Monetary and Financial Code**”). No physical documents of title will be issued in respect of the Dematerialised *Obligations Foncières*.

Dematerialised *Obligations Foncières* may, at the option of the Issuer, be in bearer dematerialised form (*au porteur*) inscribed as from the issue date in the books of Euroclear France (“**Euroclear France**”) (acting as central depository) which shall credit the accounts of Account Holders (as defined in “Terms and Conditions of the *Obligations Foncières* - Form, Denomination, Title and Redenomination”) including Euroclear Bank S.A./N.V. (“**Euroclear**”) and the depository bank for Clearstream Banking, *société anonyme* (“**Clearstream, Luxembourg**”) or in registered dematerialised form (*au nominatif*) and, in such latter case, at the option of the relevant holder, in either fully registered form (*nominatif pur*), in which case they will be inscribed with a registration agent (appointed in the relevant Final Terms) for the Issuer, or in administered registered form (*nominatif administré*) in which case they will be inscribed in the accounts of the Account Holders designated by the relevant holders of *Obligations Foncières*.

Materialised *Obligations Foncières* will be in bearer materialised form only and may only be issued outside France. A temporary global certificate in bearer form without interest coupons attached (a “**Temporary Global Certificate**”) will initially be issued in connection with Materialised *Obligations Foncières*. Such Temporary Global Certificate will be exchanged for definitive Materialised *Obligations Foncières* in bearer form with, where applicable, coupons for interest attached on or after a date expected to be on or about the 40th day after the issue date of the *Obligations Foncières* (subject to postponement as described in “Temporary Global Certificates issued in respect of Bearer Materialised *Obligations Foncières*”) upon certification as to non-U.S. beneficial ownership as more fully described herein.

Temporary Global Certificates will (a) in the case of a Tranche (as defined in the section “Summary of the Programme - Method of Issue”) intended to be cleared through Euroclear and/or Clearstream, Luxembourg, be deposited on the issue date with a common depository on behalf of Euroclear and Clearstream, Luxembourg and (b) in the case of a Tranche intended to be cleared through a clearing system other than or in addition to Euroclear and/or Clearstream, Luxembourg or delivered outside a clearing system, be deposited as agreed between the Issuer and the relevant Dealer (as defined below).

It is expected that the *Obligations Foncières* issued under the Programme will be rated AA+ by Standard & Poor’s Rating Services (“**S&P**”) and/or AA by Fitch Ratings (“**Fitch**”), and/or Aaa by Moody’s Investors Services, Inc. (“**Moody’s**”). The rating (if any) will be specified in the relevant Final Terms. The credit ratings included or referred to in this Base Prospectus or in any Final Terms have been issued by S&P, Fitch and/or Moody’s, which are established in the European Union and registered under Regulation (EC) No. 1060/2009 on credit ratings agencies, as amended (the “**CRA Regulation**”), and included in the list of credit rating agencies registered in accordance with the CRA Regulation published on the European Securities and Markets Authority’s website (www.esma.europa.eu/page/List-registered-and-certified-CRAs) as of the date of this Base Prospectus. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency.

The final terms of the *Obligations Foncières* will be determined at the time of the offering of each Tranche based on then prevailing market conditions and will be set out in the relevant Final Terms.

Since 1 January 2013, Caisse Française de Financement Local benefits for all its *obligations foncières* from the Covered Bond Label granted by the Covered Bond Label Foundation.

SUMMARY OF THE PROGRAMME

Summaries are made up of disclosure requirements known as “Elements” the communication of which is required by Annex XXII of the Regulation EC No 809/2004 of 29 April 2004 as amended by Commission Delegated Regulation (EU) n°486/2012 of 30 March 2012 and Commission Delegated Regulation (EU) n°862/2016 of 4 June 2012. These Elements are numbered in Sections A – E (A.1 – E.7). This summary contains all the Elements required to be included in a summary for this type of securities and for Caisse Française de Financement Local (the “**Issuer**”). Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding such Element. In this case a short description of the Element is included in the summary and marked as “Not Applicable”.

This summary is provided for purposes of the issue by the Issuer of the *Obligations Foncières* of a denomination of less than €100,000 which are offered to the public or admitted to trading on a Regulated Market of the European Economic Area (the “**EEA**”). The issue specific summary relating to this type of *Obligations Foncières* will be annexed to the relevant Final Terms and will comprise (i) the information below with respect to the summary of the Base Prospectus and (ii) the information below included in the items "issue specific summary".

Section B – Issuer		
B.1	The legal and commercial name of the Issuer	<p>Caisse Française de Financement Local (“Caffil”)</p> <p>Until 31 January 2013, the Issuer’s name was Dexia Municipal Agency. On 31 January 2013, the company was renamed and sold by Dexia Crédit Local to Société de Financement Local (“SFIL”).</p>
B.2	The domicile and legal form of the Issuer, the legislation under which the Issuer operates and its country of incorporation	<p>The Issuer is a <i>société anonyme à directoire et conseil de surveillance</i> incorporated under French law as a <i>société de crédit foncier</i>. It is registered as a company with the <i>Registre du Commerce et des Sociétés</i> (Trade and Companies Register) of Nanterre under reference number 421 318 064.</p>
B.4b	Description of any known trends affecting the Issuer and the industries in which it operates	<p>In the context of its first public policy mission to refinance loans to the French local public sector, Caisse Française de Financement Local originates or purchases new assets contracted by French local authorities and public health institutions. La Banque Postale, as loan originator and provider of assets to Caisse Française de Financement Local, has established itself as one of the leading players in the French public sector loan market.</p> <p>In 2015, SFIL and Caisse Française de Financement Local have been entrusted with a new public policy mission: the refinancing of export loans. The aim of this new public set up is to improve available export credit loans in terms of volumes, maturities and cost.</p> <p>Caisse Française de Financement Local as issuer of <i>obligations foncières</i> operates within the covered bond market. This market segment has shown strong resilience over the crisis and benefits from a strong support by European regulators. Moreover, the covered bond market is supported by two strong technical factors:</p> <ul style="list-style-type: none"> – a general context in which the volume of new issues remains less than the volume of issues arriving at maturity, – the strong support brought by the dedicated purchase program launched by the Eurosystem in October 2014, which has had a major impact on the market and has contributed to a significant tightening of spreads in the segment.

B.5	A description of the Issuer's Group and the Issuer's position within the Group	<p>Caisse Française de Financement Local is a wholly owned subsidiary of SFIL. The Issuer was sold to SFIL by Dexia Credit Local as of 31 January 2013.</p> <p>SFIL is a credit institution approved by the French Resolution and Prudential Control Authority (<i>Autorité de Contrôle Prudentiel et de Résolution</i>). Its role is to provide support for the activities of Caisse Française de Financement Local as a servicer, as defined by the regulations that apply to <i>sociétés de crédit foncier</i>, in particular within the meaning of Article L.513-15 of the French <i>Code monétaire et financier</i> (the "French Monetary and Financial Code").</p> <p>SFIL and Caisse Française de Financement Local are part of the organization of the public sector structure created in 2013 and dedicated to the financing of local governments and public healthcare institutions in France. This structure, which the French State has described as a “public bank for local authorities”, is based on a three-pronged organization:</p> <ul style="list-style-type: none"> • commercial activities developed by La Banque Postale, • refinancing activities conducted by Caisse Française de Financement Local, including large export credit, • operational functions in support of the above performed under the responsibility of SFIL.

Section D –Risk Factors		
D.2	Key information on the key risks that are specific to the Issuer or its industry	<p>Factors that may have an impact on the Issuer are as follows:</p> <ul style="list-style-type: none"> – Risk of default on the pool of assets included in its portfolio used as cover for the issuance of <i>Obligations Foncières</i> under the Programme (the Cover Pool); <p>Local economies of countries from which Caffil sources its assets may, for various reasons, experience a deterioration of economic conditions which could in turn reduce the quality of the Cover Pool held by Caffil. This could result in insufficient funds being available to meet its financial obligations under the <i>Obligations Foncières</i>.</p> <ul style="list-style-type: none"> – Geographic concentration risk in its Cover Pool; <p>More than 77% of the Cover Pool (excluding replacement assets and cash) is located in France. Such national concentration may over affect the cover pool should the country experiences substantial changes in financial, economic or fiscal conditions. In addition Caffil has certain large exposure in certain other geographic areas such as Italy, Switzerland and United Kingdom.</p> <ul style="list-style-type: none"> – Risk of default of its bank counterparties; <p>Despite its active risk management policy Caffil may have substantial exposures to certain financial institutions. Collateral posted by these financial institutions may not be sufficient to cover losses in case one or more counterparty default. Certain counterparties are not required to post collateral due their high credit standing. A sharp and sudden deterioration of their financial situation may give rise to losses or reduced liquidity being available to service Caffil’s obligations towards holders of <i>Obligations Foncières</i>.</p>

		<ul style="list-style-type: none"> – Risk of a liquidity shortfall that may affect its ability to settle its debt commitments in a timely fashion; Although Caffil has access to several sources of non-privileged liability, these may not be available on a timely basis. Also Caffil may not hold sufficient assets to ensure the capacity to meet its obligations with respect to the <i>Obligations Foncières</i>. – Dependence on SFIL, its parent company, for its operations; French regulation requires that Caffil relies on a third party servicer to operate the company, including key operations. This role is performed by SFIL, Caffil’s parent company, through a management agreement. This implies that adequate staff and information systems be made available by SFIL, the performance of which may adversely impact Caffil. In case the management agreement is terminated, a new servicer would need to be appointed which may negatively impact Caffil’s financial performances. – Risk of failure or malfunction of the operational risk management systems put in place by SFIL; Such systems may notably be subject to risk of failure, malfunction and malfeasance by employees, which may negatively affect Caffil’s financial performance. – Risks linked to compliance with the Coverage Ratio required of it under French law; The coverage ratio is driven by the availability of assets and their value. The French law sets a minimum 105% coverage ratio. Rating agencies may set higher coverage ratio targets in order to attribute to Caffil’s privileged debt the highest possible ratings. Such coverage ratios may not be reached in case of material defaults or if assets are used for other purposes such as obtaining liquidity from the central bank and consequently Caffil may not be able to raise new privileged debt or Caffil may lose its status of <i>société de crédit foncier</i>. – Dependence on SFIL for the unsecured funding of its over-collateral; There can be no assurance that SFIL will continue to extend unsecured funding to Caffil, thus reducing available over-collateral. This could affect the capacity of Caffil to redeem <i>Obligations Foncières</i> falling due or the rating of all outstanding <i>Obligations Foncières</i>. – Risks relating to the EU local government and municipal lending market; – Structured loans subscribed by certain local government may be the subject of negative press coverage and litigation, affecting the reputation of Caffil and possibly reducing the amount of collateral if certain of these loans are declared void or voidable. – Interest rate risk on its portfolio of assets which make up the Cover Pool; – Residual interest rate risk not covered by Caffil’s active hedging policy exists as unanticipated changes in the Cover Pool may adversely affect Caffil’s financial condition.

		<ul style="list-style-type: none"> <li data-bbox="561 145 1449 347"> <p>– Credit rating of Caffil's <i>obligations foncières</i> will be affected by the credit rating of SFIL and the French State;</p> <p>A downgrade of SFIL or a downgrade of the French State may lead to a downgrade of Caffil's privileged liabilities, including outstanding <i>obligations foncières</i>.</p> <li data-bbox="561 369 1449 795"> <p>– Caffil undertakes no due diligence as to the assets purchased;</p> <p>Starting in 2013, Caffil purchases loans originated by La Banque Postale. The verification of eligibility is performed by La Banque Postale, and then by SFIL for Caffil before the transfer is realised. For all French loans contained in Caffil's Cover Pool, the eligibility is verified through a daily control carried out by SFIL. Nevertheless, there can be no assurance that assets in the Cover Pool at the time of transfer or at any given time comply with the applicable eligibility criteria. Were there to be material non-compliance as to a large enough portion of Caffil's Cover Pool assets, Caffil would be required to sell back its non-compliant assets, leading in certain circumstances to a reduction in the Coverage Ratio.</p> <li data-bbox="561 817 1449 952"> <p>– The <i>Obligations Foncières</i> are obligations of Caffil only;</p> <p>Caffil is solely responsible for its obligations to creditors and cannot rely on any other entity to this end.</p> <li data-bbox="561 974 1449 1288"> <p>– Caffil may face significant competition in the local government and municipal lending market or in the refinancing of export credit;</p> <p>Existing or increased competition in the EU municipal banking sector or in the refinancing of export credit (starting in 2015) could lead to a reduction of margins for new commitments and ultimately to a strong reduction of new assets lending for Caffil or otherwise adversely affect Caffil's business, financial conditions, cash flows and results from operations.</p> <li data-bbox="561 1310 1449 1556"> <p>– Caffil applies certain critical accounting policies in preparing its financial statements in accordance with IFRS;</p> <p>If the assumptions and estimates under which Caffil has used to prepare its historical financial statements turn out to be incorrect and must be changed in a material way, such new assumptions could have an adverse effect on Caffil's financial statements.</p> <li data-bbox="561 1579 1449 1848"> <p>– Holders have access to a limited description of the Cover Pool;</p> <p>Holders of <i>Obligations Foncières</i> will not receive more detailed statistics in relation to the loans or other assets contained or to be contained in Caffil's Cover Pool than what is published in Caffil's annual and semi-annual reports, in Caffil's quarterly activity reports, in Caffil's quarterly reports on asset quality or in Caffil's quarterly Covered Bond Label template.</p> <li data-bbox="561 1870 1449 1937"> <p>– Caffil's operations are subject to legal risks arising from changes in law and regulations.</p>

		Any changes to the current legislation (in particular, legislation relating to the issuance of <i>obligations foncières</i> and the <i>privilège</i> associated to <i>such obligations foncières</i>) or regulation applying to such legislation could adversely affect Caffil's business, financial conditions, cash flows and results from operations.
D.3	Key information on the key risks that are specific to the <i>Obligations Foncières</i>	<p>There are certain factors that may affect the Issuer's ability to fulfill its obligations under <i>Obligations Foncières</i> issued under the Programme, including:</p> <ul style="list-style-type: none"> - General risks relating to the <i>Obligations Foncières</i> such as: <ul style="list-style-type: none"> - Investors must independently review and obtain professional advice with respect to the <i>Obligations Foncières</i> issued under the Programme; - Actual yield on <i>Obligations Foncières</i> issued under the Programme may be reduced from the stated yield as a result of transaction cost. Indeed, when the <i>Obligations Foncières</i> issued under the Programme are purchased or sold, costs may significantly reduce or cancel out the potential profit of <i>Obligations Foncières</i> (such as, but not limited to, transaction fees, commissions, brokerage fees, custody fees); - Potential conflicts of interest may arise between the holders and various parties operating under the Programme such as, but not limited to, discretionary determination and judgments made by an agent appointed for an issue of <i>Obligations Foncières</i> under the Programme; - Holders of <i>Obligations Foncières</i> issued under the Programme may not declare the <i>Obligations Foncières</i> immediately due and payable under any circumstances, including a default in the payment by Caffil of any interest or principal due in respect of the <i>Obligations Foncières</i>. Pursuant to the terms of the French Monetary and Financial Code, all cash flows generated by Caffil's assets and by derivatives transactions together with deposits made by Caffil with other credit institutions, that in each case are eligible assets within the meaning of Articles L.513-3 to L.513-10 of the French Monetary and Financial Code, are allocated as a matter of absolute priority to servicing <i>obligations foncières</i> or other privileged liabilities of Caffil as they fall due; - The credit rating of the <i>Obligations Foncières</i> may not reflect all risks; - An active trading market for <i>Obligations Foncières</i> issued under the Programme may never develop; - The trading market for <i>Obligations Foncières</i> issued under the Programme may be volatile and may be adversely affected by various events; - Neither Caffil nor the Dealer(s) assumes responsibility for the legality of any purchase under the Programme; - Modification, waivers and substitution of conditions affecting the <i>Obligations Foncières</i> that are not desired by all holders can be effected by a majority; - Purchases of the <i>Obligations Foncières</i> may be subject to certain taxes or other costs;

		<ul style="list-style-type: none"> - Change of law - No assurance can be given as to the impact of any possible judicial decision or change in French law or the official application or interpretation of French law after the date of the Base Prospectus; - The EU Savings Directive - If a payment were to be made or collected through a Member State which has opted for a withholding tax system required by such Directive (subject to a number of conditions being met) and an amount of, or in respect of, tax were to be withheld from that payment, neither Caffil nor any paying agent nor any other person would be obliged to pay additional amounts with respect to any <i>Obligation Foncière</i> as a result of the imposition of such withholding tax. Caffil will be required to maintain a paying agent in a Member State that will not be obliged to withhold or deduct tax pursuant to the Directive; - Caffil will not be required to pay any gross-up amounts if any law should require that any payments in respect of any <i>Obligation Foncière</i> be subject to withholding or deduction in respect of any taxes or duties whatsoever. Therefore, the corresponding risk shall be borne by the holders of <i>Obligations Foncières</i> or if applicable, the Couponholders; - U.S. Foreign Account Tax Compliance Withholding may affect payments on the <i>Obligations Foncières</i> - If an amount in respect of the FATCA withholding tax were to be deducted or withheld from interest, principal or other payments made in respect of the <i>Obligations Foncières</i>, neither the Issuer nor any paying agent nor any other person would, pursuant to the terms and conditions of the <i>Obligations Foncières</i>, be required to pay additional amounts as a result of the withholding or deduction. As a result, investors may receive less interest or principal than expected; - EU Bank Recovery and Resolution Directive – Directive 2014/59/EU of the European Parliament and of the Council dated 15 May 2014 on the resolution of financial institutions provides for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms which is designed to enable a range of actions to be taken by relevant regulatory authorities in relation to credit institutions and investment firms which are considered to be at risk of failing. The exercise of any power under this Directive or any suggestion of such exercise could adversely affect the rights of holders of <i>Obligations Foncières</i> and/or the price or value of their investment in any <i>Obligations Foncières</i> and/or the ability of Caffil to satisfy its obligations under any <i>Obligations Foncières</i>.

		<ul style="list-style-type: none"> - Implementation of Basel II and Basel III Risk-Weighted Asset Framework - Basel III was implemented under EU legislation through the “CRD IV package” which consists of the Capital Requirements Directive n° 2013/36/EU dated 26 June 2013, the Capital Requirements Regulation n°575/2013 dated 26 June 2013 and the relevant subsequent Delegated Regulations. The implementation of Basel II and Basel III, through the European directives and regulations, has and will continue to bring about a number of substantial changes to the current capital requirements, prudential oversight and risk-management systems, including those of the Issuer. The direction and the magnitude of the impact of Basel II and Basel III will depend on the particular asset structure of each bank and its precise impact on the Issuer cannot be quantified with certainty at this time. The Issuer may operate its business in ways that are less profitable than its present operation in complying with the new guidelines resulting from the transposition of the Capital Requirements Directive. In addition, the implementation of Basel II and Basel III could affect the risk weighting of the covered bonds in respect of certain investors to the extent that those investors are subject to the new guidelines resulting from the implementation of CRD IV package. Accordingly, recipients of the Base Prospectus should consult their own advisers as to the consequences and effects the implementation of the CRD IV package could have on them. - Risks related to a particular issue of <i>Obligations Foncières</i> under the Programme: <ul style="list-style-type: none"> - <i>Obligations Foncières</i> issued under the Programme may not be a suitable investment for all investors; - <i>Obligations Foncières</i> may be subject to optional redemption by Caffil; - Fixed Rate <i>Obligations Foncières</i> may not always maintain the same market value; - Holders will not be able to calculate their rate of return on Floating Rate <i>Obligations Foncières</i> in advance; - Fixed to Floating Rate <i>Obligations Foncières</i> may have a less favourable spread than the prevailing spreads on comparable floating rate securities tied to the same reference rate; - Zero Coupon <i>Obligations Foncières</i> issued under the Programme are subject to higher price fluctuations than non-discounted debt securities; - Holders may be exposed to risk on Inflation Linked <i>Obligations Foncières</i> which are dependent upon the performance of an index; - Inflation Linked <i>Obligations Foncières</i> with a multiplier or other leverage factor can be particularly volatile investments; - Structured <i>Obligations Foncières</i> may entail significant risks not associated with similar investments in a conventional debt security;

C.20	Obligations Foncières Indexées sur l'Inflation – Description du sous-jacent	<p>Les Obligations Foncières Indexées sur l'Inflation sont des Obligations Foncières dont le montant d'intérêt et/ou le principal sont indexés. Dans le cas de Obligations Foncières Indexées sur l'Inflation dont l'intérêt est indexé, l'intérêt est déterminé en appliquant la variation annuelle de l'inflation, exprimée en pourcentage, au montant nominal des Obligations Foncières Indexées sur l'Inflation. Dans le cas d'Obligations Foncières Indexées sur l'Inflation dont le principal est indexé, le principal est indexé sur la variation de l'inflation entre la valeur de l'indice applicable (c'est-à-dire soit le CPI soit le HICP) à la date d'émission et à la date de remboursement.</p> <p>Résumé spécifique à l'émission : (Insérer pour les Obligations Foncières indexées sur CPI)</p> <p>Les Obligations Foncières Indexées sur le CPI</p> <p>Les Obligations Foncières Indexées sur le CPI sont liées à l'indice des prix à la consommation (hors tabac) des ménages en France calculé et publié mensuellement par l'INSEE : le CPI. Section D –Facteurs de Risque		
D.2	Informations clés sur les principaux risques propres à l'Émetteur ou à son exploitation	<p>Les facteurs susceptibles d'avoir des répercussions sur l'Émetteur sont les suivants :</p> <ul style="list-style-type: none"> - Risque de défaut sur son portefeuille d'actifs utilisé comme couverture pour l'émission d'Obligations Foncières sous le Programme (le « Pool de Couverture ») ; <p>Les économies locales des pays dont sont issus les actifs de Caffil peuvent, pour</p>

	<p>et son activité</p>	<p>différentes raisons, souffrir d'une détérioration de leur situation économique qui pourrait successivement réduire la qualité du pool de couverture mis en place par Caffil. Cela peut conduire à une insuffisance de fonds disponibles nécessaires à l'exécution de ses obligations financières au titre des Obligations Foncières.</p> <ul style="list-style-type: none"> - Risque de concentration géographique sur son Pool de Couverture ; <p>Plus de 77% du Pool de Couverture (à l'exception des valeurs de remplacement et de la trésorerie) est situé en France. Une telle concentration nationale pourrait avoir un impact d'autant plus fort sur le Pool de Couverture si le pays en question connaissait des modifications substantielles des conditions financières, économiques et fiscales. De plus, Caffil dispose d'une forte exposition dans d'autres zones géographiques comme l'Italie, la Suisse et la Grande-Bretagne.</p> <ul style="list-style-type: none"> - Risque de défaut sur ses contreparties bancaires ; <p>En dépit de sa politique de gestion active du risque, Caffil pourrait être fortement exposée envers certains établissements financiers. Les garanties fournies par ces établissements financiers peuvent ne pas être suffisantes pour couvrir les pertes en cas de défaut d'une ou de plusieurs contreparties. Certaines contreparties, en raison de la qualité de leur crédit, n'ont pas l'obligation de fournir du collatéral. Une importante et soudaine détérioration de leur situation financière peut engendrer d'importantes pertes et réduire la liquidité nécessaire afin de remplir les obligations de Caffil envers les porteurs d'Obligations Foncières.</p> <ul style="list-style-type: none"> - Risque d'insuffisance de liquidité qui pourrait affecter sa capacité à régler ses engagements de dette dans un délai convenable ; <p>Bien que Caffil dispose de plusieurs sources de passif non-privilégié, elles peuvent ne pas être disponibles au moment opportun. De plus, Caffil peut ne pas détenir suffisamment d'actifs pour garantir l'exécution de ses obligations au titre des Obligations Foncières.</p> <ul style="list-style-type: none"> - Dépendance de SFIL, sa société mère, pour ses opérations ; <p>La réglementation française requière que Caffil recoure à un prestataire de service pour la gestion de la société, y compris pour ses opérations clés. Ce rôle est rempli par SFIL, la société mère de Caffil, à travers un contrat de gestion. Cela implique que le personnel et les systèmes d'informations adéquats soient mis à disposition par SFIL, dont la performance peut avoir un impact négatif sur Caffil. Si le contrat de gestion est résilié, un nouveau prestataire de service devrait être nommé par Caffil ce qui pourrait avoir un impact négatif sur les résultats financiers de Caffil.</p> <ul style="list-style-type: none"> - Risque de défaut ou de mauvais fonctionnement des systèmes de gestion du risque opérationnel mis en place par SFIL; <p>De tels systèmes peuvent notamment être soumis à des risques de dysfonctionnement, de défaillance, ou de malveillance par les salariés, ce qui pourrait affecter négativement les résultats financiers de Caffil.</p> <ul style="list-style-type: none"> - Risques liés au respect du Ratio de Couverture qui lui est applicable en droit français ; <p>Le Ratio de Couverture est fonction de la disponibilité des actifs et de leur valeur. La loi française prévoit un ratio de couverture minimum de 105%. Les agences de notation peuvent, afin d'attribuer à la dette privilégiée de Caffil la note maximale, prévoir des objectifs en matière de ratio de couverture plus élevés.</p>
--	-------------------------------	--

		<p>De tels ratios de couverture peuvent ne pas être atteints en cas de défaut importants ou bien si les actifs sont utilisés à d'autres fins comme l'obtention de liquidités auprès de la banque centrale et, dès lors Caffil pourrait ne pas pouvoir contracter de nouvelle dette privilégiée ou pourrait perdre son statut de société de crédit foncier.</p> <ul style="list-style-type: none"> - Dépendance vis-à-vis de SFIL pour le financement de son sur-collatéral par des financements non privilégiés ; <p>Il n'y a aucune assurance que SFIL continue de fournir à Caffil un financement non sécurisé réduisant le sur-collatéral disponible. Cela aurait pour effet d'affecter la capacité de Caffil à rembourser les Obligations Foncières arrivant à échéance ou la notation des Obligations Foncières en circulation.</p> <ul style="list-style-type: none"> - Risques liés au marché des prêts aux collectivités locales de l'UE et aux municipalités ; <p>Les prêts structurés souscrits par certaines collectivités locales pourraient donner lieu à une mauvaise publicité et à des contentieux, affectant la réputation de Caffil et pouvant réduire le montant du collatéral si certains de ces prêts sont déclarés nuls ou annulables.</p> <ul style="list-style-type: none"> - Risque de taux d'intérêt sur son portefeuille d'actifs qui compose son Pool de Couverture ; <p>Caffil a une politique active de couverture de taux d'intérêt mais il existe un risque résiduel de taux d'intérêt non couvert lié notamment aux éventuels changements non anticipés dans le Pool de Couverture. Ce risque résiduel pourrait avoir un impact négatif sur la situation financière de Caffil.</p> <ul style="list-style-type: none"> - La notation de crédit des obligations foncières de Caffil sera affectée par la notation de crédit de SFIL ou celle de l'Etat français ; <p>Une dégradation de SFIL ou de l'Etat français peut conduire à une dégradation du passif privilégié de Caffil, y compris les obligations foncières en circulation.</p> <ul style="list-style-type: none"> - Caffil ne conduit aucun audit sur les actifs acquis ; <p>Depuis 2013, Caffil achète des prêts provenant de la Banque Postale. La vérification de l'éligibilité est accomplie par La Banque Postale, puis par SFIL pour Caffil avant la réalisation du transfert. Pour tous les prêts français contenus dans le Pool de Couverture de Caffil, l'éligibilité est vérifiée grâce à un contrôle quotidien réalisé par SFIL. Néanmoins, il ne peut y avoir aucune assurance que les actifs inclus dans le Pool de Couverture, au jour du transfert ou à tout moment, soient conformes aux critères d'éligibilité applicables. En cas de non-conformité significatif touchant une part suffisamment importante des actifs du Pool de Couverture de Caffil, Caffil pourrait devoir revendre ses actifs non conformes, ce qui pourrait aboutir à une réduction du Ratio de Couverture.</p> <ul style="list-style-type: none"> - Les Obligations Foncières sont seulement des obligations de Caffil ; <p>Caffil est seule responsable de ses obligations à l'égard de ses créanciers et ne peut compter sur aucune autre entité à cet effet.</p> <ul style="list-style-type: none"> - Caffil peut faire face à une concurrence importante sur le marché des prêts aux collectivités locales et aux municipalités ou au niveau du refinancement du crédit export ;
--	--	--

		<p>La concurrence existante ou croissante sur le marché du financement du secteur public local européen ou du refinancement du crédit export (à partir de 2015) pourrait conduire à une réduction des marges sur les nouveaux engagements et, ainsi, à une forte réduction de la production de nouveaux actifs pour Caffil ou d'une quelconque façon affecter de manière négative l'activité, les conditions financières, les flux de trésorerie et des résultats des opérations de Caffil.</p> <ul style="list-style-type: none"> - Caffil a retenu et applique certaines règles comptables dans la préparation de ses états financiers selon les normes IFRS ; <p>Si les hypothèses et les estimations utilisées par Caffil pour préparer ses états financiers historiques s'avéraient être incorrectes et devaient être substantiellement modifiées, de telles nouvelles hypothèses pourraient avoir un impact négatif sur les résultats financiers de Caffil.</p> <ul style="list-style-type: none"> - Les porteurs ont accès à une description limitée du Pool de Couverture ; <p>Les porteurs des Obligations Foncières ne recevront pas plus de statistiques détaillées relatives aux prêts ou à d'autres actifs d'ores et déjà contenus ou qui seront contenus dans le Pool de Couverture de Caffil que celles publiées dans ses rapports annuels ou semi-annuels, dans ses rapports d'activité trimestriels, dans ses rapports trimestriels sur la qualité des actifs ou ses rapports trimestriels Covered Bond Label Template.</p> <ul style="list-style-type: none"> - Les opérations de la Caisse Française de Financement Local sont sujettes aux risques juridiques liés à des changements de loi et réglementations. <p>Tout changement dans la législation actuelle (en particulier, concernant la législation relative à l'émission d'obligations foncières et aux privilèges associés à de telles obligations) ou dans la réglementation applicable à une telle législation pourrait affecter l'activité, les conditions financières, les flux de trésorerie et les résultats des opérations de Caffil.</p>
<p>D.3</p>	<p>Informations clés sur les principaux risques propres aux <i>Obligations Foncières</i></p>	<p>Il existe certains facteurs susceptibles d'affecter la capacité de l'Émetteur à remplir ses obligations relatives aux Obligations Foncières devant être émises en vertu du Programme :</p> <ul style="list-style-type: none"> - Risques généraux relatifs aux Obligations Foncières tels que : <ul style="list-style-type: none"> - les investisseurs doivent procéder à une revue indépendante et obtenir un conseil professionnel concernant les Obligations Foncières émises sous Programme ; - le rendement des Obligations Foncières émises sous Programme peut être réduit par rapport au taux présenté du fait des frais liés à la transaction. En effet, lorsque les Obligations Foncières émises sous Programme sont achetées ou vendues, certains coûts peuvent réduire de façon significative ou annuler le profit potentiel lié à ces Obligations Foncières (notamment les frais liés à la transaction, les commissions, les frais de courtage ou de garde) ; - des conflits d'intérêt potentiels peuvent naître entre les porteurs et les différentes parties impliquées dans le Programme, tels que, les choix et décisions discrétionnaires d'un agent désigné pour une émission d'Obligations Foncières dans le cadre du Programme ;

Caffil devra maintenir un agent payeur dans un Etat Membre qui ne sera pas tenu de procéder à la retenue à la source ou au prélèvement de l'impôt en vertu de la Directive ; - Caffil ne sera pas tenu de payer des montants additionnels si une loi imposait qu'un paiement relatif aux Obligations Foncières soit soumis ou à une retenue à la source ou à un prélèvement au titre d'un quelconque impôt ou taxe de toute nature. La mise en œuvre de Bâle II et Bâle III a apporté et continuera d'apporter un certain nombre de modifications substantielles aux exigences actuelles en matière de fonds propres, aux systèmes de contrôle prudentiel et aux systèmes de gestion des risques, y compris ceux de l'Émetteur. L'orientation et l'ampleur de l'impact de Bâle II et Bâle III dépendent de la structure de l'actif spécifique à chaque banque et son impact précis sur l'Émetteur ne peut pas être quantifié avec certitude à la date d'aujourd'hui. L'Émetteur pourrait exploiter son activité de manière moins rentable qu'il ne l'exploite actuellement en se conformant aux nouvelles règles applicables suite à la transposition de la directive relative aux exigences de fonds propres . De plus, la mise en œuvre de Bâle II et Bâle III pourrait affecter la pondération du risque des obligations garanties (<i>covered bonds</i>) à l'égard de certains investisseurs dans la mesure où ces investisseurs sont soumis aux nouvelles règles de transposition du paquet CRD IV. Par conséquent, les destinataires du Prospectus de Base doivent faire appel aux conseils de spécialistes pour connaître les conséquences et les effets que la mise en œuvre du paquet CRD IV peut avoir sur lui.

CONDITIONS ATTACHED TO THE CONSENT OF THE ISSUER TO USE THE PROSPECTUS

In the context of any offer of *Obligations Foncières* in France and in the Grand Duchy of Luxembourg (the “**Public Offer Jurisdictions**”) that is not within an exemption from the requirement to publish a prospectus under the Prospectus Directive (a “**Public Offer**”), the Issuer consents to the use of the Base Prospectus and the relevant Final Terms (together, the “**Prospectus**”) in connection with a Public Offer of any *Obligations Foncières* during the offer period specified in the relevant Final Terms (the “**Offer Period**”) and in the Public Offer Jurisdiction(s) specified in the relevant Final Terms by:

- (1) any financial intermediary designated in such Final Terms; or
- (2) if so specified in the relevant Final Terms, any financial intermediary which satisfies the following conditions:
 - (a) acts in accordance with all applicable laws, rules, regulations and guidance of any applicable regulatory bodies (the “**Rules**”), from time to time including, without limitation and in each case, Rules relating to both the appropriateness or suitability of any investment in the *Obligations Foncières* by any person and disclosure to any potential investor; (b) complies with the restrictions set out under “*Subscription and Sale*” in this Base Prospectus which would apply as if it were a Dealer; (c) ensures that any fee (and any commissions or benefits of any kind) received or paid by that financial intermediary in relation to the offer or sale of the *Obligations Foncières* is fully and clearly disclosed to investors or potential investors; (d) holds all licences, consents, approvals and permissions required in connection with solicitation of interest in, or offers or sales of, the *Obligations Foncières* under the Rules; (e) retains investor identification records for at least the minimum period required under applicable Rules, and shall, if so requested, make such records available to the relevant Dealer(s) and the Issuer or directly to the appropriate authorities with jurisdiction over the Issuer and/or the relevant Dealer(s) in order to enable the Issuer and/or the relevant Dealer(s) to comply with anti-money laundering, anti-bribery and “know your client” rules applying to the Issuer and/or the relevant Dealer(s); (f) does not, directly or indirectly, cause the Issuer or the relevant Dealer(s) to breach any Rule or any requirement to obtain or make any filing, authorisation or consent in any jurisdiction; and (g) satisfies any further conditions specified in the relevant Final Terms (in each case an “**Authorised Offeror**”). For the avoidance of doubt, none of the Dealers or the Issuer shall have any obligation to ensure that an Authorised Offeror complies with applicable laws and regulations and shall therefore have no liability in this respect.

The Issuer accepts responsibility, in the Public Offer Jurisdiction(s) specified in the Final Terms, for the content of the Prospectus in relation to any person (an “**Investor**”) in such Public Offer Jurisdiction(s) to whom an offer of any *Obligations Foncières* is made by any Authorised Offeror and where the offer is made during the period for which that consent is given. However, neither the Issuer nor any Dealer has any responsibility for any of the actions of any Authorised Offeror, including compliance by an Authorised Offeror with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to such offer.

The consent referred to above relates to Offer Periods (if any) ending no later than the date falling 12 months from the date of the approval of the Base Prospectus by the AMF.

In the event the Final Terms designate financial intermediary(ies) to whom the Issuer has given its consent to use the Prospectus during an Offer Period, the Issuer may also give consent to additional Authorised Offerors after the date of the relevant Final Terms and, if it does so, it will publish any new information in relation to such Authorised Offerors who are unknown at the time of the approval of this Base Prospectus or the filing of the relevant Final Terms at <http://www.caissefrancaisedefinancementlocal.fr>.

If the Final Terms specify that any financial intermediary may use the Prospectus during the Offer Period, any such Authorised Offeror is required, for the duration of the Offer Period, to publish on its website that it is using the Prospectus for the relevant Public Offer with the consent of the Issuer and in accordance with the conditions attached thereto.

Other than as set out above, neither the Issuer nor any of the Dealers has authorised the making of any Public Offer by any person in any circumstances and such person is not permitted to use the Prospectus in connection with its offer of any *Obligations Foncières*. Any such offers are not made on behalf of the Issuer or by any of the Dealers or Authorised

Offerors and none of the Issuer or any of the Dealers or Authorised Offerors has any responsibility or liability for the actions of any person making such offers.

An Investor intending to acquire or acquiring any *Obligations Foncières* from an Authorised Offeror will do so, and offers and sales of the *Obligations Foncières* to an Investor by an Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such Investor including as to price allocations and settlement arrangements (the “Terms and Conditions of the Public Offer”). The Issuer will not be a party to any such arrangements with Investors (other than Dealers) in connection with the offer or sale of the *Obligations Foncières* and, accordingly, the Base Prospectus and any Final Terms will not contain such information. The Terms and Conditions of the Public Offer shall be provided to Investors by that Authorised Offeror at the time of the Public Offer. Neither the Issuer nor any of the Dealers or other Authorised Offerors has any responsibility or liability for such information.

RISK FACTORS

Prospective purchasers of the Obligations Foncières offered hereby should consider carefully, in light of their financial circumstances and investment objectives, all of the information in this Base Prospectus and, in particular, the risk factors set forth below in making an investment decision.

RISK FACTORS RELATING TO THE ISSUER

Caisse Française de Financement Local believes that the following factors may affect its ability to fulfill its obligations under Obligations Foncières issued under the Programme. All of these factors are contingencies which may or may not occur and Caisse Française de Financement Local is not in a position to express a view on the likelihood of any such contingency occurring.

In addition, factors which are material for the purpose of assessing the market risks associated with Obligations Foncières issued under the Programme are also described below.

Caisse Française de Financement Local believes that the factors described below represent the principal risks inherent in investing in Obligations Foncières issued under the Programme, but the inability of Caisse Française de Financement Local to pay interest, principal or other amounts on or in connection with any Obligations Foncières may occur for other reasons and Caisse Française de Financement Local does not represent that the statements below regarding the risks of holding any Obligations Foncières are exhaustive. The risks described below are not the only risks Caisse Française de Financement Local faces. Additional risks and uncertainties not currently known to Caisse Française de Financement Local or that it currently believes to be immaterial could also have a material impact on its business operations. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus (including any document deemed to be incorporated by reference herein) and the applicable Final Terms and reach their own views in light of their financial circumstances and investment objectives prior to making any investment decision. In particular, investors should make their own assessment as to the risks associated with the Obligations Foncières prior to investing in Obligations Foncières issued under the Programme.

These Risk Factors may be completed in the Final Terms of the relevant Obligations Foncières for a particular issue of Obligations Foncières.

1 Risk of default in its Cover Pool

Caisse Française de Financement Local is exposed to the risk of default on the pool of assets included in its portfolio used as cover for the issuance of *Obligations Foncières* under the Programme (the “**Cover Pool**”). The classes of assets that Caisse Française de Financement Local may own within its Cover Pool are restricted to specific categories narrowly defined by French law, and for Caisse Française de Financement Local these categories are further limited to transactions with public sector entities or entities guaranteed by public sector entities under the license granted by the CECEI (*Comité des établissements de crédit et des entreprises d’investissement*) (an institution now merged into the French Resolution and Prudential Control Authority (ACPR – *Autorité de contrôle prudentiel et de résolution*)). See “Description of Caisse Française de Financement Local”. Consequently, almost all of the Cover Pool comprises loans to, or bonds purchased from, local governments and municipalities. The ability of public sector borrowers, including local governments and municipalities, to meet their payment obligations may be affected by their levels of indebtedness, social spending obligations, interest rates and tax revenue collections, transfers of subsidies from the central governments, each of which could be adversely affected by a deterioration of general economic conditions. Deteriorating economic conditions could therefore have a material adverse effect on the credit quality of the assets in the Cover Pool.

Starting in 2015, in the context of the extension of its activities to the refinancing of large export credit, Caisse Française de Financement Local grants loans to banks, including its parent company SFIL, to refinance their export credits. These refinancing loans benefit from an irrevocable and unconditional 100% guarantee provided by Coface acting on behalf of, and with the guarantee of the French State. They are thus considered as exposures to the French State. The French State’s ability to meet its payment obligations may be affected by its levels of

indebtedness, social spending obligations, interest rates and tax revenue collections, each of which could be adversely affected by a deterioration in general economic conditions. Deteriorating economic conditions could therefore have a material adverse effect on the credit quality of the assets in the Cover Pool.

In addition, certain geographic regions of Europe to which Caisse Française de Financement Local has credit exposure through its lending to local authorities and municipalities may, from time to time, experience weaker regional economic conditions. Assets originated in such areas may experience higher rates of loss and the ability of borrowers to make payments may also be affected by factors such as adverse economic conditions in particular geographic areas or industries or perceptions in financial markets as to the creditworthiness of certain borrowers. Such occurrences may accordingly have an adverse impact on the fair market value of certain assets included in the Cover Pool.

While the eligibility and suitability of assets is vetted by SFIL's risk management and permanent control departments, on behalf of Caisse Française de Financement Local, certain default scenarios such as losses on assets representing a significant portion of the Cover Pool may exist, which would ultimately affect the ability of Caisse Française de Financement Local to comply with the terms of the *Obligations Foncières* issued under the Programme. Adverse changes affecting the local economies of countries from which Caisse Française de Financement Local sources its assets, could result in, among other things, higher rates of credit defaults on loans and bonds. The materialization of any of the foregoing factors or a divergence in the appreciation of these risks by the banking supervisory authorities could lead to significant losses or provisions and could adversely affect Caisse Française de Financement Local's business, financial condition, cash flows and results of operations, and may result in Caisse Française de Financement Local having insufficient funds to meet its obligations under the *Obligations Foncières*.

2 Geographic concentration risk in its Cover Pool

As of 31 March 2015, more than 77% of the Cover Pool (excluding replacement assets and cash), measured by principal amount of the assets, was concentrated in France. The ability of French State and local authorities and municipal borrowers and guarantors, like other public sector borrowers, to meet their obligations will be affected by the economic factors noted above. Adverse changes in the financial, economic and fiscal conditions within France may have significant consequences for the French public sector borrowers whose obligations are included in the Cover Pool, and consequently, on the credit quality of such obligations.

Furthermore, Caisse Française de Financement Local holds a significant amount of assets representing lending to borrowers in Italy, Switzerland and United Kingdom. Adverse financial, economic and fiscal conditions in these economies and perceived weaknesses of a country's financial situation may also have an adverse impact on the credit quality of the assets in the Cover Pool.

3 Risk of default of its bank counterparties

Caisse Française de Financement Local enters into derivative transactions with a number of bank hedge counterparties as part of its currency and interest rate hedging operations. In relation to each such hedging relationship, Caisse Française de Financement Local enters into master agreements with such counterparties that provide for asymmetrical collateralization arrangements (with the counterparties unilaterally posting collateral to Caisse Française de Financement Local). Some of these counterparties, however, are not required to post collateral to Caisse Française de Financement Local as they benefit from the highest credit rating. Caisse Française de Financement Local is also allowed to hold exposures to certain bank counterparties as issuers of its Replacement Assets, defined as certain high quality assets eligible for inclusion in its Cover Pool in order to maintain its liquidity position (up to 15% of the nominal amount of all privileged debt allowed by applicable legislation). See "Description of Caisse Française de Financement Local – Legislation Relating to *Sociétés de Crédit Foncier*".

While having hedging relationships with a large number of counterparties is designed to mitigate risk, Caisse Française de Financement Local is nonetheless exposed to the risk of default of its bank counterparties. If certain hedge counterparties that do not post collateral default as to payment, Caisse Française de Financement Local is likely to experience losses and reduced liquidity. Likewise, Replacement Assets issued by banks expose Caisse

Française de Financement Local to credit and liquidity risk from such banks should their financial condition deteriorate. Caisse Française de Financement Local may also experience losses in the form of reduced value of assets, due to a decrease in a bank counterparty's or issuers of replacement assets' financial position. Any such losses could adversely affect Caisse Française de Financement Local's business, financial condition, cash flows and results of operations, and may result in Caisse Française de Financement Local having insufficient funds to meet its obligations with respect to the *Obligations Foncières*.

Starting in 2015, in the context of the extension of its activities to the refinancing of large export credit, Caisse Française de Financement Local grants loans to banks, including its parent company SFIL, to refinance their export credits. These refinancing loans benefit from an irrevocable and unconditional 100% guarantee provided by Coface acting on behalf of, and with the guarantee of the French State. They are thus considered as exposures to the French State. The French State's ability to meet its payment obligations may be affected by its levels of indebtedness, social spending obligations, interest rates and tax revenue collections, each of which could be adversely affected by a deterioration in general economic conditions. Deteriorating economic conditions could therefore have a material adverse effect on the credit quality of the assets in the Cover Pool.

4 Risk of a liquidity shortfall that may affect its ability to settle its debt commitments in a timely fashion

Caisse Française de Financement Local is exposed to liquidity risk arising from the gap between the date it is reimbursed in connection with various assets it holds and the date it is required to settle its liabilities. The maturity and amortization profile of the Cover Pool does not match the repayment profile and the maturity schedule of the privileged debt. The duration gap between the Cover Pool and the privileged liabilities may widen in the future. As a matter of management policy, Caisse Française de Financement Local has limited the maximum duration gap between the assets and the resources benefiting from the *privège* to three years. Moreover, the regulation of covered bonds in France introduced changes in 2014 that consist of imposing greater congruence between asset/liability maturities with the introduction of an annual cover plan and with the limitation of the gap between the weighted average life of eligible assets, considered up to their minimum amount required to satisfy a 105% overcollateralization ratio, and the weighted average life of the privileged liabilities to 18 months. This requires Caisse Française de Financement Local to have appropriate liquidity positions to cover its liability commitments as they become due to avoid any shortfall in liquidity. To maintain its liquidity in case of market disruptions that prevent Caisse Française de Financement Local from issuing new *obligations foncières*, Caisse Française de Financement Local relies on non-privileged debt provided by its parent, SFIL, and, if needed, on secured financings it can borrow from the *Banque de France* or from financial institution counterparties using its assets from the Cover Pool, a significant part of which is eligible as collateral for such liquidity operations (including Replacement Assets). However, any gap between receipt of funds and funding of its commitments may lead to Caisse Française de Financement Local not settling its debt commitments on time. If Caisse Française de Financement Local's ability to access funds from its parent, SFIL, is diminished, and if it no longer maintains sufficient assets eligible for refinance with the *Banque de France* or financial institution counterparties, a liquidity shortfall may occur that will adversely affect Caisse Française de Financement Local's business, financial condition, cash flows and results of operations and may result in Caisse Française de Financement Local having insufficient funds to meet its obligations with respect to the *Obligations Foncières*.

5 Dependence on SFIL, its parent company, for its operations

As a result of its status as a *société de crédit foncier*, Caisse Française de Financement Local is not permitted to have its own employees and is therefore dependent on the resources dedicated to it by its parent company, SFIL, for the day-to-day operation of its business and, in particular, the servicing of its asset portfolio. SFIL, in accordance with the terms of the management agreement entered into with Caisse Française de Financement Local (which also covers loan origination, servicing and recovery, administrative and accounting management, internal control and compliance, information technology services, human resources, compensation for services and current account services), monitors and controls risks relating to credit, counterparties, market, operations, exchange rates, interest rates, liquidity, and settlement at the level of Caisse Française de Financement Local. Accordingly, Caisse Française de Financement Local is subject to the risk of non-performance or poor performance by SFIL under this

management agreement. Any such non-performance or poor performance could have an adverse impact on Caisse Française de Financement Local's ability to operate and administer its Cover Pool, which could in turn have a material adverse impact on Caisse Française de Financement Local's business, financial condition, cash flows and results of operations.

If Caisse Française de Financement Local were to terminate the management agreement or otherwise if SFIL fails to provide such services, a new servicer would have to be appointed. The transfer of the servicing function to a new servicer may result in delays, increased costs and/or losses in collections under the assets in the Cover Pool, could create operational and administrative difficulties for Caisse Française de Financement Local and could adversely affect its results of operations, financial condition and business prospects and its ability to perform its obligations under the *Obligations Foncières*.

6 Risk of failure or malfunction of the operational risk management systems put in place by SFIL

SFIL has put in place risk control procedures intended to identify and map operational risks at the level of Caisse Française de Financement Local. This control system may be subject to risk of failure, malfunction and malfeasance by employees, agents or other third parties, adversely affecting Caisse Française de Financement Local's business, financial condition, cash flows and results of operations.

7 Risks linked to compliance with the Coverage Ratio required of it under French law

The Coverage Ratio of Caisse Française de Financement Local, or the ratio between the Cover Pool assets and the debt benefiting from the *privilège* issued by Caisse Française de Financement Local, has been subject to fluctuation in recent years. Such fluctuation may be driven by factors such as the purchase or origination of assets at a different pace than issuances of *obligations foncières*, the use of certain assets as collateral for liquidity operations with the Banque de France and to obtain financing from credit institution in the form of repurchase agreement, or the changes in the requirements of the rating agencies. French law requires that the total amount of assets of *sociétés de crédit foncier* must be at least equal to 105% of the amount of liabilities benefiting from the *privilège*. Credit rating agencies may request higher Coverage Ratios in order to maintain the current ratings assigned to Caisse Française de Financement Local's *obligations foncières*.

As the Cover Pool is limited to interests in obligations of or guaranteed by public sector entities, including various local governments and municipalities, the Coverage Ratio may decline in the event of a decrease in the value of those interests, such as in the case of significant defaults in payment or decline in creditworthiness. The Coverage Ratio is monitored by the Specific Controller (the “*Contrôleur Spécifique*”) to confirm compliance with French law upon each issuance of *obligations foncières*. If a material amount of assets in the Cover Pool were to default, there is no assurance that the required level of assets within the Cover Pool could be maintained or that Caisse Française de Financement Local would be able to purchase new assets as a substitute for the defaulting assets. Non-compliance with the required Coverage Ratio would lead the French Resolution and Prudential Control Authority to ask the management of Caisse Française de Financement Local to remedy the situation, and ultimately could lead to the institution of substitute management by the French Resolution and Prudential Control Authority, or a loss of Caisse Française de Financement Local's status as a *société de crédit foncier*. Failure to maintain the required Coverage Ratio could also result in Caisse Française de Financement Local being unable to issue further *Obligations Foncières* or refinance existing *Obligations Foncières*, adversely affecting its business, financial condition, cash flows and results of operations.

8 Dependence on SFIL for the unsecured funding of its over-collateral

SFIL is the main provider of unsecured funding to Caisse Française de Financement Local, which finances the over-collateral, or assets of Caisse Française de Financement Local that are not financed by the issuance of *obligations foncières*. The over-collateral is essential to Caisse Française de Financement Local's ability to meet any liquidity shortfall arising from the gap between the maturity and amortization profile of the *obligations foncières* and that of the assets included in the Cover Pool, to reach a Coverage Ratio greater than or equal to 105%, and to maintain the current credit ratings of *obligations foncières*.

Caisse Française de Financement Local's overcollateralization is financed by equity contributions, through a current account agreement granted to it by SFIL and by a long-term revolving credit facility extended to it by SFIL that put in place the support received from SFIL and its reference shareholder, the French state. There can be no assurance that the long-term credit facility agreement or the current account agreement from SFIL will continue to be in force for the term of the *Obligations Foncières*. To the extent that this facility is discontinued, the amount of over-collateralization of the Cover Pool could be reduced, which could adversely affect the ability of Caisse Française de Financement Local to make payments on the *Obligations Foncières* as they become due, the rating assigned to the *Obligations Foncières*, and consequently the market value of Caisse Française de Financement Local's existing *obligations foncières*, including the *Obligations Foncières*.

9 Risks relating to the EU local government and municipal lending market

Certain legal and legislative trends in the EU local government and municipal lending market may expose Caisse Française de Financement Local to financial and reputational risk. In particular, local governments and municipalities in Europe have widely subscribed to structured loan products as part of the diversification of their funding. Due to changes in market conditions leading to higher interest rates on their borrowings, certain local governments and municipalities may consider that they had not been sufficiently informed by the sellers of such loan products of the potential risks of such products, including in relation to the amount of their interest payments. These borrowers may widely express their opinion in the media or initiate litigation against the originating banks. As some structured loan products that have been originated by members of the Dexia Group are part of Caisse Française de Financement Local's Cover Pool, Caisse Française de Financement Local may be affected by such press articles or litigation. Such adverse publicity may have a negative impact on the reputation of Caisse Française de Financement Local. In the worst case, such litigation may lead to certain loans in the Cover Pool being declared void or voidable in whole or in part. It could also lead to a decrease of the contractual interest rate with a retroactive effect and thus affect the hedging derivatives and the hedge relationship. In such cases, it may affect substantially cash flows, results of operations and financial condition of Caisse Française de Financement Local.

10 Interest rate risk on its portfolio of assets which make up the Cover Pool

SFIL, on behalf of Caisse Française de Financement Local, implements asset-liability management policies designed to minimize exposure to interest rate risk. Assets and liabilities benefiting from the privilege which do not naturally have a floating rate are hedged until maturity as soon as they are recorded on the balance sheet. SFIL, on behalf of Caisse Française de Financement Local, enters into micro hedge derivatives (primarily interest rate swaps) or into macro hedges or unwinds swaps of liabilities with an adequate profile, to hedge a particular portfolio of assets or/and liabilities, and manage overall balance sheet exposure. Nevertheless, Caisse Française de Financement Local is exposed to residual interest rate risk as a result of unanticipated changes in the Cover Pool due to, for example, the default, pre-payment or renegotiation of loans. The level of this residual exposure may increase in the future with new commercial loans entering the Cover Pool. These unanticipated changes in the Cover Pool, before being hedged, may adversely affect Caisse Française de Financement Local's business, financial condition, cash flows and results of operations.

11 Credit rating of Caisse Française de Financement Local's *obligations foncières* will be affected by the credit rating of SFIL and the French state

In the rating agencies' methodologies, the credit rating of a covered bond programme is linked to the credit rating attributed to the Issuer's parent. The rating criteria for Caisse Française de Financement Local include both the financial health of its parent, SFIL, as well as the strength of parental support. The credit rating of SFIL is closely linked to the credit rating of the French state. Decreases in the credit rating of SFIL may cause a decrease in the credit rating of Caisse Française de Financement Local's *obligations foncières*, or a requirement that Caisse Française de Financement Local obtain funding in order to achieve a higher level of overcollateralization. A variety of factors may make obtaining such higher level of overcollateralization impossible for Caisse Française de Financement Local in the event of a downgrade of SFIL. Furthermore, rating agencies consider that the ratings of Caisse Française de Financement Local's *obligations foncières* is linked to the credit rating of the French state, due

to the high proportion of French public sector assets in the Cover Pool. In the event of a downgrade of the credit rating of the French state, ratings of Caisse Française de Financement Local's *obligations foncières* may be affected. If the credit rating of Caisse Française de Financement Local's *obligations foncières* were reduced due to these factors, such downgrade may adversely affect the value of Caisse Française de Financement Local's outstanding *obligations foncières*, including the *Obligations Foncières*, increase Caisse Française de Financement Local's cost of borrowing and adversely affect Caisse Française de Financement Local's ability to issue new *obligations foncières*.

12 Caisse Française de Financement Local undertakes no due diligence as to the assets purchased

When it was part of the Dexia Group and named Dexia Municipal Agency, Caisse Française de Financement Local had not undertaken any investigations, searches or other actions in respect of the loans and other assets originated by other members of the Dexia Group contained in Caisse Française de Financement Local's Cover Pool. It fully relied on the credit committees and procedures performed by all the Dexia Group affiliates for credit analysis. The verification of eligibility was performed by the transferring entity, and then by the risk department of Dexia Credit Local for Caisse Française de Financement Local before the transfer was realized.

Starting in 2013, Caisse Française de Financement Local purchases loans originated by La Banque Postale – See Material contracts. The verification of eligibility is performed by La Banque Postale, and then by SFIL for Caisse Française de Financement Local before the transfer is realized.

For all French loans contained in Caisse Française de Financement Local's cover pool, the eligibility is verified through a daily control carried out by SFIL. Nevertheless, there can be no assurance that assets in the Cover Pool at the time of transfer or at any given time comply with the applicable eligibility criteria. Were there to be material non-compliance as to a large enough portion of Caisse Française de Financement Local's Cover Pool assets, Caisse Française de Financement Local would be required to sell back its non-compliant assets, leading in certain circumstances to a reduction in the Coverage Ratio, and it may be unable to issue further *Obligations Foncières* or meet payment obligations on existing *Obligations Foncières*, adversely affecting Caisse Française de Financement Local's business, financial condition, cash flows and results of operations.

13 The *Obligations Foncières* are obligations of Caisse Française de Financement Local only

Caisse Française de Financement Local has traditionally benefitted from the financial support of its parent company, including arrangements designed to ensure its continued liquidity and viability, including large amounts of equity, long-term loan financing and further liquidity through a current account agreement. None of the various arrangements, including the “declaration of support” from SFIL, constitutes a guarantee of Caisse Française de Financement Local's obligations to its creditors. Caisse Française de Financement Local is solely responsible for its obligations to its creditors and cannot legally rely on any other entity to this end. The *Obligations Foncières* are not guaranteed by SFIL or any other person. In making an investment decision, investors must rely upon their own examination of Caisse Française de Financement Local, the Cover Pool, the terms of the *Obligations Foncières* issued under the Programme and the financial information incorporated in this Base Prospectus. There can be no assurance that the Cover Pool will be sufficient to pay in full the amounts payable under the *Obligations Foncières*.

14 Caisse Française de Financement Local may face significant competition in the local government and municipal lending market or in the refinancing of export credit

Caisse Française de Financement Local may face increasing competition in the local government and municipal lending market or in the refinancing of export credit (starting in 2015) from which Caisse Française de Financement Local sources its Cover Pool. In France, where it will source its new assets, competition may increase from French universal banks.

Certain of Caisse Française de Financement Local's, SFIL's and La Banque Postale's competitors may be larger and better capitalized than Caisse Française de Financement Local. Consequently, Caisse Française de Financement Local may face pricing pressure in certain areas of its operations in the future as competitors seek to

increase market share by reducing prices, or offering new services at low prices. The municipal market competition could intensify, which may result in narrower lending spreads. This could make it more difficult for Caisse Française de Financement Local to purchase or originate new eligible loans and credit exposures with a sufficient margin to be refinanced by *obligations foncières*. There can be no assurance that existing or increased competition in the EU municipal banking sector or in the refinancing of export credit will not lead to a reduction of margins for new commitments and ultimately to a strong reduction of new assets lending for Caisse Française de Financement Local, or otherwise adversely affect Caisse Française de Financement Local's business, financial condition, cash flows and results of operations.

15 Caisse Française de Financement Local applies certain critical accounting policies in preparing its financial statements in accordance with IFRS

Caisse Française de Financement Local prepares financial statements in accordance with IFRS as adopted and endorsed by the European Commission.

In preparing these financial statements, management must use certain estimates and assumptions, including in relation to classification, recognition and valuation of assets and liabilities. In this respect, there are certain accounting policies that can be considered as critical, because they involve a higher degree of judgment and the assumptions and estimates used may be more significant to the financial statements. In order to make assumptions and estimates, management uses all information available at the date of preparation of the financial statements.

The areas where judgments and estimates are principally made in the preparation of these financial statements are in the following areas:

- Classification of financial instruments and hedge accounting: management determines the appropriate classification of its investments at the time of the purchase. It depends on the intent and the ability to hold the assets. However, under certain conditions, a financial asset may be restated at a later date. Hedge accounting may be used for derivatives designated in this way, provided certain criteria are met. If the hedge no longer meets the criteria for hedge accounting, then an adjustment to the carrying amount of a hedged interest-bearing financial instrument is amortized to income over the period to maturity. If a derivative does not perfectly hedge an asset or a liability, the non-effective portion of the changes in the fair value of the derivatives is recognized in income.
- Fair value of financial instruments: judgment is used to determine whether there is an active market or not for each instrument; market prices can be used in case of an active market, otherwise valuation techniques are used. In addition, Caisse Française de Financement Local accounts for credit value and debt value adjustments.
- Impairment of assets: Caisse Française de Financement Local records allowances for impairment losses when there is objective evidence that a financial asset or group of financial assets is impaired. An interest-bearing financial asset is impaired if its carrying amount is greater than its estimated recoverable amount. The identification of impairment triggers is based on procedures, but also on management judgement. The amount of impairment represents management's best estimate of recoverable amounts and losses at each balance-sheet date.
- Litigations: in the context of litigation, a liability is recorded in the accounts if a present obligation will result in probable outflows; if the liability is uncertain in its timing or amount, a provision is recognized. The amount of the provision is based on management's estimate of the amount of the obligation.
- Deferred tax: for the recognition and measurement of deferred tax assets, an estimate of future taxable profit is necessary; these estimates are prepared by management.

If the assumptions and estimates which Caisse Française de Financement Local has used to prepare its historical financial statements, which are based on historical experience and other factors, including expectations of future events that are believed to be reasonable, turn out to be incorrect and must be changed and such changes are material, such new assumptions or estimates could have an adverse effect on Caisse Française de Financement Local's financial statements.

For a full discussion of Caisse Française de Financement Local's IFRS accounting policies, see Note 1 of Caisse Française de Financement Local's audited financial statements prepared in accordance with IFRS incorporated by reference herein.

16 Holders have access to a limited description of the Cover Pool

Save as provided in Caisse Française de Financement Local's annual or semi-annual reports, quarterly activity reports, quarterly reports on assets quality or quarterly Covered Bond label template, holders will not receive more detailed statistics or information in relation to the loans or other assets contained or to be contained in Caisse Française de Financement Local's Cover Pool. Although the *Contrôleur Spécifique* will monitor Caisse Française de Financement Local's compliance with asset portfolio requirements and the Coverage Ratio under French law, the report of the *Contrôleur Spécifique* is not publicly available. Furthermore, the composition of the Cover Pool is dynamic, and is expected to change during the term of any *obligations foncières*, details of which may not be available to holders of the *Obligations Foncières*.

17 Caisse Française de Financement Local's operations are subject to legal risks arising from changes in law and regulations

Caisse Française de Financement Local's business operations are governed by European and French laws and regulations and are subject to supervision by, the European Central Bank and by the French Resolution and Prudential Control Authority. Any changes to the current legislation (in particular, legislation relating to the issuance of *obligations foncières* and the *privilège* attached to such *obligations foncières*) or regulations applying such legislation could adversely affect Caisse Française de Financement Local's business, financial condition, cash flows and results of operations.

RISK FACTORS RELATING TO THE *OBLIGATIONS FONCIÈRES* ISSUED UNDER THE PROGRAMME

The following paragraphs describe some risk factors that are material to the Obligations Foncières to be offered and/or admitted to trading in order to assess the market risk associated with these Obligations Foncières. Prospective investors should consult their own financial and legal advisers about risks associated with investment in a particular Series of Obligations Foncières and the suitability of investing in the Obligations Foncières in light of their particular circumstances.

1 General Risks Relating to the *Obligations Foncières*

1.1. Investors must independently review and obtain professional advice with respect to the *Obligations Foncières* issued under the Programme

Each prospective investor of *Obligations Foncières* must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the *Obligations Foncières* is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the *Obligations Foncières*.

A prospective investor may not rely on Caffil or the Dealer(s) or any of their affiliates in connection with its determination as to the legality of its acquisition of the *Obligations Foncières* or as to the other matters referred to above.

1.2. Actual yield on *Obligations Foncières* issued under the Programme may be reduced from the stated yield as a result of transaction costs

When securities are purchased or sold, several types of incidental costs (including transaction fees and commissions) are incurred in addition to the current price of the securities. These incidental costs may

significantly reduce or even cancel out the profit potential of *Obligations Foncières* issued under the Programme. For instance, credit institutions often charge their clients fixed minimum commissions or pro-rata commissions (linked to the value of the order) in relation to transactions relating to securities. To the extent that additional (domestic or foreign) parties are involved in the execution of an order, including but not limited to domestic dealers or brokers in foreign markets, holders of *Obligations Foncières* must take into account that they may also be charged for the brokerage fees, commissions and other fees and expenses of any such third-parties.

In addition to such costs directly related to the purchase of securities (direct costs), holders of *Obligations Foncières* must also take into account any follow-up costs (such as custody fees). Investors should inform themselves about any additional costs incurred in connection with the purchase, custody or sale of the *Obligations Foncières* before investing in *Obligations Foncières* issued under the Programme.

1.3. Potential conflicts of interest may arise between the holders and various parties operating under the Programme (including the Issuer, the Dealers and their respective affiliates)

Potential conflicts of interest may arise between the various parties (including the Issuer, the Dealers and their respective affiliates) operating under the Programme and the investor.

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer in the ordinary course of business. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and may enter into hedging strategies on behalf of the Issuer or investor clients, or as principal, in order to manage their exposure, their general risk or other trading activities. Such activity may affect future trading prices. Such investments and securities activities may involve securities and/or instruments of the Issuer. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the *Obligations Foncières*. Any such short positions could adversely affect future trading prices of *Obligations Foncières*. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

In addition, potential conflicts may arise between the holders of *Obligations Foncières* and any agent appointed for a Tranche of *Obligations Foncières*, including with respect to certain discretionary determinations and judgments that such agent may make pursuant to the Terms and Conditions of the *Obligations Foncières* that may influence the amount receivable upon redemption of the *Obligations Foncières*.

1.4. Holders of *Obligations Foncières* issued under the Programme may not declare the *Obligations Foncières* immediately due and payable under any circumstances, including a default in the payment by Caffil of any interest or principal due in respect of the *Obligations Foncières*

Obligations Foncières issued under the Programme may not be declared immediately due and payable under any circumstances, including a default in the payment by Caffil of any principal or interest due in respect of the *Obligations Foncières*. Certain events that are customarily considered events of default under debt instruments giving rise to a right on the part of the registered holder to declare such debt instrument immediately due and payable, such as Caffil filing for bankruptcy, cross-defaults or insolvency proceedings, will not give rise to the right on the part of the holders of *Obligations Foncières* issued under the Programme to declare the *Obligations Foncières* immediately due and payable. Pursuant to the terms of the French Monetary and Financial Code, all cash flows generated by Caffil's assets and by derivatives

transactions together with deposits made by Caffil with other credit institutions, that in each case are eligible assets within the meaning of Articles L.513-3 to L.513-10 of the French Monetary and Financial Code, are allocated as a matter of absolute priority to servicing *obligations foncières* or other privileged liabilities of Caffil as they fall due. See “Description of Caisse Française de Financement Local – The Legal Regime Applicable to Caffil”.

1.5. The credit rating of the *Obligations Foncières* may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the *Obligations Foncières*. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the *Obligations Foncières*. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time. The rating reflects the possibility of default of Caffil of the *Obligations Foncières* as judged by the credit rating agencies. In addition, an investment in the *Obligations Foncières* involves the risk that subsequent changes in the actual or perceived creditworthiness of Caffil may adversely affect the market value of the relevant *Obligations Foncières*.

1.6. An active trading market for *Obligations Foncières* issued under the Programme may never develop

There can be no assurance that an active trading market for the *Obligations Foncières* issued under the Programme will develop (even where the *Obligations Foncières* are listed), or, if one does develop, that it will be maintained. If an active trading market for the *Obligations Foncières* does not develop, or is not maintained, the market or trading price and liquidity of the *Obligations Foncières* may be adversely affected. The Dealers are not obligated, however, to make a market in the *Obligations Foncières* and, were they to do so, may continue or discontinue any market making at any time at their sole discretion. In addition, Caffil is entitled to buy the *Obligations Foncières* and it may issue further *Obligations Foncières*. Such transactions by Caffil may adversely affect the price development of *Obligations Foncières* issued under the Programme. If additional and competing products are introduced in the markets, this may adversely affect the value of the *Obligations Foncières* issued under the Programme.

1.7. The trading market for *Obligations Foncières* issued under the Programme may be volatile and may be adversely affected by various events

The market for debt securities is influenced by economic and market conditions and, to varying degrees, currency exchange rates and inflation rates in other European and other industrialized countries. In addition, the market value of the *Obligations Foncières* will be affected by the creditworthiness of Caffil and a number of additional factors, which may include the value of any index, market interest, currency exchange rates, and yield rates and the time remaining to the maturity date. There can be no assurance that events in France, Europe or elsewhere will not cause market volatility or that such volatility will not adversely affect the price of *Obligations Foncières* issued under the Programme or that economic and market conditions will not have any other adverse effect.

1.8. Neither Caffil nor the Dealer(s) assumes responsibility for the legality of any purchase under the Programme

Neither Caffil, the Dealer(s) nor any of their affiliates has or assumes responsibility for the lawfulness of the acquisition of the *Obligations Foncières* by a prospective investor of the *Obligations Foncières*, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective investor with any law, regulation or regulatory policy applicable to it.

1.9. Modification, waivers and substitution of conditions affecting the *Obligations Foncières* that are not desired by all holders can be effected by a majority

The conditions of the *Obligations Foncières* contain provisions for calling general meetings of holders of *Obligations Foncières* to consider matters affecting their interests generally. These provisions permit defined majorities of less than 100% to bind all including holders of *Obligations Foncières* who did not attend or were not represented at the relevant general meeting, and holders of *Obligations Foncières* who voted in a manner contrary to the majority.

1.10. Purchasers of the *Obligations Foncières* may be subject to certain taxes or other costs

Potential purchasers and sellers of the *Obligations Foncières* should be aware that payments of interest on the *Obligations Foncières*, or profits realized by a holder of *Obligations Foncières* upon the sale or repayment thereof, may be subject to taxation or documentary charges or duties in its home jurisdiction or in other jurisdictions in which it is required to pay taxes or where the *Obligations Foncières* are transferred. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for innovative financial obligations such as the *Obligations Foncières*. Potential investors are advised not to rely upon the tax summary contained in this Base Prospectus but to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, holding, sale and redemption of the *Obligations Foncières*. Only these advisors are in a position to duly consider the specific situation of the potential investor. This investment consideration has to be read in connection with the taxation sections of this Base Prospectus.

1.11. Change of Law or regulation

The Terms and Conditions of the *Obligations Foncières* are based on French law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change in French law or the official application or interpretation of French law after the date of this Base Prospectus.

Any *Obligations Foncières* issued or to be issued may be affected by any new regulation produced by any European or French supervisory. No assurance can be given as to the impact of any possible decision or change in European or French Regulation or interpretation of such regulations.

1.12. The EU Savings Directive

Under Council Directive 2003/48/EC on the taxation of savings income (the “**Savings Directive**”), Member States, subject to a number of conditions being met, are required to provide to the tax authorities of other Member States details of certain payments of interest or similar income paid or secured by a person established in a Member State to or for the benefit of an individual resident in another Member State or certain limited types of entities established in another Member State.

For a transitional period, Austria is required (unless during that period it elects otherwise) to operate a withholding system in relation to such payments. The end of the transitional period is dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries. A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

On 24 March 2014, the Council of the European Union adopted a Council Directive (the “**Amending Directive**”) amending and broadening the scope of the requirements described above. The Amending Directive requires Member States to apply these new requirements from 1 January 2017, and if they were to take effect the changes would expand the range of payments covered by the Savings Directive, in particular to include additional types of income payable on securities. They would also expand the circumstances in which payments that indirectly benefit an individual resident in a Member State must be reported or subject to withholding. This approach would apply to payments made to, or secured for, persons, entities or legal arrangements (including trusts) where certain conditions are satisfied, and may in some cases apply where the person, entity or arrangement is established or effectively managed outside of the European Union.

However, the European Commission has proposed the repeal of the Savings Directive from 1 January 2017 in the case of Austria and from 1 January 2016 in the case of all other Member States (subject to on-going requirements to fulfil administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). This is to prevent overlap between the Savings Directive and a new automatic exchange of information regime to be implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU). The proposal also provides that, if it proceeds, Member States will not be required to apply the new requirements of the Amending Directive.

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment, neither Caffil nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any *Obligation Foncière* as a result of the imposition of such withholding tax. Caffil will be required to maintain a Paying Agent in a Member State that will not be obliged to withhold or deduct tax pursuant to the Directive.

1.13. The proposed financial transactions tax (“FTT”)

The European Commission has published a proposal for a Directive (the “**Commission's Proposal**”) for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the “**participating Member States**”).

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the *Obligations Foncières* (including secondary market transactions) in certain circumstances. The issuance and subscription of *Obligations Foncières* should, however, be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the *Obligations Foncières* where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, “established” in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

Joint statements issued by participating Member States indicate an intention to implement the FTT by January 2016.

However, the FTT proposal remains subject to negotiation between the participating Member States and the scope of such tax is very uncertain.

1.14. Caffil will not be required to pay any gross-up amounts

If any law should require that any payments in respect of any *Obligation Foncière* be subject to withholding or deduction in respect of any taxes or duties whatsoever, Caffil will not pay any additional amounts, unless otherwise provided in the relevant Final Terms, in respect of any such withholding or deduction. Therefore, the corresponding risk shall be borne by the holders of *Obligations Foncières* or if applicable, the Couponholders.

1.15. U.S. Foreign Account Tax Compliance Act Withholding may affect payments on the *Obligations Foncières*

For *Obligations Foncières* held through Euroclear France, Euroclear or Clearstream, Luxembourg (together, the “**ICSDs**”), in all but the most remote circumstances, it is not expected that the new reporting regime and potential withholding tax imposed by sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (“**FATCA**”) will affect the amount of any payment received by the ICSDs (see “Taxation – Foreign Account Tax Compliance Act”). Further, foreign financial institutions in a jurisdiction which has entered into an intergovernmental agreement with the United States (an “**IGA**”) are generally not expected to be

required to withhold under FATCA or an IGA (or any law implementing an IGA) from payments they make on securities such as the *Obligations Foncières*. However, for such *Obligations Foncières* held through the ICSDs, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. FATCA also may affect payments to any holder or ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or any holder or ultimate investor that fails to provide its broker (or other person from which it receives payment) with any information, forms, other person from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose any custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding.

1.16. EU Bank Resolution and Recovery Directive

Directive 2014/59/EU of the European Parliament and of the Council dated 15 May 2014 on the resolution of financial institutions provides for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms (the “**Bank Recovery and Resolution Directive**” or “**BRRD**”). The BRRD provides authorities with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions, while minimising the impact of an institution's failure on the economy and financial system.

The BRRD contains four resolution tools and powers which may be used alone or in combination where the relevant resolution authority considers that (a) an institution is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures would prevent the failure of such institution within a reasonable timeframe, and (c) a resolution action is in the public interest: (i) sale of business – which enables resolution authorities to direct the sale of the firm or the whole or part of its business on commercial terms; (ii) bridge institution – which enables resolution authorities to transfer all or part of the business of the firm to a “bridge institution” (an entity created for this purpose that is wholly or partially in public control); (iii) asset separation – which enables resolution authorities to transfer impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this can be used together with another resolution tool only); and (iv) bail-in – which gives resolution authorities the power to write down certain claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims including *Obligations Foncières* to equity (the “**general bail-in tool**”), which equity could also be subject to any future application of the general bail-in tool. Relevant claims for the purposes of the bail-in tool would include the claims of the holders in respect of any *Obligations Foncières* issued under the Programme, only if and to the extent that the bond liability exceeded the value of the cover pool collateral against which it is secured. Regarding *Obligations Foncières*, the BRRD provides that the relevant resolution authority shall not exercise the write down or conversion powers in relation to secured liabilities including covered bonds and liabilities in the form of financial instruments used for hedging purposes which form an integral part of the cover pool and which according to national law are secured in a way similar to covered bonds, whether they are governed by the law of a Member State or of a third country.

The BRRD also provides that in exceptional circumstances, where the bail-in tool is applied, the relevant resolution authority may exclude or partially exclude certain liabilities from the application of the write-down or conversion powers where: (a) it is not possible to bail-in that liability within a reasonable time; (b) the exclusion is strictly necessary and is proportionate to achieve the continuity of critical functions and core business lines in a manner that maintains the ability of the institution under resolution to continue key operations, services and transactions; (c) the exclusion is strictly necessary and proportionate to avoid giving rise to widespread contagion, in particular as regards eligible deposits held by natural persons and micro, small and medium sized enterprises, which would severely disrupt the functioning of financial

markets, including of financial market infrastructures, in a manner that could cause a serious disturbance to the economy of a Member State or of the Union; or (d) the application of the bail-in tool to those liabilities would cause a destruction in value such that the losses borne by other creditors would be higher than if those liabilities were excluded from bail-in. Consequently, where a resolution authority decides to exclude or partially exclude an eligible liability or class of eligible liabilities, the level of write down or conversion applied to other eligible liabilities - as the holders of the *Obligations Foncières* - when not excluded, may be increased to take account of such exclusions. Subsequently, if the losses that would have been borne by those liabilities have not been passed on fully to other creditors, the resolution financing arrangement may make a contribution to the institution under resolution to (i) cover any losses which have not been absorbed by eligible liabilities and restore the net asset value of the institution under resolution to zero and/or (ii) purchase shares or other instruments of ownership or capital instruments in the institution under resolution, in order to recapitalise the institution. The last step - if there are losses left - would be an extraordinary public financial support through additional financial stabilisation tools. Any such extraordinary financial support must be provided in accordance with the EU state aid framework. An institution will be considered as failing or likely to fail when: it is, or is likely in the near future to be, in breach of its requirements for continuing authorisation; its assets are, or are likely in the near future to be, less than its liabilities; it is, or is likely in the near future to be, unable to pay its debts as they fall due; or it requires extraordinary public financial support (except in limited circumstances).

The BRRD provides that Member States apply the new legal framework from 1 January 2015, except for the general bail-in tool which is to be applied from 1 January 2016. As a minimum harmonisation initiative, Member States may adopt more onerous provisions when implementing the BRRD, meaning that it is difficult to anticipate the potential implications for the relevant institutions in the absence of finalised national implementing measures.

The powers set out in the BRRD will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors. In particular, once the BRRD is implemented, holders of *Obligations Foncières* may be subject to write-down or conversion into equity on any application of the general bail-in tool (subject, in the case of covered bonds such as the *Obligations Foncières*, to the limitations set out above), which may result in such holders losing some or all of their investment. The exercise of any power under the BRRD or any suggestion of such exercise could, therefore, materially adversely affect the rights of the holders of the *Obligations Foncières*, the price or value of their investment in any *Obligations Foncières* and/or the ability of the Issuer to satisfy its obligations under any *Obligations Foncières*.

The banking law dated 26 July 2013 regarding the separation and the regulation of banking activities (*Loi de séparation et de régulation des activités bancaires*) (as modified by the ordonnance dated 20 February 2014 (*Ordonnance portant diverses dispositions d'adaptation de la législation au droit de l'Union européenne en matière financière*)) (the “**Banking Law**”) that anticipates the implementation of the BRRD, has entered into force in France. Many of the provisions contained in the BRRD are similar in effect to provisions contained in the Banking Law. However, the provisions of the Banking Law will need to be changed to reflect the BRRD as now adopted. The law no. 2014-1662 dated 30 December 2014 entitled “*Loi portant diverses dispositions d'adaptation au droit de l'Union européenne en matière économique et financière*” is the law of implementation which has been published on 31 December 2014 to give the government the right to implement the BRRD by ordonnance by 31 August 2015. The precise changes which will be made remain unknown at this stage.

Moreover, Regulation (EU) no. 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund has established a centralised power of resolution and entrusted to a Single Resolution Board and to the national resolution authorities. Starting on 1 January 2015, the Single Resolution Board works in close cooperation with the ACPR, in particular in relation to the elaboration of resolution planning, and will assume full resolution powers, on 1 January 2016 provided that the conditions for the transfer of contributions to the Single Resolution Fund are met by that date.

1.17. Implementation of Basel II and Basel III Risk-Weighted Asset Framework

In June 1999, the Basel Committee on Banking Supervision (the "**Basel Committee**") issued proposals for the reform of the 1988 Basel Capital Accord and proposed a new capital adequacy framework which would place enhanced emphasis on risk sensitivity and market discipline. On 26 June 2004, the Basel Committee published a new Capital Accord under the title "Basel II International Convergence of Capital Measurement and Capital Standards: a Revised Framework" ("**Basel II**"), an updated version of which was published in November 2005. Basel II was implemented under EU legislation by virtue of directives no. 2006/48 and no. 2006/49 (the "**Capital Requirements Directives**" as amended from time to time) both dated 14 June 2006. In France, the provisions of the Capital Requirements Directives providing for a new solvency ratio were implemented under the *arrêtés* dated 20 February 2007 and the *ordonnance* no. 2007-571 dated 19 April 2007. In addition, the *arrêté* dated 25 August 2010 transposing the Capital Requirements Directives, which came into effect on 31 December 2010, amended the French prudential control requirements applicable to credit institutions and investment firms.

On 17 December 2009, the Basel Committee published for consultation a package of proposals for new capital and liquidity requirements intended to reinforce capital standards and to establish minimum liquidity standards for credit institutions. On 16 December 2010 and 13 January 2011, the Basel Committee has approved significant changes to Basel II ("**Basel III**"), including new capital and liquidity standards for credit institutions. Those measures were scheduled to be implemented by relevant authorities starting from 1 January 2013 with full implementation on 1 January 2019.

In particular, the changes introduced by Basel III refer to, amongst other things :

- a complete review of the capital standards;
- the introduction of a leverage ratio; and
- the introduction of short-term and longer-term standards for funding liquidity (referred to as the "*Liquidity Coverage Ratio*" and the "*Net Stable Funding Ratio*").

The European authorities have indicated that they support the work of the Basel Committee on the approved changes in general. Basel III was implemented under EU legislation through the "CRD IV package" which consists of the Capital Requirements Directive n° 2013/36/EU dated 26 June 2013, the Capital Requirements Regulation n°575/2013 dated 26 June 2013 and the relevant subsequent Delegated Regulations. A number of new requirements arising from the CRD IV package was implemented under French law through Law no. 2013-672 dated 26 July 2013 relating to the separation and regulation of banking activities. The implementation of the CRD IV package at the legislative level was finalized under French law by Ordinance n°2014-158 dated 20 February 2014 and its implementing "*arrêtés*".

The implementation of Basel II and Basel III has and will continue to bring about a number of substantial changes to the current capital requirements, prudential oversight and risk-management systems, including those of the Issuer. The direction and the magnitude of the impact of Basel II and Basel III will depend on the particular asset structure of each bank and its precise impact on the Issuer cannot be quantified with certainty at this time. The Issuer may operate its business in ways that are less profitable than its present operation in complying with the new guidelines resulting from the transposition of the Capital Requirements Directive.

In addition, the implementation of Basel II and Basel III could affect the risk weighting of the covered bonds in respect of certain investors to the extent that those investors are subject to the new guidelines resulting from the implementation of the CRD IV package. Accordingly, recipients of this Base Prospectus

should consult their own advisers as to the consequences and effects the implementation of CRD IV package could have on them.

2 Risks related to a particular issue of *Obligations Foncières* under the Programme

2.1. *Obligations Foncières* issued under the Programme may not be a suitable investment for all investors

Each potential investor in the *Obligations Foncières* must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant *Obligations Foncières*, the merits and risks of investing in the relevant *Obligations Foncières* and the information contained (or incorporated by reference) in this Base Prospectus;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant *Obligations Foncières* and the impact such investment will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the *Obligations Foncières*, such as instances where *Obligations Foncières* have principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the currency in which such potential investor's financial activities are principally denominated;
- (iv) understand thoroughly the terms of the relevant *Obligations Foncières* issued under the Programme and be familiar with the behavior of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial advisor) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Obligations Foncières are complex financial instruments and such instruments may be purchased as a way to reduce risk or enhance yield with an understood, measured, and appropriate addition of risk to their overall portfolios. A potential investor should not invest in *Obligations Foncières* which are complex financial instruments unless it has the expertise (either alone or with the assistance of a financial advisor) to evaluate how the *Obligations Foncières* will perform under changing conditions, the resulting effects on the value of such *Obligations Foncières*, and the impact this investment will have on the overall investment portfolio of the potential investor.

2.2. *Obligations Foncières* may be subject to optional redemption by Caffil

If in the case of any particular Series of *Obligations Foncières* the Final Terms specifies that the *Obligations Foncières* are redeemable at Caffil's option, in certain circumstances, Caffil may choose to redeem the *Obligations Foncières* at times when prevailing interest rates may be relatively low. During a period when Caffil may elect, or has elected, to redeem *Obligations Foncières*, such *Obligations Foncières* may feature a market value not substantially above the price at which they can be redeemed. In such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the *Obligations Foncières* and may only be able to do so at a lower rate. Prospective investors should consider reinvestment risk in light of other investments available at that time.

2.3. Fixed Rate *Obligations Foncières* may not always maintain the same market value

Investment in *Obligations Foncières* which bear interest at a fixed rate involves the risk that subsequent changes in market interest rates may adversely affect the value of the relevant Tranche of *Obligations Foncières*.

2.4. Holders will not be able to calculate their rate of return on Floating Rate *Obligations Foncières* in advance

Investment in *Obligations Foncières* which bear interest at a floating rate comprise (i) a reference rate and (ii) a margin to be added or subtracted, as the case may be, from such base rate. Typically, the relevant margin will not change throughout the life of the *Obligations Foncières* but there will be a periodic adjustment (as specified in the Final Terms) of the reference rate (e.g., every three months or six months) which itself will change in accordance with general market conditions. Accordingly, the market value of floating rate *Obligations Foncières* may be volatile if changes, particularly short term changes, to market interest rates evidenced by the relevant reference rate can only be reflected in the interest rate of these *Obligations Foncières* upon the next periodic adjustment of the relevant reference rate.

2.5. Fixed to Floating Rate *Obligations Foncières* may have a less favorable spread than the prevailing spreads on comparable floating rate securities tied to the same reference rate

Fixed to floating rate *Obligations Foncières* initially bear interest at a fixed rate; conversion from a fixed rate to a floating rate then takes place either automatically or at the option of Caffil if certain predetermined conditions are met. The conversion (whether it be automatic or optional) of the interest rate will affect the secondary market and the market value of the *Obligations Foncières* since the conversion may lead to a lower overall cost of borrowing. If a fixed rate is converted to a floating rate, the spread on the fixed to floating rate *Obligations Foncières* may be less favorable than then prevailing spreads on comparable floating rate *Obligations Foncières* tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other *Obligations Foncières*.

2.6. Zero Coupon *Obligations Foncières* issued under the Programme are subject to higher price fluctuations than non-discounted debt securities

Changes in market interest rates have a substantially stronger impact on the prices of Zero Coupon *Obligations Foncières* than on the prices of ordinary *Obligations Foncières* because the discounted issue prices of Zero Coupon *Obligations Foncières* are generally substantially below their par value. If market interest rates increase, holders of Zero Coupon *Obligations Foncières* are exposed to greater price declines than holders of other securities with comparable maturity and credit rating. Investors should be aware that Zero Coupon *Obligations Foncières* are a type of investment associated with a particularly high risk of price fluctuation.

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

2.7. Holders may be exposed to risk on Inflation Linked *Obligations Foncières* which are dependent upon the performance of an index

Caffil may issue *Obligations Foncières* with principal or interest determined by reference to the rate of inflation in a country or in the European Monetary Union (“**Inflation Linked *Obligations Foncières*”**), where interest amounts and/or principal are dependent upon the performance of an inflation index, which will be one of (i) the consumer price index (excluding tobacco) for all households in France or the relevant substitute index (the “**CPI**”), as calculated and published monthly by the *Institut National de la Statistique et des Etudes Economiques* (“**INSEE**”), or (ii) the harmonised index of consumer prices (excluding tobacco), or the relevant substitute index, measuring the rate of inflation in the European Monetary Union as calculated and published monthly by Eurostat (the “**HICP**”). If, at maturity, the level of the relevant Inflation Index Ratio is less than 1.00, the *Obligation Foncières* will be redeemed at par.

Neither the current nor the historical levels of any of the Inflation Indices should be taken as an indication of future performance of such index during the term of any Inflation Linked *Obligations Foncières*.

Inflation Linked *Obligations Foncières* are not in any way sponsored, endorsed, sold or promoted by the INSEE or Eurostat, as the case may be, and the INSEE or Eurostat makes no warranty or representation whatsoever, express or implied, either as to the results to be obtained from the use of any of the Inflation Indices and/or the figure at which such indices stand at any particular time. The Inflation Indices are determined, composed and calculated by the INSEE or Eurostat, as the case may be, without regard to the Issuer or the *Obligations Foncières*. The INSEE or Eurostat, as the case may be, is not responsible for or has not participated in the determination of the timing of, prices of, or quantities of the Inflation Linked *Obligations Foncières* to be issued or in the determination or calculation of the interest payable under such *Obligations Foncières*.

None of the Issuer, the Dealer(s) or any of their respective affiliates makes any representation as to the Inflation Indices (as defined herein). Any of such persons may have acquired, or during the term of the *Obligations Foncières* may acquire, non-public information with respect to any of the Inflation Indices that is or may be material in the context of Inflation Linked *Obligations Foncières*. The issue of Inflation Linked *Obligations Foncières* will not create any obligation on the part of any such persons to disclose to the holders of *Obligations Foncières* or any other party such information (whether or not confidential).

2.8. Inflation Linked *Obligations Foncières* and Formulas with a multiplier or other leverage factor can be particularly volatile investments

Inflation Linked *Obligations Foncières* and Formulas can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features, their market values may be even more volatile than those for securities that do not include those features.

2.9. Structured *Obligations Foncières* may entail significant risks not associated with similar investments in a conventional debt security

An investment in *Obligations Foncières*, the premium and/or the interest on or principal of which is determined by reference to one or more values, interest rates or other indices or formulae, either directly or inversely, may entail significant risks not associated with similar investments in a conventional debt security, including the risks that the resulting interest rate will be less than that payable on a conventional debt security at the same time and/or that an investor may lose the value of its entire investment or part of it, as the case may be. Neither the current nor the historical value of the relevant interest rates or other indices or formulae should be taken as an indication of future performance of such currencies, commodities, interest rates or other indices or formulae during the term of any *Obligation Foncières*.

2.10. Exchange rate risks and exchange controls may adversely affect the return on the *Obligations Foncières* issued under the Programme

Caffil will pay principal and interest on the *Obligations Foncières* issued under the Programme in the specified currency (the “**Specified Currency**”). This presents certain risks relating to currency conversions if an investor’s financial activities are denominated principally in a currency or currency unit (the “**Investor’s Currency**”) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor’s Currency) and the risk that authorities with jurisdiction over the Investor’s Currency may impose or modify exchange controls. An appreciation in the value of the Investor’s Currency relative to the Specified Currency would decrease (i) the Investor’s Currency equivalent yield on the *Obligations Foncières*, (ii) the Investor’s Currency-equivalent value of the principal payable on the *Obligations Foncières*, and (iii) the Investor’s Currency-equivalent market value of the *Obligations Foncières*. In addition, government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect applicable exchange rates. As a result, investors may receive an amount of interest or principal that is less than expected.

SUPPLEMENT TO THE BASE PROSPECTUS

If at any time the Issuer shall be required to prepare a Supplement pursuant to the provisions of Article 16 of the Prospectus Directive and any legislation in any Member State of the European Economic Area that implement the Prospectus Directive and subordinate legislation thereto, the Issuer will prepare and make available an appropriate Supplement to this Base Prospectus or a restated Base Prospectus, which shall constitute a Supplement for the purpose of the relevant provisions of the Prospectus Directive.

In accordance with and pursuant to Article 16.2 of the Prospectus Directive, where the *Obligations Foncières* are offered to the public, investors who have already agreed to purchase or subscribe for *Obligations Foncières* before any supplement is published have the right, exercisable within two working days after the publication of this supplement, to withdraw their acceptances provided that the new factor, mistake or inaccuracy referred to in Article 16.1 of the Prospectus Directive arose before the final closing of the offer to the public and the delivery of the *Obligations Foncières*. That period may be extended by the Issuer or, if any, the relevant Authorised Offeror(s). The final date of the right of withdrawal shall be stated in the supplement.

TERMS AND CONDITIONS OF THE *OBLIGATIONS FONCIÈRES*

The following is the text of the terms and conditions that, subject to completion in accordance with the provisions of the relevant Part A of the Final Terms, shall be applicable to the *Obligations Foncières*. (d) **Redenomination:**

- (i) The Issuer may (if so specified in the Final Terms), on any Interest Payment Date, without the consent of the holder of any *Obligation Foncière*, Coupon or Talon, by giving at least 30 days' notice in accordance with Condition 13 and on or after the date on which the European Member State in whose national currency the *Obligations Foncières* are denominated has become a participating Member State in the third stage (or any further stage) of the European Economic and Monetary Union (as provided in the Treaty establishing the European Community (the "EC", as amended from time to time (the "Treaty"))) or events have occurred which have substantially the same effects (in either case, "EMU"), redenominate all, but not some only, of the *Obligations Foncières* of any Series into Euro and adjust the aggregate principal amount and the Specified Denomination(s) set out in the relevant Final Terms accordingly, as described below. The date on which such redenomination becomes effective shall be referred to in these Conditions as the "**Redenomination Date**".
- (ii) The redenomination of the *Obligations Foncières* pursuant to Condition 1(d)(i) shall be made by converting the principal amount of each *Obligation Foncière* from the relevant national currency into Euro using the fixed relevant national currency Euro conversion rate established by the Council of the European Union pursuant to applicable regulations of the Treaty and rounding the resultant figure to the nearest Euro 0.01 (with Euro 0.005 being rounded upwards). If the Issuer so elects, the figure resulting from conversion of the principal amount of each *Obligation Foncière* using the fixed relevant national currency Euro conversion rate shall be rounded down to the nearest Euro. The Euro denominations of the *Obligations Foncières* so determined shall be notified to holders of *Obligations Foncières* in accordance with Condition 13. Any balance remaining from the redenomination with a denomination higher than Euro 0.01 shall be paid by way of cash adjustment rounded to the nearest Euro 0.01 (with Euro 0.005 being rounded upwards). Such cash adjustment will be payable in Euros on the Redenomination Date in the manner notified to holders of *Obligations Foncières* by the Issuer.
- (iii) Upon redenomination of the *Obligations Foncières*, any reference in the relevant Final Terms to the relevant national currency shall be construed as a reference to Euro.

Where ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the margin (if any). For the purposes of this sub-paragraph (B), “**ISDA Rate**” for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (a) the Floating Rate Option is as specified in the relevant Final Terms
- (b) the Designated Maturity is a period specified in the relevant Final Terms and
- (c) the relevant Reset Date is the first day of that Interest Accrual Period or such other date as specified in the relevant Final Terms.

For the purposes of this sub-paragraph (B), “**Floating Rate**”, “**Calculation Agent**”, “**Floating Rate Option**”, “**Designated Maturity**”, “**Reset Date**” and “**Swap Transaction**” have the meanings given to those terms in the ISDA Definitions.

(C) Screen Rate Determination for Floating Rate *Obligations Foncières*

- (a) Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be either:

- (i) the offered quotation; or
- (ii) the arithmetic mean of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) as at either (i) 11.00 a.m. (London time in the case of LIBOR or Brussels time in the case of EURIBOR) or, (ii) if otherwise, the Relevant Screen Page Time, on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the margin (if any), all as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation

Agent for the purpose of determining the arithmetic mean of such offered quotations.

If the Reference Rate from time to time in respect of Floating Rate *Obligations Foncières* is specified in the relevant Final Terms as being other than LIBOR or EURIBOR, the Rate of Interest in respect of such *Obligations Foncières* will be determined as provided hereon.

- (b) if the Relevant Screen Page is not available or if sub-paragraph (a)(i) applies and no such offered quotation appears on the Relevant Screen Page or if sub-paragraph (a)(ii) applies and fewer than three such offered quotations appear on the Relevant Screen Page, in each case as at the time specified above, subject as provided below, the Calculation Agent shall request, (i) if the Reference Rate is LIBOR, the principal London office of each of the Reference Banks, (ii) if the Reference Rate is EURIBOR, the principal Euro-zone office of each of the Reference Banks, or, (iii) if otherwise, each of the Reference Banks, to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time), if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if otherwise, at the Relevant Screen Page Time, on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean of such offered quotations as determined by the Calculation Agent;
- (c) if paragraph (b) above applies and the Calculation Agent determines that fewer than two Reference Banks are providing offered quotations, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time) if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if otherwise, at the Relevant Screen Page Time, on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in, if the Reference Rate is LIBOR, the London inter-bank market, if the Reference Rate is EURIBOR, the Euro-zone inter-bank market, or, if otherwise, the Relevant Inter-Bank Market, as the case may be, or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time), if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if otherwise, at the Relevant Screen Page Time, on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in, if the Reference Rate is LIBOR, the London inter-bank market, if the Reference Rate is EURIBOR, the Euro zone inter-bank market or, if otherwise, the Relevant Inter-Bank Market, as the case may be, provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest

shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Accrual Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Accrual Period);

- (d) Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined and the Reference Rate in respect of the Floating Rate *Obligations Foncières* is specified as being EONIA, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be the rate of return of a daily compound interest investment (with the arithmetic mean of the daily rates of the day-to-day Euro-zone interbank euro money market as reference rate for the calculation of interest) plus or minus (as indicated in the applicable Final Terms) the Margin (if any) and will be calculated by the Calculation Agent on the Interest Determination Date as follows, and the resulting will be rounded, if necessary, to the nearest one ten-thousandth of a percentage point, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{EONIA_i \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

Where:

“**i**” is a series of whole numbers from one to **d_o**, each representing the relevant TARGET Business Day in chronological order from, and including, the first TARGET Business Day in the relevant Interest Accrual Period;

“**d_o**” for any Interest Accrual Period, is the number of TARGET Business Days in the relevant Interest Accrual Period;

“**EONIA_i**”, for any day “**i**” in the relevant Interest Accrual Period, is a reference rate equal to the overnight rate as calculated by the European Central Bank and appearing on the Reuters Screen EONIA Page or such other page or service as may replace such page for the purposes of displaying Euro overnight index average rate of leading reference banks for deposits in Euro (the “**EONIA Page**”) in respect of that day provided that, if, for any reason, by 11.00 a.m. (Brussels time) on any such day “**i**”, no rate is published on the EONIA Page, the Calculation Agent will request any four major banks selected by it (but which shall not include the Calculation Agent) in the Euro-zone inter-bank market to provide it with their respective quotations of the rates offered by such banks at approximately 11.00 a.m. (Brussels time) on such day “**i**” to prime banks in the Euro-zone inter-bank market for Euro overnight index average rate for deposits in Euro in an amount that is, in the reasonable opinion of the Calculation Agent, representative for a single transaction in the relevant market at the relevant time. The applicable reference rate for such day “**i**” shall be the arithmetic mean (rounded if necessary, to the nearest hundredth of a percentage point, with 0.005 being rounded upwards) of at least two of the rates so quoted, it being provided that if less than two rates are provided to the Calculation Agent, the applicable reference rate shall be determined by the Calculation Agent after consultation of an independent expert;

“**n_i**” is the number of calendar days in the relevant Interest Accrual Period on which the rate is EONIA_i; and

“**d**” is the number of calendar days in the relevant Interest Accrual Period.

- (e) Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined and the Reference Rate in respect of the Floating Rate *Obligations Foncières* is specified as being CMS Rate, the Rate of Interest for each Interest Accrual Period plus or minus (as indicated in the applicable Final Terms) the margin (if any) will, subject as provided below, be determined by the Calculation Agent by reference to the following formula:

$$\text{CMS Rate} + \text{Margin}$$

If the Relevant Screen Page is not available at the Specified Time on the relevant Interest Determination Date: (i) the Calculation Agent shall request each of the CMS Reference Banks to provide the Calculation Agent with its quotation for the Relevant Swap Rate at approximately the Specified Time on the relevant Interest Determination Date; (ii) if at least three of the CMS Reference Banks provide the Calculation Agent with such quotations, the CMS Rate for such Interest Accrual Period shall be the arithmetic mean of such quotations, eliminating the highest quotation (or, in the event of equality, one of the highest quotations and the lowest quotation (or, in the event of equality, one of the lowest quotations) and (iii) if on any Interest Determination Date less than three or none of the CMS Reference Banks provides the Calculation Agent with such quotations as provided in the preceding paragraph, the CMS Rate shall be determined by the Calculation Agent on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with the then prevailing standard market practice.

For the purposes of this sub-paragraph (e):

“**CMS Rate**” shall mean the applicable swap rate for swap transactions in the Reference Currency with a maturity of the Designated Maturity, expressed as a percentage, which appears on the Relevant Screen Page as at the Specified Time on the relevant Interest Determination Date in question, all as determined by the Calculation Agent.

“**CMS Reference Banks**” means (i) where the Reference Currency is Euro, the principal office of five leading swap dealers in the inter-bank market, (ii) where the Reference Currency is Sterling, the principal London office of five leading swap dealers in the London inter-bank market, (iii) where the Reference Currency is United States dollars, the principal New York City office of five leading swap dealers in the New York City inter-bank market, or (iv) in the case of any other Reference Currency, the principal Relevant Financial Centre office of five leading swap dealers in the Relevant Financial Centre inter-bank market, in each case selected by the Calculation Agent.

“**Reference Currency**” means the currency specified as such in the applicable Final Terms.

“**Reference Financial Centre**” means, with respect to a Reference Currency, the financial centre specified as such in the applicable Final Terms.

“**Designated Maturity**”, “**Margin**”, “**Specified Time**” and “**Relevant Screen Page**” shall have the meaning given to those terms in the applicable Final Terms.

“**Relevant Swap Rate**” means:

- (i) where the Reference Currency is Euro, the mid-market annual swap rate determined on the basis of the arithmetic mean of the bid and offered rates for the annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating euro interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant Interest Accrual Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, in each case calculated on an Actual/360 day count basis, is equivalent to EUR-EURIBOR-Reuters (as defined in the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the *Obligations Foncières* (the “**ISDA Definitions**”)) with a designated maturity determined by the Calculation Agent by reference to the then prevailing standard market practice or the ISDA Definitions;
- (ii) where the Reference Currency is Sterling, the mid-market semi-annual swap rate determined on the basis of the arithmetic mean of the bid and offered rates for the semi-annual fixed leg, calculated on an Actual/365 (Fixed) day count basis, of a fixed-for-floating Sterling interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant Interest Accrual Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, in each case calculated on an Actual/365 (Fixed) day count basis, is equivalent (A) if the Designated Maturity is greater than one year, to GBP-LIBOR-BBA (as defined in the ISDA Definitions) with a designated maturity of six months or (B) if the Designated Maturity is one year or less, to GBP-LIBOR-BBA with a designated maturity of three months;
- (iii) where the Reference Currency is United States dollars, the mid-market semi-annual swap rate determined on the basis of the mean of the bid and offered rates for the semi-annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating United States dollar interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant Interest Accrual Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, calculated on an Actual/360 day count basis, is equivalent to USD-LIBOR-BBA (as defined in the ISDA Definitions) with a designated maturity of three months; and
- (iv) where the Reference Currency is any other currency of if the Final Terms specify otherwise, the mid-market swap rate as determined in accordance with the applicable Final Terms.

“**Representative Amount**” means an amount that is representative for a single transaction in the relevant market at the relevant time, as determined by the Calculation Agent.

- (f) Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined and the Reference Rate in respect of the Floating Rate *Obligations Foncières* is specified as being the TEC10, the Rate of Interest for each Interest Accrual Period will be, subject as provided below, determined by the Calculation Agent by reference to the following formula : $TEC10 + \text{Margin}$.

“**TEC10**” means the offered quotation (expressed as a percentage rate per annum) for the EUR-TEC10-CNO⁴, calculated by the *Comité de Normalisation Obligataire* (“**CNO**”), which appears on the Relevant Screen Page, being the caption “TEC10” on the Reuters Screen BDFCNOTEC Page or any successor page, as at 10.00 a.m. Paris time on the Interest Determination Date in question.

If, on any Interest Determination Date, TEC10 does not appear on Reuters Screen BDFCNOTEC Page or any successor page, (i) it shall be determined by the Calculation Agent on the basis of the mid-market prices for each of the two reference OAT (*Obligation Assimilable du Trésor*) which would have been used by the *Comité de Normalisation Obligataire* for the calculation of the relevant rate, quoted in each case by five *Spécialistes en Valeurs du Trésor* at approximately 10:00 a.m. Paris time on the Interest Determination Date in question; (ii) the Calculation Agent will request each *Spécialiste en Valeurs du Trésor* to provide a quotation of its price; and (iii) TEC10 will be the redemption yield of the arithmetic mean of such prices as determined by the Calculation Agent after discarding the highest and lowest of such quotations. The above mentioned redemption yield shall be determined by the Calculation Agent in accordance with the formula that would have been used by the *Comité de Normalisation Obligataire* for the determination of the relevant rate.

For information purposes only, the EUR-TEC10-CNO, established in April 1996, is the percentage yield (rounded to the nearest second decimal point, 0.005 per cent. being rounded upwards) of a notional 10 year French Treasury Bond (Obligation Assimilable du Trésor, “OAT”) corresponding to the linear interpolation between the yield to maturity of the two actual OATs (the “Reference OATs”) whose periods to maturity are closest in duration to the notional 10 year OAT, one Reference OAT's duration being of less than 10 years and the other Reference OAT's duration being greater than 10 years.

(iv) Rate of Interest for Inflation Linked *Obligations Foncières*:

(A) Consumer Price Index (CPI)

Where the consumer price index (excluding tobacco) for all households in France, as calculated and published by the *Institut National de la Statistique et des Etudes Economiques* (the “**INSEE**”) (“**CPI**”) is specified as the Index in the relevant Final Terms, this Condition 5(c)(iv)(A) shall apply. Terms defined herein shall have the meanings set out below only when this Condition 5(c)(iv)(A) shall apply.

The Rate of Interest in respect of Inflation Linked *Obligations Foncières* indexed to the CPI (the “**CPI Linked Interest**”) will be determined by the Calculation Agent on the following basis:

(a) On the fifth Business Day before each Interest Payment Date (an “**Interest Determination Date**”) the Calculation Agent will calculate the Inflation Index Ratio.

For the purpose of this Condition 5(c)(iv)(A), the “**Inflation Index Ratio**” or “**IIR**” is the ratio between (i) the CPI Daily Inflation Reference Index (as defined below) applicable on any Interest Payment Date, as the case may be and (ii) the base reference defined as the CPI Daily Inflation Reference Index (as defined below) applicable on the date specified in the applicable Final Terms (the “**Base Reference**”). Notwithstanding Condition 5(g)(iii), the IIR will

be rounded if necessary to five significant figures (with halves being rounded up).

“**CPI Daily Inflation Reference Index**” means (i) in relation to the first day of any given calendar month, the CPI Monthly Reference Index of the third month preceding such month, and (ii) in relation to a day D (other than the first day) in any given calendar month (“M”), the linear interpolation of the CPI Monthly Reference Index pertaining respectively to the third calendar month preceding such month (“M – 3”) and the second calendar month preceding such month (“M – 2”) calculated in accordance with the following formula:

CPI Daily Inflation Reference Index=

$$\text{CPI Monthly Reference Index}_{M-3} + \frac{D-1}{ND_M} \times (\text{CPI Monthly Reference Index}_{M-2} - \text{CPI Monthly Reference Index}_{M-3})$$

With:

“**ND_M**” number of days in the relevant month M and, in the case of payment of principal or interest, shall be equal to 31;

For information purposes, such CPI Daily Inflation Reference Index appears on the Agence France Trésor Reuters page OATINFLATION01 or on Bloomberg TRESOR <GO> pages and on the website www.aft.gouv.fr. In the case of doubt in the interpretation of the methods used to calculate the Inflation Index Ratio, such methods shall be interpreted by reference to the procedures selected by the French Treasury (Trésor) for its obligations assimilables du Trésor indexées sur l'inflation.

“**CPI Monthly Reference Index**” means the definitive consumer price index excluding tobacco for all households in France, as calculated and published monthly by the INSEE as such index may be adjusted or replaced from time to time as provided herein.

- (b) The calculation method described below is based on the recommendation issued by the French Bond Association (*Comité de Normalisation Obligataire* – www.cnofrance.org) in its December 2010 Paper entitled “*Inflation Indexed Obligations Foncières*” (*Obligations et autres instruments de taux d'intérêt en euro, Normes et usages des marchés de capitaux – Chapitre II: Les obligations indexées sur l'inflation*). In the case of any conflict between the calculation method provided below and the calculation method

provided by the French Bond Association (*Comité de Normalisation Obligataire*), the calculation method provided by the French Bond Association (*Comité de Normalisation Obligataire*) shall prevail.

The CPI Linked Interest applicable from time to time for each Interest Accrual Period (as specified in the relevant Final Terms) will be equal to the fixed rate *per annum* specified in the relevant Final Terms multiplied by the Inflation Index Ratio (as defined above).

(c)

(1) If the CPI Monthly Reference Index is not published in a timely manner, a substitute CPI Monthly Reference Index (the “**Substitute CPI Monthly Reference Index**”) shall be determined by the Calculation Agent in accordance with the following provisions:

(x) If a provisional CPI Monthly Reference Index (*indice provisoire*) has already been published, such index shall automatically be used as the Substitute CPI Monthly Reference Index. Once the definitive CPI Monthly Reference Index is released, it would automatically apply from the day following its release to all calculations taking place from this date.

(y) If no provisional CPI Monthly Reference Index is available, a substitute index shall be calculated on the basis of the most recently published figure adjusted as set out in the following formula:

Substitute CPI Monthly Reference Index_M=

$$\text{CPI Monthly Reference Index}_{M-1} \times \frac{\text{CPI Monthly Reference Index}_{M-1}}{\text{CPI Monthly Reference Index}_{M-13}} \frac{1}{12}$$

(2) In the event INSEE decides to proceed with one or more base changes for the purpose of calculating the CPI Monthly Reference Index, the two CPI Monthly Reference Indexes which have been calculated on a different basis will be chained on the basis of the December CPI Monthly Reference Index of the last year of joint publications, which corresponds to the CPI Daily Inflation Reference Index for 1st March of the following year. Such chaining will be carried out in accordance with the following equation:

$$\text{Key} = \frac{\text{CPI Monthly Reference Index}_{\text{pertaining to December calculated on the new basis}}}{\text{CPI Monthly Reference Index}_{\text{pertaining to December calculated on the previous basis}}}$$

Such that:

$$\text{CPI Monthly Reference Index}_{\text{Date D New Basis}} = \text{CPI Monthly Reference Index}_{\text{Date D Previous Basis}} \times \text{Key}$$

(B) Harmonised Index of Consumer Prices (HICP)

HICP Daily Inflation Reference Index =

$$\text{HICP Monthly Reference Index}_{M-3} + \frac{D-1}{ND_M} \times (\text{HICP Monthly Reference Index}_{M-2} - \text{HICP Monthly Reference Index}_{M-3})$$

“**HICP Monthly Reference Index**” means to the harmonised index of consumer prices excluding tobacco measuring the rate of inflation in the European Monetary Union excluding tobacco as calculated and published by Eurostat as such index may be adjusted or replaced from time to time as provided herein. The first publication or announcement of a level of such index for a given month shall be final and conclusive and later revisions to the level for such month will not be used in any calculations.

- (b) The HICP Linked Interest applicable from time to time for each Interest Accrual Period (as specified in the relevant Final Terms) will be equal to the fixed rate *per annum* specified in the relevant Final Terms multiplied by the Inflation Index Ratio (as defined above).

Once the definitive HICP Monthly Reference Index is released, it would automatically apply from the day following its release to all calculations taking place from this date.
 - (y) If no provisional HICP Monthly Reference Index is available, a substitute index shall be calculated on the basis of the most recently published figure adjusted as set out in the following formula:

Substitute HICP Monthly Reference Index_M =

$$\text{HICP Monthly Reference Index}_{M-1} \times \frac{\text{HICP Monthly Reference Index}_{M-1}}{\text{HICP Monthly Reference Index}_{M-13}} \frac{1}{12}$$

- (2) In the event Eurostat decides to proceed with one or more base changes for the purpose of calculating the HICP Monthly Reference Index, the two HICP Monthly Reference Indexes which have been calculated on a different basis will be chained on the basis of the December HICP Monthly Reference Index of the last year of joint publications, which corresponds to the HICP Daily Inflation Reference Index for 1st March of the following year.

Such chaining will be carried out in accordance with the following equation:

$$\text{Key} = \frac{\text{HICP Monthly Reference Index}_{\text{pertaining to December calculated on the new basis}}}{\text{HICP Monthly Reference Index}_{\text{pertaining to December calculated on the previous basis}}}$$

Such that:

$$\text{HICP Monthly Reference Index}_{\text{Date D New Basis}} = \text{HICP Monthly Reference Index}_{\text{Date D Previous Basis}} \times \text{Key}$$

6 Redemption, Purchase and Options

- (a) **Final Redemption:** Unless previously redeemed, purchased and cancelled as provided below, each *Obligation Foncière* shall be finally redeemed on the Maturity Date specified in the relevant Final Terms at its Final Redemption Amount (which, unless otherwise provided, is its nominal amount).
- (b) **Redemption at the Option of the Issuer, and Partial Redemption:** If Call Option is specified in the relevant Final Terms, the Issuer may, on giving not less than 5 nor more than 30 days’ irrevocable notice in accordance with Condition 13 to the holders of *Obligations Foncières* (or such other notice period if specified in the relevant Final Terms), redeem all or, if so provided, some, of the *Obligations Foncières* on any Optional Redemption Date.

Any such redemption of *Obligations Foncières* shall be at their Optional Redemption Amount together with interest accrued to the date fixed for redemption, if any. Any such redemption must relate to *Obligations Foncières* of a nominal amount at least equal to the Minimum Redemption Amount to be redeemed as specified in the relevant Final Terms and no greater than the Maximum Redemption Amount to be redeemed specified in the relevant Final Terms.

All *Obligations Foncières* in respect of which any such notice is given shall be redeemed on the date specified in such notice in accordance with this Condition.

Materialised *Obligations Foncières* may be redeemed in all or in part. In the case of a partial redemption the notice to holders of Materialised *Obligations Foncières* shall also contain the numbers of the definitive Bearer Materialised *Obligations Foncières* to be redeemed which shall have been drawn in such place and in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices, subject to compliance with any applicable laws and Regulated Market or stock exchange requirements.

In the case of a partial redemption of Dematerialised *Obligations Foncières*, the redemption may be effected by reducing the nominal amount of all such Dematerialised *Obligations Foncières* in a Series in proportion to the aggregate nominal amount redeemed.

- (c) **Redemption of Inflation Linked *Obligations Foncières*:** If so specified in the relevant Final Terms, the Final Redemption Amount in respect of Inflation Linked *Obligations Foncières* will be determined by the Calculation Agent on the following basis:

Final Redemption Amount = IIR x nominal amount of the *Obligations Foncières*

If the Final Redemption Amount calculated as set out above is below par, the *Obligations Foncières* will be redeemed at par.

For the purpose of this Condition 6(c) only, “**IIR**” means the ratio determined on the fifth Business Day before the Maturity Date between (i) if the CPI is specified as the Index applicable in the Final Terms, the CPI Daily Inflation Reference Index (as defined in Condition 5(c)(iv)(A)) on the Maturity Date and the Base Reference on the date specified in the relevant Final Terms or (ii) if the HICP is specified as the Index applicable in the Final Terms, the HICP Daily Inflation Reference Index (as defined in Condition 5(c)(iv)(B)) on the Maturity Date and the Base Reference on the date specified in the relevant Final Terms.

- (d) **Early Redemption:**

(i) *Zero Coupon Obligations Foncières:*

(A) The Early Redemption Amount payable in respect of any *Zero Coupon Obligation Foncière*, the Early Redemption Amount of which is not linked to an index and/or a formula, upon redemption of such *Obligation Foncière* pursuant to Condition 6(e) if so specified in the relevant Final Terms shall be the Amortised Nominal Amount (calculated as provided below) of such *Obligation Foncière*.

(B) Subject to the provisions of sub-paragraph (C) below, the Amortised Nominal Amount of any such *Obligation Foncière* shall be the scheduled Final Redemption Amount of such *Obligation Foncière* on the Maturity Date discounted at a rate per annum (expressed as a percentage) equal to the Amortisation Yield (which, if none is specified in the relevant Final Terms, shall be such rate as would produce an Amortised Nominal Amount equal to the issue price of the *Obligations Foncières* if they were discounted back to their issue price on the Issue Date (the “**Amortisation Yield**”)) compounded annually.

(C) If the Early Redemption Amount payable in respect of any such *Obligation Foncière* upon its redemption pursuant to Condition 6(e) is not paid when due, the Early Redemption Amount due and payable in respect of such *Obligation Foncière* shall be the Amortised Nominal Amount of such *Obligation Foncière* as defined in sub-paragraph (B) above, except that such sub-paragraph shall have effect as though the date on which the Amortised Nominal becomes due and payable was the Relevant Date. The calculation of the Amortised Nominal Amount in accordance with this

sub-paragraph shall continue to be made (both before and after judgment) until the Relevant Date, unless the Relevant Date falls on or after the Maturity Date, in which case the amount due and payable shall be the scheduled Final Redemption Amount of such *Obligation Foncière* on the Maturity Date together with any interest that may accrue in accordance with Condition 5(f).

Where such calculation is to be made for a period of less than one year, it shall be made on the basis of the Day Count Fraction specified in the applicable Final Terms.

(ii) Inflation Linked *Obligations Foncières*:

- (A) If the relevant Final Terms provides that Condition 6(d)(ii) shall apply in respect of Inflation Linked *Obligations Foncières*, the Early Redemption Amount of such *Obligations Foncières* in respect of such *Obligations Foncières*, as the case may be, will be determined by the Calculation Agent on the following basis:

“**Early Redemption Amount**” = IIR x nominal amount of the *Obligations Foncières*

For the purpose of this Condition only, “**IIR**” means the ratio determined on the fifth Business Day before the date set for redemption between (i) if the CPI is specified as the Index applicable in the Final Terms, the CPI Daily Inflation Reference Index (as defined in Condition 5(c)(iv)(A)) on the date set for redemption and the Base Reference specified in the relevant Final Terms or (ii) if the HICP is specified as the Index applicable in the Final Terms, the HICP Daily Inflation Reference Index (as defined in Condition 5(c)(iv)(B)) on the date set for redemption and the Base Reference specified in the relevant Final Terms.

If the Early Redemption Amount calculated as set out above is below par, the *Obligations Foncières* will be redeemed at par.

- (B) If the Inflation Linked *Obligations Foncières* (whether or not Condition 6(d)(ii) applies) fall to be redeemed for whatever reason before the Maturity Date, the Issuer will pay the Early Redemption Amount together with interest accrued to the date set for redemption. Such accrued interest will be calculated by the Calculation Agent in respect of the period from, and including the immediately preceding Interest Payment Date or, as the case may be, the Interest Commencement Date to, but excluding, the date set for redemption of such *Obligations Foncières* at a rate per annum on the basis of the provisions of Condition 5(c)(iv) above except that, for such purposes the relevant Interest Determination Date shall be the fifth Business Day prior to the relevant Early Redemption Date.

- (iii) Other *Obligations Foncières*: The Early Redemption Amount payable in respect of any *Obligation Foncière* (other than *Obligations Foncières* described in (i) and (ii) above), upon redemption of such *Obligations Foncières* pursuant to Condition 6(e), if so provided in the relevant Final Terms, shall be the Final Redemption Amount.

- (e) **No Redemption for Taxation Reasons:** If French law should require that payments of principal or interest in respect of any *Obligation Foncière* or Coupon be subject to withholding or deduction in respect of any present or future taxes or duties whatsoever, such *Obligation Foncière* will not, unless otherwise specified in the relevant Final Terms, be redeemed early. If such early redemption is provided in the relevant Final Terms, notice of such early redemption shall be given in accordance with Condition 13.
- (f) **Purchases:** The Issuer shall have the right at all times to purchase *Obligations Foncières* (provided that, in the case of Materialised *Obligations Foncières*, all unmatured Coupons and unexchanged Talons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise at any price. All *Obligations Foncières* so purchased by the Issuer may be held and resold for the purpose of enhancing the liquidity of the *Obligations Foncières* in accordance with Articles L.213-1 A and D.213-1 A of the French Monetary and Financial Code.
- (g) **Cancellation:** All *Obligations Foncières* purchased for cancellation by or on behalf of the Issuer will forthwith be cancelled, in the case of Dematerialised *Obligations Foncières*, by transfer to an account in

accordance with the rules and procedures of Euroclear France and, in the case of Bearer Materialised *Obligations Foncières*, by surrendering Temporary Global Certificate or the definitive Bearer Materialised *Obligations Foncières* in question together with all unmatured Coupons and all unexchanged Talons to the Fiscal Agent and, in each case, if so transferred or surrendered, shall, together with all *Obligations Foncières* redeemed by the Issuer, be cancelled forthwith (together with, in the case of Dematerialised *Obligations Foncières*, all rights relating to payment of interest and other amounts relating to such Dematerialised *Obligations Foncières* and, in the case of Materialised *Obligations Foncières*, all unmatured Coupons and unexchanged Talons attached thereto or surrendered therewith). Any *Obligations Foncières* so cancelled or, where applicable, transferred or surrendered for cancellation may not be reissued or resold and the obligations of the Issuer in respect of any such *Obligations Foncières* shall be discharged.

- (h) **Subscription and use as collateral:** Notwithstanding this Condition 6, the Issuer may, pursuant to Article L.513-26 of the French Monetary and Financial Code, subscribe its own *Obligations Foncières* for the sole purpose of pledging them as collateral for the credit operations of the *Banque de France* in accordance with the procedures and conditions laid out by it for its monetary policy and intraday credit operations, in instances where the Issuer is unable to meet its cash-flow needs with other means available to it.

The Representative will be entitled, as the case may be, to such remuneration in connection with its functions or duties as set out in the relevant Final Terms.

In the event of death, retirement or revocation of appointment of the Representative, such Representative will be replaced by the alternate Representative. In the event of the death, retirement or revocation of appointment of the alternate Representative, an alternate will be elected by the General Meeting.

All interested parties will at all times have the right to obtain the names and addresses of the initial Representative and the alternate Representative at the head office of the Issuer and the specified offices of any of the Paying Agents.

General Meetings may deliberate validly on first convocation only if holders of *Obligations Foncières* present or represented hold at least one fifth of the principal amount of the *Obligations Foncières* then outstanding. On second convocation, no quorum shall be required. Decisions at meetings shall be taken by a two-third majority of votes cast by holders of *Obligations Foncières* attending such General Meetings or represented thereat.

The Representative appointed in respect of the first Tranche of any Series of *Obligations Foncières* will be the Representative of the single *Masse* of all Tranches in such Series.

For the avoidance of doubt, in this Condition 10, the term “**outstanding**” shall not include those *Obligations Foncières* subscribed or purchased by the Issuer pursuant to, respectively, Articles L.513-26 and L.213-1 A of the French Monetary and Financial Code that are held by it and not cancelled.

DESCRIPTION OF CAISSE FRANÇAISE DE FINANCEMENT LOCAL

Caisse Française de Financement Local is a limited liability company (*société anonyme à directoire et conseil de surveillance*) organised under the laws of the Republic of France. It is licensed as a specialized credit institution that is authorized to operate as a *société de crédit foncier*, which is a restricted category of credit institution with a specific purpose. See “Description of Caisse Française de Financement Local – The Legal Regime Applicable to Caffil – Legislation Relating to *Sociétés de Crédit Foncier*”.

Caisse Française de Financement Local was approved by the *Comité des établissements de crédit et des entreprises d'investissement* (an institution now merged in the French *Autorité de contrôle prudentiel et de résolution* (the “**French Resolution and Prudential Control Authority**”)) on 30 August 1999, as *société financière – société de crédit foncier*. This approval became definitive on 1 October 1999. It is governed by the provisions of Articles L.210-1 and following of the French Code of Commerce, Articles L.511-1 and following and R.511-1 and following of the French Monetary and Financial Code and Articles L.513-2 and following and R.513-1 and following of the French Monetary and Financial Code.

With ordinance 2013-544 of 27 June 2013, French law was aligned with European regulations (transposition of the new Basel III prudential framework) in order to harmonize the status of *établissement de crédit* (credit institution) at the level of the European Union. This ordinance on *établissements de crédit* and *sociétés de financement* modified the status of certain institutions and in particular that of *sociétés financières*. Thus, since 1 January 2014, *sociétés de crédit foncier*, and *sociétés de financement de l'habitat* have become *établissements de crédit spécialisés*. This ordinance also modified the numbers of the articles of the Monetary and Financial Code that define the legal framework of *sociétés de crédit foncier*. Articles L.513-2 to L.513-27 replace Articles L.515-13 to L.515-33.

Under the French regulatory framework and as set out in Article 2 of Caisse Française de Financement Local 's by-laws and in compliance with its license, Caisse Française de Financement Local may only make or acquire public sector exposures, acquire public sector obligations, and acquire debt securities backed by public sector obligations (the “**Eligible Assets**”). Caisse Française de Financement Local is also permitted to invest in certain highly liquid cash-like securities, instruments and deposits and loans (the “**Replacement Assets**”). However, Caisse Française de Financement Local may not hold equity participations or other forms of equity interest. Caisse Française de Financement Local finances its business principally by the issuance of *obligations foncières* and other forms of privileged debt benefiting from a legal priority in right of payment.

Holders of *obligations foncières* issued by Caisse Française de Financement Local benefit from a legal priority in right of payment called the *privilège* on all assets and cash flows of Caisse Française de Financement Local. Pursuant to French law, when a *société de crédit foncier* is subject to bankruptcy proceedings (*procédure de sauvegarde, de redressement ou de liquidation judiciaires*) or to conciliation proceedings with its creditors (*procédure de conciliation*), no other creditors of a *société de crédit foncier*, and therefore of Caisse Française de Financement Local, can claim cash flows generated by its asset portfolio until Caisse Française de Financement Local's obligations in respect of its privileged liabilities are discharged in full. Caisse Française de Financement Local 's privileged liabilities, which rank *pari passu* among themselves, are comprised of *obligations foncières* or other forms of privileged debt, liabilities to derivative counterparties, and liabilities to Société de Financement Local (“**SFIL**”) and other entities under the management and loan service agreements. See “Description of Caisse Française de Financement Local – The Legal Regime Applicable to Caffil – The *Privilège* (Statutory Priority in Right of Payment)”.

Caisse Française de Financement Local may also fund the above-mentioned activities by issuing bonds or other sources of financing that do not benefit from the *privilège* defined in Article L.513-11 of the French Monetary and Financial Code. This debt includes a current account agreement with SFIL and a long-term revolving credit facility granted by SFIL with unlimited drawdown capacity which finances the portion of assets comprising the over-collateral and other liquidity needs.

Shareholding structure of Société de Financement Local

On 31 January 2013, SFIL acquired 100% of the capital of Dexia Municipal Agency which took the name Caisse Française de Financement Local. SFIL is a credit institution approved by the *Autorité de contrôle prudentiel et de résolution*. It plays a key role in the French State's new organization of local government financing and funding for public hospitals in France.

SFIL's shareholders are the French State (75%), Caisse des Dépôts et Consignations (20%) and La Banque Postale (5%). The French State is also the direct shareholder of Caisse des Dépôts et Consignations and an indirect shareholder of La Banque Postale.

For French regulatory authorities (*Autorité de contrôle prudentiel et de résolution*), the French State is the "reference" shareholder of SFIL and Caisse Française de Financement Local, underlining its commitment to ensure oversight and to influence strategic decisions, as well as its determination to ensure ongoing financial transactions by SFIL and Caisse Française de Financement Local if so required.

The role of SFIL is to support the activities of Caisse Française de Financement Local as a servicer, as defined by the regulations that apply to *sociétés de crédit foncier*, in particular Article L.513-15 of the Monetary and Financial Code. The three missions of SFIL are the following:

- SFIL is the servicer of Caisse Française de Financement Local, and within this framework, in particular conducts comprehensive operational management for the Company and provides Caisse Française de Financement Local with the non-privileged funding and derivatives its activity requires.
- SFIL also operationally manages the reduction in the sensitivity of the structured loans booked on Caisse Française de Financement Local 's balance sheet.
- SFIL likewise provides services for La Banque Postale and the joint venture La Banque Postale Collectivités Locales in the areas of commercial support, financial control, risk management and back office.

Caisse des Dépôts et Consignations (CDC) and La Banque Postale make available to SFIL the resources it needs to finance its operations. On 31 January 2013, SFIL signed a declaration of support of Caisse Française de Financement Local, which is reproduced in the annual report – General information.

Since the end of 2012, La Banque Postale markets loans to the French local public sector and public hospitals. The loans originated are exclusively in euros with a vanilla interest rate. Within the framework of the new organization of the financing of the French local public sector and public hospitals, Caisse Française de Financement Local and La Banque Postale signed a partnership agreement. La Banque Postale committed to propose to Caisse Française de Financement Local all the loans that would be eligible for its cover pool.

This partnership is based on an analysis of the credit risk of the loans in two stages.

- When the loan is originated, an initial analysis of the customer is carried out simultaneously at the two entities. The loans that do not meet the credit criteria of Caisse Française de Financement Local will not be transferred to its balance sheet. Caisse Française de Financement Local's eligibility criteria are strictly monitored by internal management policies and limit eligible counterparties to exposures on the French local public sector and public hospitals.

- Before loans originated by La Banque Postale are transferred to Caisse Française de Financement Local, a new analysis of the assets is conducted, and Caisse Française de Financement Local may refuse a loan prior to the transfer if it does not meet its criteria.

The sale of loans to Caisse Française de Financement Local is carried out by using a transfer form (*bordereau*) that is specific to *sociétés de crédit foncier* in accordance with Article R.513-11 of the French Monetary and Financial Code.

Starting in 2015, in the context of the extension of its activities to the refinancing of large export credit, Caisse Française de Financement Local grants loans to banks, including its parent company SFIL, to refinance their export credits. These refinancing loans benefit from an irrevocable and unconditional 100% guarantee provided by Coface acting on behalf of, and with the guarantee of the French State.

Caisse Française de Financement Local is governed by an Executive Board and a Supervisory Board. See “Administrative, Management and Supervisory Bodies”.

Caisse Française de Financement Local's registered office is located at 1 à 3, rue du Passeur de Boulogne - 92 130 Issy-les-Moulineaux - France (Telephone: +33 1 71 02 90 90), it is registered as a *société anonyme à directoire et conseil de surveillance* with the *Registre du commerce et des sociétés* of Nanterre under the number 421 318 064.

THE LEGAL REGIME APPLICABLE TO CAFFIL

The *Privilège* (Statutory Priority in Right of Payment)

Obligations foncières are specialized covered bond products that can only be issued by credit institutions licensed and regulated in France as *sociétés de crédit foncier*. *Obligations foncières* benefit from the legal *privilège* under French law which provides a priority in right of payment on all assets and cash flow of Caffil to the holders of *obligations foncières* and other privileged debt. Caffil's total assets must always exceed liabilities benefiting from the *privilège* in accordance with Article L.513-12 of the French Monetary and Financial Code.

The legal *privilège* is governed by Article L.513-11 of the French Monetary and Financial Code and has the following characteristics:

- the amounts received in respect of the loans, assimilated receivables, exposures, securities and instruments that qualify as Eligible Assets or Replacement Assets and from the financial instruments used for hedging (after any applicable netting), together with the claims in respect of deposits made by the *société de crédit foncier* with credit institutions, are allocated in priority for the payment of any sums due in relation to liabilities benefiting from the *privilège*, including the *obligations foncières*, Caffil's derivative counterparties and payments to SFIL under the loan service agreements between them;
- when a *société de crédit foncier* is subject to bankruptcy proceedings (*procédure de sauvegarde, de redressement ou de liquidation judiciaires*) or to conciliation proceedings with its creditors (*procédure de conciliation*), liabilities benefiting from the *privilège*, as described in the preceding paragraph, are paid on their contractual due date, and in priority to all other debts, whether or not preferred or secured, including interest resulting from agreements whatever their duration. No other creditor of a *société de crédit foncier* may exercise any right over the assets and cash flows of such *société de crédit foncier* until all holders of *obligations foncières* and other debts benefiting from the *privilège* have been paid in full;
- the judicial liquidation (*liquidation judiciaire*) of a *société de crédit foncier* will not result in the acceleration of payment of *obligations foncières* or other debts benefiting from the *privilège*; and
- in order to maintain the *privilège* granted to holders of *obligations foncières* and other privileged debts, a *société de crédit foncier* can not have any employees. A *société de crédit foncier* must, therefore, entrust the management of its operations to another credit institution or credit institutions with which it has signed an agreement. Payments arising under the loan service agreements with SFIL benefit from the *privilège* to the same extent as any privileged debt.

Legislation Relating to *Sociétés de Crédit Foncier*

Article L.513-2 of the French Monetary and Financial Code provides that the sole purpose of a *société de crédit foncier* is:

- to grant or acquire guaranteed loans, exposures to public sector entities and securities and instruments referred to in Articles L.513-3 to L.513-7 of the French Monetary and Financial Code (see below); and
- in order to finance such categories of loans, exposures, securities and instruments, to issue *obligations foncières* benefiting from the *privilège* or to issue other debt pursuant to an offering contract or any other equivalent document that refers to the *privilège*.

Sociétés de crédit foncier may also fund the activities referred to above through the issue of bonds or other sources of financing which do not benefit from the *privilège*. They may also issue promissory notes (*billets à ordre*).

Sociétés de crédit foncier may carry out temporary transfers of securities; pledge a securities account and pledge or transfer all or part of the receivables held by them in accordance with the applicable provisions of the French Monetary and Financial Code. The receivables or securities thus transferred or pledged are not included in the Cover Pool (as such term is defined in “Risk Factors – Risk Factors Relating to the Issuer – Risk of default in its Cover Pool”) defined in Article L.513-11 (*assiette du privilège*) and are not taken into account for the calculation of the overcollateralization ratio.

Eligible exposures to public sector entities mentioned in Article L.513-2 of the French Monetary and Financial Code that may be included in the Cover Pool, are assets such as loans, certain debt securities or off-balance-sheet exposures to the entities listed below or fully guaranteed by them.

- Central governments, central banks, public institutions or local authorities located in a Member State of the European Community or within the European Economic Area, in the United States of America, Switzerland, Japan, Canada, Australia or New Zealand (collectively, the "**Eligible States**");
- Central governments or central banks not located in an Eligible State, but who benefit from the highest level of credit quality⁷ established by a credit rating agency recognized by the French Resolution and Prudential Control Authority;
- The European Community, the International Monetary Fund, the Bank for International Settlements, multilateral development banks (the list of which has been set by decree of the Minister of the Economy), other international organizations and multilateral development banks benefiting from the highest level of credit quality established by a credit rating agency recognized by the French Resolution and Prudential Control Authority;
- Public institutions and local authorities not located in an Eligible State if financial exposure to such persons are subject, for the determination of capital adequacy, to the same requirements as those used for central governments, central banks or credit institutions, or fully guaranteed by such persons, and benefiting from the highest level of credit quality established by a credit rating agency recognized by the French Resolution and Prudential Control Authority; and
- Public institutions and local authorities mentioned in the bullet point above benefiting from the second-highest level of credit quality⁸ established by a credit rating agency recognized by the French Resolution and Prudential Control Authority, provided that such exposures are limited to 20% of the total outstanding nominal amount of the *obligations foncières* and other sources of financing benefiting from the *privilège*.

Eligible Assets of the public sector entities described above include, among other things:

- debt securities issued, or fully guaranteed, by one or more of the public sector entities mentioned above;
- monetary claims, including those resulting from a successive performance contract, against the public sector entities referred to above, or fully guaranteed by one or more of such public sector entities;
- debt stemming from leasing contracts or equivalent contracts to which a public sector entity referred to above is party in the capacity of lessee or tenant, or debt stemming from leasing contracts or equivalent contracts fully guaranteed by one or more of those public sector entities. *Sociétés de crédit foncier* that acquire debt resulting from a leasing contract may also acquire all or part of the debt that results from the sale of the leased property.

Eligible Assets also include securities issued by a securitization vehicle (*organisme de titrisation*) and securities issued by similar entities (such as asset-backed securities or mutual funds) registered under the law of a Member State of the European Union or of the European Economic Area, the United States of America, Switzerland, Japan, Canada, Australia or New Zealand provided that at least 90% of the assets held by these securitization vehicles must otherwise be Eligible Assets. These securities must benefit from the highest level of credit quality established by a credit rating agency recognized by the French Resolution and Prudential Control Authority.

In order to hedge its interest and currency risks on loans, exposures, *obligations foncières* and other sources of financing benefiting from the *privilège*, or its global interest rate risk, *sociétés de crédit foncier* may use derivative instruments as defined in Article L.211-1 of the French Monetary and Financial Code. Any amounts payable pursuant to these financial instruments, after applicable netting, contracted to hedge its Eligible Assets and

⁷ highest level of credit quality (or Step 1): AAA to AA- for Fitch Ratings Ltd., Aaa to Aa3 for Moody's Investors Services, Inc. or AAA to AA- for Standard and Poor's Ratings Services.

⁸ second-highest level of credit quality (or Step 2): A+ to A- for Fitch Ratings Ltd., A1 to A3 for Moody's Investors Services, Inc. or A+ to A- for Standard and Poor's Ratings Services.

Replacement Assets, its liability items benefiting from the *privilège* and to manage or hedge the global risk on its assets, its liabilities and its off-balance sheet, benefit from the *privilège*.

According to Article L.513-7, *sociétés de crédit foncier* may hold as part of the Cover Pool Replacement Assets, including securities, instruments and deposits which are sufficiently safe and liquid. Article R.513-6 of the French Monetary and Financial Code defines these Replacement Assets as debts due from credit institutions benefiting from the highest level of credit quality⁶ established by an external rating agency recognized by the Prudential Control Authority. If any debt has a maturity of less than 100 days, the rating can be the second highest level of credit quality⁷ for purposes of consideration as Replacement Assets. The total amount of the Replacement Assets is limited to 15% of the total outstanding nominal amount of the *obligations foncières* and other sources of financing benefiting from the *privilège*.

A *société de crédit foncier* is not allowed to hold equity securities issued by other companies.

Sociétés de crédit foncier must ensure, at all times, the coverage of their cash requirements over a period covering the next 180 days, while taking into account forecast flows of the principal and interest on its assets and the amounts related to derivatives as mentioned in Article L.513-10 of the French Monetary and Financial Code. Article L.513-26 of the French Monetary and Financial Code provides that a *société de crédit foncier* may subscribe to its own *obligations foncières* for the sole purpose of pledging them as collateral for the credit operations of the *Banque de France* in accordance with the procedures and conditions laid out by it for its monetary policy and intraday credit operations, in instances where the *société de crédit foncier* is unable to meet its cash-flow needs by other means available to it. The *obligations foncières* thus subscribed must satisfy the following conditions:

- they may represent a maximum of 10% of the total outstanding debt benefiting from the *privilège* at the acquisition date;
- they are deprived of voting rights in general meetings of bondholders, for so long as they are held by the *société de crédit foncier*;
- they must be posted as collateral to the *Banque de France*; in the absence of this allocation, they must be cancelled within 8 days; and
- they cannot be subscribed by third parties.

The *contrôleur spécifique* must certify that the above mentioned conditions are fulfilled and submit a report on this matter to the French Resolution and Prudential Control Authority.

In addition:

- the provisions on bankruptcy which permit certain transactions entered into in the months preceding the bankruptcy to be declared void, do not apply to *sociétés de crédit foncier*;
- the bankruptcy proceedings (*procédure de sauvegarde, de sauvegarde financière accélérée, de redressement, de liquidation judiciaires* or, as from 1st July 2014, *procédure de sauvegarde accélérée*) of a shareholder of a *société de crédit foncier* cannot be extended to the *société de crédit foncier* itself;
- any service/loan service agreement pursuant to which a *société de crédit foncier* has delegated to another credit institution the management or the recovery of loans, exposures, assimilated debts, securities, instruments and bonds or other sources of financing referred to in Article L.513-2 of the French Monetary and Financial Code may be immediately terminated upon the opening of bankruptcy proceedings (*procédure de sauvegarde, de sauvegarde financière accélérée, de redressement, de liquidation judiciaires* or, as from 1st July 2014, *procédure de sauvegarde accélérée*) affecting that credit institution;
- a *société de crédit foncier* is not legally allowed to have a subsidiary or hold an equity interest in another company; and
- in case of bankruptcy proceedings (*procédure de sauvegarde, de sauvegarde financière accélérée, de redressement, de liquidation judiciaires* or, as from 1st July 2014, *procédure de sauvegarde accélérée*) of a

société de crédit foncier, the *contrôleur spécifique* will be responsible for filing claims on behalf of creditors benefiting from the *privilège*.

Sociétés de crédit foncier are obliged to respect, at any time, a ratio ensuring coverage of privileged resources by assets, including replacement assets, at least equal to 105%. Calculation of this coverage ratio is set out in regulation no. 99-10 of the Committee of banking and financial regulation, as amended from time to time (the *Comité de la réglementation bancaire et financière* or “**CRBF**”).

Sociétés de crédit foncier submit their Coverage Ratio to the French Resolution and Prudential Control Authority on 31 March, 30 June, 30 September and 31 December of each year. Pursuant to Article 13 of the regulation no. 99-10 of the CRBF, *sociétés de crédit foncier* must send to the Prudential Control Authority no later than on June 10 of each year information relating to the quality of their assets. This report is published within 45 days of a general meeting approving the financial statements of the year then ended. In particular, the characteristics, details of the distribution of loans or exposures and guarantees, the total of any unpaid amounts, the distribution of debts by amount and by category of debtors, the proportion of early repayments, and the level and sensitivity of the position of rates are required to be included as part of the latter report.

The Minister of Finances conducted a project designed to adapt the regulatory framework of *sociétés de crédit foncier* (SCF) and *sociétés de financement de l’habitat* (SFH) in an attempt to bolster the prudential framework of SCF/SFH and guarantee the eligibility of issues with the best prudential treatment.

These measures mainly consist in:

- raising the level of minimum over-collateralization from 2% to 5%;
- limiting the exposure of an SCF or SFH to the exposure to its parent company by modifying the modalities by which the cover ratio and the liquidity coefficient are calculated;
- imposing greater congruence between asset/liability maturities with the introduction of an annual cover plan and the maintenance of a duration of the average life of eligible assets, considered as the minimum amount required to satisfy the cover ratio of 5%, not exceeding by more than 18 months that of the privileged liabilities;
- rendering effective the possibility of a transfer of servicing the SCF/SFH via the annual setting up of a servicing transfer plan submitted to the *Autorité de contrôle prudentiel et de résolution*.
- limiting eventually the use of securitizations.

These measures, published in the *Journal Officiel*, take effect as from 26 May 2014.

Caisse Française de Financement Local is able to respect all of these changes before the specified deadlines.

BUSINESS OVERVIEW

Caisse Française de Financement Local's exclusive purpose is (as per Article 2 of the by-laws):

- to grant or acquire exposures on public sector entities as defined in Articles L.513-4 of the French Monetary and Financial Code as well as assets considered as exposures to public sector entities as defined in Article L.513-5 of the same code;
- to hold securities or other assets under the conditions set by decree to be considered as replacement asset (*valeurs de remplacement*);
- in order to finance the above-mentioned loans, to issue *obligations foncières*, benefiting from the *privilège* defined in Article L.513-11 of the French Monetary and Financial Code and to raise other funds, under issue or subscription contract referring to the *privilège*.

Caisse Française de Financement Local may also fund the above mentioned activities by issuing bonds or other sources or financing that do not benefit from the *privilège* defined in Article L.513-11 of the French Monetary and Financial Code.

Pursuant to Articles L.313-23 to L.313-35 of the French Monetary and Financial Code (previously French law n° 81-1 of 2 January 1981 facilitating corporate borrowing), Caisse Française de Financement Local may assign all the assets it owns, whatever the nature (whether professional or not).

The following paragraph summarises the Caisse Française de Financement Local's main general framework of activities:

General market considerations

The French government has announced cuts in transfers to French local authorities by EUR 12.5 billion between 2014 to 2017. This will represent a reduction in total revenues of French local authorities, EUR 214 billion for the year 2014, by an equivalent of 5.8%. For the year 2014, these measures did not lead to a change in borrowing needs for local authorities, as a reduction in investment expenditures compensated the reduction in transfer payments. In this context, the budget deficit of French local authorities has been reduced to 0.2% of GDP in 2014, compared to a level of 0.4% of GDP in 2013.

Overall, the financial situation of French local authorities remains very solid when compared to European peers. Total debt of French local authorities stood at 8.8% of GDP in 2014 compared to a Euro area average of 16%.

Caisse Française de Financement Local as issuer of *obligations foncières* operates within the covered bond market. This market segment has shown strong resilience over the crisis and benefits from a strong support by European regulators. Moreover, the covered bond market is supported by two strong technical factors: in addition to a context of net negative supply, the product is strongly supported by a third dedicated purchase program launched by the Eurosystem in October 2014, which has had a major impact on the market and has contributed to a significant tightening of spreads in the segment.

Assets

The assets held by Caisse Française de Financement Local are solely comprised of commitments on public sector entities that are eligible by the terms of Article L.513-4 of the Monetary and Financial Code, i.e. States, local governments or groups of such, public sector entities in the European Economic Area, Switzerland, the United States of America, Canada and Japan. These commitments are comprised of loans and bond issues representing a commitment on, or totally guaranteed by, these public bodies.

Other assets, which current legislation calls replacement assets, may be acquired if they correspond to exposures on credit institutions benefiting from at least a Step 1 rating (level triple A or double A) or, when their maturity does not exceed 100 days, from a Step 2 rating (level simple A), their total amount is limited to 15% of the total of outstanding *obligations foncières* and other debt benefiting from the legal *privilège* (registered covered bonds in the case of Caisse Française de Financement Local). Most of the assets on Caisse Française de Financement Local's balance sheet were generated by the Dexia Group's commercial activities. Since the beginning of 2013, the

new assets of Caisse Française de Financement Local are exclusively loans to French local governments and French public hospitals granted by La Banque Postale, or new loans granted directly by Caisse Française de Financement Local in conjunction with the reduction of its outstanding sensitive structured loans.

Since July 2013, there are no securitization units in the cover pool and the current and future *obligations foncières* issued by Caisse Française de Financement Local respect the conditions of eligibility for refinancing by the European Central Bank and the CRR / CRD IV requirements in effect.

Liabilities

The securities and contracts of Caisse Française de Financement Local that benefit from the legal *privilège* are *obligations foncières* and registered covered bonds that it issues, the hedging derivative contracts and the servicing agreement signed with SFIL.

In addition to its equity, Caisse Française de Financement Local uses two categories of debt to finance its assets:

- debt that benefits from the legal *privilège*, defined by law as *obligations foncières* or other resources benefiting from the legal *privilège* by reason of their contract. Caisse Française de Financement Local thus issues registered covered bonds benefiting from the legal *privilège* in the same way as *obligations foncières*; intended for German institutional investors, these private placements governed by German law also benefit from the French legal *privilège* attached to issues of sociétés de crédit foncier.
- debt that does not benefit from the legal *privilège* includes debt that is not covered by the assets and which, for this reason, is subordinated vis-à-vis debt benefiting from the *privilège* (cf. chapter 5 below). With equity, it finances over-collateralization. It may be of three types:
 - debt negotiated according to the terms of a financing agreement signed with the parent company. Since 31 January 2013, such debt is contracted with SFIL, through a financing agreement between Caisse Française de Financement Local and its parent company. This debt was previously contracted with Dexia Credit Local;
 - financing obtained from the Banque de France. As a credit institution, Caisse Française de Financement Local may benefit, in its own name, from access to Banque de France refinancing operations. Caisse Française de Financement Local implemented the organizational and IT procedures required to participate in the refinancing operations of the Banque de France, and tests them regularly. The financing obtained does not benefit from the privilege specified by the legislation on sociétés de crédit foncier, but is guaranteed by assets assigned to the central bank. These pledged assets are temporarily excluded from the cover pool and the calculation of the over-collateralization ratio;
 - financing obtained from credit institutions within the framework of repurchase agreements (repo).

In addition, on 31 January 2013, SFIL, the parent company of Caisse Française de Financement Local, signed a declaration of support ensuring that “Société de Financement Local and the French State, its reference shareholder, will ensure that Caisse Française de Financement Local will always be able to pursue its activity in an ongoing manner and to honor its financial commitments in compliance with the obligations imposed by banking regulations in effect”. The declaration of support is reproduced in this Base Prospectus and the annual financial report of Caisse Française de Financement Local.

Over-collateralization ratio

The over-collateralization ratio, which is calculated on the basis of regulatory standards governing *sociétés de crédit foncier*, is the ratio between the assets and the resources benefiting from the legal privilege. The legal minimum threshold is set at 105% and corresponds to the minimum level that Caisse Française de Financement Local had committed to maintain since its creation.

In practice, the over-collateralization ratio is regularly higher than 105%. To maintain an adequate level of credit rating, a level of over-collateralization of more than 5% may be required. This requirement depends on the method applied by each of the rating agencies and on the new assets and liabilities on Caisse Française de Financement Local’s balance sheet, and it may vary over time. Caisse Française de Financement Local takes these particular

requirements into account in the management of its activity in order to make sure they are constantly met and strives to maintain its over-collateralization at a relatively stable level, as can be seen in the following graph.

Regulatory over-collateralization may differ from nominal over-collateralization. In fact, it is calculated on the basis of the rules determined by the *Autorité de contrôle prudentiel et de résolution* (ACPR). In particular, these rules require different weighting levels according to the assets. The assets in Caisse Française de Financement Local’s cover pool are generally weighted at 100%, except for certain units of securitization vehicles which were present in Caisse Française de Financement Local’s cover pool until 1 July 2013. These particular weightings were the primary reason for the gap that existed between regulatory over-collateralization and nominal over-collateralization prior to the sale of the securitization units on 1 July 2013.

Any assets that Caisse Française de Financement Local may have assigned in guarantee to borrow funds from the Banque de France or any other banking institution would be excluded from the calculation of over-collateralization. Over-collateralization may also be illustrated by the gap between the amortization curves of the assets and issues benefiting from the *privilège*. The following graph presents the curves as of 31 March 2015.

Hedging interest rate risk

1. Definition

Interest rate risk corresponds to the risk of financial loss that may occur in the case of interest rate fluctuations in the market that would lead to a loss in value of certain items on the bank's balance sheet (or off-balance sheet).

Three types of interest rate risk can be distinguished:

- the risk related to long-term interest rates, which results from the gap in volume and maturity between the fixed rate assets and liabilities, the initial maturity of which is greater than a year;
- the basis risk, which results from the gap that may exist in the backing of assets and liabilities with a floating rate in the same currency but with different tenors;
- the fixed rate risk, which results from the variation in the rate of an asset or a liability with a floating interest rate pre-fixed over the period in which the adjustable index is fixed.

These risks are generally hedged using derivative instruments.

2. Hedging strategy

The policy applied by Caisse Française de Financement Local makes it possible to be protected from interest rate risk because any acquisition of assets or issue of liabilities is systematically hedged in a variable rate from the beginning.

There are two steps in the hedging process of interest rate risk.

- In the first stage, all the assets and the liabilities benefiting from the privilege which do not naturally have a floating rate are hedged against Euribor until maturity as soon as they are recorded on the balance sheet. In practice, acquisitions of loan portfolios (in which the unit amount is generally small) are usually macro-hedged whereas loans granted individually or bond issues are micro-hedged. Hedging of assets is more often obtained in using interest rate swaps, but the same effect may be obtained whenever possible by the cancelation of liability swaps.
- In the second step, Euribor lending and borrowing flows (naturally or after hedges) are swapped against Eonia over a sliding period of two years in order to eliminate the basis risk generated by differences in the tenor (Euribor 1, 3, 6 or 12 months) and the fixing risk due to refixing dates of reference indices that differ for the assets and the liabilities.

Non-privileged debt is not concerned by these hedging operations. In fact, debt contracted by Caisse Française de Financement Local with its shareholder to finance over-collateralization is borrowed either directly with a monetary index and does not need to be swapped, or with a Euribor index and thus finances assets also indexed on Euribor. Short-term debt owed the Banque de France with a fixed rate (if any) is not hedged, but also finances fixed rate assets.

3. Limits on interest rate risk

The sensitivity of residual positions that remain after the first step and after the second level of hedges is monitored carefully and kept within strict limits.

Limits on interest rate risk guarantee, with 99% probability, a maximum one year loss of less than EUR 80 million in the event of a change in interest rates of 200 basis point (bp), equivalent to a maximum loss set at EUR 40 million (3% of equity) for a fluctuation in interest rates of 100 bp. This calibration was based on a directional shift in rates corresponding to a 1% probability at one year observed over the period 2005-2013, which was approximately 200 bp.

A set of three limits makes it possible to have a grasp of the slope risk, as well as the directional risk. These limits control the sensitivity of the fixed rate risk and together guarantee the maximum losses mentioned above. The limits are as follows.

Limiting directional risk

The limit in total sensitivity for a shift in rates of 100 bp of all points in the yield curve is set at EUR 25 million. The measurement of sensitivity at the end of each quarter is presented below.

Directional risk					
Global sensitivity					
<i>EUR millions, end of quarter</i>	Limit	2Q 2014	3Q 2014	4Q 2014	1Q 2015
SENSITIVITY	25.0	(2.0)	0.3	0.6	4.9

This measurement of total sensitivity incorporates premiums for acquisition and rescheduling of loans.

Limiting the slope risk

The slope risk benefits from specific limits which are applied to four segments of maturity on the yield curve (short, medium, long and very long).

- *Limiting the slope risk between two points of maturity distant from one another on the curve:* sensitivity to a shift in rates of 100 bp is limited to EUR 10 million by segment of maturity. Measurement of sensitivity at the end of each quarter is presented below.

Risk of slope between two distant points on the rate curve					
Sum of sensitivities					
<i>EUR millions, end of quarter</i>	Limit	2Q 2014	3Q 2014	4Q 2014	1Q 2015
Short term	10.0	(2.6)	(0.5)	(1.6)	0.3
Medium term	10.0	2.6	2.4	3.8	5.2
Long term	10.0	4.7	5.3	6.4	6.8
Very long term	10.0	(6.7)	(6.8)	(8.0)	(7.3)

- *Limiting the slope risk between two points of maturity close to one another on the curve:* in each segment, the sum in absolute value of the sensitivities of points on the yield curve (grouped in several points of reference) is limited to EUR 20 million per segment. Measurement of sensitivity at the end of each quarter is presented below.

Risk of slope between two close points on the rate curve					
Sum of sensitivities in absolute value					
<i>EUR millions, end of quarter</i>	Limit	2Q 2014	3Q 2014	4Q 2014	1Q 2015
Short term	20.0	5.2	2.3	4.2	1.0
Medium term	20.0	9.5	5.1	6.3	7.8
Long term	20.0	4.8	5.1	4.7	4.1
Very long term	20.0	6.7	6.8	8.0	7.3

Outlook for 2015

For the year 2015, Caisse Française de Financement Local plans to issue between EUR 4.5 and 5.5 billion of *obligations foncières*, in order to refinance:

- the new loans to the French local public sector, acquired from La Banque Postale or granted directly within operations of sensitivity reduction,
- but also loans to SFIL benefiting from the guarantee of the French State via Coface in the framework of the its new activity of refinancing large export credits.

Indeed, on 5 May 2015, the European Commission announced that it authorizes the public bank SFIL and its subsidiary Caisse Française de Financement Local to extend their scope of activities to the refinancing of large export credits. The approval from the European Commission was the last step before the operational launch of the new business encouraged and announced by the President of the French Republic in early February 2015.

This new mission entrusted to SFIL by the French State consists in refinancing credits-buyers contracts insured by Coface. SFIL will thus contribute to improve the export competitiveness of companies established in France. The national public scheme will rely on the ability of SFIL and its subsidiary CAFFIL to raise funds on international financial markets for amounts and maturities that fit refinancing needs for large export credits and for a price which is comparable to the best French covered bond issuers. Refinancing will be available for every bank which works closely with exporters established in France for its loans insured by Coface on behalf and with the guarantee of the French State.

The average annual volume of export loans to be refinanced by SFIL is expected to be between EUR 1.5 and 2.5 billion.

SFIL, and its subsidiary Caisse Française de Financement Local, can now start its new mission as a development bank. It will come in addition to the current business of lending to the French local public sector and public hospitals. SFIL and its subsidiary Caisse Française de Financement Local will thus diversify their business without changing their risk profile while strengthening its close link with the French Government.

ORGANISATIONAL STRUCTURE

Shareholding structure of the Company

The capital of Caisse Française de Financement Local is 100% held by SFIL, which also manages the Company in accordance with article L.513-15 of the Monetary and Financial Code. SFIL is a credit institution approved by the Autorité de contrôle prudentiel et de résolution (ACPR). Its shareholders are the French State (75%), Caisse des Dépôts et Consignations (20%) and La Banque Postale (5%). The French State is also the direct shareholder of the Caisse des Dépôts et Consignations and an indirect shareholder of La Banque Postale. SFIL's shareholders are thus firmly anchored in the public sphere, reflecting the mission the French State assigned it.

The French State is the "reference shareholder" of SFIL and Caisse Française de Financement Local for the *Autorité de contrôle prudentiel et de résolution* underlining its commitment to ensure oversight and to influence strategic decisions, as well as its determination to ensure Caisse Française de Financement Local and SFIL's ongoing financial transactions if so required.

The common objective is to enable French local governments and public hospitals as well as export credit contracts insured by Coface on behalf of the State to benefit from the optimal financing conditions through a first step rating and irreproachable risk management.

Servicing and financing provided by SFIL

SFIL acts as a servicer to support and manage the activities of Caisse Française de Financement Local as defined by the regulations applicable to *sociétés de crédit foncier*, in particular article L.513-15 of the Monetary and Financial Code. This role primarily involves the following:

- the complete operational management of the Company (day-to-day management as well as the operational management of the reduction in the sensitivity of the structured loans on the balance sheet of Caisse Française de Financement Local);
- the provision to Caisse Française de Financement Local of the derivative and non-privileged funding its activity requires.

The funds required to finance the activity of Caisse Française de Financement Local (financing of over-collateralization and intermediated derivatives) are lent to SFIL by Caisse des Dépôts et Consignations and La Banque Postale.

In addition, on 31 January 2013, SFIL signed a declaration of support of Caisse Française de Financement Local, which is reproduced in the annual financial report – General information as follows.

"Société de Financement Local acquired Caisse Française de Financement Local, previously called Dexia Municipal Agency, a société de crédit foncier, governed by Articles L.515-13 and following of the Monetary and Financial Code.

"Société de Financement Local will hold more than 99% of the capital of Caisse Française de Financement Local on a long-term basis.

"Société de Financement Local and the French State, its reference shareholder, will ensure that Caisse Française de Financement Local always be able to pursue its activity in an ongoing manner and honor its financial commitments, in compliance with the requirements of banking regulations currently in effect."

Partnership between La Banque Postale and Caisse Française de Financement Local

Since the end of 2012, La Banque Postale markets loans to the French local public sector and public hospitals. The loans originated are exclusively in euros with a vanilla interest rate.

Within the framework of the new organization of the financing of the French local public sector and public hospitals, Caisse Française de Financement Local and La Banque Postale signed a partnership agreement. La Banque Postale committed to propose to Caisse Française de Financement Local all the loans that would be eligible for its cover pool.

This partnership is based on an analysis of the credit risk of the loans in two stages.

- When the loan is originated, the initial analysis of the counterparty is carried out simultaneously at the two entities. The loans that do not meet the credit criteria of Caisse Française de Financement Local cannot be transferred to its balance sheet.

Caisse Française de Financement Local's eligibility criteria are strictly monitored by internal management policies and limit eligible counterparties to French local public sector entities and public hospitals.

- Before loans originated by La Banque Postale are transferred to Caisse Française de Financement Local, a new analysis of the assets is conducted, and Caisse Française de Financement Local may refuse a loan prior to the transfer if the asset no longer meets the criteria.

The sale of loans to Caisse Française de Financement Local is carried out by using a transfer form (*bordereau*) that is specific to *sociétés de crédit foncier*.

Refinancing of export credit

The new activity will root Caisse Française de Financement Local even more firmly in the French public sector without modifying the risk profile of its cover pool.

The system will function as follows.

- SFIL will contribute to the financial proposal made by one or more banks in the banking syndicate granting the buyer credit insured by the export credit agency Coface on behalf of the State; these banks will then sell to SFIL all or a part of the credit (and the rights attached) and keep the 5% of the credit sold that is not insured.
- Caisse Française de Financement Local will grant a loan to SFIL to enable it to refinance the export credit; this refinancing loan will benefit from an irrevocable and unconditional 100% guarantee provided by Coface for and with the guarantee of the French State, referred to as an "enhanced guarantee"⁹. Loans granted by Caisse Française de Financement Local to SFIL to refinance the purchased export credit loans will constitute exposures that are totally guaranteed by France, thus eligible for the cover pool of a *société de crédit foncier*. These loans will also comply with the European CRR regulation (article 129, that specifies which assets are

⁹ The enhanced guarantee was created by law 2012-1510 of 29 December 2012, and decree 2013-693 of 30 July 2013.

authorized for the inclusion in a cover pool to ensure that the covered bonds will benefit from the best prudential treatment).

Loans benefiting from the irrevocable and unconditional 100% guarantee provided by Coface for and with the guarantee of the French State could also be granted by Caisse Française de Financement Local to banks other than SFIL for the refinancing of their export credits.

These new loans, like the new French local public sector loans marketed by La Banque Postale, will complement the portfolio (cover pool) of Caisse Française de Financement Local, which is financed by the issue of covered bonds. Given the current size of the cover pool and the growth of its traditional business, the share of the new activity in the portfolio of Caisse Française de Financement Local will increase progressively and will only become significant in several years.

SELECTED FINANCIAL INFORMATION

As of 31 December 2014, the Caisse Française de Financement Local had a shareholders' equity of 1,504 million euros (compared to 1,533 million euros as of 31 December 2013).

Its financial debt amounted to 67,080 million euros (compared to 66,449 million euros as of 31 December 2013). It was comprised of debt benefiting from the legal privilege* totaling 60,852 million euros (compared to 59,675 million euros as of 31 December 2013) and debt not benefiting from this privilege** totaling 6,228 million euros (compared to 6,774 million euros as of 31 December 2013).

* *obligations foncières*, registered covered bonds and collateral received in cash

** financing received from its shareholder (overcollateral), and from Banque de France (excess overcollateral) if needed

Financial debt	66,449	67,080
- privileged debt	59,675	60,852
- non privileged debt	6,774	6,228
Balance sheet total	80,017	83,926

Net banking income for the year ended on 31 December 2014 amounted to 69 million euros (compared to 242 million euros in 2013). Net income for the year ended on 31 December 2014 amounted to a loss of 29 million euros (compared to a profit of 3 million euros in 2013).

Income in 2013 and 2014 was strongly influenced by two exceptional factors that should be mentioned in this analysis:

- adjustments in fair value concerning interest rate risk hedges: the application of these changes in accounting standards or methods is a source of volatility in net banking income. The impact was very positive in 2013 (EUR +116 million) and negative in 2014 (EUR -24 million);
- the contribution to the support funds created by the French State to solve the problem of sensitive structured loans. This contribution was totally covered by a provision and had an impact on the cost of risk of EUR -150 million (local government fund) in 2013 and of EUR -18 million (public hospital fund) in 2014.

Corrected for these items, net banking income went from EUR +126 million in 2013 to EUR +93 million in 2014, and net income from EUR +26 million to EUR -1 million.

Millions euros	Fiscal year 2013	Fiscal year 2014

Net income	3	-29

Figures shown in the tables above are extracted from the Caisse Française de Financement Local audited annual and were established in accordance with IFRS, as adopted by the European Commission.

Caisse Française de Financement Local, within the framework of a review of its valuation methods, has corrected the fair value of certain assets and liabilities hedged by derivatives in hedging relations. According to IAS 8, Caisse Française de Financement Local restated its financial statements and notes published for 2012.

As of 31 March 2015, the outstanding amount of privileged debt in swapped value decreased by EUR 0.3 billion (-0.4%) compared to December 2014. The outstanding amount of non privileged debt amounted at EUR 5.8 billion, decreasing by 7.2% compared to December 2014. Those amounts are extracted from the Issuer's activity report as of 31 March 2015 not audited nor reviewed by the auditors.

Auditing of historical annual financial information

The statutory auditors of the Caisse Française de Financement Local have prepared a report in accordance with Article L. 225-235 of the French Code of Commerce on the report from the Chairman of the Supervisory Board of the Caisse Française de Financement Local on information given on the internal control procedures relating to the preparation and production of financial and accounting information. Such report dated 31 March 2015 can be found on page 123 of the Issuer's Annual Report 2014.

Legal and arbitration proceedings

Customer litigation

In its portfolio, Caisse Française de Financement Local has structured loans considered as sensitive that were granted to French customers of Dexia Crédit Local. Certain of these customers initiated legal proceedings against Dexia Crédit Local, Caisse Française de Financement Local and/or SFIL to contest the contractual interest rate.

As of 9 June 2015, the number of customers who had brought suit totaled 198 as compared with 210 at the end of 2014.

Since the first legal decision handed down on 8 February 2013, by the Tribunal de Grande Instance (TGI) of Nanterre concerning the loans granted to the Département de la Seine-Saint-Denis, a limited number of cases have been decided in the initial court hearings. The decisions of the TGI did not address the core issue (validity of consent, failure to provide adequate information, advice and warning, etc.), but were motivated by the formal absence of the annual rate of charge (TEG) or of intermediary data used to calculate the annual rate of charge in the fax that had preceded the signing of the loan agreement. This factor led the TGI to decide to apply the official interest rate (*taux legal*) rather than the contractual rate for the loans in question. For these files, Dexia Crédit Local and Caisse Française de Financement Local appealed.

However, since the law that created a legal basis to secure structured loan agreements subscribed by public entities took effect on 30 July 2014, the reasons linked to the annual rate of charge which had prompted these initial decisions can no longer be invoked. In the sole decision of the TGI since the law took effect, the customer was refused his demands across the board.

Moreover, in December 2014, the Département de la Seine-Saint-Denis promised to put an end to these proceedings through a protocol agreement that made it possible to eliminate all sensitivity from its debt.

The creation of the two support funds by the government should lead to a significant reduction in the number of law suits by enabling local governments and public hospitals to finance the cost of disengaging themselves from their structured loans. The French government, which wishes to find a comprehensive and permanent solution to this problem, insisted on the need to put a definitive end to sensitive structured contracts and called on local governments to submit a request for assistance from the support funds as soon as possible. The deadline to apply for such assistance was set at 30 April 2015; at the date of this report, the exact number of local governments eligible to the fund which submitted a file before the due date is not known, but there is no doubt that a large proportion of Caisse Française de Financement Local's clients applied.

The capacity for intervention of these funds was massively increased in the first quarter of 2015 in order to cover the additional cost linked to the appreciation of the Swiss franc so that the early reimbursement penalties for which the concerned customers were still responsible, after assistance from the funds, would not be greater than it would have been without the decision of the Swiss National Bank (SNB) in January 2015. The fund earmarked for local

governments now totals EUR 3.0 billion and the one for public hospitals EUR 400 million. Likewise, the ceiling of the assistance made available (initially set at 45% of indemnities due) will be significantly raised for the most fragile local governments.

Caisse Française de Financement Local, which made a voluntary contribution to the local government support fund in the amount of EUR 150 million and to the hospital support fund for EUR 18 million, did not book any provision in its 2014 financial statements for a potential supplemental contribution linked to the increase of the total funds (given the uncertainty as to the very existence of such a contribution, its features and possible amount).

As a reminder, to prepare its 2014 financial statements, Caisse Française de Financement Local took into account the effects of the decision of the SNB and the hypothesis that the solution announced by the government (in particular, strengthening the funds' intervention capacity and pushing up the ceiling for assistance to the most vulnerable local governments) would in fact rapidly be made available so that the support funds would remain at least as attractive as before the SNB decision for local governments holding loans indexed on the EUR/CHF exchange rate.

To prepare its financial statements for 2013, Caisse Française de Financement Local had worked on the hypothesis that the comprehensive arrangements to solve the problem of structured loans proposed by the government and in particular the law that created a legal basis to secure structured loan contracts would be voted and implemented in 2014. The passing of the law specifying a legal basis to secure these loans on 30 July 2014, made it possible to reduce significantly residual legal risks and their financial impact, which was considered to be very minor at that closing date.

Other litigation

The Issuer is not or has not been involved in any other governmental litigation or proceedings (including any such proceedings which are pending or threatened of which the Issuer is aware) in the 12 months preceding the date of this Base Prospectus which may or have in such period had a significant effect on the financial position or profitability of the Issuer.

It has therefore contractually entrusted its parent company SFIL with its operational management under a management agreement, “*Convention de gestion*”, dated 31 January 2013 between SFIL and Caisse Française de Financement Local as further described below. Caisse Française de Financement Local does, however, have its own Executive Board and Supervisory Board. See “Administrative, Management and Supervisory Bodies”.

RECENT DEVELOPMENTS

Indebtedness

The Issuer's debt securities (*Obligations Foncières* and registered covered bonds) increased by an amount of €684 million between 31 December 2014 and 9 June 2015.

TAXATION

The statements herein regarding taxation are based on the laws of the European Union, France, the Grand Duchy of Luxembourg and the United States (as the case may be) as of the date of this Programme and are subject to any changes in law. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to purchase, own or dispose of the Obligations Foncières. Each prospective holder or beneficial owner of Obligations Foncières should consult its tax advisor as to the European Union, French, Luxembourg and the United States (as the case may be) tax consequences of any investment in or ownership and disposition of the Obligations Foncières.

EU Taxation

Under Council Directive 2003/48/EC on the taxation of savings income (the “**Savings Directive**”), Member States are required, subject to a number of conditions being met, to provide to the tax authorities of other Member States details of certain payments of interest or similar income paid or secured by a person established in a Member State to or for the benefit of an individual resident in another Member State or certain limited types of entities established in another Member State.

For a transitional period, Austria is required (unless during that period it elects otherwise) to operate a withholding system in relation to such payments. The end of the transitional period is dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries. A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

On 24 March 2014, the Council of the European Union adopted a Council Directive (the “**Amending Directive**”) amending and broadening the scope of the requirements described above. The Amending Directive requires Member States to apply these new requirements from 1 January 2017, and if they were to take effect the changes would expand the range of payments covered by the Savings Directive, in particular to include additional types of income payable on securities. They would also expand the circumstances in which payments that indirectly benefit an individual resident in a Member State must be reported or subject to withholding. This approach would apply to payments made to, or secured for, persons, entities or legal arrangements (including trusts) where certain conditions are satisfied, and may in some cases apply where the person, entity or arrangement is established or effectively managed outside of the European Union.

However, the European Commission has proposed the repeal of the Savings Directive from 1 January 2017 in the case of Austria and from 1 January 2016 in the case of all other Member States (subject to on-going requirements to fulfil administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). This is to prevent overlap between the Savings Directive and a new automatic exchange of information regime to be implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU). The proposal also provides that, if it proceeds, Member States will not be required to apply the new requirements of the Amending Directive.

France - Taxation

Prospective holders or beneficial owners of Obligations Foncières should consult their tax advisors as to the tax consequences of any investment in or ownership and disposition of the Obligations Foncières.

Implementation of the Savings Directive in France

The Savings Directive has been implemented into French law under Article 242 *ter* of the French *Code général des impôts* and Articles 49 I *ter* to 49 I *sexies* of the Schedule III to the French *Code général des impôts*, which impose on paying agents based in France an obligation to report to the French tax authorities certain information with respect to interest payments made to beneficial owners domiciled in another Member State, including, among

other things, the identity and address of the beneficial owner and a detailed list of the different categories of interest paid to that beneficial owner.

French withholding tax

The following is a summary of certain tax considerations that may be relevant to holders of Obligations Foncières who do not concurrently hold shares of the Issuer.

Obligations Foncières which are not assimilated to (assimilables for the purpose of French law) Obligations Foncières issued before 1 March 2010

Payments of interest and other revenues made by the Issuer with respect to *Obligations Foncières* issued on or after 1 March 2010 (other than *Obligations Foncières* (described below) which are assimilated to (*assimilables* for the purpose of French law), and form a single series with, *Obligations Foncières* issued prior to 1 March 2010 benefitting from the exemption from withholding tax of Article 131 *quater* of the French *Code général des impôts*) will not be subject to the withholding tax set out under Article 125 A III of the French *Code général des impôts* unless such payments are made outside France in a non-cooperative State or territory (*Etat ou territoire non coopératif*) within the meaning of Article 238-0 A of the French *Code général des impôts* (a “**Non-Cooperative State**”). If such payments under the *Obligations Foncières* are made in a Non-Cooperative State, a 75% withholding tax will be applicable (subject to certain exceptions and to the more favourable provisions of an applicable double tax treaty) by virtue of Article 125 A III of the French *Code général des impôts*.

Furthermore, according to Article 238 A of the French *Code général des impôts*, interest and other revenues on such *Obligations Foncières* are not deductible from the Issuer's taxable income if they are paid or accrued to persons domiciled or established in a Non-Cooperative State or paid in such a Non-Cooperative State (the “**Deductibility Exclusion**”). Under certain conditions, any such non-deductible interest and other revenues may be recharacterised as constructive dividends pursuant to Articles 109 *et seq.* of the French *Code général des impôts*, in which case such non-deductible interest and other revenues may be subject to the withholding tax set out under Article 119 *bis* of the French *Code général des impôts*, at a rate of 30% or 75% (subject to the more favourable provisions of an applicable double tax treaty).

Notwithstanding the foregoing, neither the 75% withholding tax set out under Article 125 A III of the French *Code général des impôts* nor to the extent the relevant interest or other revenues relate to genuine transactions and are not in an abnormal or exaggerated amount the Deductibility Exclusion will apply in respect of a particular issue of *Obligations Foncières* if the Issuer can prove that the principal purpose and effect of such issue of *Obligations Foncières* was not that of allowing the payments of interest or other revenues to be made in a Non-Cooperative State (the “**Exception**”). Pursuant to the *Bulletin Officiel des Finances Publiques-Impôts* BOI-INT-DG-20-50-20140211, n°550 and 990, BOI-RPPM-RCM-30-10-20-40-20140211, n°70 and 80, BOI-IR-DOMIC-10-20-20-60-20150320, n°10 and BOI-ANX-000364-20120912, n°20, an issue of *Obligations Foncières* will benefit from the Exception without the Issuer having to provide any proof of the purpose and effect of such issue of *Obligations Foncières*, if such *Obligations Foncières* are:

- (i) offered by means of a public offer within the meaning of Article L.411-1 of the French *Code monétaire et financier* or pursuant to an equivalent offer in a State other than a Non-cooperative State. For this purpose, an “equivalent offer” means any offer requiring the registration or submission of an offer document by or with a foreign securities market authority; or
- (ii) admitted to trading on a regulated market or on a French or foreign multilateral securities trading system provided that such market or system is not located in a Non-Cooperative State, and the operation of such market is carried out by a market operator or an investment services provider, or by such other similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; or
- (iii) admitted, at the time of their issue, to the clearing operations of a central depository or of a securities clearing and delivery and payments systems operator within the meaning of Article L.561-2 of the French *Code monétaire et financier*, or of one or more similar foreign depositories or operators provided that such depository or operator is not located in a Non-Cooperative State.

Obligations Foncières which are assimilated to (assimilables for the purpose of French law) Obligations Foncières issued before 1 March 2010

Payments of interest and other revenues with respect to *Obligations Foncières* issued on or after 1 March 2010 and which are assimilated to (*assimilables* for the purpose of French law), and form a single series with *Obligations Foncières* issued before 1 March 2010 with the benefit of Article 131 *quater* of the French *Code général des impôts* will continue to be exempt from the withholding tax set out under Article 125 A III of the French *Code général des impôts*. Payments made outside France in a Non-Cooperative State will hence be exempt from such withholding tax.

Obligations Foncières issued before 1 March 2010, whether denominated in Euro or in any other currency, and constituting *obligations* under French law, or *titres de créances négociables* within the meaning of the *Bulletin Officiel des Finances Publiques Impôts* BOI-RPPM-RCM-30-10-30-30-20140211, or other debt securities issued under French or foreign law and considered by the French tax authorities as falling into similar categories, are deemed to be issued outside the Republic of France for the purpose of Article 131 *quater* of the French *Code général des impôts*, in accordance with the aforementioned *Bulletin Officiel des Finances Publiques Impôts*.

In addition, interest and other revenues paid by the Issuer on *Obligations Foncières* issued on or after 1 March 2010 and which are to be assimilated to (*assimilables* for the purpose of French law), and form a single series with *Obligations Foncières* issued before 1 March 2010 will not be subject to the Deductibility Exclusion and hence will not be subject to the withholding tax set out in Article 119 *bis* of the French *Code général des impôts* solely on account of their being paid in a Non-Cooperative State or accrued or paid to persons established or domiciled in a Non-Cooperative State.

Payments made to individuals fiscally domiciled in France

Where the paying agent (*établissement payeur*) is established in France, pursuant to Article 125 A of the French *Code général des impôts* subject to certain limited exceptions, interest and assimilated revenues received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France are subject to a 24% withholding tax, which is deductible from their personal income tax liability in respect of the year in which the payment has been made. Social contributions (CSG, CRDS and other related contributions) are also levied by way of withholding tax at an aggregate rate of 15.5% on such interest and assimilated revenues received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France.

Luxembourg – Taxation

The following information is limited to withholding tax considerations in Luxembourg relating to the Obligations Foncières that may be issued under the Programme. Each prospective holder or beneficial owner of Obligations Foncières should consult its tax advisor as to the tax consequences of any investment in or ownership and disposition of the Obligations Foncières.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

Withholding tax

Under Luxembourg tax law currently in effect and subject to certain exceptions (as described below) there is no Luxembourg withholding tax on payments of interest, including accrued but unpaid interest.

In accordance with the law of 25 November 2014, Luxembourg elected out of the withholding tax system in favour of an automatic exchange of information under the Council Directive 2003/48/EC on the taxation of savings income as from 1 January 2015. Payments of interest by Luxembourg paying agents to non resident individual holders of the *Obligations foncières* and to certain residual entities are thus no longer subject to any Luxembourg withholding tax.

In accordance with the law of 23 December 2005, as amended, interest payments made by Luxembourg paying agents to Luxembourg individual residents and to certain residual entities are subject to a 10% withholding tax. Responsibility for withholding such tax will be assumed by the Luxembourg paying agent.

Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (“**FATCA**”) impose a new reporting regime and potentially a 30% withholding tax with respect to certain payments to (i) any non-U.S. financial institution (a “**foreign financial institution**”, or “**FFI**” (as defined by FATCA)) that does not become a “**Participating FFI**” by entering into an agreement with the U.S. Internal Revenue Service (“**IRS**”) to provide the IRS with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with FATCA and (ii) any investor (unless otherwise exempt from FATCA) that does not provide information sufficient to determine whether the investor is a U.S. person or should otherwise be treated as holding a “**United States Account**” of the Issuer (a “**Recalcitrant Holder**”). The Issuer is classified as an FFI.

The new withholding regime will apply to “*foreign passthru payments*” (a term not yet defined) no earlier than 1 January 2017. This withholding would potentially apply to payments in respect of (i) any *Obligations Foncières* characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued after the “**grandfathering date**”, which is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register, or which are materially modified after the grandfathering date and (ii) any *Obligations Foncières* characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If *Obligations Foncières* are issued on or before the grandfathering date, and additional *Obligations Foncières* issued after that date are assimilated or consolidated with such *Obligations Foncières* issued on or before the grandfathering date, the additional *Obligations Foncières* may not be treated as grandfathered, which may have negative consequences for the existing *Obligations Foncières*, including a negative impact on market price.

The United States and a number of other jurisdictions (including France) have entered into or agreed in substance to intergovernmental agreements to facilitate the implementation of FATCA (each, an “**IGA**”). Pursuant to FATCA and the “**Model 1**” IGA released by the United States, an FFI in an IGA signatory country generally would be treated as a “**Reporting FI**” not subject to withholding under FATCA on any payments it receives if it reports certain information in respect of its account holders to the IRS or to its home government. Further, an FFI in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA (or any law implementing an IGA) (any such withholding being “**FATCA Withholding**”) from payments it makes on securities such as the *Obligations Foncières*. The United States and France have entered into an agreement based on the Model 1 IGA (the “**U.S.-France IGA**”).

The Issuer expects to be treated as a Reporting FI pursuant to the U.S.-France IGA and does not anticipate being obliged to deduct any FATCA Withholding on payments it makes. There can be no assurance, however, that the Issuer will be treated as a Reporting FI, or that it would in the future not be required to deduct FATCA Withholding from payments it makes. Accordingly, the Issuer and financial institutions through which payments on the *Obligations Foncières* are made may be required to deduct FATCA Withholding if (i) any FFI through or to which payment on such *Obligations Foncières* is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA or (ii) an investor is a Recalcitrant Holder.

For *Obligations Foncières* held through Euroclear France, Euroclear and Clearstream, Luxembourg (the “**ICSDs**”), it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the *Obligations Foncières* by the Issuer, any paying agent and the ICSDs, given that each of the entities in the payment chain between the Issuer and the participants in the ICSDs is a major financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the *Obligations Foncières*. However, a Materialised *Obligation Foncière* may be taken out of the ICSDs by a holder of a Temporary Global Certificate issued in connection with such Materialised *Obligation Foncière*. In this case, a non-FATCA-compliant holder of definitive Bearer Materialised *Obligations Foncières* could be subject to FATCA Withholding, as discussed above.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and the U.S.-France IGA, all of which are subject to change or may be implemented in a materially different form.

SUBSCRIPTION AND SALE

Subject to the terms and on the conditions contained in an amended and restated distribution agreement dated 11 June 2015 (the “**Amended and Restated Distribution Agreement**”) between the Issuer, the Permanent Dealers and the Arranger, the *Obligations Foncières* will be offered on a continuous basis by the Issuer to the Permanent Dealers. However, the Issuer has reserved the right to sell *Obligations Foncières* directly on its own behalf to Dealers that are not Permanent Dealers. The *Obligations Foncières* may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the relevant Dealer. The *Obligations Foncières* may also be sold by the Issuer through the Dealers, acting as agents of the Issuer. The Amended and Restated Distribution Agreement also provides for *Obligations Foncières* to be issued in syndicated Tranches that are jointly and severally underwritten by two or more Dealers.

The Issuer will pay each relevant Dealer a commission as agreed between them in respect of *Obligations Foncières* subscribed by it. The Issuer has agreed to reimburse the Arranger for its expenses incurred in connection with the update of the Programme and the Dealers for certain of their activities in connection with the Programme. The commissions in respect of an issue of *Obligations Foncières* on a syndicated basis will be stated in the relevant Final Terms.

The Issuer has agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the *Obligations Foncières*. The Amended and Restated Distribution Agreement entitles the Dealers to terminate any agreement that they make to subscribe *Obligations Foncières* in certain circumstances prior to payment for such *Obligations Foncières* being made to the Issuer.

Selling Restrictions

Public Offer Selling Restriction under the Prospectus Directive

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a “**Relevant Member State**”), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the “**Relevant Implementation Date**”) it has not made and will not make an offer of *Obligations Foncières* which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant Member State except that it may with effect from and including the Relevant Implementation Date, make an offer of *Obligations Foncières* to the public in that Relevant Member State:

- (a) if the Final Terms in relation to the *Obligations Foncières* specify that an offer of those *Obligations Foncières* may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State (a “**Public Offer**”), following the date of publication of a prospectus in relation to such *Obligations Foncières* which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the final terms contemplating such Public Offer, in accordance with the Prospectus Directive in the period beginning and ending on the dates specified in such Prospectus or final terms, as applicable and the Issuer has consented in writing to its use for the purpose of the Public Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (c) at any time to fewer than 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of *Obligations Foncières* referred to in paragraphs (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an “**offer of *Obligations Foncières* to the public**” in relation to any *Obligations Foncières* in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the *Obligations Foncières* to be offered so as to enable an investor to decide to purchase or subscribe the *Obligations Foncières*, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression “**Prospectus Directive**” means Directive 2003/71/EC, as amended, and includes any relevant implementing measure in each Relevant Member State.

France

Each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree that:

(i) **Offer to the public in France:**

it has only made and will only make an offer of *Obligations Foncières* to the public in France on or after the date of approval of the Base Prospectus relating to those *Obligations Foncières* by the *Autorité des marchés financiers* (“AMF”), all in accordance with Articles L.412-1 and L.621-8 of the French Monetary and Financial Code and the *Règlement général* of the AMF, and ending at the latest on the date which is 12 months after the date of the approval of the Base Prospectus; or

(ii) **Private placement in France:**

it has not offered or sold and will not offer or sell, directly or indirectly, any *Obligations Foncières* to the public in France and it has not distributed or caused to be distributed and will not distribute or cause to be distributed to the public in France, this Base Prospectus, the relevant Final Terms or any other offering material relating to the *Obligations Foncières* and such offers, sales and distributions have been and will be made in France only to (a) persons providing investment services relating to portfolio management for the account of third parties (*personnes fournissant le service d'investissement de gestion de portefeuille pour compte de tiers*), and/or (b) qualified investors (*investisseurs qualifiés*) acting for their own account, as defined in, and in accordance with, Articles L.411-1, L.411-2 and D.411-1 of the French Monetary and Financial Code.

United States

The *Obligations Foncières* have not been and will not be registered under the Securities Act. In addition, bearer Materialised *Obligations Foncières* having a maturity of more than one year are subject to U.S. tax law requirements. Subject to certain exceptions, *Obligations Foncières* may not be offered or sold within the United States or, in the case of bearer Materialised *Obligations Foncières*, offered, sold or delivered within the United States.

The *Obligations Foncières* are being offered and sold outside the United States in reliance on Regulation S.

Each Dealer has agreed that it will not offer or sell or deliver bearer Materialised *Obligations Foncières* within the United States or to U.S. persons.

In addition, until 40 days after the commencement of the offering, an offer or sale of any identifiable Tranche of such *Obligations Foncières* within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

United Kingdom

Each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree that:

- (i) in relation to any *Obligations Foncières* which must be redeemed before the first anniversary of the date of their issue, (a) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (b) it has not offered or sold and will not offer or sell any *Obligations Foncières* other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the

purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the *Obligations Foncières* would otherwise constitute a contravention of section 19 of the Financial Services and Markets Act 2000 (the “**FSMA**”) by the Issuer

- (ii) it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA received by it in connection with the issue or sale of any *Obligations Foncières* in circumstances in which section 21(1) of the FSMA) does not apply to the Issuer and
- (iii) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to such *Obligations Foncières* in, from or otherwise involving the United Kingdom.

Japan

The *Obligations Foncières* have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended, the “**Financial Instruments and Exchange Act**”). Accordingly, each of the Dealers has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree that it has not, directly or indirectly, offered or sold and will not, directly or indirectly, offer or sell any *Obligations Foncières* in Japan or to, or for the benefit of, any resident of Japan (which terms as used herein means any person resident in Japan, including any corporation or other entity organised under the laws of Japan) or to others for re-offering or re-sale, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan except pursuant to an exemption from the registration requirements of, and otherwise in compliance with the Financial Instruments and Exchange Act and other relevant laws and regulations of Japan.

Republic of Italy

The offering of the *Obligations Foncières* has not been registered with the *Commissione Nazionale per le Società e la Borsa* (“**CONSOB**”) pursuant to Italian securities legislation and, accordingly, each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree that it has not offered, sold or distributed, and will not offer, sell or distribute any *Obligations Foncières* or any copy of this Base Prospectus or any other offer document in the Republic of Italy (“**Italy**”) except:

- (a) to qualified investors (*investitori qualificati*), as defined pursuant to Article 100 of Legislative Decree no. 58 of 24 February 1998 (the “**Consolidated Financial Services Act**”) and Article 34-ter, paragraph 1, letter (b) of CONSOB regulation No. 11971 of 14 May 1999 (the “**CONSOB Regulation**”), all as amended; or
- (b) in any other circumstances where an express exemption from compliance with the restrictions on offers to the public applies, as provided under Article 100 of the Consolidated Financial Services Act and Article 34-ter of the CONSOB Regulation.

Moreover, and subject to the foregoing, any offer, sale or delivery of the *Obligations Foncières* or distribution of copies of this Base Prospectus or any other document relating to the *Obligations Foncières* in Italy under (a) or (b) above must be:

- (i) made by an investment firm, bank or financial intermediary permitted to conduct such activities in Italy in accordance with the Consolidated Financial Services Act, Legislative Decree No. 385 of 1 September 1993 (the “**Banking Act**”), CONSOB Regulation No. 16190 of 29 October 2007, all as amended;
- (ii) in compliance with Article 129 of the Banking Act and the implementing guidelines, pursuant to which the Bank of Italy may request information on the offering or issue of securities in Italy; and
- (iii) in compliance with any securities, tax, exchange control and any other applicable laws and regulations, including any limitation or requirement which may be imposed from time to time, inter alia, by CONSOB or the Bank of Italy.

Any investor purchasing the *Obligations Foncières* in this offering is solely responsible for ensuring that any offer or resale of the *Obligations Foncières* it purchases in this offering occurs in compliance with applicable laws and regulations.

Article 100-bis of the Consolidated Financial Services Act affects the transferability of the Obligations Foncières in Italy to the extent that any placing of the Obligations Foncières is made solely with qualified investors and such Obligations Foncières are then systematically resold to non-qualified investors on the secondary market at any time in the 12 months following such placing. Where this occurs, if a prospectus compliant with the Prospectus Directive has not been published, purchasers of Obligations Foncières who are acting outside of the course of their business or profession may in certain circumstances be entitled to declare such purchase void and to claim damages from any authorised person at whose premises the Obligations Foncières were purchased, unless an exemption provided for under the Consolidated Financial Services Act applies.

Norway

Norway has implemented the Prospectus Directive pursuant to chapter 7 of the Securities Trading Act of 29. June 2007 no. 75, as amended, and chapter 7 of the Securities Trading Regulations of 29. June 2007 No. 876, as amended. Consequently, the selling restriction set out in the section “Public Offer Selling Restriction under the Prospectus Directive” above applies.

Obligations Foncières denominated in Norwegian Kroner issued by non-Norwegian issuers must be registered in the Norwegian Central Securities Depository (VPS) if the Obligations Foncières are offered for sale in Norway, except in case of reverse solicitation.

General

These selling restrictions may be modified by the agreement of the Issuer and the Dealers following a change in a relevant law, regulation or directive. Any such modification will be set out in a Supplement to the Base Prospectus.

No action has been taken in any jurisdiction that would permit an offer to the public of any of the *Obligations Foncières*, or possession or distribution of the Base Prospectus or any other offering material or any Final Terms, in any country or jurisdiction where action for that purpose is required.

Each Dealer has agreed that it will, to the best of its knowledge, comply with all relevant securities laws, regulations and directives in each jurisdiction in which it purchases, offers, sells or delivers *Obligations Foncières* or has in its possession or distributes the Base Prospectus, any other offering material or any Final Terms and neither the Issuer nor any other Dealer shall have responsibility therefore.

Each of the Dealers and the Issuer has represented and agreed that Materialised *Obligations Foncières* may only be issued outside France.
