Any investors who have indicated acceptances of the Offer (as defined below) prior to the date of publication of such supplement or updated version of the Base Prospectus, as the case may be.

## PART A - CONTRACTUAL TERMS

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions (the “**Conditions**”) set forth in the Base Prospectus dated 5 June 2018, each Supplement to the Base Prospectus published and approved on or before the date of these Final Terms (copies of which are available as described below) notwithstanding the publication and approval of any other Supplement to the 2018 Base Prospectus (each a “**2018 Future Supplement**”) which may have been published and approved (together, the “**2018 Base Prospectus**”) after the date of these Final Terms and before the issue of the Securities to which these Final Terms relate) and/or an updated Base Prospectus (any Supplement(s) thereto, each a “**2019 Future Supplement**”), which will replace the 2018 Base Prospectus (the “**2019 Base Prospectus**”) (the date of any such publication and approval, each a “**Publication Date**”). This document constitutes the Final Terms of the Securities described herein for the purposes of Article 5.4 of the Prospectus Directive and (i) prior to any Publication Date, must be read in conjunction with the 2018 Base Prospectus or (ii) on and after any Publication Date must be read in conjunction with the 2018 Base Prospectus, as supplemented by any 2018 Future Supplement as at such date or, as applicable, the 2019 Base Prospectus, as supplemented by any 2019 Future Supplement as at such date, save in respect of the Conditions which are extracted from the 2018 Base Prospectus. The 2018 Base Prospectus, as supplemented, constitutes, and the 2019 Base Prospectus will constitute, a base prospectus for the purposes of the Prospectus Directive. Full information on BNP Paribas Arbitrage Issuance B.V. (the “**Issuer**”), BNP Paribas (the “**Guarantor**”) and the offer of the Securities is only available on the basis of the combination of these Final Terms and (i) prior to the Publication Date, the 2018 Base Prospectus, or (ii) on or after any Publication Date, the 2018 Base Prospectus, as supplemented by any 2018 Future Supplement as at such date or, as applicable, the 2019 Base Prospectus, as supplemented by any 2019 Future Supplement as at such date, save in respect of the Conditions which are extracted from the 2018 Base Prospectus. The Issuer has in the 2018 Base Prospectus given consent to the use of the 2018 Base Prospectus in connection with the offer of the Securities. Such consent will be valid until the date that is twelve months following the date of the 2018 Base Prospectus. The Issuer will in the 2019 Base Prospectus give consent to the use of the 2019 Base Prospectus in connection with the offer of the Securities. **The 2018 Base Prospectus, as supplemented, and these Final Terms are available and the 2019 Base Prospectus will be available for viewing at <http://eqdpo.bnpparibas.com/XS1926878536> and copies may be obtained free of charge at the specified offices of the Security Agents. The 2018 Base Prospectus, these Final Terms and the Supplements to the 2018 Base Prospectus will also be available on the AMF website [www.amf-france.org](http://www.amf-france.org).**

### Index Disclaimer

#### **Dynamic Allocation Fund Stars Index VC 4 ER (EUR)**

The methodology of and rules governing the index (the "Index Methodology" and the "Index") are proprietary. None of the sponsor of the Index (the "Index Sponsor"), the index calculation agent (where such party is not also the Index Sponsor, the "Index Calculation Agent") nor, where applicable, the index Investment Advisor (the "Index Investment Advisor") guarantee that there will be no errors or omissions in computing or disseminating the Index.

The Index Methodology is based on certain assumptions, certain pricing models and calculation methods adopted by the Index Sponsor, the Index Calculation Agent and, where applicable, the Index Investment Advisor, and may have certain inherent limitations. Information prepared on the basis of different models, calculation methods or assumptions may yield different results. You have no authority to use or reproduce the Index Methodology in any way, and neither BNP Paribas nor any of its affiliates shall be liable for any loss whatsoever, whether arising directly or indirectly from the use of the Index or Index Methodology or otherwise in connection therewith.

The Index Sponsor reserves the right to amend or adjust the Index Methodology from time to time in accordance with the rules governing the Index and accepts no liability for any such amendment or adjustment. Neither the Index Sponsor nor the Index Calculation Agent are under any obligation to continue the calculation, publication or dissemination of the Index and accept no liability for any suspension or interruption in the calculation thereof which is made in accordance with the rules governing the Index. None of the Index Sponsor, the Index Calculation Agent nor, where applicable, the Index Investment Advisor accept any liability in connection with the publication or use of the level of the Index at any given time.

The Index Methodology embeds certain costs in the strategy which cover amongst other things, friction, replication and repo costs in running the Index. The levels of such costs (if any) may vary over time in accordance with market conditions as determined by the Index Sponsor acting in a commercially reasonable manner.

BNP Paribas and/or its affiliates may act in a number of different capacities in relation to the Index and/or products linked to the Index, which may include, but not be limited to, acting as market-maker, hedging counterparty, issuer of components of the Index, Index Sponsor and/or Index Calculation Agent. Such activities could result in potential conflicts of interest that could influence the price or value of a Product."

## 6. Terms and Conditions of the Public Offer

**Offer Price:** Issue Price

**Conditions to which the offer is subject:** The Issuer reserves the right to modify the total nominal amount of the Certificates to which investors can subscribe, curtail the offer of the Securities or withdraw the offer of the Securities and cancel the issuance of the Securities for any reason, in accordance with the Distributor at any time on or prior to the Offer End Date. For the avoidance of doubt, if any application has been made by a potential investor and the Issuer exercises such a right, each such potential investor shall not be entitled to subscribe or otherwise acquire the Securities. In the event that the Base Prospectus is not updated on or before 5 June 2019, the offer of the Securities will be immediately curtailed and no further subscriptions accepted. In such circumstances, subject to a subsequent withdrawal of the offer of the Securities and/or cancellation of the issuance, applications made prior to such curtailment shall proceed and the Securities delivered as planned. Such an event will be notified to investors via the following link:

<http://eqdpo.bnpparibas.com/XS1926878536>

The Issuer will in its sole discretion determine the final amount of Securities issued up to a limit of 20,000 Securities. The final amount that is issued on the Issue Date will be listed on the Luxembourg Stock Exchange. Securities will be allotted subject to availability in the order of receipt of investors' applications. The final amount of the Securities issued will be determined by the Issuer in light of prevailing market conditions, and in its sole and absolute discretion depending on the number of Securities which have been agreed to be purchased as of the Issue Date.

**Description of the application process:** Application to subscribe for the Securities can be made in Ireland through the Authorised Offeror. The distribution activity will be carried out in accordance with the usual procedures of the Authorised Offeror. Prospective investors will not be required to enter into any contractual arrangements directly with the Issuer in relation to the subscription for the Securities.

**Details of the minimum and/or maximum amount of application:**

The minimum amount of application is EUR 1,000

Maximum amount of application per investor is EUR 20,000,000

The maximum amount of application of Securities will be subject only to availability at the time of the application.

There are no pre-identified allotment criteria.

The Authorised Offeror will adopt allotment criteria that ensure equal treatment of prospective investors. All of the Securities requested through the Authorised Offeror during the Offer Period will be assigned up to the maximum amount of the Offer.

In the event that during the Offer Period the requests exceed the total amount of the offer destined to prospective investors the Issuer, in accordance with the Authorised Offeror, will proceed to early terminate

the Offer Period and will immediately suspend the acceptance of further requests.

**Description of possibility to reduce subscriptions and manner for refunding excess amount paid by applicants:**

Not applicable.

**Details of the method and time limits for paying up and delivering Securities:**

The Securities will be issued on the Issue Date against payment to the Issuer by the Authorised Offeror of the gross subscription moneys.

The Securities are cleared through the clearing systems and are due to be delivered through the Authorised Offeror on or around the Issue Date.

**Manner in and date on which results of the offer are to be made public:**

Publication on the following website:

<http://eqdpo.bnpparibas.com/XS1926878536>

on or around the Issue Date.

**Procedure for exercise of any right of pre-emption, negotiability of subscription rights and treatment of subscription rights not exercised:**

Not applicable.

**Process for notification to applicants of the amount allotted and indication whether dealing may begin before notification is made:**

In the case of over subscription, allotted amounts will be notified to applicants on the following website:

<http://eqdpo.bnpparibas.com/XS1926878536>

on or around the Issue Date.

No dealing in the Certificates may begin before any such notification is made.

In all other cases, allotted amounts will be equal to the amount of the application, and no further notification shall be made.

In all cases, no dealing in the Certificates may take place prior to the Issue Date.

**Amount of any expenses and taxes specifically charges to the subscriber or purchaser:**

The Issuer is not aware of any expenses and taxes specifically charged to the subscriber.

## 7. Intermediaries with a firm commitment to act

**Name and address of the entities which have a firm commitment to act as intermediaries in secondary trading, providing liquidity through bid and offer rates and a description of the main terms of their commitment:**

## ISSUE SPECIFIC SUMMARY IN RELATION TO THIS BASE PROSPECTUS

Summaries are made up of disclosure requirements known as "Elements". These Elements are numbered in Sections A – E (A.1 – E.7). This Summary contains all the Elements required to be included in a summary for this type of Securities, Issuer and Guarantor. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in the summary because of the type of Securities, Issuer and Guarantor(s), it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element should be included in the summary explaining why it is not applicable.

<b>B.19/ B.2</b>	Domicile/ legal form/ legislation/ country of incorporation	The Guarantor was incorporated in France as a <i>société anonyme</i> under French law and licensed as a bank having its head office at 16, boulevard des Italiens – 75009 Paris, France.
<b>B.19/ B.4b</b>	Trend information	<p><b>Macroeconomic environment</b></p> <p>Macroeconomic and market conditions affect BNPP's results. The nature of BNPP's business makes it particularly sensitive to macroeconomic and market conditions in Europe, which have been at times challenging and volatile in recent years.</p> <p>In 2017, global growth increased to about 3.5%, reflecting an improvement in all geographic regions. In the large developed countries, this increase in activity is leading to a tightening of, or a tapering of accommodating monetary policy. However, with inflation levels still very moderate, the central banks are able to manage this transition very gradually, without compromising the economic outlook. The IMF expects worldwide growth to strengthen further in 2018 and has revised its forecast from +3.6% to +3.7%: the slight slowing down expected in the advanced economies should be more than offset by the forecast improvement in the emerging economies (driven by the recovery in Latin America and the Middle East, and despite the structural lower pace of economic growth in China).</p> <p>In this context, the following two risk categories can be identified:</p> <p><i>Risks of financial instability due to the conduct of monetary policies</i></p> <p>Two risks should be emphasised: a sharp increase in interest rates and the current very accommodating monetary policy being maintained for too long.</p> <p>On the one hand, the continued tightening of monetary policy in the United States (which started in 2015) and the less-accommodating monetary policy in the euro zone (a planned reduction in assets purchases starting in January 2018) involve risks of financial turbulence. The risk of an inadequately controlled rise in long-term interest rates may in particular be emphasised, under the scenario of an unexpected increase in inflation or an unanticipated tightening of monetary policies. If this risk materialises, it could have negative consequences on the asset markets, particularly those for which risk premiums are extremely low compared to their historic average, following a decade of accommodating monetary policies (credit to non-investment grade corporates or countries, certain sectors of the equity markets, real estate, etc.)</p> <p>On the other hand, despite the upturn since mid-2016, interest rates remain low, which may continue to encourage excessive risk-taking among some players in the financial system market participants: increased lengthening maturities of financings and assets</p>

Element	Title	
		<p>held, less stringent credit policy for granting loans, and an increase in leveraged financings. Some players of these participants (insurance companies, pension funds, asset managers, etc.) entail have an increasingly systemic dimension and in the event of market turbulence (linked for instance example to a sudden sharp rise in interest rates and/or a sharp price correction) they may decide could be brought to unwind large positions in an environment of relatively weak market liquidity.</p> <p><i>Systemic risks related to increased debt</i></p> <p>Macroeconomically, the impact of a rate increase could be significant for countries with high public and/or private debt-to-GDP. This is particularly the case for the United States and certain European countries (in particular Greece, Italy, and Portugal), which are posting public debt-to-GDP ratios often above 100% but also for emerging countries.</p> <p>Between 2008 and 2017, the latter recorded a marked increase in their debt, including foreign currency debt owed to foreign creditors. The private sector was the main source of the increase in this debt, but also the public sector to a lesser extent, particularly in Africa. These countries are particularly vulnerable to the prospect of a tightening in monetary policies in the advanced economies. Capital outflows could weigh on exchange rates, increase the costs of servicing that debt, import inflation, and cause the emerging countries' central banks to tighten their credit conditions. This would bring about a reduction in forecast economic growth, possible downgrades of sovereign ratings, and an increase in risks for the banks. While the exposure of the BNP Paribas Group to emerging countries is limited, the vulnerability of these economies may generate disruptions in the global financial system that could affect the Group and potentially alter its results.</p> <p>It should be noted that debt-related risk could materialise, not only in the event of a sharp rise in interest rates, but also with any negative growth shocks.</p> <p><b><i>Laws and regulations applicable to financial institutions</i></b></p> <p>Recent and future changes in the laws and regulations applicable to financial institutions may have a significant impact on BNPP. Measures that were recently adopted or which are (or whose application measures are) still in draft format, that have or are likely to have an impact on BNPP notably include:</p> <ul style="list-style-type: none"> <li>the structural reforms comprising the French banking law of 26 July 2013 requiring that banks create subsidiaries for or segregate "speculative" proprietary operations from their traditional retail banking activities, the "Volcker rule" in the US which restricts proprietary transactions, sponsorship and investment in private equity funds and hedge funds by US and foreign banks, and upcoming potential changes in Europe;</li> <li>regulations governing capital: the Capital Requirements Directive IV ("<b>CRD4</b>")/the Capital Requirements Regulation ("<b>CRR</b>"), the international standard for total loss-absorbing capacity ("<b>TLAC</b>") and BNPP's designation as a financial institution that is of systemic importance by the Financial Stability Board;</li> <li>the European Single Supervisory Mechanism and the ordinance of 6 November 2014;</li> <li>the Directive of 16 April 2014 related to deposit guarantee systems and its delegation and implementing decrees, the Directive of 15 May 2014 establishing a Bank Recovery and Resolution framework, the Single Resolution Mechanism establishing the Single Resolution Council and the Single Resolution Fund;</li> </ul>

Element	Title	
		<p>the Final Rule by the US Federal Reserve imposing tighter prudential rules on the US transactions of large foreign banks, notably the obligation to create a separate intermediary holding company in the US (capitalised and subject to regulation) to house their US subsidiaries;</p> <p>the new rules for the regulation of over-the-counter derivative activities pursuant to Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act, notably margin requirements for uncleared derivative products and the derivatives of securities traded by swap dealers, major swap participants, security-based swap dealers and major security-based swap participants, and the rules of the US Securities and Exchange Commission which require the registration of banks and major swap participants active on derivatives markets and transparency and reporting on derivative transactions;</p> <p>the new Markets in Financial Instruments Directive ("<b>MiFID</b>") and Markets in Financial Instruments Regulation ("<b>MiFIR</b>"), and European regulations governing the clearing of certain over-the-counter derivative products by centralised counterparties and the disclosure of securities financing transactions to centralised bodies.</p> <p>the General Data Protection Regulation ("<b>GDPR</b>") that became effective on 25 May 2018, moving the European data confidentiality environment forward and improving personal data protection within the European Union. Businesses run the risk of severe penalties if they do not comply with the standards set by the GDPR. This Regulation applies to all banks providing services to European citizens; and</p> <p>the finalisation of Basel 3 published by the Basel committee in December 2017, introducing a revision to the measurement of credit risk, operational risk and credit valuation adjustment ("<b>CVA</b>") risk for the calculation of risk-weighted assets. These measures are expected to come into effect in January 2022 and will be subject to an output floor (based on standardised approaches), which will be gradually applied as of 2022 and reach its final level in 2027.</p> <p>Moreover, in today's tougher regulatory context, the risk of non-compliance with existing laws and regulations, in particular those relating to the protection of the interests of customers, is a significant risk for the banking industry, potentially resulting in significant losses and fines. In addition to its compliance system, which specifically covers this type of risk, the BNP Paribas Group places the interest of its customers, and more broadly that of its stakeholders, at the heart of its values. The new Code of conduct adopted by the BNP Paribas Group in 2016 sets out detailed values and rules of conduct in this area.</p> <p><b>Cyber security and technology risk</b></p> <p>BNPP's ability to do business is intrinsically tied to the fluidity of electronic transactions as well as the protection and security of information and technology assets.</p> <p>The technological change is accelerating with the digital transformation and the resulting increase in the number of communications circuits, proliferation in data sources, growing process automation, and greater use of electronic banking transactions.</p> <p>The progress and acceleration of technological change are giving cybercriminals new options for altering, stealing, and disclosing data. The number of attacks is increasing, with a greater reach and sophistication in all sectors, including financial services.</p>

Element	Title		
		<p>The outsourcing of a growing number of processes also exposes the Group to structural cyber security and technology risks leading to the appearance of potential attack vectors that cybercriminals can exploit.</p> <p>Accordingly, the Group has set up a second line of defence within the Risk Function with the creation of the Risk ORC ICT Team dedicated to managing cyber security and technology risk. Thus, standards are regularly adapted to support the Bank's digital evolution and innovation while managing existing and emerging threats (such as cyber-crime, espionage, etc.).</p>

## Section D - Risks

Element	Title	
D.2	Key risks regarding the Issuer and the Guarantor	<p>Prospective purchasers of the Securities should be experienced with respect to options and options transactions and should understand the risks of transactions involving the Securities. An investment in the Securities presents certain risks that should be taken into account before any investment decision is made. Certain risks may affect the Issuer's ability to fulfil its obligations under the Securities or the Guarantor's ability to perform its obligations under the Guarantee, some of which are beyond its control. In particular, the Issuer and the Guarantor, together with the BNPP Group, are exposed to the risks associated with its activities, as described below:</p> <p><b>Guarantor</b></p> <p>Seven main categories of risk are inherent in BNPP's activities:</p> <ol style="list-style-type: none"> <li>1) <i>Credit Risk</i> - Credit risk is defined as the probability of a borrower or counterparty defaulting on its obligations to BNPP. Probability of default along with the recovery rate of the loan or debt in the event of default are essential elements in assessing credit quality. BNPP's risk-weighted assets subject to this type of risk amounted to EUR 504 billion at 31 December 2018. In accordance with the EBA recommendations, this category of risk also includes risks on equity investments, as well as those related to insurance activities.</li> <li>2) <i>Operational risk</i> - Operational risk is the risk of loss resulting from failed or inadequate internal processes (particularly those involving personnel and information systems) or external events, whether deliberate, accidental or natural (floods, fires, earthquakes, terrorist attacks, etc.). Operational risks include fraud, human resources risks, legal and reputational risks, non-compliance risks, tax risks, information systems risks, risk of providing inadequate financial services (conduct risk), risk of failure of operational processes including credit processes, or from the use of a model (model risk), as well as potential financial consequences related to reputation risk management. BNPP's risk-weighted assets subject to this type of risk amounted to EUR 73 billion at 31 December 2018.</li> <li>3) <i>Counterparty Risk</i> - Counterparty risk arises from BNPPs credit risk in the specific context of market transactions, investments, and/or settlements. The amount of this risk varies over time depending on fluctuations in market parameters affecting the potential future value of the transactions concerned. BNPP's risk-weighted assets subject to this type of risk amounted to EUR 27 billion at 31 December 2018.</li> <li>4) <i>Market Risk</i> - Market risk is the risk of loss of value caused by an unfavorable trend in prices or market parameters. Market parameters include, but are not limited to, exchange rates, prices of securities and commodities (whether the price is directly quoted or obtained by reference to a comparable asset), the price of derivatives on an established market and all benchmarks that can be derived from market quotations such as interest rates, credit spreads, volatility or implicit correlations or other similar parameters. BNPP's risk-weighted assets subject to this type of risk amounted to EUR 20 billion at 31 December 2018.</li> <li>5) <i>Securitisation Risk</i> - Securitisation is a transaction or arrangement by which the credit risk associated with a liability or set of liabilities is subdivided into tranches. Any commitment made under a securitisation structure</li> </ol>

Element	Title	
		<p>(including derivatives and liquidity lines) is considered to be a securitisation. The bulk of these commitments are in the prudential banking portfolio. BNPP's risk-weighted assets subject to this type of risk amounted to EUR 7 billion at 31 December 2018.</p> <p>6) <i>Risks related to deferred taxes and certain holdings in credit or financial institutions</i> – amounts below the prudential capital deduction thresholds generate risk-weighted assets amounting to EUR 17 billion at 31 December 2018.</p> <p>7) <i>Liquidity risk</i> – Liquidity risk is the risk that BNPP will not be able to honor its commitments or unwind or offset a position due to market conditions or specific factors within a specified period of time and at a reasonable cost. It reflects the risk of not being able to cope with net cash outflows, including collateral requirements, over short-term to long-term horizons. The BNPP Group's specific risk can be assessed through its short-term liquidity ratio, which analyses the hedging of net cash outflows during a 30-day stress period.</p> <p>More generally, the risks to which the BNPP Group is exposed may arise from a number of factors related, among other things, to changes in its macroeconomic, competitive, market and regulatory environment or the implementation of its strategy, its business or its operations.</p> <p><i>Risks</i></p> <p>This section summarises the principal risks that BNPP currently considers itself to face. They are presented in the following categories: risks related to the macroeconomic environment, risks related to the market environment, regulatory risks and risks related to the implementation of BNPP's strategy, risks related to the management of BNPP's business, risks related to the BNPP's operations.</p> <ul style="list-style-type: none"> <li>(a) Adverse economic and financial conditions have in the past had and may in the future have an impact on BNPP and the markets in which it operates.</li> <li>(b) Given the global scope of its activities, BNPP may be vulnerable to certain political, macroeconomic or financial risks in the countries and regions where it operates.</li> <li>(c) BNPP's access to and cost of funding could be adversely affected by a resurgence of financial crises, worsening economic conditions, rating downgrades, increases in credit spreads or other factors.</li> <li>(d) The prolonged low interest rate environment carries inherent systemic risks, and an exit from such environment also carries risks.</li> <li>(e) Significant interest rate changes could adversely affect BNPP's revenues or profitability.</li> <li>(f) The soundness and conduct of other financial institutions and market participants could adversely affect BNPP.</li> <li>(g) BNPP may incur significant losses on its trading and investment activities due to market fluctuations and volatility.</li> <li>(h) BNPP may generate lower revenues from commission and fee-based businesses during market downturns.</li> <li>(i) Protracted market declines can reduce liquidity in the markets, making it harder to sell assets and possibly leading to material losses.</li> <li>(j) BNPP must ensure that its assets and liabilities properly match in order to</li> </ul>

Element	Title	
		<p>avoid exposure to losses.</p> <ul style="list-style-type: none"> <li>(k) Laws and regulations adopted in recent years, particularly in response to the global financial crisis, as well as new legislative proposals, may materially impact BNPP and the financial and economic environment in which it operates.</li> <li>(l) BNPP could become subject to a resolution proceeding.</li> <li>(m) BNPP is subject to extensive and evolving regulatory regimes in the jurisdictions in which it operates.</li> <li>(n) BNPP may incur substantial fines and other administrative and criminal penalties for non-compliance with applicable laws and regulations, and may also incur losses in related (or unrelated) litigation with private parties.</li> <li>(o) Risks related to the implementation of BNPP's strategic plans.</li> <li>(p) BNPP may experience difficulties integrating acquired companies and may be unable to realise the benefits expected from its acquisitions.</li> <li>(q) BNPP is exposed to credit risk and counterparty risk.</li> <li>(r) A substantial increase in new provisions or a shortfall in the level of previously recorded provisions could adversely affect BNPP's results of operations and financial condition.</li> <li>(s) BNPP's hedging strategies may not prevent losses.</li> <li>(t) Adjustments to the carrying value of BNPP's securities and derivatives portfolios and BNPP's own debt could have an impact on its net income and shareholders' equity.</li> <li>(u) The credit ratings of BNPP may be downgraded, which would weigh on its profitability.</li> <li>(v) Intense competition by banking and non banking operators could adversely affect BNPP's revenues and profitability.</li> <li>(w) BNPP's risk management policies, procedures and methods, may leave it exposed to unidentified or unanticipated risks, which could lead to material losses.</li> <li>(x) An interruption in or a breach of BNPP's information systems may cause substantial losses of client or customer information, damage to BNPP's reputation and financial losses.</li> <li>(y) BNPP's competitive position could be harmed if its reputation is damaged.</li> </ul> <p><b>Issuer</b></p> <p>The main risks described above in relation to BNPP also represent the main risks for BNPP B.V., either as an individual entity or a company in the BNPP Group.</p> <p><b>Dependency Risk</b></p> <p>BNPP B.V. is an operating company. The assets of BNPP B.V. consist of the obligations of other BNPP Group entities. The ability of BNPP B.V. to meet its own obligations will depend on the ability of other BNPP Group entities to fulfil their obligations. In respect of securities it issues, the ability of BNPP B.V. to meet its obligations under such securities depends on the receipt by it of payments under</p>

Element	Title	
		<p>certain hedging agreements that it enters with other BNPP Group entities. Consequently, Holders of BNPP B.V. securities will, subject to the provisions of the Guarantee issued by BNPP, be exposed to the ability of BNPP Group entities to perform their obligations under such hedging agreements.</p> <p><i>Market Risk</i></p> <p>BNPP B.V. takes on exposure to market risks arising from positions in interest rates, currency exchange rates, commodities and equity products, all of which are exposed to general and specific market movements. However, these risks are hedged by option and swap agreements and therefore these risks are mitigated in principle.</p> <p><i>Credit Risk</i></p> <p>BNPP B.V. has significant concentration of credit risks as all OTC contracts are acquired from its parent company and other BNPP Group entities. Taking into consideration the objective and activities of BNPP B.V. and the fact that its parent company is under supervision of the European Central Bank and the Autorité de Contrôle Prudentiel et de Résolution management considers these risks as acceptable. The long term senior debt of BNP Paribas is rated (A) by Standard &amp; Poor's and (Aa3) by Moody's.</p> <p><i>Liquidity Risk</i></p> <p>BNPP B.V. has significant liquidity risk exposure. To mitigate this exposure, BNPP B.V. entered into netting agreements with its parent company and other BNPP Group entities.</p>
D.3	Key risks regarding the Securities	<p>In addition to the risks (including the risk of default) that may affect the Issuer's ability to fulfil its obligations under the Securities [or the Guarantor's ability to perform its obligations under the Guarantee], there are certain factors which are material for the purposes of assessing the risks associated with Securities issued under the Base Prospectus, including:</p> <p><i>Market Risks</i></p> <ul style="list-style-type: none"> <li>-the Securities are unsecured obligations;</li> <li>-the trading price of the Securities is affected by a number of factors including, but not limited to, (in respect of Securities linked to an Underlying Reference) the price of the relevant Underlying Reference(s), time to redemption and volatility and such factors mean that the trading price of the Securities may be below the Cash Settlement Amount or value of the Entitlement;</li> <li>-exposure to the Underlying Reference in many cases will be achieved by the relevant Issuer entering into hedging arrangements and, in respect of Securities linked to an Underlying Reference, potential investors are exposed to the performance of these hedging arrangements and events that may affect the hedging arrangements and consequently the occurrence of any of these events may affect the value of the Securities;</li> </ul> <p><i>Holder Risks</i></p> <ul style="list-style-type: none"> <li>-the meetings of Holders provisions permit defined majorities to bind all Holders;</li> <li>-in certain circumstances Holders may lose the entire value of their investment;</li> </ul> <p><i>Issuer/Guarantor Risks</i></p> <ul style="list-style-type: none"> <li>-a reduction in the rating, if any, accorded to outstanding debt securities of the Issuer</li> </ul>

Element	Title	
		<p>or Guarantor (if applicable) by a credit rating agency could result in a reduction in the trading value of the Securities;</p> <p>-certain conflicts of interest may arise (see Element E.4 below);</p> <p><i>Legal Risks</i></p> <p>-the occurrence of an additional disruption event or optional additional disruption event may lead to an adjustment to the Securities, early redemption or may result in the amount payable on scheduled redemption being different from the amount expected to be paid at scheduled redemption and consequently the occurrence of an additional disruption event and/or optional additional disruption event may have an adverse effect on the value or liquidity of the Securities;</p> <p>-expenses and taxation may be payable in respect of the Securities;</p> <p>-the Securities may be redeemed in the case of illegality or impracticability and such redemption may result in an investor not realising a return on an investment in the Securities;</p> <p>-any judicial decision or change to an administrative practice or change to English law or French law, as applicable, after the date of the Base Prospectus could materially adversely impact the value of any Securities affected by it;</p> <p><i>Secondary Market Risks</i></p> <p>-the only means through which a Holder can realise value from the Security prior to its Redemption Date is to sell it at its then market price in an available secondary market and that there may be no secondary market for the Securities (which could mean that an investor has to exercise or wait until redemption of the Securities to realise a greater value than its trading value);</p> <p><i>Risks relating to Underlying Reference Asset(s)</i></p> <p>-In addition, there are specific risks in relation to Securities which are linked to an Underlying Reference (including Hybrid Securities) and an investment in such Securities will entail significant risks not associated with an investment in a conventional debt security. Risk factors in relation to Underlying Reference linked Securities include:</p> <p>-exposure to one or more index, adjustment events and market disruption or failure to open of an exchange which may have an adverse effect on the value and liquidity of the Securities and that the Issuer will not provide post-issuance information in relation to the Underlying Reference.</p> <p><i>Risks relating to Specific types of products</i></p> <p>The following risks are associated with SPS Products :</p> <p>Vanilla Products</p> <p>Investors may be exposed to a partial or total loss of their investment. The return depends on the performance of the Underlying Reference and whether knock-in or knock-out features apply.</p>
<b>D.6</b>	Risk warning	<p>See Element D.3 above.</p> <p>In the event of the insolvency of the Issuer or if it is otherwise unable or unwilling to repay the Securities when repayment falls due, an investor may lose all or part of his</p>
