Duly authorised

PART B – OTHER INFORMATION

1. Listing and Admission to trading

Application has been made to list the Securities on the Official List of the Luxembourg Stock Exchange and to admit the Securities to trading on the Luxembourg Stock Exchange's regulated market on or around the Issue Date.

2. Ratings

Ratings: The Securities have not been rated.

3. Interests of Natural and Legal Persons Involved in the Issue/Offer

Save as discussed in the "*Potential Conflicts of Interest*" paragraph in the "*Risks*" section in the Base Prospectus, so far as the Issuer is aware, no person involved in the offer of the Securities has an interest material to the offer.

4. Performance of Underlying/Formula/Other Variable and Other Information concerning the Underlying Reference

The Certificates relate to the Series 735 Preference shares of the BNP Paribas Synergy Limited relating to a basket of indices.

The performance of the Preference Shares depends on the performance of the relevant underlying asset(s) or basis of reference to which the Preference Shares are linked (the "**Preference Share Underlying**"). The Preference Share Underlying is a basket of indices comprising the EURO STOXX 50 Index and the Nikkei 225 Index. Information on the Preference Share Underlying (including past and further performance and volatility) is published on Reuters page BNPP= GB00BFJRY80. The Preference Share Value will be published on each Business Day on Reuters page BNPP= GB00BFJRY80.

The Issuer does not intend to provide post-issuance information.

5. Operational Information

Relevant Clearing System(s): Euroclear and Clearstream, Luxembourg

6. Terms and Conditions of the Public Offer

Applicable. MMPI LIMITED (the "**Financial Intermediary**") will manage a plan (the "**Plan**") which will be offered to the public in the Non-exempt Offer Jurisdiction in accordance with the arrangements listed below. The Financial Intermediary has selected the Certificates as the securities into which the Financial Intermediary will invest on behalf of investors in the Plan. The proceeds invested by investors in the Plan will be used by the Financial Intermediary to purchase the Certificates. It is understood that the performance of the Plan will be related to the performance of the Certificates throughout their term. Therefore, the amounts payable by the Financial Intermediary on the redemption of the Plan are linked to the amounts paid by the Issuer pursuant to the terms and conditions of the Certificates.

Offer Price:

A prospective investor in the Plan should contact the Financial Intermediary for details of the Offer Price.

If any commissions or fees discount relating to the issue and sale of the Certificates have been paid or are payable by the Manager to any intermediary then such intermediary may be obliged to fully disclose to its clients the existence, nature and amount of any such commissions or fees (including, if applicable, by way of discount) as required in accordance with laws and regulations applicable to such intermediary, including any legislation regulation and/or rule implementing the Markets in Financial Instruments Directive (2004/39/EC) ("**MiFID**"), or as otherwise may apply in any non-EEA jurisdictions. Potential investors in these Certificates intending to purchase Certificates through an intermediary (including by way of introducing broker) should request details of any such commission or fee payment from such intermediary before making any purchase thereof.

Conditions to which the offer is subject:

Offers of the Plan in its current form by the Financial Intermediary are conditional on the issue of the Certificates by the Issuer and subject to the contractual arrangements in place between the Manager and Financial Intermediary.

The Issuer reserves the right to not issue the Certificates at any time on or prior to the Issue Date. As between the Manager and its customers (including the Financial Intermediary) offers of the Certificates are further subject to such conditions as may be agreed between them and/or as are specified in any arrangements in place between them. As between the Financial Intermediary and its customers, offers of a beneficial interest in the Certificates pursuant to the Plan are further subject to such conditions as

may be agreed between them and/or as are specified in any arrangements in place between them. The Issuer will not be a party to any such arrangements with prospective investors (other than the Manager) in connection with the offer or sale of the Certificates or beneficial interests in the Certificates through the Plan and accordingly the Base Prospectus and these Final Terms will not contain such information and an Investor must obtain such information from the Financial Intermediary.

The Issuer reserves the right to modify the total nominal amount of the Certificates to which investors can subscribe, curtail the offer of the Securities or withdraw the offer of the Securities and/or, if the Securities have not yet been issued, cancel the issuance of the Securities for any reason at any time on or prior to the Offer End Date (as defined above) and advise the Financial Intermediary accordingly. For the avoidance of doubt, if any application has been made by a potential investor and the Issuer exercises such a right to withdraw the offer, each such potential investor shall not be entitled to subscribe or otherwise acquire the Securities.

Any offer of the Plan by the Financial Intermediary will be made in its own name and on its own behalf and not as an agent of the Issuer, the Guarantor or the Manager and only the Financial Intermediary will be liable for the offer in the Non-exempt Offer Jurisdiction. None of the Issuer, Guarantor or Manager accepts any liability for the offer or sale by the Financial Intermediary of an investment in the Plan to investors in the Non-exempt Offer Jurisdiction.

Description of the application process:

A prospective investor in the Plan should, prior to the end of the Offer Period (as defined above), contact the Financial Intermediary for details of the application process to purchase an interest in the Plan during the Offer Period. A prospective

investor in the Plan will invest in accordance with the arrangements existing between the Financial Intermediary and its customers relating to a subscription of products generally. Prospective investors will not enter into any contractual arrangements directly with the Issuer, Guarantor or the Manager related to the subscription for the Certificates. If an investor in any jurisdiction other than the Non-exempt Offer Jurisdiction wishes to purchase Certificates or to make an investment in the Plan, such investor should (a) be aware that sales in the relevant jurisdiction may not be permitted; and (b) contact its financial advisor, bank or financial intermediary for more information.

These Final Terms may only be used in connection with and within the terms of this offer. The Final Terms do not authorise, and may not be used by the Financial Intermediary or any other party in connection with, the subsequent offer or sale of any Certificates outside the terms of the offer or the Offer Period.

With the exception of the Non-exempt Offer Jurisdiction no action has been or will be taken in any jurisdiction by the Issuer, Guarantor or the Manager that would permit a public offering of the Certificates, or possession or distribution of any offering material in connection with the issue of the Certificates in any country or jurisdiction where action for that purposes is required. The Financial Intermediary must comply with all applicable laws and regulations in the Non-exempt Offer Jurisdiction in connection with the offer and sale of Certificates at its own expense.

Details of the minimum and/or maximum amount of application:

A prospective investor in the Plan should contact the Financial Intermediary for details of any minimum and/or maximum amount of the individual applications for an interest in the Plan.

Description of possibility to reduce subscriptions and manner for refunding excess amount paid by applicants:

A prospective investor in the Plan should contact the Financial Intermediary regarding the possibility of reducing their subscriptions during

the Offer Period and the manner for refunding any excess amount paid.

Details of the method and time limits for paying up and delivering the Securities:

A prospective investor in the Plan should contact the Financial Intermediary for details of the method and time limits for paying up and delivering an interest in the Plan.

Manner in and date on which results of the offer are to be made public:

The final amount of Certificates to be issued will be determined based on market demand for an investment in the Plan during the Offer Period and will be published on the Luxembourg Stock Exchange's website (www.bourse.lu) and at the registered office of the Issuer and Guarantor on or prior to the Issue Date.

Procedure for exercise of any right of pre-emption, negotiability of subscription rights and treatment of subscription rights not exercised:

A prospective investor in the Plan should contact the Financial Intermediary for details of any right of pre-emption, negotiability of subscription rights and treatment of subscription rights not exercised.

Process for notification to applicants of the amount allotted and indication whether dealing may begin before notification is made:

Prospective investors in the Plan will be notified by the Financial Intermediary in accordance with the arrangements in place between the Financial Intermediary and its customers. For the avoidance of doubt no dealings in the Certificates may take place prior to the Issue Date.

Amount of any expenses and taxes specifically charged to the subscriber or purchaser:

Prospective investors in the Plan should contact the Financial Intermediary for details of any expenses and taxes that would be specifically charged in relation to any subscription of an interest in the Plan.

Name and address of the entities which have a firm commitment to act as intermediaries in secondary trading, providing liquidity through bid and after rates and a description of the main terms of their commitment:

None

7. Placing and Underwriting

Name(s) and address(es), to the extent known to the Issuer, of the placers in the various countries where the offer takes place:	MMPI LIMITED 101 Morehampton Rd Dublin 4 Ireland D04 T0C2
Name and address of the co-ordinator(s) of the global offer and of single parts of the offer:	Not applicable
Name and address of any paying agents and depository agents in each country (in addition to the Principal Security Agent):	Prospective investors in the Plan should contact the Financial Intermediary for details of any additional paying agents or depository agents involved in the offer of the Plan.
Entities agreeing to underwrite the issue on a firm commitment basis, and entities agreeing to place the issue without a firm commitment or under "best efforts" arrangements:	No underwriting commitment is undertaken by the Manager or the Financial Intermediary.
When the underwriting agreement has been or will be reached:	Not applicable

Issuer is only offering to and selling to the Manager pursuant to and in accordance with terms agreed with the Manager. All sales to persons other than the Manager will be made by the Manager or person to whom it sells and/or otherwise makes arrangements with including the Financial Intermediary. The Issuer shall not be liable for any offers, sales or purchases of Certificates or beneficial interests in the Certificates pursuant to the Plan to persons (other than in respect of offers and sales to and purchasers of Certificates by the Manager and only then pursuant to the terms agreed with the Manager), which are made by the Manager or the Financial Intermediary in accordance with the arrangements in place between any such Manager or the Financial Intermediary and its customers.

The Manager has acknowledged and agreed and the Financial Intermediary will be required by the Manager to acknowledge and agree that for the purpose of offer(s) of the Certificates, the Issuer will not allow the Certificates to be publicly offered in any other European Economic Area Member State; accordingly the Certificates may only be publicly offered in the Non-exempt Offer Jurisdiction or offered to qualified investors (as defined in the Prospectus Directive) in any other European Economic Area Member States and that all offers of Certificates by it will be made only in accordance with the selling restrictions set forth in the Base Prospectus and the provisions of these Final Terms and in compliance with all applicable laws and regulations.

8. EU Benchmark Regulation

EU Benchmarks Regulation: Article 29(2)
statement on benchmarks:

Applicable:

Amounts payable under the Certificates are calculated by reference to the EURO STOXX 50 Index and the Nikkei 225 Index, which are provided by Stoxx Limited and Nikkei Inc. and Nikkei Digital Media Inc.

As at the date of these Final Terms, Stoxx Limited and Nikkei Inc. and Nikkei Digital Media Inc. are not included in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority pursuant to Article 36 of the Benchmark Regulation.

ISSUE SPECIFIC SUMMARY

Summaries are made up of disclosure requirements known as "Elements". These Elements are numbered in Sections A – E (A.1 – E.7). This Summary contains all the Elements required to be included in a summary for this type of Securities, Issuer and Guarantor. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in the summary because of the type of Securities, Issuer and Guarantor(s), it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element should be included in the summary explaining why it is not applicable.

Section A - Introduction and warnings

Element	Title	
A.1	Warning that the summary should be read as an introduction and provision as to claims	<ul style="list-style-type: none"> • This summary should be read as an introduction to the Base Prospectus and the applicable Final Terms. Element	Title	
		<p>Macroeconomic and market conditions affect BNPP's results. The nature of BNPP's business makes it particularly sensitive to macroeconomic and market conditions in Europe, which have been at times challenging and volatile in recent years.</p> <p>In 2017, global growth increased to about 3.5%, reflecting an improvement in all geographic regions. In the large developed countries, this increase in activity is leading to a tightening of, or a tapering of, accommodating monetary policy. However, with inflation levels still very moderate, the central banks are able to manage this transition very gradually, without compromising the economic outlook. The IMF expects worldwide growth to strengthen further in 2018 and has revised its forecast from +3.6% to +3.7%: the slight slowing down expected in the advanced economies should be more than offset by the forecast improvement in the emerging economies (driven by the recovery in Latin America and the Middle East, and despite the structural lower pace of economic growth in China).</p> <p>In this context, the following two risk categories can be identified:</p> <p><i>Risks of financial instability due to the conduct of monetary policies</i></p> <p>Two risks should be emphasised: a sharp increase in interest rates and the current very accommodating monetary policy being maintained for too long.</p> <p>On the one hand, the continued tightening of monetary policy in the United States (which started in 2015) and the less-accommodating monetary policy in the euro zone (a planned reduction in assets purchases starting in January 2018) involve risks of financial turbulence. The risk of an inadequately controlled rise in long-term interest rates may in particular be emphasised, under the scenario of an unexpected increase in inflation or an unanticipated tightening of monetary policies. If this risk materialises, it could have negative consequences on the asset markets, particularly those for which risk premiums are extremely low compared to their historic average, following a decade of accommodating monetary policies (credit to non-investment grade corporates or countries, certain sectors of the equity markets, real estate, etc.).</p> <p>On the other hand, despite the upturn since mid-2016, interest rates remain low, which may encourage excessive risk-taking among some financial market participants: lengthening maturities of financings and assets held, less stringent credit policy, and an increase in leveraged financings. Some of these participants (insurance companies, pension funds, asset managers, etc.) have an increasingly systemic dimension and in the event of market turbulence (linked for example to a sharp rise in interest rates and/or a sharp price correction) they could be brought to unwind large positions in relatively weak market liquidity.</p>

		<p data-bbox="606 302 1037 347"><i>Systemic risks related to increased debt</i></p> <p data-bbox="606 369 1428 548">Macroeconomically, the impact of a rate increase could be significant for countries with high public and/or private debt-to-GDP. This is particularly the case for the United States and certain European countries (in particular Greece, Italy, and Portugal), which are posting public debt-to-GDP ratios often above 100% but also for emerging countries.</p> <p data-bbox="606 582 1428 1064">Between 2008 and 2017, the latter recorded a marked increase in their debt, including foreign currency debt owed to foreign creditors. The private sector was the main source of the increase in this debt, but also the public sector to a lesser extent, particularly in Africa. These countries are particularly vulnerable to the prospect of a tightening in monetary policies in the advanced economies. Capital outflows could weigh on exchange rates, increase the costs of servicing that debt, import inflation, and cause the emerging countries' central banks to tighten their credit conditions. This would bring about a reduction in forecast economic growth, possible downgrades of sovereign ratings, and an increase in risks for the banks. While the exposure of the BNP Paribas Group to emerging countries is limited, the vulnerability of these economies may generate disruptions in the global financial system that could affect the Group and potentially alter its results.</p> <p data-bbox="606 1097 1428 1198">It should be noted that debt-related risk could materialise, not only in the event of a sharp rise in interest rates, but also with any negative growth shocks.</p> <p data-bbox="606 1232 1236 1265"><i>Laws and regulations applicable to financial institutions.</i></p> <p data-bbox="606 1299 1428 1478">Recent and future changes in the laws and regulations applicable to financial institutions may have a significant impact on BNPP. Measures that were recently adopted or which are (or whose application measures are) still in draft format, that have or are likely to have an impact on BNPP notably include:</p> <ul data-bbox="606 1512 1428 1971" style="list-style-type: none"> <li data-bbox="606 1512 1428 1769">- the structural reforms comprising the French banking law of 26 July 2013 requiring that banks create subsidiaries for or segregate "speculative" proprietary operations from their traditional retail banking activities, the "Volcker rule" in the US which restricts proprietary transactions, sponsorship and investment in private equity funds and hedge funds by US and foreign banks, and upcoming potential changes in Europe; <li data-bbox="606 1803 1428 1971">- regulations governing capital: the Capital Requirements Directive IV ("CRD4")/the Capital Requirements Regulation ("CRR"), the international standard for total loss-absorbing capacity ("TLAC") and BNPP's designation as a financial institution that is of systemic importance by the Financial Stability Board;

		<p>an output floor (based on standardised approaches), which will be gradually applied as of 2022 and reach its final level in 2027.</p> <p>Moreover, in today's tougher regulatory context, the risk of non-compliance with existing laws and regulations, in particular those relating to the protection of the interests of customers, is a significant risk for the banking industry, potentially resulting in significant losses and fines. In addition to its compliance system, which specifically covers this type of risk, the BNP Paribas Group places the interest of its customers, and more broadly that of its stakeholders, at the heart of its values. The new code of conduct adopted by the BNP Paribas Group in 2016 sets out detailed values and rules of conduct in this area.</p> <p>Cyber security and technology risk</p> <p>BNPP's ability to do business is intrinsically tied to the fluidity of electronic transactions as well as the protection and security of information and technology assets.</p> <p>The technological change is accelerating with the digital transformation and the resulting increase in the number of communications circuits, proliferation in data sources, growing process automation, and greater use of electronic banking transactions.</p> <p>The progress and acceleration of technological change are giving cybercriminals new options for altering, stealing, and disclosing data. The number of attacks is increasing, with a greater reach and sophistication in all sectors, including financial services.</p> <p>The outsourcing of a growing number of processes also exposes the BNP Paribas Group to structural cyber security and technology risks leading to the appearance of potential attack vectors that cybercriminals can exploit.</p> <p>Accordingly, the BNP Paribas Group has set up a second line of defence within the risk function with the creation of the Risk ORC ICT Team dedicated to managing cyber security and technology risk. Thus, standards are regularly adapted to support BNPP's digital evolution and innovation while managing existing and emerging threats (such as cyber-crime, espionage, etc.).</p>

B.19/ B.14	Dependence upon other Group entities	<p>Subject to the following paragraph, BNPP is not dependent upon other members of the BNPP Group.</p> <p>In April 2004, BNPP began outsourcing IT Infrastructure Management Services to the BNP Paribas Partners for Innovation ("BP²I") joint venture set up with IBM France at the end of 2003. BP²I provides IT Infrastructure Management Services for BNPP and several BNPP subsidiaries in France (including BNP Paribas Personal Finance, BP2S, and BNP Paribas Cardif), Switzerland, and Italy. In mid-December 2011 BNPP renewed its agreement with IBM France for a period lasting until end-2017 and has subsequently renewed the agreement for a period lasting until end-2021. At the end of 2012, the parties entered into an agreement to gradually extend this arrangement to BNP Paribas Fortis as from 2013. The Swiss subsidiary was closed on 31 December 2016.</p> <p>BP²I is under the operational control of IBM France. BNP Paribas has a strong influence over this entity, which is 50/50 owned with IBM France. The BNP Paribas staff made available to BP²I make up half of that entity's permanent staff, its buildings and processing centres are the property of the Group, and the governance in place provides BNP Paribas with the contractual right to monitor the entity and bring it back into the Group if necessary.</p> <p>IBM Luxembourg is responsible for infrastructure services and data production for some of the BNP Paribas Luxembourg entities.</p> <p>BancWest's data processing operations are outsourced to Fidelity Information Services. Cofinoga France's data processing is outsourced to SDDC, a fully-owned IBM subsidiary.</p>

Section D – Risks

Element	Title	
D.2	Key risks regarding the Issuer and the Guarantor	<p>Prospective purchasers of the Securities should be experienced with respect to options and options transactions and should understand the risks of transactions involving the Securities. An investment in the Securities presents certain risks that should be taken into account before any investment decision is made. Certain risks may affect the Issuer's ability to fulfil its obligations under the Securities or the Guarantor's ability to perform its obligations under the Guarantee, some of which are beyond its control. In particular, the Issuer and the Guarantor, together with the BNPP Group, are exposed to the risks associated with its activities, as described below:</p> <p><i>Guarantor</i></p> <p>Seven main categories of risk are inherent in BNPP's activities:</p> <p>(1) <i>Credit Risk</i> - Credit risk is defined as the probability of a borrower or counterparty defaulting on its obligations to BNPP. Probability of default along with the recovery rate of the loan or debt in the event of default are essential elements in assessing credit quality. BNPP's risk-weighted assets subject to this type of risk amounted to EUR 504 billion at 31 December 2018. In accordance with the EBA recommendations, this category of risk also includes risks on equity investments, as well as those related to insurance activities.</p> <p>(2) <i>Operational risk</i> – Operational risk is the risk of loss resulting from failed or inadequate internal processes (particularly those involving personnel and information systems) or external events, whether deliberate, accidental or natural (floods, fires, earthquakes, terrorist attacks, etc.). Operational risks include fraud, human resources risks, legal and reputational risks, non-compliance risks, tax risks, information systems risks, risk of providing inadequate financial services (conduct risk), risk of failure of operational processes including credit processes, or from the use of a model (model risk), as well as potential financial consequences related to reputation risk management. BNPP's risk-weighted assets subject to this type of risk amounted to EUR 73 billion at 31 December 2018.</p> <p>(3) <i>Counterparty risk</i> - Counterparty risk arises from BNPP's credit risk in the specific context of market transactions, investments, and/or settlements. The amount of this risk varies over time depending on fluctuations in market parameters affecting the potential future value of the transactions concerned. BNPP's risk-weighted assets subject to this type of risk amounted to EUR 27 billion at 31 December 2018.</p>

Element	Title	
		<p>(4) <i>Market Risk</i> - Market risk is the risk of loss of value caused by an unfavorable trend in prices or market parameters. Market parameters include, but are not limited to, exchange rates, prices of securities and commodities (whether the price is directly quoted or obtained by reference to a comparable asset), the price of derivatives on an established market and all benchmarks that can be derived from market quotations such as interest rates, credit spreads, volatility or implicit correlations or other similar parameters. BNPP's risk-weighted assets subject to this type of risk amounted to EUR 20 billion at 31 December 2018.</p> <p>(5) <i>Securitisation risk</i> – Securitisation is a transaction or arrangement by which the credit risk associated with a liability or set of liabilities is subdivided into tranches. Any commitment made under a securitisation structure (including derivatives and liquidity lines) is considered to be a securitisation. The bulk of these commitments are in the prudential banking portfolio. BNPP's risk-weighted assets subject to this type of risk amounted to EUR 7 billion at 31 December 2018.</p> <p>(6) <i>Risks related to deferred taxes and certain holdings in credit or financial institutions</i> – amounts below the prudential capital deduction thresholds generate risk-weighted assets amounting to EUR 17 billion at 31 December 2018.</p> <p>(7) <i>Liquidity risk</i> – Liquidity risk is the risk that BNPP will not be able to honor its commitments or unwind or offset a position due to market conditions or specific factors within a specified period of time and at a reasonable cost. It reflects the risk of not being able to cope with net cash outflows, including collateral requirements, over short-term to long-term horizons. The BNPP Group's specific risk can be assessed through its short-term liquidity ratio, which analyses the hedging of net cash outflows during a 30-day stress period.</p> <p>More generally, the risks to which the BNPP Group is exposed may arise from a number of factors related, among other things, to changes in its macroeconomic, competitive, market and regulatory environment or the implementation of its strategy, its business or its operations.</p> <p><i>Risks</i></p> <p>This section summarises the principal risks that BNPP currently considers itself to face. They are presented in the following categories: risks related to the macroeconomic environment, risks related to the market environment,</p>

		<p>regulations, and may also incur losses in related (or unrelated) litigation with private parties.</p> <p>(o) Risks related to the implementation of BNPP's strategic plans.</p> <p>(p) BNPP may experience difficulties integrating acquired companies and may be unable to realise the benefits expected from its acquisitions.</p> <p>(q) BNPP is exposed to credit risk and counterparty risk.</p> <p>(r) A substantial increase in new provisions or a shortfall in the level of previously recorded provisions could adversely affect BNPP's results of operations and financial condition.</p> <p>(s) BNPP's hedging strategies may not prevent losses.</p> <p>(t) Adjustments to the carrying value of BNPP's securities and derivatives portfolios and BNPP's own debt could have an impact on its net income and shareholders' equity.</p> <p>(u) The credit ratings of BNPP may be downgraded, which would weigh on its profitability.</p> <p>(v) Intense competition by banking and non banking operators could adversely affect BNPP's revenues and profitability.</p> <p>(w) BNPP's risk management policies, procedures and methods may leave it exposed to unidentified or unanticipated risks, which could lead to material losses.</p> <p>(x) An interruption in or a breach of BNPP's information systems may cause substantial losses of client or customer information, damage to BNPP's reputation and financial losses.</p> <p>(y) BNPP's competitive position could be harmed if its reputation is damaged.</p> <p>Issuer</p> <p>The main risks described above in relation to BNPP also represent the main risks for BNPP B.V., either as an individual entity or a company in the BNPP Group.</p> <p>Dependency Risk</p> <p>BNPP B.V. is an operating company. The assets of BNPP B.V. consist of the obligations of other BNPP Group entities. The ability of BNPP B.V. to meet its own obligations will depend on the ability of other BNPP Group entities</p>

		<p>to fulfil their obligations. In respect of securities it issues, the ability of BNPP B.V. to meet its obligations under such securities depends on the receipt by it of payments under certain hedging agreements that it enters with other BNPP Group entities. Consequently, Holders of BNPP B.V. securities will, subject to the provisions of the Guarantee issued by BNPP, be exposed to the ability of BNP Group entities to perform their obligations under such hedging agreements.</p> <p><i>Market Risk</i></p> <p>BNPP B.V. takes on exposure to market risks arising from positions in interest rates, currency exchange rates, commodities and equity products, all of which are exposed to general and specific market movements. However, these risks are hedged by option and swap agreements and therefore these risks are mitigated in principle.</p> <p><i>Credit Risk</i></p> <p>BNPP B.V. has significant concentration of credit risks as all OTC contracts are acquired from its parent company and other BNPP Group entities. Taking into consideration the objective and activities of BNPP B.V. and the fact that its parent company is under supervision of the European Central Bank and the <i>Autorité de Contrôle Prudentiel et de Résolution</i> management considers these risks as acceptable. The long term senior debt of BNP Paribas is rated (A) by Standard & Poor's and (Aa3) by Moody's.</p> <p><i>Liquidity Risk</i></p> <p>BNPP B.V. has significant liquidity risk exposure. To mitigate this exposure, BNPP B.V. entered into netting agreements with its parent company and other BNPP Group entities.</p>
D.3	Key risks regarding the Securities	<p>In addition to the risks (including the risk of default) that may affect the Issuer's ability to fulfil its obligations under the Securities or the Guarantor's ability to perform its obligations under the Guarantee, there are certain factors which are material for the purposes of assessing the risks associated with Securities issued under the Base Prospectus, including:</p> <p><i>Market Risks</i></p> <p>Securities are unsecured obligations;</p> <p>exposure to the Underlying Reference in many cases will be achieved by the relevant Issuer entering into hedging arrangements and, in respect of Securities linked to an Underlying Reference, potential investors are exposed to the performance of these hedging arrangements and events that may affect the hedging arrangements and consequently the occurrence of any of these events may affect the value of the Securities;</p> <p><i>Holder Risks</i></p>

Element	Title	
		<p>the Securities may have a minimum trading amount and if, following the transfer of any Securities, a Holder holds fewer Securities than the specified minimum trading amount, such Holder will not be permitted to transfer their remaining Securities prior to redemption without first purchasing enough additional Securities in order to hold the minimum trading amount;</p> <p>in certain circumstances Holders may lose the entire value of their investment;</p> <p><i>Issuer /Guarantor Risks</i></p> <p>a reduction in the rating, if any, accorded to outstanding debt securities of the Issuer or Guarantor (if applicable) by a credit rating agency could result in a reduction in the trading value of the Securities;</p> <p><i>Legal Risks</i></p> <p>the occurrence of an additional disruption event or optional additional disruption event may lead to an adjustment to the Securities early redemption or may result in the amount payable on scheduled redemption being different from the amount expected to be paid at scheduled redemption and consequently the occurrence of an additional disruption event and/or optional additional disruption event may have an adverse effect on the value or liquidity of the Securities;</p> <p>in certain circumstances settlement may be postponed or payments made in USD if the Settlement Currency specified in the applicable Final Terms is not freely transferable, convertible or deliverable;</p> <p>expenses and taxation may be payable in respect of the Securities;</p> <p>the Securities may be redeemed in the case of illegality or impracticability and such redemption may result in an investor not realising a return on an investment in the Securities;</p> <p>any judicial decision or change to an administrative practice or change to English law or French law, as applicable, after the date of the Base Prospectus could materially adversely impact the value of any Securities affected by it;</p> <p><i>Secondary Market Risks</i></p> <p>the only means through which a Holder can realise value from the Security prior to its Redemption Date is to sell it at its then market price in an available secondary market and that there may be no secondary market for the Securities (which could mean that an investor has to exercise or wait until redemption of the Securities to realise a greater value than its trading value);</p>

Element	Title	
		<p>an active secondary market may never be established or may be illiquid and this may adversely affect the value at which an investor may sell its Securities (investors may suffer a partial or total loss of the amount of their investment).</p> <p>BNP Paribas Arbitrage S.N.C. is required to act as market-maker in respect of the Securities. BNP Paribas Arbitrage S.N.C. will endeavour to maintain a secondary market throughout the life of the Securities, subject to normal market conditions and will submit bid and offer prices to the market. The spread between bid and offer prices may change during the life of the Securities. However, during certain periods, it may be difficult, impractical or impossible for BNP Paribas Arbitrage S.N.C. to quote bid and offer prices, and during such periods, it may be difficult, impracticable or impossible to buy or sell these Securities. This may, for example, be due to adverse market conditions, volatile prices or large price fluctuations, a large marketplace being closed or restricted or experiencing technical problems such as an IT system failure or network disruption.</p> <p><i>Risks relating to Underlying Reference Asset(s)</i></p> <p>In addition, there are specific risks in relation to Securities which are linked to an Underlying Reference (including Hybrid Securities) and an investment in such Securities will entail significant risks not associated with an investment in a conventional debt security. Risk factors in relation to Underlying Reference linked Securities include:</p> <p>exposure to one or more index, adjustment events and market disruption or failure to open of an exchange which may have an adverse effect on the value and liquidity of the Securities</p> <p>exposure to a fund share or unit or fund index, similar risks to a direct fund investment, that the amount payable on Fund Securities may be less than the amount payable from a direct investment in the relevant Fund(s) or Fund Index(ices), extraordinary fund events which may have an adverse effect on the value or liquidity of the Securities</p>
D.6	Risk warning	<p>See Element D.3 above.</p> <p>In the event of the insolvency of the Issuer or if it is otherwise unable or unwilling to repay the Securities when repayment falls due, an investor may lose all or part of his investment in the Securities.</p> <p>If the Guarantor is unable or unwilling to meet its obligations under the Guarantee when due, an investor may lose all or part of his investment in the Securities.</p> <p>In addition, investors may lose all or part of their investment in the Securities as a result of the terms and conditions of the Securities.</p>
