|------------|-------------------|---|
| B.19/ B.4b | Trend information | <p><i>Macroeconomic risk.</i></p> <p>Macroeconomic and market conditions affect BNPP's results. The nature of BNPP's business makes it particularly sensitive to macroeconomic and market conditions in Europe, which have been difficult and volatile in recent years.</p> <p>In 2014, the global economy continued its slow recovery but there remain uncertainties, in particular in Europe where the economic performance during the second half of 2014 was weaker than expected. IMF and OECD economic forecasts for 2015 indicate a continuation of moderate growth in developed economies but with differences between countries, including in the euro-zone, where growth is forecast to be weak in certain countries (including France and Italy). The forecast is similar for emerging markets (i.e., moderate growth but with areas of weakness). Short term risks to macroeconomic growth highlighted by the IMF include heightened geopolitical tensions and increased financial market volatility; medium-term risks highlighted include weak economic growth or stagnation in developed countries. Deflation remains a risk in the euro-zone, although the risk has been reduced through the ECB's announcement of non-conventional policy measures.</p> <p><i>Legislation and Regulation applicable to Financial Institutions.</i></p> <p>Laws and regulations applicable to financial institutions that have an impact on BNPP have significantly evolved. The measures that have been proposed and/or adopted in recent years include more stringent capital and liquidity requirements (particularly for large global banking groups such as the BNPP Group), taxes on financial transactions, restrictions and taxes on employee compensation, limits on the types of activities that commercial banks can undertake and ring-fencing or even prohibition of certain activities considered as speculative within separate subsidiaries, restrictions on certain types of financial products, increased internal control and reporting requirements, more stringent conduct of business rules, mandatory clearing and reporting of derivative transactions, requirements to mitigate risks in relation to over-the-counter derivative transactions and the creation of new and strengthened regulatory bodies. The measures that were recently adopted, or that are (or whose implementation measures are) in some cases proposed and still under discussion, that have affected or are likely to affect BNPP, include in particular the French Ordinance of 27 June 2013 relating to credit institutions and financing companies ("<i>Sociétés de financement</i>"), which came into force on 1 January 2014, the French banking law of 26 July 2013 on the separation and regulation of banking activities and the related implementing decrees and orders and the Ordinance of 20 February 2014 for the adaptation of French law to EU law with respect to financial matters; the Directive and Regulation of the European Parliament and of the Council on prudential requirements "CRD</p> |

Compte tenu de la nature de son activité, BNPP est particulièrement sensible aux conditions macroéconomiques et de marché en Europe, qui ont connu des perturbations au cours des dernières années.</p> <p>En 2014, l'économie mondiale a lentement poursuivi son redressement mais certaines incertitudes demeurent, en particulier en Europe où la performance économique a été plus faible que les prévisions au second semestre 2014. Les prévisions économiques du FMI et de l'OCDE pour l'année 2015 prévoient la poursuite d'une croissance modérée pour les économies développées mais avec des divergences entre les pays, y compris dans la zone euro, où les prévisions de croissance restent faibles dans certains pays (notamment en France et en Italie). Les prévisions sont similaires pour les marchés émergents</p>  |

Les risques de court terme pesant sur la croissance économique soulignés par le FMI incluent des tensions géopolitiques plus importantes et une volatilité accrue des marchés financiers; les risques de moyen terme soulignés incluent quant à eux une croissance faible ou une stagnation dans les pays développés. Dans la zone euro, le risque déflationniste, toujours présent, a néanmoins été réduit par l'annonce de mesures non conventionnelles de la BCE.</p> <p><b>Législation et Réglementations Applicables aux Institutions Financières.</b></p> <p>La législation et les réglementations applicables aux institutions financières qui ont un impact sur BNPP connaissent une évolution significative. Les mesures qui ont été proposées et/ou adoptées au cours des dernières années comprennent des exigences plus strictes en matière de capital et de liquidité (notamment pour les grands groupes bancaires tels que le Groupe BNPP), des taxes sur les transactions financières, des restrictions et des taxes sur la rémunération des salariés, des limitations aux activités bancaires commerciales et la séparation au sein de filiales dédiées, voire l'interdiction, de certaines activités considérées comme spéculatives, des restrictions sur les types de produits financiers, des exigences accrues en matière de contrôle interne et de transparence, des règles de conduite des affaires plus strictes, la compensation et un reporting obligatoires des opérations sur instruments dérivés, des obligations de limiter les risques relatifs aux dérivés OTC et la création de nouvelles autorités réglementaires renforcées.</p> <p>Les mesures adoptées récemment ou qui sont (ou dont les mesures d'application sont) encore en projet, qui ont, ou sont susceptibles d'avoir un impact sur BNPP, comprennent notamment : l'ordonnance française du 27 juin 2013 relative aux établissements de crédit et aux sociétés de financement, entrée en vigueur le 1er janvier 2014, la loi française du 26 juillet 2013 de séparation et de régulation des activités bancaires et ses décrets et arrêtés d'application et l'ordonnance du 20 février 2014 portant diverses dispositions d'adaptation de la législation au droit de l'Union Européenne en matière financière, la Directive et le Règlement du Parlement Européen et du Conseil sur les fonds propres réglementaires dits « CRD 4/CRR » du 26 juin 2013 (et leurs actes délégués et actes d'exécution), dont un nombre important de dispositions sont applicables depuis le 1er janvier 2014, les normes techniques de réglementation et d'exécution relatives à la Directive et au Règlement CRD 4/CRR élaborées par l'Autorité Bancaire Européenne, la désignation de BNPP en tant qu'institution financière d'importance systémique par le Conseil de Stabilité Financière et la consultation sur un standard international commun de capacité d'absorption des pertes (« total loss-absorbing capacity », « TLAC ») pour les établissements bancaires d'importance systémique, la consultation sur la réforme structurelle du secteur bancaire de l'Union Européenne de 2013 et la proposition de Règlement du Parlement Européen et du Conseil du 29 janvier 2014 relatif à</p> |

La seule activité de BNPP B.V. consiste à lever des capitaux et à emprunter des fonds via l'émission de titres, tels que des Obligations, Warrants, Certificats ou autres obligations. BNPP B.V. n'a pas, et n'aura pas, d'autres actifs que les contrats de couverture (contrats OTC mentionnés dans les Rapports Annuels), le numéraire et les commissions qui lui sont payées, ou tout autre actif qu'elle aurait acquis, en toute hypothèse en rapport avec l'émission de titres ou la conclusion de toute autre obligation y afférente à un moment donné. BNPP B.V. dispose d'un capital réduit et d'une base de profit limitée. Les produits nets résultant de chaque émission de Titres émis par l'Emetteur feront partie intégrante des fonds généraux de BNPP B.V. BNPP B.V. utilise ces produits en vue de couvrir son risque de marché en contractant des instruments de couverture auprès de BNP Paribas et des entités de BNP Paribas et/ou, dans le cas de Titres Assortis de Sûretés, en vue d'acquérir des Actifs Donnés en Garantie. La capacité de BNPP B.V. à remplir ses obligations relatives aux titres émis par elle dépendra des paiements qu'elle aura perçus au titre des contrats de couverture. Par conséquent, les Titulaires de titres de BNPP B.V. seront, sous réserve des dispositions de la Garantie pertinente accordée par BNP Paribas, exposés à la capacité des de BNP Paribas et d'entités de BNP Paribas à exécuter leurs obligations en vertu de ces contrats de couverture.</p> |
| <b>D.3</b> | Principaux risques propres aux Titres | <p>Certains facteurs importants permettent d'évaluer les risques de marché liés aux Titres émis dans le cadre du Programme, y compris le fait que les Titres (autres que les Titres Assortis de Sûretés) sont les obligations non assorties de sûretés, les Titres incluant un effet de levier impliquent un niveau de risque plus élevé et, en cas de pertes sur ces Titres, ces titres peuvent être supérieurs à ceux d'un titre similaire qui n'inclut aucun effet de levier, le cours de négociation des Titres est affecté par plusieurs facteurs, y compris, mais sans caractère limitatif, (concernant les Titres liés à un Sous-Jacent de Référence) le cours du ou de(s) Sous-Jacent(s) de Référence, la durée restant à courir</p>  |

Les facteurs de risque liés aux Titres indexés sur un Sous-Jacent de Référence incluent : l'exposition à un ou plusieurs indices, un cas d'ajustement et de perturbation du marché ou le défaut d'ouverture d'une bourse, qui peuvent avoir un effet défavorable sur la valeur de la liquidité des Titres.</p> <p>Dans certaines circonstances, les Titulaires peuvent perdre la valeur intégrale de leur investissement.</p> |
