Euro Medium Term Note Programme

Under the Euro Medium Term Note Programme described in this Base Prospectus (the "**Programme**"), HSBC France (the "**Issuer**"), subject to compliance with all relevant laws, regulations and directives, may from time to time issue Euro Medium Term Notes (the "**Notes**"). The aggregate nominal amount of Notes outstanding will not at any time exceed € 20,000,000,000 (or its equivalent in other currencies) at the date of issue.

This Base Prospectus (together with all supplements thereto from time to time), which contains all relevant information concerning the Issuer and its consolidated subsidiaries taken as a whole (the "**Group**") as well as the base terms and conditions of the Notes to be issued under the Programme, constitutes a base prospectus for the purposes of Article 5.4 of the Directive 2003/71/EC of the European Parliament and of the Council of 4 November 2003 (the "**Prospectus Directive**"). The terms and conditions applicable to each Tranche (as defined in "**General Description of the Programme**") not contained herein will be determined by the Issuer and the relevant Dealer(s) at the time of the issue on the basis of the then prevailing market conditions and will be set out in the relevant final terms (the "**Final Terms**") (a form of which is contained herein).

This Base Prospectus has been submitted for approval to the *Commission de Surveillance du Secteur Financier* in Luxembourg (the "**CSSF**") in its capacity as competent authority in Luxembourg under the *Loi relative aux prospectus pour valeurs mobilières* dated 10 July 2005 implementing the Prospectus Directive in Luxembourg.

Application has been made to the Luxembourg Stock Exchange for Notes issued under this Base Prospectus to be admitted to trading on the Luxembourg Stock Exchange's regulated market and to be listed on the Official List of the Luxembourg Stock Exchange. The Luxembourg Stock Exchange regulated market is a regulated market for the purposes of the Investment Services Directive 2004/39/EC (each such market being a "**Regulated Market**") on financial instruments markets. Notes issued under the Programme may also be listed and admitted to trading on any other Regulated Market in such Member State of the European Economic Area ("**EEA**") and/or offered to the public in any Member State of the EEA, in each case in accordance with the Prospectus Directive, or may be listed on an unregulated stock exchange or market, or may be unlisted.

The relevant Final Terms in respect of the issue of any Notes will specify whether or not such Notes will be listed and admitted to trading and/or offered to the public and, if so, the relevant Regulated Market(s) where the Notes will be listed and admitted to trading and/or the Member State(s) in the EEA where the Notes will be offered to the public.

This Base Prospectus replaces and supersedes the Base Prospectus dated 15 September 2006 prepared in connection with the Programme as supplemented by the supplements dated 2 November 2006 and 14 May 2007. It shall be updated annually as from the date hereof.

Notes may be issued either in dematerialised form ("**Dematerialised Notes**") or in materialised form ("**Materialised Notes**") as more fully described herein.

Dematerialised Notes will at all times be in book entry form in compliance with Article L.211-4 of the French *Code monétaire et financier*. No physical documents of title will be issued in respect of the Dematerialised Notes.

Dematerialised Notes may, at the option of the Issuer, be (i) in bearer form (*au porteur*) inscribed as from the issue date in the books of Euroclear France (acting as central depository) which shall credit the accounts of the Account Holders (as defined in "Terms and Conditions of the Notes - Form, Denomination, Title and Redenomination") including Euroclear Bank S.A./N.V ("**Euroclear**") and the depository bank for Clearstream Banking, société anonyme ("**Clearstream, Luxembourg**"), or (ii) in registered form (*au nominatif*) and, in such latter case, at the option of the relevant Noteholder (as defined in "Terms and Conditions of the Notes - Form, Denomination, Title and Redenomination"), in either fully registered form (*au nominatif pur*), in which case they will be inscribed in an account maintained by the Issuer or by a registration agent (appointed in the relevant Final Terms (as defined in "Terms and Conditions of the Notes")) for the Issuer, or in administered registered form (*au nominatif administré*) in which case they will be inscribed in the accounts of the Account Holders designated by the relevant Noteholder.

Materialised Notes will be in bearer materialised form only and may only be issued outside France. A temporary global certificate in bearer form without interest coupons attached (a "**Temporary Global Certificate**") will initially be issued in relation to Materialised Notes. Such Temporary Global Certificate will subsequently be exchanged for definitive Materialised Notes with, where applicable, coupons for interest or talons attached (the "**Definitive Materialised Notes**"), on or after a date expected to be on or about the 40th day after the issue date of the Notes (subject to postponement as described in "Temporary Global Certificate in respect of Materialised Notes") upon certification as to non-U.S. beneficial ownership as more fully described herein. Temporary Global Certificates will (a) in the case of a Tranche intended to be cleared through Euroclear and/or Clearstream, Luxembourg, be deposited on the issue date with a common depository for Euroclear and Clearstream, Luxembourg, or (b) in the case of a Tranche intended to be cleared through a clearing system other than or in addition to Euroclear and/or Clearstream, Luxembourg or delivered outside a clearing system, be deposited as agreed between the Issuer and the Relevant Dealer (as defined below).

PRESENTATION OF HSBC FRANCE

HSBC France is incorporated under French law and was founded in 1894 under the name Banque Suisse et Française (BSF). In 1917, BSF, Maison Aynard et Fils and Caisse de Crédit de Nice merged to create CCF. In 1982, CCF's share capital came under full state control and returned to the public in 1987 through a public offering. CCF joined the HSBC Group in July 2000.

CCF adopted the HSBC brand name on 1 November 2005.

Headquartered in London, the HSBC Group is one of the largest banking and financial services organisations in the world. The Group's international network comprises over 10,000 properties in 83 countries and territories in Europe; Hong-Kong; Rest of Asia-Pacific, including the Middle East and Africa; North America and Latin America,

During the year ended 31 December 1992, HSBC Bank plc (formerly Midland Bank plc) became a wholly-owned subsidiary undertaking of HSBC Holdings plc ("**HSBC Holdings**"), whose Head Office is at 8 Canada Square, London, E14 5HQ

With listings on the London, Hong Kong, New York, Paris and Bermuda stock exchanges, shares in HSBC Holdings plc are held by around 200,000 shareholders in some 100 countries and territories. The shares are traded on the New York Stock Exchange in the form of American Depository Receipts.

In addition, HSBC Holdings is a reporting issuer for the purposes of certain US securities regulations and in accordance therewith is required to publish certain financial information with the offices of the Securities and Exchange Commission.

BUSINESS LINES

HSBC France's activity is focussed on (i) Personal Financial Services, (ii) Commercial Banking, (iii) Corporate, Investment Banking and Markets (CIBM), (iv) Asset management and (v) Private Banking.

Personal Financial Services: the strong business momentum gained since the change of brand name in November 2005 continues, with brisk growth in the customer base on the HSBC platform.

With 35,000 customers added during the first half of 2007, the number of new customers increased by 11 per cent over the already high mark set during the prior period. HSBC strengthened its position as its customers' primary bank and preferred bank for holding their personal assets.

In retail Banking, however, the segment's performance has been impacted by competitive pressures on margins and interest-rate trends that have limited revenue growth.

Commercial Banking: major marketing and branding campaigns were devoted to the Commercial Banking business line, in particular on the "Principal Banker" theme. To accompany them, HSBC France developed products and services constructed specifically to respond to customer expectations in the different market segments.

Corporate, Investment Banking and Markets (CIBM) and Asset Management: Corporate Banking experienced strong business growth, especially in mergers and acquisitions, structured finance and syndicated loans.

In the Capital Markets area of the business, developments during the first half of 2007 were mixed for the various global platforms based in Paris (liquid assets, structured equity derivatives and structured interest-rate derivatives).

In addition, as in past periods, revenues generated by large French customers within the entire HSBC Group continued their strong growth, illustrating the increased power of intra-group synergies.

In Asset Management, assets under management increased by 4.3 percent. to €88 billion, with the growth mainly in equity, alternative and fixed-income products. Strong synergies with HSBC's other business lines in France contributed to this growth, as did the international expansions of Sinopia and Halbis.

Private Banking:

The private banking business line pursued its synergies with other business segments, working with Personal Financial Services, commercial banking and corporate banking to develop the customer base and with Capital Markets to offer its private banking clients structured products and products for hedging stock options. These efforts produced a 4 per cent increase in assets under management to €12.7 billion.

RECENT DEVELOPMENTS

On 29 May 2007, HSBC France announced by way of press release the reorganisation of the Management Committee of HSBC France. Charles-Henri Filippi decided to retire from his executive positions as CEO of HSBC France and of Group Managing Director of HSBC Holdings from 1 September 2007. Charles-Henri Filippi will continue as non-executive Chairman of HSBC France. Peter Boyles, presently Group Head of Human Resources, will succeed Charles-Henri Filippi as CEO of HSBC France.

The HSBC France group has not been impacted by the US subprime crisis. Tensions emerging in the interbank market and more generally the credit markets in August had the effect of boosting results in the Capital Markets business but adversely affected one of the Asset Management subsidiaries due to high redemptions of a dynamic money market fund, which were only partly offset by reinvestment in standard money market products. Throughout this period, HSBC France has maintained a high level of liquidity for itself and the funds managed by its subsidiaries.

The Notes constituting *obligations* under French law will be issued (or deemed to be issued) outside France (i) if such Notes are denominated in Euro, (ii) in the case of syndicated issues of Notes denominated in currencies other than Euro, if, *inter alia*, the Issuer and the relevant Dealers agree not to offer the Notes to the public in France in connection with their initial distribution and such Notes are offered in France only through an international syndicate to qualified investors (*investisseurs qualifiés*) as described in Article L.411-2 and D.411-1 to D.411-4 of the French *Code monétaire et financier* or (iii) in the case of non-syndicated issues of Notes denominated in currencies other than Euro, if each of the subscribers of the Notes is domiciled or resident for tax purposes outside the Republic of France, in each case as more fully set out in the Circular of the *Direction Générale des Impôts* dated 30 September 1998.

Risk factors:

Risk factors relating to the Issuer and its activities

There are a number of factors which could cause the Issuer's actual results to differ, in some instances materially, from those anticipated. The factors set out below should not be regarded as a complete and comprehensive statement of all potential risks and uncertainties which face the Issuer's businesses.

Changes in general economic conditions in the markets in which the Issuer operates, include changes in foreign exchange rates, volatility in interest rates, volatility in equity markets, lack of liquidity in wholesale funding markets in periods of economic or political crisis, illiquidity and downward price pressure in France and eurozone real estate markets, particularly consumer-owned real estate markets, recessions and employment fluctuations and consumer perception as to the continuing availability of credit, and price competition in the market segments served by the Issuer.

The three main structural risks in relation to interest rate, exchange rate and liquidity exposure (excluding trading exposure) are structural foreign exchange exposure, structural liquidity exposure, and structural interest rate exposure.

Changes in governmental policy and regulation are described in the Risk Factors.

Factors specific to the Issuer include the success of the Issuer in adequately identifying the risks it faces, such as the incidence of loan losses or delinquency, and managing those risks. Effective risk management depends on, among other things, the Issuer's ability through stress testing and other techniques to prepare for events that cannot be captured by the statistical models it uses.

Risk factors relating to the Notes

There are certain additional factors which are material for the purpose of assessing the risks related to the Notes issued under the Programme including the following:

- (i) Investment risks. The Notes may not be a suitable investment for all investors. Prospective investors should understand the risks of investing in any type of Note before they make their investment decision.
- (ii) Risks related to the structure of a particular issue of Notes.
- (iii) Risks related to the Notes generally.
- (iv) Risks related to the market generally including liquidity risk, exchange rate risk, interest rate risk and credit risk.

Please see "Risk Factors" below for further details.

RESUME EN FRANÇAIS

Ce résumé doit être lu comme une introduction au Prospectus de Base, et toute décision d'investir dans les Titres doit être fondée sur un examen exhaustif du Prospectus et des documents qui y sont incorporés par référence. Aucune action en responsabilité ne peut être intentée contre l'Emetteur sur le fondement du seul résumé ou de sa traduction, à moins que le contenu du résumé ou de sa traduction ne soit jugé trompeur, inexact ou contradictoire par rapport aux autres parties du Prospectus de Base. Lorsqu'une action concernant l'information contenue dans le présent Prospectus de Base est intentée devant un tribunal d'un Etat Membre de l'Espace Economique Européen, le plaignant peut, selon la législation nationale de l'Etat Membre concerné, avoir à supporter les frais de traduction du Prospectus de Base avant le début de la procédure judiciaire.

Les termes et expressions définis dans la section "Terms and Conditions" ci-après auront la même signification dans le présent résumé.

Les Titres seront émis conformément aux modalités qui seront convenues entre l'Emetteur et les Agents Placeurs concernés, et ils devront obéir aux "Terms and Conditions" prévus aux pages 57 à 118, tels que complétés par les dispositions des "Final Terms" (conditions définitives) concernés.

Émetteur :

HSBC France.

PRÉSENTATION DE L'ÉMETTEUR

HSBC France est une société de droit français fondée en 1894 sous le nom de Banque Suisse et Française. En 1917, BSF, Maison Aynard et fils, et Caisse de Crédit de Nice fusionnèrent pour créer CCF. En 1982 CCF fut nationalisé puis privatisé en 1987. CCF a intégré le Groupe HSBC en juillet 2000.

CCF a adopté la marque HSBC le 1^{er} novembre 2005.

Basé à Londres où est installé son siège, le Groupe HSBC est une des plus grandes institutions bancaires et financières du monde. Le réseau mondial du Groupe comprend 10.000 locaux dans 83 pays et territoires : Europe, Hong-Kong, Reste de l'Asie-Pacifique, y compris le Moyen-Orient et l'Afrique, Amérique du Nord et Amérique Latine.

*Au cours de l'exercice clos le 31 décembre 1992, HSBC Bank plc (anciennement Midland Bank plc) est devenue une filiale à 100% de HSBC Holdings plc ("**HSBC Holdings**"), dont le siège social est situé au 8 Canada Square, Londres, E14 5HQ, Royaume-Uni.*

Cotés à Londres, Hong Kong, New-York, Paris et les Bermudes, les actions de la société HSBC Holdings Plc sont détenues par environ 200.000 porteurs dans près de 100 pays. Les actions sont négociées sur la Bourse de New York sous la forme d'American Depository Receipts.

Par ailleurs, HSBC Holdings est un émetteur enregistré conformément à la réglementation américaine sur les valeurs mobilières et est tenu, selon cette réglementation, de publier certaines informations financières auprès de la Securities and Exchange Commission.

SECTEURS D'ACTIVITÉ

L'activité de HSBC France est orientée vers (i) la Banque de particuliers, (ii) la Banque d'entreprises, (iii) la Banque de Grande clientèle et de Marchés (CIBM), (iv) la Gestion d'actifs et (v) la Banque privée.

La **Banque de particuliers** : la forte dynamique commerciale initiée depuis le changement de marque réalisé en novembre 2005 continue de se poursuivre avec un rythme soutenu de croissance de la clientèle.

Avec 35 000 nouveaux clients au 1^{er} semestre 2007, le nombre de nouveaux clients progresse de 11% sur la référence élevée du 1^{er} semestre 2006. HSBC a renforcé sa position de banquier principal et de banque patrimoniale auprès de ses clients.

Cependant, les performances commerciales de la Banque de particuliers se sont réalisées dans un contexte de concurrence sur les marges et d'évolution des taux d'intérêt qui a limité la croissance des revenus.

La **Banque d'entreprises** : d'importantes campagnes marketing et de notoriété ont été dédiées à la Banque d'entreprises, notamment sur le thème de « Banquier Principal ». Elles ont été accompagnées du développement de produits et services spécifiquement construits pour répondre aux attentes des différents segments.

La **Banque de Grande clientèle et de Marchés (CIBM) et Gestion d'actifs** : les activités de Banque de Grande clientèle ont connu un fort développement notamment dans les opérations de fusions-acquisitions, de financements structurés et syndiqués.

Au sein des activités de Marchés, les différentes plate-formes globales implantées à Paris (liquidité, dérivés structurés actions et taux) ont connu une évolution contrastée au cours du 1^{er} semestre 2007.

Par ailleurs, comme sur les exercices précédents, les revenus générés par les grands clients français au sein de l'ensemble du Groupe HSBC ont continué de fortement progresser, illustrant le renforcement des synergies intra-groupes.

En **Gestion d'actifs**, la croissance des encours gérés de +4,3% à 88 milliards d'euros s'est faite principalement sur les produits actions, alternatifs et obligataires. De fortes synergies avec les différents métiers de HSBC France et le développement international de Sinopia et de Halbis ont contribué à cette croissance.

La **Banque privée** : la Banque privée a poursuivi ses synergies avec la Banque de particuliers, la Banque d'entreprises et la Banque de Grande clientèle en termes de développement de clientèle et avec les activités de Marchés en vue d'offrir des produits structurés et de couverture de stock options. Cette dynamique s'est concrétisée par une augmentation des actifs gérés de +4% à 12,7 milliards d'euros.

DÉVELOPPEMENTS RÉCENTS

Le 29 mai 2007, HSBC France a annoncé par voie de communiqué de presse l'évolution de la Direction Générale de HSBC France. A compter du 1^{er} septembre 2007, Charles-Henri Filippi a décidé de cesser ses fonctions exécutives de Group Managing Director de HSBC Holdings et de Directeur Général (CEO) de HSBC France. Charles-Henri Filippi conserve son mandat du Conseil d'Administration de HSBC France. Peter Boyles, actuellement Directeur des Ressources Humaines du Groupe lui succédera en tant que Directeur Général (CEO) de HSBC France.

Le groupe HSBC France n'est pas affecté par la crise des crédits subprime américains. Les tensions apparues au mois d'août sur le marché interbancaire et plus généralement sur l'ensemble des marchés de crédit, ont eu pour effet un niveau élevé des résultats pour les activités de Marchés et ont, en revanche, pénalisé l'une des filiales de Gestion d'actifs, du fait des rachats enregistrés sur un fonds monétaire dynamique, qui n'ont été que partiellement compensés par un report sur les produits monétaires réguliers. HSBC France a veillé à

maintenir, tout au long de cette période, un excellent niveau de liquidité pour elle-même ainsi que pour les fonds gérés par ses filiales.

Arrangeur: HSBC Bank plc.

Agent placeur: HSBC Bank plc.
HSBC France.

L'Emetteur pourra à tout moment révoquer tout Agent Placeur dans le cadre du Programme ou désigner des Agents Placeurs supplémentaires soit pour une ou plusieurs Tranches, soit pour l'ensemble du Programme. Les Titres Dématérialisés seront émis avec une seule valeur nominale.*

Les Titres qui constituent des obligations au sens du droit français seront émis (ou réputés émis) hors de France (i) si ces Titres sont libellés en euros, (ii) dans le cas d'émissions syndiquées de Titres libellés dans une devise autre que l'euro, si, notamment, l'Emetteur et les Agents Placeurs concernés conviennent de ne pas offrir les Titres au public en France lors de leur placement initial et si ces Titres sont offerts en France par l'intermédiaire d'un syndicat international uniquement à des investisseurs qualifiés tels que décrits aux articles L.411-2 et D.411-1 à D.411-4 du Code monétaire et financier, ou (iii) dans le cas d'émissions non-syndiquées de Titres libellés dans une devise autre que l'euro, si chacun des souscripteurs des Titres a son domicile ou sa résidence fiscale hors de France, dans chaque cas tel que plus amplement décrit dans l'Instruction de la Direction Générale des Impôts du 30 septembre 1998.

Cependant, si cela est précisé dans les Conditions Définitives concernées, les Titres qui constituent des obligations au sens du droit français et qui sont libellés en devises autres que l'euro peuvent être émis sur une base non-syndiquée et placés auprès de souscripteurs qui ne sont pas tous des non-résidents français. Dans de tels cas, les Titres ne bénéficieront pas de l'exonération du prélèvement à la source prévue à l'article 131 quater du Code général des impôts et les paiements effectués relativement à ces Titres à des non-résidents français ne seront exonérés de la retenue ou du prélèvement à la source qu'à la condition que le bénéficiaire du paiement fournisse la preuve qu'il n'est pas résident français, conformément aux dispositions de l'article 125 A III du Code général des impôts, tel que plus amplement décrit au paragraphe "Modalités des Titres - Fiscalité".

Les Titres pourront comporter un taux d'intérêt maximum, un taux d'intérêt minimum ou les deux à la fois. Les Titres pourront porter intérêt à différents taux au cours de la même période d'intérêts grâce à l'utilisation de périodes d'intérêts courus. Toutes ces informations figureront dans les Conditions Définitives concernées.

Titres à Taux Fixe : *Les intérêts fixes seront payables à terme échu à la date ou aux dates pour chaque année indiquées dans les Conditions Définitives concernées.*

- (iv) *sur tout autre base ou référentiel tel que spécifié par les Conditions Définitives concernées,*

dans chaque cas augmenté ou diminué de la marge éventuellement applicable, et calculé et payable tel qu'indiqué dans Les Conditions Définitives concernées. Les Titres à Taux Variable pourront aussi avoir un taux d'intérêt maximum, un taux d'intérêt minimum, ou les deux.

Titres à Coupon Zéro :

Les Titres à Coupon Zéro pourront être émis au pair ou en dessous du pair et ne porteront pas intérêt.

*Les paiements en principal de Titres à Remboursement Référencé sur un Indice ou les paiements d'intérêts relatifs aux Titres à Coupon Référencé sur un Indice seront calculés par référence à l'indice et/ou à la formule décrits dans les Conditions Définitives concernées. Les "**Titres à Remboursement Référencé sur un Indice**", qui ne peuvent constituer des Titres Subordonnés entrant dans la composition des fonds propres complémentaires ou surcomplémentaires, sont des titres dont le remboursement de principal sera calculé par référence à un indice et/ou une formule et les "**Titres à Coupon Référencé sur un Indice**" (avec les Titres à Remboursement Référencé sur un Indice, les "**Titres Référencés sur un Indice**") sont des titres dont les intérêts seront calculés par référence à un indice et/ou une formule.*

Aucun document ne sera émis en représentation des Titres Dématérialisés. Se reporter aux "Modalités des Titres - Forme, valeur nominale, propriété et redénomination".

Les Titres Matérialisés seront uniquement émis au porteur. Un Certificat Global Temporaire relatif à chaque Tranche de Titres Matérialisés sera initialement émis. Les Titres Matérialisés pourront être émis hors de France uniquement.

Il existe des restrictions concernant l'offre et la vente des Titres ainsi que la diffusion des documents d'offre dans différents pays. Se reporter à la section "Souscription et Vente". *Les Titres Matérialisés seront émis en conformité avec la Réglementation fiscale américaine (U.S. Treas. Reg.) §1.163-5(c)(2)(i)(D) (les "**Règles D**") sauf dans le cas où (i) les Conditions Définitives concernées stipulent que ces Titres Matérialisés seront émis en conformité avec la Réglementation fiscale américaine (U.S. Treas. Reg.) §1.163-5(c)(2)(i)(C) (les "**Règles C**"), et dans le cas où (ii) ces Titres Matérialisés ne sont pas émis en conformité avec les Règles C ou les Règles D mais dans des conditions telles qu'ils ne constituent pas des obligations dont l'enregistrement est requis par la loi américaine de 1982 sur l'équité d'imposition et la responsabilité fiscale (United States Tax Equity and Fiscal Responsibility Act of 1982) ("**TEFRA**"), auquel cas les Conditions Définitives concernées préciseront que les règles TEFRA ne s'appliquent pas à l'opération.*

Les règles TEFRA n'ont pas à être respectées en matière de Titres Dématérialisés.

Facteurs de risque :

Facteurs de risque liés à l'Emetteur et à ses activités

Un certain nombre de facteurs pourrait modifier parfois substantiellement les résultats réels par rapport à ceux anticipés. Les facteurs suivants ne doivent pas être regardés comme un état complet et exhaustif de tous les risques potentiels et de toutes les incertitudes auxquels pourraient faire face les activités de l'Emetteur.

Changement des conditions économiques générales dans les marchés dans lesquels l'Emetteur opère tels que les changements dans les taux de change, la volatilité des taux d'intérêt, la volatilité dans les marchés actions, un manque de liquidité sur le marché monétaire en période de crise politique ou économique, une absence de liquidité et une pression à la baisse des prix sur les marchés immobiliers français et de la zone euro, particulièrement sur le marché immobilier des particuliers, des récessions et des fluctuations du taux de chômage et tendance consumériste à recourir au crédit, et concurrence sur les prix dans les segments de marché où l'Emetteur intervient.

Les trois principaux risques structurels à savoir les risques de taux d'intérêt, de taux de change et de liquidité (à l'exclusion des cas de trading), sont l'exposition de l'Emetteur aux risques de change internationaux, l'exposition de la liquidité de l'Emetteur et l'exposition de l'Emetteur sur les taux d'intérêt.

Les changements dans la réglementation et la politique du gouvernement sont décrits dans les Facteurs de Risques.

Facteurs spécifiques à l'Emetteur : la capacité de l'Emetteur à identifier précisément les risques auxquels il doit faire face, tels que l'incidence de pertes ou de délits au titre de prêts et de gérer ces risques. La gestion effective des risques dépend entre autres de la capacité de l'Emetteur grâce à des tests de simulation et à d'autres techniques à se préparer à des événements qui ne peuvent pas être appréhendés par des modèles statistiques qu'il utilise.

Facteurs de risque liés aux Titres

Certains facteurs sont significatifs pour évaluer les risques liés aux Titres émis dans le cadre du Programme, notamment:

- *les risques liés à l'investissement : les investisseurs potentiels doivent être conscients des risques liés à l'investissement dans tout Titre avant de prendre leur décision d'investissement ;*
- *les risques liés à la structure de certaines émissions de Titres ;*
- *les risques généraux liés aux Titres ;*

RISK FACTORS

1. RISK FACTORS RELATING TO THE ISSUER AND ITS ACTIVITY RISK MANAGEMENT

CORD is responsible for credit approvals, risk supervision and credit systems development.

The credit approval process is based on a system of designated limits. Limits are notified in writing and apply to specific named counterparties. They now depend on the counterparty's Basel II rating. HSBC France's business units (HSBC branches, subsidiaries etc.) have lending authority limits, beyond which they must submit dossiers to CORD for approval.

CORD is also responsible for risk supervision and control over designated limits.

As regards counterparty risk management, HSBC France is currently implementing tools allowing it to:

- gain an overview of risks on a single counterparty or group of counterparties (monitoring concentration of major risks);
- analyse sector concentration;
- ensure the quality of commitments by portfolio and determine deteriorating risks.

Key credit risk management data are presented to ALCO Credit, a special committee that meets twice a month. Its role is to set the HSBC Group's credit policy, and it is informed of the most important lending decisions during the most recent period, along with the main existing commitments and changes in their risk profile.

Indeed, the HSBC Group's credit risk limits to counterparties in the financial and government sectors are managed centrally to optimise the use of credit availability and to avoid excessive risk concentration. Cross-border risk is controlled through the imposition of country limits, which are determined by taking into account economic and political factors, and local business knowledge, with sub-limits by maturity and type of business. Transactions with counterparties in higher risk countries are considered on a case-by-case basis.

Within the overall framework of the HSBC Group policy, the bank has an established risk management process encompassing credit approvals, the control of exposures (including those to borrowers in financial difficulty), credit policy direction to business units and the monitoring and reporting of exposures both on an individual and a portfolio basis. Local management is responsible for the quality of its credit portfolios and follows a credit process involving delegated approval authorities and credit procedures, the objective of which is to build and maintain risk assets of high quality. Regular reviews are undertaken to assess and evaluate levels of risk concentration, including those to individual industry sectors and products.

Special attention is paid to the management of problem loans. Where deemed appropriate, specialist units are established to provide intensive management and control to maximise recoveries of doubtful debts.

Guarantees received and other credit risk enhancements

Loans and advances

The Group entities are required to implement guidelines on the acceptability of specific classes of guarantees received or credit risk mitigation, and determine valuation parameters. Such parameters are expected to be conservative, reviewed regularly and be supported by empirical evidence. Security structures and legal covenants are subject to regular review to ensure that they continue to fulfil their intended purpose and remain in line with local market practice. While guarantees received are an important mitigant to credit risk, it is the Group's policy to establish that loans are within the customer's capacity to repay rather than to over-rely on security. In certain cases, depending on the customer's standing and the type of product, facilities may be unsecured. The principal guarantees received types are as follows:

- mortgages over residential properties in the personal sector;
- charges over business assets being financed in the commercial and industrial sector;
- charges over the properties being financed in the commercial real-estate sector;
- charges over financial instruments such as debt securities and equities in support of trading facilities in the financial sector.

Other securities

Other securities held as guarantee for financial assets other than loans and advances is determined by the structure of the instrument. Debt securities, treasury and other eligible bills are generally unsecured with the exception of asset-backed securities and similar instruments, which are secured by pools of financial assets.

Impairment assessment

It is HSBC France's policy that each entity makes allowance for impaired loans promptly and on a consistent basis in accordance with established Group guidelines.

HSBC France's rating process for credit facilities extended by members of the Group is designed to highlight exposures requiring greater management attention based on a higher probability of default and potential loss. Management particularly focuses on facilities to those borrowers and portfolio segments classified below satisfactory grades. Amendments to risk grades, where necessary, are required to be undertaken promptly. Management also regularly evaluates the adequacy of the established allowances for impaired loans by

conducting a detailed review of the loan portfolio, comparing performance and delinquency statistics with historical trends and assessing the impact of current economic conditions.

Group policy requires a review of the level of impairment allowances that are above materiality thresholds at least half-yearly, and more regularly where individual circumstances require. This will normally include a review of guarantees received (including re-confirmation of its enforceability) and an assessment of actual and anticipated cash flows. For significant commercial and corporate debts, specialised loan “work-out” teams with experience in insolvency and specific market sectors are used. This expertise enables likely losses on significant individual exposures to be assessed more accurately. Reversals on individually calculated impairment allowances are recognised whenever the Group has reasonable objective evidence that the established estimate of loss has been reduced.

Portfolio allowances are generally reassessed monthly and charges for new allowances, or releases of existing allowances, are calculated for each separately identified portfolio.

In relevant cases, impairment allowances will include an element in respect of exposures to countries assessed by management to be vulnerable. This assessment includes analysis of both economic and political factors existing at the time. Economic factors include the level of external indebtedness, the debt service burden and access to external sources of funds to meet the debtor country’s financing requirements. Political factors taken into account include the stability of the country and its government, threats to security and the quality and independence of the legal system.

Non-performing loans

Loans are designated as non-performing as soon as there is objective evidence that an impairment loss has been incurred. Objective evidence of impairment includes observable data such as when contractual payments of principal or interest are 90 days overdue or for property, 180 days overdue.

Charge-offs

Loans (and the related impairment allowances) are charged off, either partially or in full, when there is no realistic prospect of recovery of these amounts and when the proceeds from the realisation of security have been received.

LIQUIDITY AND FUNDING MANAGEMENT

HSBC France maintains a diversified and stable funding base of core retail and corporate customer deposits as well as portfolios of highly liquid assets. The objective of HSBC France's liquidity and funding management is to ensure that all foreseeable funding commitments and deposit withdrawals can be met when due.

The liquidity and funding management process includes:

- monitoring balance sheet liquidity ratios against internal and regulatory requirements;
- maintaining a diverse range of funding sources;
- managing the concentration and profile of debt maturities;
- maintaining debt financing plans;
- monitoring deposit or concentration in order to avoid undue reliance on large individual depositors and ensure a satisfactory overall funding mix; and
- maintaining liquidity and funding contingency plans. These plans identify early indicators of stress conditions and describe actions to be taken in the event of difficulties arising from systemic or other crises while minimising adverse long-term implications for the business.

Core retail deposits (current accounts and savings deposits payable on demand or at short notice) form a significant part of the Group's overall funding. Considerable importance is attached to this core deposit base which, over the years, has been stable and predictable. HSBC France follows the HSBC Group's policy and prefers to grow its balance sheet through increasing core retail deposits where possible.

Global Markets is an important player in the money markets and debt capital markets. HSBC France routinely accepts deposits, often of a short-term nature, from banks and other institutions. In addition, the funding of capital markets activities, by repo arrangements for example, will often result in funding directly in the wholesale market.

Most of the bank's asset base is Euro-based with the remainder mostly denominated in GBP and US dollars. The non-euro asset base is partially funded through currency-denominated, deposits taken from the Eurocurrency interbank market, from central banks, corporate customers and other financial institutions.

The sources of such deposits, by type of institution and country, are monitored in order to avoid an undesirable dependence on any particular institution or category of depositor.

HSBC France complies with the regulatory liquidity ratio requirements of the Banque de France, overseen and monitored by the Commission Bancaire. Banks are required to submit quarterly returns which are used to compute a monthly liquidity ratio for the last three months. Banks simultaneously submit a future forecast of liquidity positions called "observation ratios". The ratios are derived by dividing liquid assets (which are subject to discount factors) by liabilities (which include a proportion of customer accounts, 5 per cent of off-balance-sheet commitments and all borrowings and subordinated loan stock maturing within one month). Banks are required to maintain, at all times, a ratio in excess of 100 per cent. For the year 2006, the HSBC France average liquidity ratio was 112.93 per cent.

HSBC France follows the HSBC Group's policy that on an all-currency basis all professional deposits with residual maturities up to 30 days, plus 5 per cent of deposit liabilities should be backed by liquid assets. This means that, in a crisis, the Group would be able to meet its obligations as they fall due for at least 30 days without recourse to the wholesale markets. This requirement is additional to the regulatory requirement.

MARKET RISK MANAGEMENT

The objective of the Group's market risk management is to manage and control market risk exposures in order to optimise return on risk while maintaining a market profile consistent with its status as a premier provider of financial products and services.

Market risk is the risk that movements in market risk factors, including foreign exchange rates, interest rates, credit spreads and equity and commodity prices will reduce the group's income or the value of its portfolios.

HSBC France separates exposures to market risk into either trading or non-trading positions. Trading exposures include those positions arising from market-making and proprietary position-taking. Non-trading exposures arise from the management of the commercial banking assets and liabilities.

Both exposures are reviewed on a systematic basis by the Committee “ALCO Balance Sheet and Market” which ensure that adequate controls exist and set related policies.

The aim is to ensure that all market risks are consolidated within operations which have the necessary skills, tools, management and governance to professionally manage such risks.

Risk Management procedures

The process for allocating market limits and the market risk management system as a whole involve a number of people from the HSBC Group and HSBC France, as well as special committees, the roles of which are set out below.

Traded Markets Development & Risk (TMR) – HSBC Group

The HSBC Group’s management plays an active role in defining and monitoring HSBC France’s market risks through its Traded Markets Development & Risk (TMR) department. This department’s brief is to allocate risk limits to the HSBC Group’s various entities through the Global Mandate, and to check usage of these limits. The head of the TMR department reports to the HSBC Group’s Head of Finance.

Product Control

Within HSBC France’s support functions for its large corporate segment, Product Control teams managed by the Head of Market Risk and Product Control calculate, control and analyse market risk indicators and results on a day-to-day basis. Their tasks also include daily position valuations, reserve allocation and daily results recording.

Product Control forms the backbone of the independent system for regular control of the bank’s market risks. As part of the new market risk organisation, the Product Control unit has assumed responsibility for monitoring market limits, which was previously the task of the Market Risks and Modelling Division.

A special team within Product Control has the task of consolidating the HSBC France group’s risks and of producing and disseminating reporting documents concerning HSBC France’s market risks.

Derivative Models Review Group (DMRG)

Models developed by the front-office research team are crucial in managing, valuing and assessing the risks of some derivative products. These models are validated by an independent, specialist unit, the Derivative Models Review Group (DMRG), which previously formed part of the Market Risks and Modelling Division. Since March 2005, the unit has been part of the Corporate Banking Chief Financial Officer’s teams and reports to the Head of Market Risk & Product Control. The Paris DMRG team reports functionally to the Group DMRG, which itself forms part of the TMR department.

Parameters Committee

This committee is managed by the Head of Market Risk & Product Control, and is made up of members of the DMRG, Product Control and front-office representatives. It meets in the first two weeks of every month, and discusses the parameters of the models used by the front office. Changes in the main market indicators are also examined during these monthly meetings.

Securities Committee

This committee also meets every month, and consists of front-office operational staff and members of Product Control. Its task is to examine major securities positions and to book illiquidity provisions as necessary.

Balance Sheet and Markets ALCO

The Balance Sheet and Markets ALCO meets every month, and is chaired by the Deputy CEO. Its role is to examine key issues relating to market risks, structural balance sheet risks (i.e. interest-rate risk, exchange-rate risk and liquidity risk), the securities portfolio and solvency ratios. The committee was formed in early 2005 via the combination of two existing committees, i.e. the ALM Committee and the Market Risks Committee. Its task is to supervise market and balance sheet risks in a systematic manner, to ensure that appropriate controls exist and to approve the main rules included in the supervision system. The Balance Sheet and Markets ALCO

consists of Senior Management, the heads of the business segments directly concerned, the Senior Corporate Vice President in charge of Capital Markets, the Head of Management Accounting and Chief Accountant, the Head of Market Risk and Product Control, the Corporate and Institutional Banking segment's Chief Operating Officer and the Head of Asset and Liability Management, who is the committee's secretary.

The Balance Sheet and Markets ALCO examines every month ALCO risk indicators prepared by Product Control, and analyses any significant events that took place during the previous month. Any entity that generates market risks must request the renewal or extension of its limits every year.

Periodic control

Periodic control of market risks, as described above, is carried out by Group Finance Audit (GFA), which is the HSBC Group's unit in charge of the periodic control of world-wide capital markets activities.

HSBC France's Audit Committee and Board of Directors

HSBC France's Audit Committee and Board of Directors fully comply with the tasks laid out by legislation and regulations. Every HSBC France Audit Committee meeting involves the submission of market limits for approval. In addition, the main information relating to market risks and market risk management is presented to this committee, enabling it to gain an overview of the entire risk management system. Similarly, every HSBC France Board meeting involves a presentation of the main market risk information.

Value at Risk

One of the principal tools used by the Group to monitor and limit market risk exposure is VaR. HSBC France's Internal model is used to calculate a Value-at-Risk (VaR). VaR is a technique that estimates the potential losses that could occur on risk positions as a result of movements in market rates and prices over a specified time horizon and to a given level of confidence (for the Group, 99 per cent). HSBC France calculates VaR daily. The VaR model used by HSBC France, as for the Group, is based on historical simulation. The historical simulation model derives plausible future scenarios from historical market rates time series, taking account of inter-relationships between different markets and rates, for example between interest rates and foreign exchange rates. Potential movements in market prices are calculated with reference to market data from the last two years. Internal model of HSBC France has been validated by the French regulator "Commission Bancaire" in 1999 for capital requirements calculations. HSBC France calculates a VaR based on an assumed holding period of 10 days. On a Group perspective, 1-day period VaR is obtained by dividing ten-day VaR by square root of ten. According to Group standards, the VaR exposure reported on pages 57,58 and 59 is expressed in VaR one-day.

Although a useful guide to risk, VaR should always be viewed in the context of its limitations. For example:

- the use of historical data as a proxy for estimating future events may not encompass all potential events, particularly those which are extreme in nature;
- the use of a one-day holding period assumes that all positions can be liquidated or hedged in one day. This may not fully reflect the market risk arising at times of severe illiquidity, when a one-day holding period may be insufficient to liquidate or hedge all positions fully;
- the use of a 99 per cent-confidence level, by definition, does not take into account losses that might occur beyond this level of confidence; and
- VaR is calculated on the basis of exposures outstanding at the close of business and therefore does not necessarily reflect intra-day exposures.

HSBC France recognises these limitations by supplementing its VaR limits by sensitivity limit structures. Additionally, stress testing scenarios are applied, both on individual portfolios and on HSBC France's consolidated positions. Stress scenarios are defined by a group of specialists in Paris (market heads, controllers) in accordance with Group rules and practices.

Value-at-Risk (VaR)

Equivalent one-day VaR, calculated by extrapolation from ten-day VaR, on both market trading and structural interest-rate risk management exposures, amounted to:

	Total (millions of euros)
At 30 June 2007	6.7
At 31 December 2006	5.4
At 31 December 2005	9.5

	Average	Minimum	Maximum
	(in millions of euros)		
2007	7.7	4.9	13.6
2006	6.0	2.4	12.9

Back testing

The model is back-tested by taking 99 per cent, one-day VaR figures and comparing them with daily “pro forma” results determined from changes in market prices assuming constant positions. Back-testing is carried out on a D+2 basis by business area and for all of the HSBC Group’s market positions.

It allows the model to be validated, ensuring that the actual result, in absolute terms, is lower than the calculated one day-VaR in 99 per cent of cases.

Proforma Back testing June 2006 – June 2007

Fair value and price verification control

Where certain financial instruments are carried on the Group's balance sheet at fair values, it is the Group policy that the valuation and the related price verification processes are subject to independent testing across the Group. Financial instruments which are accounted for on a fair value basis include assets held in the trading portfolio, financial instruments designated at fair value, obligations related to securities sold short, all derivative financial instruments and available-for-sale securities.

The determination of fair values is therefore a significant element in the reporting of the Group's Global Markets activities.

All significant valuation policies, and any changes thereto, must be approved by senior finance management. The Group's governance of financial reporting requires that Financial Control departments across the Group are independent of the risk-taking businesses, with the Finance functions having ultimate responsibility for the determination of fair values included in the financial statements, and for ensuring that the Group's policies and relevant accounting standards are adhered to. Senior management are required to assess the resourcing and expertise of Finance functions within the Group on a regular basis to ensure that the Group's financial control and price verification processes are properly staffed to support the required control infrastructure.

Trading

Market risk in trading portfolios is monitored and controlled at both portfolio and position levels using a complementary set of techniques, such as VaR and present value of a basis point, together with stress and sensitivity testing and concentration limits. These techniques quantify the impact on capital of defined market movements.

Other controls include restricting individual operations to trading within a list of permissible instruments authorised by Traded Markets Development and Risk, and enforcing rigorous new product approval procedures. In particular, trading in the more complex derivative products is concentrated with appropriate levels of product expertise and robust control systems.

HSBC France's policy on hedging is to manage economic risk in the most appropriate way without regard as to whether hedge accounting is available, within limits regarding the potential volatility of reported earnings. Trading VaR is further analysed below by risk type, by positions taken with trading intent and by positions taken without trading intent (not significant for HSBC France):

Non-trading

The main objective of market risk management of non-trading portfolios is to optimise net interest income.

Market risk in non-trading portfolios arises principally from mismatches between the future yield on assets and their funding cost as a result of interest rate changes. Analysis of this risk is complicated by having to make assumptions on optionality in certain product areas, for example, mortgage prepayments, and from behavioural assumptions regarding the economic duration of liabilities which are contractually repayable on demand, for example, current accounts. In order to manage this risk optimally, market risk in non-trading activities is measured and managed centrally by the ALM team which defined the rules to transfer this risk to Global Markets. When the behavioural characteristics of a product differ from its contractual characteristics, the behavioural characteristics are assessed to determine the true underlying interest rate risk. ALCO regularly monitor all such behavioural assumptions and interest rate risk positions, to ensure they comply with interest rate risk limits established by the HSBC Group Management Board. The transfer of the net interest exposure to dedicated trading books managed by Global Markets is achieved by a series of internal deals (cash or swap) between the business units and these trading books.

Once market risk has been consolidated in Global Markets books, the net exposure is typically managed through the use of interest rate swaps to reverse the risk to the market within agreed limits.

A principal management tool for this non-trading risk is the control of the sensitivity of projected net interest income under varying interest rate scenarios.

Market risk also arises in HSBC's insurance businesses within their portfolios of investments and policyholder liabilities. The principal market risks are interest-rate risk and equity risk, which primarily arise when guaranteed investment return policies have been issued. The insurance businesses have a dedicated ALM team which oversees management of this risk under the auspices of local and Group ALCOs.

Structural foreign exchange exposures

Structural foreign exchange exposures represent net investments in subsidiaries, branches or associated undertakings, the functional currencies of which are currencies other than the euro.

The investment in foreign subsidiaries is limited in amounts and totally funded in the same currency. As a result, the structural exchange exposure is coming from the P&L of these subsidiaries which stays in reserves.

Capital Adequacy reporting

Internal model allows the daily calculation of Value at Risk for all positions. It has been approved by the Commission Bancaire for regulatory capital adequacy calculations. At 31 December 2006, it covered 99 per cent of market risks within HSBC France. Risks not covered by the internal model are measured using the standardised approach devised by the Bank of International Settlements and transposed into French law by CRBF regulation 95-02.

Capital requirements with respect to market risks break down as follows (millions of euros):

	30 June 2007		31 December 2006		31 December 2005

RISK COVER AND REGULATORY RATIOS

Large exposures

The HSBC France group complies with the French Banking Commission's rules, which require the following:

- [exposure to a group of clients deemed to have the same beneficial owner is limited to 20 per cent of net capital if the beneficial owner is investment grade and 15 per cent if non-investment grade;
- the aggregate of individual exposures exceeding 10 per cent of net capital is limited to 8 times net capital. Ten groups had individual exposures exceeding 10 per cent of net capital at the end of 2006.]

Loan loss provisions

At 31 December 2006, loan loss provisions represented 66.04 per cent of the HSBC France group's total doubtful and non-performing exposure.

Liquidity ratio

The group's regulatory ratios reflect its good liquidity risk cover. The regulatory liquidity ratio, which measures the potential one-month liquidity gap, averaged 112.93 per cent in 2006.

International solvency ratio (BIS ratio)

The group's international solvency ratio (BIS ratio) was 9.61 per cent at 31 December 2006, compared with a minimum requirement of 8 per cent. The group's Tier 1 capital ratio was 9.87 per cent compared with a minimum requirement of 4 per cent.

Under the BIS definition, total HSBC France group capital amounted to EUR 4.2 billion at 31 December 2006, of which EUR 4.3 billion was Tier 1 capital.

The corresponding risk-weighted assets totalled EUR 43.3 billion, broken down as follows:

(in billions of euros)

Credit risks, not including trading book	40.0
Trading book credit risks	2.3
Market risks	1.0

OPERATIONAL RISK MANAGEMENT

Operational risk is the risk that financial loss arises from fraud, non-authorised activities, errors, oversights, inefficiency, failures in systems or external events.

It includes the risk linked to the security of information systems, legal and regulatory risks and environmental risks.

Identification and management of operational risks

An operational risk management system was established in 2003 as an extension of the loss-reporting system set up for all HSBC France group business units in 2002. In addition to a small central operational risk management team, each business unit has its own Operational Risk Business Co-ordinators ("ORBC") who, within their entities, co-ordinate work to identify operational risks liable to affect their business. In conjunction with the business head concerned, they analyse and quantify the risk of loss in terms of frequency, severity and exposure (with exposure taking account of the effectiveness of existing procedures), using the grading system recommended by the HSBC Group.

During 2004, action plans were drawn up for all risks identified by the system as significant, after review and validation by an Operational Risk Management Committee. The ORBCs are responsible for monitoring these action plans and more generally for measuring trends in their business unit's exposure to risk.

In January 2006, the HSBC Group rounded out existing procedures by drawing up a summary of all methods for identifying, reporting, managing, controlling and preventing risks. These rules include the following:

- responsibility for operational risk management falls primarily to managers, through transaction processing;
- information systems are used to identify and report operational risks and to generate appropriate regular reporting documents;
- operational risks are identified on the basis of statements covering all activities. Risk identification work is regularly updated in order to identify significant developments;
- operational losses are noted and reported to management, the Operational Risk Management Committee and the Audit Committee.

As part of these procedures, for the HSBC France group as a whole, an Operational Risk Management Committee regularly reviews risks by business segment and operating losses.

HSBC France carries out an annual review of risks for all business segments, together with a quarterly review of trends in exposure and the impact of measures taken to mitigate risks identified as significant. A summary of its work is submitted to the Audit Committee.

An IT application developed by the HSBC Group is currently undergoing testing at HSBC France, and is due to be deployed in the first half of 2006 to manage the process of identifying and updating risks and loss-reporting within an automated database.

Legal risks and litigation

The Legal and Tax Division (“**DAJF**”) assists HSBC France’s operating units in preventing legal risks, and is responsible for litigation.

– Prevention of legal risks:

The DAJF manages the Legal and Tax Risks Committee, which may be consulted on situations likely to generate specific substantive legal and tax risks, and the Structured Transactions Committee, which reviews the legal, accounting, tax and financial risks connected with complex structured transactions. The DAJF is also involved in due diligence procedures concerning market operations, structured transactions and any new acquisition (or disposal) of an entity by HSBC France group.

The DAJF is responsible for managing risks directly or indirectly connected with all contentious matters. It is also involved in handling large exposures at risk or doubtful debts, and monitors all other risks which may have legal or tax implications.

– Litigation:

Since 2001, the HSBC France group has been involved in legal actions taking place in the United States, relating to banking operations and fiduciary loans. As jurisdiction has not yet been definitively allocated to the courts involved, it is not possible at this stage to estimate the outcome of these legal proceedings. In any case, the allegations made are fiercely contested.

There are no other litigation or arbitration proceedings likely to have or have recently had a material impact on HSBC France’s financial position, its activities and results, or consequently on the HSBC France group.

Business Recovery Plan

Business recovery plans (“**BRP**”) have been devised for all sensitive activities of the HSBC platform and financial subsidiaries located in the Group’s sites in the Ile-de-France region. It does not cover network activities and those of regional banking subsidiaries that have implemented their own BRP, except for HSBC UBP and HSBC Picardie, which are included in HSBC France BRP.

HSBC France (parent company and subsidiaries at central sites) only takes into consideration the loss of one building at a time (except for the Head Office complex on the Champs Elysées area). In the case of such a loss, a back up site is located in Lognes for all essential operations.

The loss of the Lognes site is covered by the IT Back up Plan.

Capital market activities, asset management, processing of bank transactions and non-production IT support – which is covered by the IT Back up Plan – are given priority in the case of a crisis.

Tests to ensure business continuity following a crisis were performed successfully in the fourth quarter of 2006 for all CIBM activities – capital markets, asset management, transactions and IT support – and are planned for other activities in the first half of 2007.

A consultation took place in the fourth quarter of 2006, both with the FBF (Fédération Bancaire Française) and internally, to define a specific plan covering other major risks that may affect business continuity, such as floods and pandemics.

This should lead to specific business continuity/ resumption plans being drawn up during 2006.

In terms of organisation, a security department was set up on 1 January 2006, with the brief of managing crises and co-ordinating group business continuity plans.

Dependency

HSBC France is not dependent on any patents or licences or industrial, commercial or financial supply contracts.

Environmental risks

The Corporate Social Responsibility policy is described on pages 38 to 45 of HSBC France's annual report for 2006.

COMPLIANCE AND MONEY LAUNDERING

Within HSBC France, the system for controlling the risk of non-compliance with laws, regulations and professional and ethical standards has been managed since September 2001 by HSBC France group Compliance (DGCD). The group Compliance Department, composed of specialists in money-laundering prevention, investment services control and financial compliance, organises and develops its action to implement a consolidated approach to compliance for all HSBC France group's activities.

Four Business Compliance Officers are supervised by the Head of Compliance and are each responsible for one of the group's core businesses: Retail & Commercial Banking, Corporate, Investment Banking & Markets, Asset Management and Private Banking. Group Compliance is supported by Local Compliance Officers ("LCOs") within each entity. In accordance with the decree of 31 March 2005 and CRBF regulation 97-02, all compliance staff report to Group Compliance as of the start of 2006, in order to ensure the full independence of the compliance function with respect to operational activities.

In association with the Training team of the Human Resources department and other departments of the Group such as Legal and Tax Affairs, the Group Compliance organises training and information seminars for the LCOs on current regulations and developments, together with workshops on specific regulatory issues. It also contributes to the many training sessions organised by the LCOs for staff dealing with customers or staff in support services dealing with money laundering prevention or compliance with Autorité des Marchés Financiers (AMF) regulations, concerning in particular the duties of best advice.

Prevention of money laundering and terrorism financing

French and European regulations on money laundering and terrorism financing have been tightened up considerably over the past few years. In particular in April 2002, the French Banking Regulations Committee (CRBF) issued Regulation no. 2002-01. European legislation on terrorism financing requires banks to take specific measures to prevent the flow of funds to or from suspected terrorists, and to report all suspicious accounts and transactions to the relevant authorities. Since 2004, financial institutions have also been required to report sums and transactions that might have been involved in fraud affecting the financial interests of the European Communities, corruption, or financing terrorism. In June 2005, the third European directive against money laundering and terrorist financing was adopted, including the 40 recommendations of the FATF (Financial Action Task Force) on money laundering, which were revised in June 2003. The directive has been partially implemented into French law by decree n°2006-736 dated 26 June 2006. However, parts of the directive remain not implemented into French law. The deadline for implementation is 15 December 2007.

The HSBC France group pursued its action in three key areas during 2006 – procedures, information systems and staff training – to ensure that it complies fully with the new provisions and to further strengthen its money laundering prevention systems.

Procedures

The HSBC France group has a dedicated intranet site, accessible to all employees, featuring all general procedures to combat money laundering and terrorist financing in an organised and hierarchical way. In 2005, special intranet sites were set up for the Private Banking and Corporate, Investment Banking and Markets

business lines. These procedures incorporate legal obligations as well as HSBC Group rules, which are sometimes more restrictive than legal requirements. They are updated regularly to take account of regulatory developments and any risks revealed by the money laundering risk mapping process. The site also contains concrete examples and general information obtained from the websites of organisations such as the Financial Action Task Force (FATF), Transparency International, a non-governmental anti-corruption organisation, and the Wolfsberg Group, of which HSBC has been a member for several years.

HSBC France introduced a formal money laundering risk mapping process for each business unit of the group as part of the work being carried out for the Basel II operational risks project. Risk mapping involves analysing and classifying risks specific to each business activity by operation, transaction and customer type, together with a critical analysis of the control system in place for those risks. The results are used by business unit heads to draw up continuous progress plans for their anti money laundering systems. It also gives Group Internal Audit a means of identifying areas at risk. It will therefore become for the business and executive management an essential tool for measuring money laundering risk and drawing up targeted action plans.

Money Laundering Prevention Committees have been established in each activity of the HSBC France group. The Committees are responsible for examining all matters relating to the prevention of money laundering in their business unit.

IT resources

The HSBC network has a supervision system that enables relationship managers to monitor and carry out centralised reporting for sensitive client accounts. The system focuses on controls of cheques issued and submitted, in accordance with CRBF regulation 2002-01, and cash transactions. It is gradually being implemented across the HSBC France group's banking subsidiaries. In 2006, it was deployed at HSBC Picardie, CCSO and HSBC Hervet. The system for control over payments made has been upgraded to improve detection of suspicious transactions.

As part of HSBC France's drive to combat terrorism financing, Group Compliance has supervised a project to implement an automated filtering and blocking system for international payments in all HSBC France units. Developments were also carried out in 2006 to allow daily checks of client databases with respect to terrorist lists drawn up by the European Union and the US Treasury's Office of Foreign Assets Control (OFAC).

Staff training

An ambitious two-year training plan has been implemented for the retail banking, CIBM and private banking businesses, covering all employees concerned. It is based on training packages developed in conjunction with Tracfin and the French Banking Commission.

Other compliance issues

Staff ethics

In 2006, in order to comply fully with requirements arising from the new European directive on market abuse, staff that have sensitive information on the HSBC Group were informed of their insider status and of the specific rules that apply to them. These include restrictions on trading HSBC securities for their own account.

In addition, procedures relating to the prevention of insider trading and the circulation of confidential or sensitive information, and arrangements regarding gifts, invitations and benefits received or given were updated and disseminated among the staff concerned.

Compliance training

The Compliance function continued to train staff in the areas of professional secrecy, staff ethics and rules of conduct. New themes will be added to these training sessions in 2007.

As regards the directive on market abuse, a number of training sessions were organised in 2006 for Corporate, Investment Banking and Markets staff. In 2007, these training sessions will continue, and will be extended to all staff working in the branch network and Private Banking business line.

INSURANCE AND RISK COVERAGE

HSBC France and its subsidiaries are covered by the main world insurance programmes taken out by HSBC Holdings plc in London regarding the coverage of the major risks (fraud, professional liability, directors' and officers' liability).

As regards the specific insurance requirements of its operations and to comply with French regulations, HSBC France arranges local insurance programmes centrally, via its Insurance Department, on behalf of the HSBC France group.

In particular, insurance is used to cover civil liability relating to regulated activities, operational civil liability, banking risks and the automobile fleet.

Damage to real-estate and other property, including IT hardware, and the associated operating losses are insured by a policy taken out in France. This local policy is linked to the global programme taken out by HSBC Holdings plc. Replacement value guarantees vary between sites.

Sums insured, retentions and excesses are:

- in line with market conditions, industry practice and legislation;
- based on the value of the assets and the potential impact on the balance sheets of HSBC France and HSBC Holdings plc.

The total amount of insurance premiums paid for 2006 represented 0.28 per cent of net operating income.

Broker, insurance and expert partners are selected in accordance with a strict selection and solvency supervision policy, established and controlled by HSBC Insurance Holdings plc.

There were no major claims in 2006 concerning the HSBC France group.

Risk insurability and the consistency of insurance programmes were analysed regularly in 2006 in conjunction with operational risk monitoring staff and the Risk Committee in charge of supervising efforts to prevent and reduce.

2. RISK FACTORS RELATING TO THE NOTES

The following paragraphs describe the principal risk factors that the Issuer believes are material to the Notes to be offered and/or listed and admitted to trading in order to assess the market risk associated with these Notes. Prospective investors should consult their own financial and legal advisers about risks associated with investments in a particular Series of Notes and the suitability of investing in the Notes in light of their particular circumstances. The risk factors may be supplemented in the Final Terms of the relevant Notes for a particular issue of Notes.

2.1 The Notes may not be a suitable investment for all investors

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the relevant Notes and the information contained in this Base Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Notes and the impact the relevant Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;

- (iv) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments and such instruments may be purchased as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact this investment will have on the potential investor's overall investment portfolio.

2.2 Risks related to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common such features:

Notes subject to optional redemption by the Issuer

An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem Notes, the market value of such Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The redeemed face amount of the Notes may be lower than the purchase price for the Notes paid by the Noteholders. As a consequence, part of the capital invested by the Noteholder may be lost, so that the Noteholder in such case would not receive the total amount of the capital invested.

In addition, the Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed, and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Index Linked Notes and Dual Currency Notes

The Issuer may issue Notes with principal or interest determined by reference to an index or formula, to changes in the prices of securities or commodities, to movements in currency exchange rates or other factors (each, a "**Relevant Factor**"). In addition, the Issuer may issue Notes with principal or interest payable in one or more currencies which may be different from the currency in which the Notes are denominated. Potential investors should be aware that:

- (i) the market price of such Notes may be volatile;
- (ii) they may receive no interest;
- (iii) payment of principal or interest may occur at a different time or in a different currency than expected;
- (iv) the amount of principal payable at redemption may be less than the nominal amount of such Notes or even zero;
- (v) a Relevant Factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (vi) if a Relevant Factor is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal or interest payable likely will be magnified;

- (vii) the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield; and
- (viii) if a Relevant Factor is subject to a barrier or target or its operation is limited to a specified range, its effect on the value of the Notes maybe accordingly limited, possibly preventing an increase in such value which would otherwise apply.

Fluctuations in the value of the Underlying

Fluctuations in the price, value and/or level of Relevant Assets and Relevant Factors will affect the value of Notes. Also, due to the character of the particular markets on which Reference Assets may be traded, the absence of last sale information and the limited availability of quotations for such Reference Assets may make it difficult for many investors to obtain timely, accurate data for the price or yield of such Reference Assets. Purchasers of Notes risk losing their entire investment if the value of the relevant underlying basis of reference does not move in the anticipated direction.

No Ownership Rights

An investment in Notes relating to a Reference Asset or Relevant Factor is not the same as an investment in the Reference Asset and does not confer any legal or beneficial interest in the Reference Asset or any voting rights, rights to receive dividends or other rights that a holder of a Reference Asset may have.

Certain Considerations Regarding Hedging

Prospective purchasers intending to purchase Notes to hedge against the market risk associated with investing in a Reference Asset should recognise the complexities of utilising Notes in this manner. For example, the value of the Notes may not exactly correlate with the value of the Reference Asset to which they relate. Due to fluctuating supply and demand for the Notes, there is no assurance that their value will correlate with movements of the Reference Asset. For these reasons, among others, it may not be possible to purchase or liquidate securities in a portfolio at the prices used to calculate the value of any relevant Reference Asset.

Potential Conflicts of Interest

The Issuer or affiliates of the Issuer may from time to time advise the issuers of or obligors in respect of Reference Assets regarding transactions to be entered into by them, or engage in transactions involving Reference Assets for their proprietary accounts and for other accounts under their management. Any such transactions may have a positive or negative effect on the value of such Reference Assets and therefore on the value of any Notes to which they relate. Certain affiliates of the Issuer will also be the counterparty to the hedge of the Issuer's obligations under an issue of Notes. Accordingly, certain conflicts of interest may arise both among the Issuer or these affiliates and between the interests of the Issuer or these affiliates and the interests of holders of Notes.

Disruption Event

If the Calculation Agent determines that a payment disruption event or market disruption event has occurred, any consequential postponement of or any alternative provisions for valuation provided in any Notes may have an adverse effect on the value of such Notes.

Value of Baskets

The value of a basket of Reference Assets and/or Relevant Factors to which any Notes relate may be affected by the number of Reference Assets or Relevant Factors included in such basket. Generally, the value of a basket that includes Reference Assets from a number of companies or obligors or which gives relatively equal weight to each Reference Asset will be less affected by changes in the value of any particular Reference Asset included therein than a basket that includes fewer Reference Assets and/or Relevant Factors or that gives greater weight to some Reference Assets and/or Relevant Factors. In addition, if the Reference Assets and/or Relevant Factors included in a basket are all in or relate to a particular industry, the value of such a basket will be more affected by

the economic, financial and other factors affecting that industry than if the Reference Assets or Relevant Factors included in the basket relate to various industries that are affected by different economic, financial or other factors or are affected by such factors in different ways.

The volatility of the Reference Assets or Relevant Factors

If the volatility of Reference Assets or Relevant Factors increases, the trading value of a Note which relates to such Reference Asset or Relevant Factor is expected to increase; if the volatility decreases, the trading value of a Note is expected to decrease.

Partly-paid Notes

The Issuer may issue Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in an investor losing some or all of his investment.

Variable Rate Notes with a multiplier or other leverage factor

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features.

Inverse Floating Rate Notes

Inverse Floating Rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate. The market values of such Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of such Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

The Issuer's obligations under Subordinated Notes are subordinated

The Issuer's obligations under Subordinated Notes will be unsecured and subordinated and will rank junior in priority to the claims of unsubordinated creditors. Although Subordinated Notes may pay a higher rate of interest than comparable Notes which are not subordinated, there is a real risk that an investor in Subordinated Notes will lose all or some of his investment in the event of voluntary liquidation or judicial liquidation (*liquidation judiciaire*) of the Issuer.

Subordinated Notes issued under the Programme may be Undated

Undated Subordinated Notes have no fixed redemption or maturity date. Nevertheless, the Notes may, in certain circumstances, be redeemed in whole or in part for certain tax reasons or in other circumstances as specified in the Final Terms.

2.3 Risks related to Notes generally

Set out below is a brief description of certain risks relating to the Notes generally:

Modification of the Conditions

The Noteholders will, in respect of all Tranches in any Series, be grouped automatically for the defence of their common interests in a *masse*, as defined in Condition 10, and a General Meeting can be held. The Terms and Conditions permit in certain cases defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant General Meeting and Noteholders who voted in a manner contrary to the majority. The General Meeting may deliberate on any proposal relating to the modification of the Conditions including any proposal, whether for arbitration or settlement, relating to rights in controversy or which were the subject of judicial decisions, as more fully described in Condition 10.

Change of law

The Terms and Conditions of the Notes are based on French law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to French law or administrative practice after the date of this Base Prospectus.

2.4 Risks related to the market generally

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

Market value of the Notes

The market value of the Notes will be affected by the creditworthiness of the Issuer and a number of additional factors, including the value of the reference assets or an index, including, but not limited to, the volatility of the reference assets or an index, or the dividend on the securities taken up in the index, market interest and yield rates and the time remaining to the maturity date.

The value of the Notes, the reference assets or the index depends on a number of interrelated factors, including economic, financial and political events in France or elsewhere, including factors affecting capital markets generally and the stock exchanges on which the Notes, the reference assets, the securities taken up in the index, or the index are traded. The price at which a Noteholder will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such purchaser. The historical market prices of the reference assets or an index should not be taken as an indication of the reference assets' or an index's future performance during the term of any Note.

The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed

for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have an adverse effect on the market value of Notes.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency-equivalent value of the principal payable on the Notes and (3) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest rate risks

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

If at any time the Issuer shall be required to prepare a supplement to the Base Prospectus pursuant to the provisions of Article 13 of the *Loi relative aux prospectus pour valeurs mobilières* in Luxembourg implementing Article 16 of the Prospectus Directive, following the occurrence of a new factor, a material mistake or inaccuracy or omission relating to the information included in this Base Prospectus (including the “Terms and Conditions” of the Notes) which is capable of affecting the assessment of any notes whose inclusion would reasonably be required by investors and their professional advisers, the Issuer will prepare and make available an appropriate supplement to this Base Prospectus or a restated Base Prospectus, which in respect of any subsequent issue of Notes to be listed and admitted to trading on the Luxembourg Stock Exchange or on a Regulated Market of a Member State of the EEA or to be offered to the public in Luxembourg or in any Member State of the EEA, shall constitute a supplement to the Base Prospectus for the purpose of the relevant provisions of the *Loi relative aux prospectus pour valeurs mobilières* dated 10 July 2005.

Redemption by Instalments:	The Final Terms issued in respect of each issue of Notes that are redeemable in two or more instalments will set out the dates on which, and the amounts in which, such Notes may be redeemed.
Early Redemption:	Except as provided in "Optional Redemption" above, Notes will be redeemable at the option of the Issuer prior to their stated maturity only for tax reasons and, in respect of Subordinated Notes, subject to the approval of the SGCB and the non-objection of the FSA.
Taxation:	Except as otherwise specified in the relevant Final Terms, payments in respect of the Notes will be made without withholding or deduction for, or on account of, taxes imposed by or on behalf of the Republic of France as provided by Article 131 quater of the French Code général des impôts to the extent that the

Notes are issued (or deemed to be issued) outside France.

The Notes constituting *obligations* under French law will be issued (or deemed to be issued) outside France (i) if such Notes are denominated in Euro, (ii) in the case of syndicated issues of Notes denominated in currencies other than Euro, if, *inter alia*, the Issuer and the relevant Dealers agree not to offer the Notes to the public in France in connection with their initial distribution and such Notes are offered in France only through an international syndicate to qualified investors (*investisseurs qualifiés*) as described in Articles L.411-2 and D.411-1 to D.411-4 of the French *Code monétaire et financier* or (iii) in the case of non-syndicated issues of Notes denominated in currencies other than Euro, if each of the subscribers of the Notes is domiciled or resident for tax purposes outside the Republic of France, in each case as more fully set out in the Circular of the *Direction Générale des Impôts* dated 30 September 1998.

However, if so provided in the relevant Final Terms, Notes constituting *obligations* under French law and denominated in currencies other than Euro may be issued on a non-syndicated basis and placed with subscribers not all of whom are resident outside the Republic of France. In such cases, the Notes will not benefit from the exemption from deduction at source provided by Article 131 *quater* of the French *Code général des impôts* and payments under such Notes made to a non-French resident will be exempt from withholding or deduction at source only if the beneficiary of the payment provides certification that he is not resident in France, all in accordance with the provisions of Article 125 A III of the French *Code général des impôts*, as more fully described in "Terms and Conditions of the Notes - Taxation".

The tax regime applicable to Notes which do not constitute *obligations* under French law will be set out in the relevant Final Terms.

Interest Periods and Interest Rates:

The length of the interest periods for the Notes and the applicable interest rate or its method of calculation may differ from time to time or be constant for any Series. Notes may have a maximum interest rate, a minimum interest rate, or both. The use of interest accrual periods permits the Notes to bear interest at different rates in the same interest period. All such information will be set out in the relevant Final Terms.

Fixed Rate Notes:

Fixed interest will be payable in arrear on the date or dates in each year specified in the relevant Final Terms.

Floating Rate Notes:

Floating Rate Notes will bear interest determined separately for each Series as follows:

- (i) on the same basis as the floating rate under a notional interest rate swap transaction in the relevant Specified Currency governed by the 2001 FBF Master Agreement, as published by the *Fédération Bancaire Française*, or
- (ii) on the same basis as the floating rate under a notional interest rate swap transaction in the relevant Specified Currency governed by an agreement incorporating the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc., or
- (iii) on the basis of a reference rate appearing on an agreed screen page of a commercial quotation service (including, without limitation, EURIBOR, EONIA, LIBOR, CMS or TEC), or
- (iv) on such other basis or benchmark as may be specified in the applicable Final Terms,

in each case plus or minus any applicable margin, if any, and calculated and

payable as indicated in the applicable Final Terms. Floating Rate Notes may also have a maximum rate of interest, a minimum rate of interest or both.

Zero Coupon Notes:	Zero Coupon Notes may be issued at their nominal amount or at a discount to it and will not bear interest.
Dual Currency Notes:	Payments (whether in respect of principal or interest and whether at maturity or otherwise) in respect of Dual Currency Notes will be made in such currencies, and based on such rates of exchange, as may be specified in the relevant Final Terms.
Index Linked Notes:	Payments of principal in respect of Index Linked Redemption Notes or of interest in respect of Index Linked Interest Notes will be calculated by reference to such index and/or formula as may be specified in the relevant Final Terms. " Index Linked Redemption Notes ", which may not be Subordinated Notes constituting <i>fonds propres complémentaires</i> or <i>fonds propres surcomplémentaires</i> , are Notes in respect of which amounts of principal shall be calculated by reference to an index and/or formula, and " Index Linked Interest Notes " (together with Index Linked Redemption Notes, " Index Linked Notes ") are Notes in respect of which amounts of interest shall be calculated by reference to an index and/or formula.
Other Notes:	Terms applicable to high interest Notes, low interest Notes, step-up Notes, step-down Notes, reverse dual currency Notes, optional dual currency Notes, partly paid Notes and any other type of Notes that the Issuer and any Dealer or Dealers may agree to issue under the Programme will be set out in the relevant Final Terms.

TERMS AND CONDITIONS OF THE NOTES

The following is the text of the terms and conditions that, subject to completion in accordance with the provisions of the relevant Final Terms, shall be applicable to the Notes. In the case of Dematerialised Notes, the text of the terms and conditions will not be endorsed on physical documents of title but will be constituted by the following text as completed by the relevant Final Terms. In the case of Materialised Notes, either (i) the full text of these terms and conditions together with the relevant provisions of the Final Terms (and subject to simplification by the deletion of non-applicable provisions) or (ii) these terms and conditions as so completed shall be endorsed on Definitive Materialised Notes. All capitalised terms that are not defined in these Conditions will have the meanings given to them in the relevant Final Terms. References in the Conditions to "Notes" are to the Notes of one Series only, not to all Notes that may be issued under the Programme.

The Notes are issued by HSBC France (the "**Issuer**") in series (each a "**Series**") having one or more issue dates and on terms otherwise identical (or identical save as to the first payment of interest), the Notes of each Series being intended to be interchangeable with all other Notes of that Series. Each Series may be issued in tranches (each a "**Tranche**") on the same or different issue dates. The specific terms of each Tranche (including, without limitation, the aggregate nominal amount, issue price, redemption price thereof, and interest, if any, payable thereunder and supplemented, where necessary, with supplemental terms and conditions which, save in respect of the issue date, issue price, first payment of interest and nominal amount of the Tranche, will be identical to the terms of other Tranches of the same Series) will be determined by the Issuer and the relevant Dealer(s) at the time of the issue and will be set out in the Final Terms to this Base Prospectus (the "**Final Terms**"). The Notes are issued with the benefit of an amended and restated agency agreement (as amended or supplemented from time to time, the "**Agency Agreement**") dated 13 November 2007 between the Issuer, HSBC Bank plc as fiscal agent and principal paying agent and the other agents named therein. The fiscal agent, the paying agent(s) and the calculation agent(s) for the time being (if any) are referred to below respectively as the "**Fiscal Agent**", the "**Paying Agents**" (which expression shall include the Fiscal Agent) and the "**Calculation Agent(s)**". In addition, the Principal Paying Agent may (with the prior written consent of the Issuer) delegate certain of its functions and duties in relation to Physical Delivery Notes (as defined below) to a settlement agent (the "**Settlement Agent**"). The holders of the interest coupons (the "**Coupons**") relating to interest bearing Materialised Notes and, where applicable in the case of such Notes, talons (the "**Talons**") for further Coupons and the holders of the receipts for the payment of instalments of principal (the "**Receipts**") relating to Materialised Notes of which the principal is redeemable in instalments are respectively referred to below as the "**Couponholders**" and the "**Receiptholders**".

For the purposes of these Terms and Conditions, "**Regulated Market**" means any regulated market situated in a member state of the European Economic Area ("**EEA**") as defined in the Directive 2004/39/EC.

References below to "**Conditions**" are, unless the context requires otherwise, to the numbered paragraphs below.

1. **Form, Denomination, Title and Redenomination**

(a) *Form*

Notes may be issued either in dematerialised form ("**Dematerialised Notes**") or in materialised form ("**Materialised Notes**"), as specified in the relevant Final Terms.

- (i) Title to Dematerialised Notes will be evidenced in accordance with Article L.211-4 of the French *Code monétaire et financier* by book entries (*inscriptions en compte*). No physical document of title (including *certificats représentatifs* pursuant to Article R.211-7 of the French *Code monétaire et financier*) will be issued in respect of the Dematerialised Notes.

Dematerialised Notes are issued, at the option of the Issuer, in either bearer form (*au porteur*), which will be inscribed in the books of Euroclear France (acting as central depository) which shall credit the accounts of the Account Holders, or in registered form (*au nominatif*) and, in such latter case, at the option of the relevant holder in either administered registered form (*au nominatif administré*) inscribed in the books of an Account Holder designated by the relevant holder of Notes or in fully registered form (*au nominatif pur*) inscribed in an account maintained by the Issuer or a registration agent (designated in the relevant Final Terms) acting on behalf of the Issuer (the "**Registration Agent**").

For the purpose of these Conditions, "**Account Holder**" means any authorised financial intermediary institution entitled to hold accounts, directly or indirectly, with Euroclear France, and includes Euroclear Bank S.A./N.V. ("**Euroclear**") and the depository bank for Clearstream Banking, société anonyme ("**Clearstream, Luxembourg**").

- (ii) Materialised Notes are issued in bearer form only. Materialised Notes in definitive form ("**Definitive Materialised Notes**") are serially numbered and are issued with Coupons (and, where appropriate, a Talon) attached, save in the case of Zero Coupon Notes in which case references to interest (other than in relation to interest due after the Maturity Date), Coupons and Talons in these Conditions are not applicable. Instalment Notes are issued with one or more Receipts attached.

In accordance with Article L.211-4 of the French Code monétaire et financier, securities (such as Notes constituting obligations under French law) in materialised form and governed by French law must be issued outside the French territory.

The Notes may be "**Fixed Rate Notes**", "**Floating Rate Notes**", "**Zero Coupon Notes**", "**Index Linked Notes**" (including both "**Index Linked Interest Notes**", in respect of which amounts of interest shall be calculated by reference to an index and/or formula, and "**Index Linked Redemption Notes**" in respect of which amounts of principal due under the Notes shall be calculated by reference to an index and/or formula), "**Dual Currency Notes**", "**Partly Paid Notes**" or a combination of any of the foregoing, depending on the Interest Basis and the redemption method specified in the relevant Final Terms.

(b) *Denomination*

Notes shall be issued in the specified denomination(s) as set out in the relevant Final Terms (the "**Specified Denomination(s)**"), save that all Notes which are to be listed and admitted to trading on a Regulated Market within the EEA or offered to the public in a Member State of the EEA in circumstances which require the publication of a prospectus under the Prospectus Directive shall have a minimum denomination of €1,000 (or its equivalent in any other currency) or such higher amount as may be allowed or required from time to time by the relevant monetary authority or any laws or regulations applicable to the relevant Specified Currency.

Dematerialised Notes shall be issued in one Specified Denomination only.

(c) *Title*

Title to *Dematerialised* Notes in bearer form (*au porteur*) and in administered registered form (*au nominatif administré*) shall pass upon, and transfer of such Notes may only be effected through, registration of the transfer in the accounts of the Account Holders. Title to *Dematerialised* Notes in fully

registered form (*au nominatif pur*) shall pass upon, and transfer of such Notes may only be effected through, registration of the transfer in the accounts maintained by the Issuer or by the Registration Agent.

Title to Definitive Materialised Notes, including, where appropriate, Receipt(s), Coupons and/or a Talon attached, shall pass by delivery.

Except as ordered by a court of competent jurisdiction or as required by law, the holder of any Note (as defined below), Coupon, Receipt or Talon shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, or an interest in it, any writing on it or its theft or loss and no person shall be liable for so treating the holder.

In these Conditions,

"Noteholder" or, as the case may be, "holder of any Note" means (a) in the case of Dematerialised Notes, the person whose name appears in the account of the relevant Account Holder, the Issuer or the Registration Agent (as the case may be) as being entitled to such Notes and (b) in the case of Definitive Materialised Notes, the bearer of any Definitive Materialised Note and the Coupons, Receipts or Talons relating to it.

"outstanding" means, in relation to Notes of any Series, all the Notes issued other than (a) those that have been redeemed in accordance with these Conditions, (b) those in respect of which the date for redemption has occurred and the redemption moneys (including all interest accrued on such Notes to the date for such redemption, Arrears of Interest, as the case may be, and any interest payable after such date) have been duly paid as provided in Condition 7, (c) those which have become void or in respect of which claims have become prescribed, (d) those which have been purchased and cancelled as provided in the Conditions, (e) in the case of Definitive Materialised Notes (i) those mutilated or defaced Definitive Materialised Notes that have been surrendered in exchange for replacement Definitive Materialised Notes, (ii) (for the purpose only of determining how many such Definitive Materialised Notes are outstanding and without prejudice to their status for any other purpose) those Definitive Materialised Notes alleged to have been lost, stolen or destroyed and in respect of which replacement Definitive Materialised Notes have been issued and (iii) any Temporary Global Certificate to the extent that it shall have been exchanged for one or more Definitive Materialised Notes, pursuant to its provisions.

Capitalised terms have the meanings given to them in the relevant Final Terms, the absence of any such meaning indicating that such term is not applicable to the Notes.

(d) *Redenomination*

The Issuer may (if so specified in the relevant Final Terms), on any date, without the consent of the holder of any Note, Coupon, Receipt or Talon, by giving at least 30 days' notice in accordance with Condition 16 and on or after the date on which the European Member State in whose national currency the Notes are denominated has become a participating Member State in the single currency of the European Economic and Monetary Union (as provided in the Treaty establishing the European Community (the "EC"), as amended from time to time (the "Treaty") or events have occurred which have substantially the same effects (in either case, "EMU"), redenominate all, but not some only, of the Notes of any Series into Euro and adjust the aggregate principal amount and the Specified Denomination(s) set out in the relevant Final Terms accordingly, as more fully described below. The date on which such redenomination becomes effective shall be referred to in these Conditions as the "Redenomination Date".

Unless otherwise specified in the relevant Final Terms, the redenomination of the Notes pursuant to Condition 1(d)(i) shall be made by converting the principal amount of each Note from the relevant national currency into Euro using the fixed relevant national currency Euro conversion rate established by the Council of the European Union pursuant to Article 123(4) of the Treaty and rounding the resulting figure to the nearest Euro 0.01 (with Euro 0.005 being rounded upwards). If the Issuer so elects, the figure resulting from conversion of the principal amount of each Note using the fixed relevant national currency Euro conversion rate shall be rounded down to the nearest Euro. The Euro denominations of the Notes so determined shall be notified to holders of Notes in accordance with Condition 16. Any balance remaining from the redenomination with a denomination higher than Euro 0.01 shall be paid by way of cash adjustment rounded to the nearest Euro 0.01 (with Euro 0.005 being rounded upwards). Such cash adjustment will be payable in Euros on the Redenomination Date in the manner notified to holders of Notes by the Issuer.

Upon redenomination of the Notes, any reference hereon to the relevant national currency shall be construed as a reference to Euro.

Unless otherwise specified in the relevant Final Terms, the Issuer may, with the prior approval of the Fiscal Agent, in connection with any redenomination pursuant to this Condition or any consolidation pursuant to Condition 15, without the consent of the holder of any Note, Receipt, Coupon or Talon, make any changes or additions to these Conditions or Condition 15 (including, without limitation, any change to any applicable business day definition, business day convention, principal financial centre of the country of the Specified Currency, interest accrual basis or benchmark), taking into account market practice in respect of redenominated euromarket debt obligations and which it believes are not prejudicial to the interests of such holders. Any such changes or additions shall, in the absence of manifest error, be binding on the holders of Notes, Receipts, Coupons and Talons and shall be notified to holders of Notes in accordance with Condition 16 as soon as practicable thereafter.

Neither the Issuer nor any Paying Agent shall be liable to the holder of any Note, Receipt, Coupon or Talon or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of Euros or any currency conversion or rounding effected in connection therewith.

2. **Conversions and Exchanges of Notes**

(a) *Dematerialised Notes*

Dematerialised Notes issued in bearer form (*au porteur*) may not be converted for Dematerialised Notes in registered form, whether in fully registered form (*au nominatif pur*) or in administered registered form, (*au nominatif administré*).

Dematerialised Notes issued in registered form (*au nominatif*) may not be converted for Dematerialised Notes in bearer form (*au porteur*).

Dematerialised Notes issued in fully registered form (*au nominatif pur*) may, at the option of the holder of such Notes, be converted into Notes in administered registered form (*au nominatif administré*), and vice versa. The exercise of any such option by such holder shall be made in accordance with Article R.211-4 of the French *Code monétaire et financier*. Any such conversion shall be effected at the cost of such holder.

(b) *Materialised Notes*

Materialised Notes of one Specified Denomination may not be exchanged for Materialised Notes of another Specified Denomination.

3. **Status**

The obligations of the Issuer under the Notes may be either unsubordinated ("**Unsubordinated Notes**") or subordinated ("**Subordinated Notes**"), as specified in the relevant Final Terms.

(a) *Status of Unsubordinated Notes*

The Unsubordinated Notes, and, where applicable, any relative Coupons and Receipts are direct, unconditional, unsubordinated and unsecured obligations of the Issuer and rank and will rank *pari passu* without any preference among themselves and (subject to such exceptions as are from time to time mandatory under French law) *pari passu* with all other present or future unsecured and unsubordinated obligations of the Issuer.

(b) *Status of Subordinated Notes*

Payments of principal and interest in respect of Subordinated Notes (which term shall include both Subordinated Notes with a specified maturity date ("**Dated Subordinated Notes**") and Subordinated Notes without a specified maturity date ("**Undated Subordinated Notes**") are direct, unconditional, unsecured and subordinated obligations of the Issuer and rank and will rank *pari passu* without any preference among themselves and *pari passu* with all other present or future unsecured, unconditional, and subordinated obligations of the Issuer with the exceptions of the *prêts participatifs* granted to the Issuer and *titres participatifs* issued by the Issuer. Subject to applicable law, in the event of judicial liquidation (*liquidation judiciaire*) of the Issuer or the liquidation of the Issuer for any other reason, the rights of payment of the holders of Subordinated Notes shall be subordinated to the payment in full of the unsubordinated creditors of the Issuer but, subject to such payment in full, the holders of Subordinated Notes shall be paid in priority to any *prêts participatifs* granted to the Issuer and to any *titres participatifs* issued by the Issuer. In the event of an incomplete payment of unsubordinated creditors, the obligations of the Issuer in connection with the Subordinated Notes will be terminated. Subject to applicable law, no holder of any Subordinated Note, Receipt or Coupon may exercise, claim or plead any right of set-off, compensation or retention in respect of any amount owed to it by the Issuer arising under or in connection with such Note, Receipt or Coupon (as the case may be), and any such holder shall be deemed to have waived all such rights of set-off, compensation or retention. The holders of Subordinated Notes shall take all steps necessary for the enforcement of their rights in any collective proceedings or voluntary liquidation.

The relevant Final Terms will specify, in the case of issuance of Subordinated Notes, whether the proceeds of the issue of such Subordinated Notes will count as (i) *fonds propres complémentaires* within the meaning of Article 4(c) of the *Comité de la Réglementation Bancaire et Financière* ("**CRBF**") Regulation no. 90-02 of 23 February 1990 as amended ("**Upper Tier 2 Capital**"); (ii) *fonds propres complémentaires* within the meaning of Article 4(d) of the CRBF Regulation no. 90-02 of 23 February 1990 as amended ("**Lower Tier 2 Capital**"); or (iii) *fonds propres surcomplémentaires* within the meaning of Article 3.3 of the CRBF Regulation no. 95-02 of 21 July 1995 as amended ("**Tier 3 Capital**"), if such Regulation is applicable.

The proceeds of the issue of Undated Subordinated Notes may be used, as it will be set out in the relevant Final Terms, for off-setting losses of the Issuer and, thereafter, to allow it to continue its activities in accordance with French banking regulations. The proceeds of such issues will be classed amongst the funds of the Issuer in accordance with article 4(c) of Regulation no. 90-02 of the CRBF. This provision does not in any way affect any French law applicable to accounting principles relating to allocation of losses nor the duties of the shareholders and does not in any way affect the rights of the Noteholders to receive payment of principal and interest under the Notes in accordance with the terms and conditions of the relevant Notes.

The relevant Final Terms may also provide for additions or variations to the Conditions applicable to the Subordinated Notes in order to comply with chapter 2 of the General Prudential Sourcebook published by the FSA (as amended and supplemented from time to time), to the extent applicable.

For the purposes of these Conditions, "FSA" means the UK Financial Services Authority or any successor authority responsible for the supervision of institutions authorised under the Financial Services and Markets Act 2000 as amended from time to time.

For the purposes of this sub-paragraph (ii), "**FBF Rate**" for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Agent under a notional interest rate swap transaction (*Echange*) in the relevant Specified Currency incorporating the FBF Definitions and under which:

- (A) if the primary source for Floating Rate is a Page, the Rate of Interest shall be:
 - (1) the Relevant Rate (where such Relevant Rate on such Page is a composite quotation or is customarily supplied by one entity) or
 - (2) the arithmetic mean of the Relevant Rates of the persons whose Relevant Rates appear on that Page,

in each case appearing on such Page at the Relevant Time on the Interest Determination Date, as disclosed in the relevant Final Terms;

- (B) if the primary source for the Floating Rate is Reference Banks or if sub-paragraph (a)(i) applies and no Relevant Rate appears on the Page at the Relevant Time on the Interest Determination Date or if sub-paragraph (a)(ii) applies and fewer than two Relevant Rates appear on the Page at the Relevant Time on the Interest Determination Date, subject as provided below, the Rate of Interest shall be the arithmetic mean of the Relevant Rates that each of the Reference Banks is quoting to leading banks in the Relevant Financial Centre at the Relevant Time on the Interest Determination Date, as determined by the Calculation Agent; and
- (C) if paragraph (b) above applies and the Calculation Agent determines that fewer than two Reference Banks are so quoting Relevant Rates, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) that the Calculation Agent determines to be the rates (being the nearest equivalent to the Benchmark) in respect of a Representative Amount of the Specified Currency that at least two out of five leading banks selected by the Calculation Agent in the principal financial centre of the country of the Specified Currency or, if the Specified Currency is Euro, in the Euro-zone as selected by the Calculation Agent (the "**Principal Financial Centre**") are quoting at or about the Relevant Time on the date on which such banks would customarily quote such rates for a period commencing on the Effective Date for a period equivalent to the Specified Duration (I) to leading banks carrying on business in Europe, or (if the Calculation Agent determines that fewer than two of such banks are so quoting to leading banks in Europe) (II) to leading banks carrying on business in the Principal Financial Centre; except that, if fewer than two of such banks are so quoting to leading banks in the Principal Financial Centre, the Rate of Interest shall be the Rate of Interest determined on the previous Interest Determination Date (after readjustment for any difference between any Margin, Rate Multiplier or Maximum or Minimum Rate of Interest applicable to the preceding Interest Accrual Period and to the relevant Interest Accrual Period).

(d) *Rate of Interest for Index-Linked Interest Notes*

The Rate of Interest in respect of Index Linked Interest Notes for each Interest Accrual Period shall be determined in the manner specified in the relevant Final Terms and interest will accrue by reference to an Index or Formula as specified in the relevant Final Terms.

Where a Note the Interest Basis of which is specified to be Zero Coupon is repayable prior to the Maturity Date pursuant to an Issuer's Option or, if so specified in the relevant Final Terms, pursuant to Condition 8(e) or otherwise and is not paid when due, the amount due and payable prior to the Maturity Date shall, unless otherwise provided in the relevant Final Terms, be the Early Redemption Amount. As from the Maturity Date, the Rate of Interest for any overdue principal of such a Note shall be a rate per annum (expressed as a percentage) equal to the Amortisation Yield (as described in Condition 8(e)(i)).

(f) *Dual Currency Notes, Physical Delivery Notes and American Depositary Receipt Linked Notes*

In the case of (i) Dual Currency Notes (if the rate or amount of interest fails to be determined by reference to a Rate of Exchange or a method of calculating a Rate of Exchange); or (ii) Physical Delivery Notes and American Depositary Receipt Linked Notes, the rate or amount of interest payable shall be determined in the manner specified in the relevant Final Terms.

(g) *Partly Paid Notes*

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes and otherwise as specified in the relevant Final Terms.

(h) *Accrual of Interest*

Interest shall cease to accrue on each Note on the due date for redemption unless (i) in the case of Dematerialised Notes, payment on such due date; or (ii) in the case of Materialised Notes, payment upon due presentation; and/or (iii) in the case of Physical Delivery Notes delivery of the Physical Delivery Amount, is improperly withheld or refused, in which event interest shall continue to accrue (as well after as before judgment) at the Rate of Interest in the manner provided in this Condition 6 to the Relevant Date.

(i) *Deferral of interest*

Payment of interest on Undated Subordinated Notes may be postponed in accordance with applicable French banking laws and regulations and, in particular, Article 4 of Regulation no. 90-02 dated 23 February 1990 of the CRBF, as amended from time to time.

Interest shall be payable on each Compulsory Interest Payment Date (as defined below) in respect of the interest accrued in the Interest Period ending on the day immediately preceding such date. On any Optional Interest Payment Date (as defined below) there may be paid (if the Issuer so elects) the interest accrued in the Interest Period ending on the day immediately preceding such date but the Issuer shall not have any obligation to make such payment. Notice of any Optional Interest Payment Date shall be given to the Noteholders in accordance with Condition 16 and to the Regulated Market(s) of the EEA or to any unregulated stock exchange(s) on which the Notes are listed and admitted to trading, as the case may be. Such notice shall be given at least seven days prior to the relevant Optional Interest Payment Date(s). Any interest not paid on an Optional Interest Payment Date shall, so long as the same remains unpaid, constitute "**Arrears of Interest**" which term shall include interest on such unpaid interest as referred to below. Arrears of Interest may, at the option of the Issuer, be paid in whole or in part at any time upon the expiration of not less than seven days' notice to such effect given to the Noteholders in accordance with Condition 16 but all Arrears of Interest on all Undated Subordinated Notes outstanding shall become due in full on whichever is the earliest of:

- (i) the Interest Payment Date immediately following the first *Assemblée Générale Ordinaire* of the shareholders of the Issuer at which a resolution was passed to pay a dividend on any class of share capital of the Issuer; or
- (ii) (a) a judgment rendered by any competent court declaring the judicial liquidation (*liquidation judiciaire*) of the Issuer or (b) the liquidation of the Issuer for any other reason.

If notice is given by the Issuer of its intention to pay the whole or part of Arrears of Interest, the Issuer shall be obliged to do so upon the expiration of such notice. When Arrears of Interest are paid in part only, each such payment shall be applied in or towards satisfaction of the full amount of the Arrears of Interest accrued in respect of the earliest Interest Period in respect of which Arrears of Interest have accrued and have not been paid in full. Arrears of Interest shall (to the extent permitted by law) bear interest accruing (but only, in accordance with Article 1154 of the French *Code civil*, after such interest

has accrued for a period of one year) and compounding on the basis of the exact number of days which have elapsed at the prevailing rate of interest on the Undated Subordinated Notes in respect of each relevant Interest Period. For these purposes the following expressions have the following meanings:

"Compulsory Interest Payment Date" means any Interest Payment Date, unless at the *Assemblée Générale Ordinaire* of the shareholders of the Issuer immediately preceding such date which was required to approve the annual accounts of the Issuer for the fiscal year then ended, no resolution was passed to pay a dividend on any class of share capital of the Issuer in respect of such previous fiscal year; and

"Optional Interest Payment Date" means any Interest Payment Date other than a Compulsory Interest Payment Date, including in particular, without limitation, any Interest Payment Date if at the *Assemblée Générale Ordinaire* of the shareholders of the Issuer immediately preceding such date which was required to approve the annual accounts of the Issuer for the fiscal year then ended, no resolution was passed to pay a dividend on any class of share capital of the Issuer in respect of such previous fiscal year.

(j) *Margin, Rate Multipliers, Maximum/Minimum Rates of Interest, Instalment Amounts and Redemption Amounts and Rounding:*

If any Margin or Rate Multiplier is specified in the relevant Final Terms (either (x) generally, or (y) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rates of Interest for the specified Interest Accrual Periods, in the case of (y), calculated in accordance with (c) above by adding (if a positive number) or subtracting (if a negative number) the absolute value of such Margin or multiplying by such Rate Multiplier, subject always to the next paragraph.

If any Maximum or Minimum Rate of Interest, Instalment Amount or Redemption Amount is specified in the relevant Final Terms, then any Rate of Interest, Instalment Amount or Redemption Amount shall be subject to such maximum or minimum, as the case may be.

For the purposes of any calculations required pursuant to these Conditions (unless otherwise specified), (w) if FBF Determination is specified in the relevant Final Terms, all percentages resulting from such calculations shall be rounded, if necessary, to the nearest ten-thousandth of a percentage point (with halves being rounded up), (x) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest fifth decimal (with halves being rounded up), (y) all figures shall be rounded to seven figures (with halves being rounded up) and (z) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of yen, which shall be rounded down to the nearest yen. For these purposes "unit" means the lowest amount of such currency that is available as legal tender in the country of such currency.

(k) *Calculations*

The amount of interest payable in respect of any Note for any period shall be calculated by multiplying the product of the Rate of Interest and the outstanding nominal amount of such Note by the Day Count Fraction, unless an Interest Amount (or a formula for its calculation) is specified in respect of such period, in which case the amount of interest payable in respect of such Note for such period shall equal such Interest Amount (or be calculated in accordance with such formula). Where any Interest Period comprises two or more Interest Accrual Periods, the amount of interest payable in respect of such Interest Period shall be the sum of the amounts of interest payable in respect of each of those Interest Accrual Periods.

(l) *Determination and Publication of Rates of Interest, Interest Amounts, Final Redemption Amounts, Early Redemption Amounts, Optional Redemption Amounts and Instalment Amounts*

As soon as practicable after the relevant time on such date as the Calculation Agent may be required to calculate any rate or amount, obtain any quotation or make any determination or calculation, it shall determine such rate and calculate the Interest Amounts in respect of each Specified Denomination of the Notes for the relevant Interest Accrual Period, calculate the Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount or Instalment Amount, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amounts for each Interest Period and the relevant Interest Payment Date and, if required to be calculated, the Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount or any Instalment Amount to be notified to the Fiscal Agent, the Issuer, each of the Paying Agents, the holders of Notes, any other Calculation Agent appointed in respect of the Notes that is to make a further calculation upon receipt of such information and, if the Notes are listed and admitted to trading on a Regulated Market of the EEA or on an unregulated stock exchange and the rules applicable to that Regulated Market or such unregulated stock exchange so require, such Regulated Market or such unregulated stock exchange as soon as possible after their determination but in no event later than (i) the commencement of the relevant Interest Period, if determined prior to such time, in the case of notification to such Regulated Market or such unregulated stock exchange of a Rate of Interest and Interest Amount, or (ii) in all other cases, the fourth Business Day after such determination. Where any Interest Payment Date or Interest Period Date is subject to adjustment pursuant to Condition 6(b), the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) shall (in the absence of manifest error) be final and binding upon all parties.

(m) *Calculation Agent and Reference Banks*

The Issuer shall procure that there shall at all times be four Reference Banks (or such other number as may be required) with offices in the Relevant Financial Centre and one or more Calculation Agents if provision is made for them in the relevant Final Terms and for so long as any Note is outstanding (as defined in Condition 1(c) above). If any Reference Bank (acting through its relevant office) is unable or unwilling to continue to act as a Reference Bank, then the Issuer shall appoint another Reference Bank with an office in the Relevant Financial Centre to act as such in its place. Where more than one Calculation Agent is appointed in respect of the Notes, references in these Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its respective duties under the Conditions. If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails duly to establish the Rate of Interest for an Interest Period or Interest Accrual Period or to calculate any Interest Amount, Instalment Amount, Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, as the case may be, or to comply with any other requirement, the Issuer shall appoint a leading bank or investment banking firm engaged in the interbank market (or, if appropriate, money, swap or over-the-counter index options market) that is most closely connected with the calculation or determination to be made by the Calculation Agent (acting through its principal Paris office, as appropriate, or any other office actively involved in such market) to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid. So long as the Notes are listed and admitted to trading on any Regulated Market(s) or any unregulated stock exchange(s) and the applicable rules of, or applicable to, that Regulated Market or that stock exchange so require, notice of any change of Calculation Agent shall be given in accordance with Condition 16.

7. Redemption, Purchase and Options

(a) *Final Redemption*

Unless previously redeemed, purchased and cancelled as provided below or its maturity is extended pursuant to any Issuer's option in accordance with Condition 7(c) or any Noteholder's option in accordance with Condition 7(d), each Note shall be finally redeemed on the Maturity Date specified in the relevant Final Terms at its Final Redemption Amount (which, unless otherwise provided, is its nominal amount) or, in the case of a Note falling within Condition 7(b) below, its final Instalment Amount. Subordinated Notes the proceeds of which constitute Upper Tier 2 Capital shall be Undated Subordinated Notes. The Maturity Date, in relation to Dated Subordinated Notes the proceeds of which constitute Lower Tier 2 Capital and for the purposes of the FSA Policy, will not be less than five years and one day from the Issue Date and where the proceeds constitute Tier 3 Capital, will not be less than two years from the Issue Date. Notwithstanding the above, in the case of Physical Delivery Notes where the applicable Final Terms specify that such Notes will be redeemed by payment and/or delivery of a Physical Delivery Amount, then each Note shall be finally redeemed by the payment and the delivery of the Physical Delivery Amount specified in, or determined in accordance with Condition 11(b) and/or as specified in, the applicable Final Terms.

(b) *Redemption by Instalments*

Unless previously redeemed, purchased and cancelled as provided in this Condition 7 or the relevant Instalment Date (being one of the dates so specified in the relevant Final Terms) is extended pursuant to any Issuer's or Noteholder's option in accordance with Condition 7(c) or (d), each Note that provides for Instalment Dates and Instalment Amounts shall be partially redeemed on each Instalment Date at the related Instalment Amount specified in the relevant Final Terms. The first Instalment Date, in relation to Dated Subordinated Notes the proceeds of which constitute Lower Tier 2 Capital and for the purposes of the FSA Policy, will not be less than five years and one day from the Issue Date and where the proceeds constitute Tier 3 Capital, will not be less than two years from the Issue Date. The outstanding nominal amount of each such Note shall be reduced by the Instalment Amount (or, if such Instalment Amount is calculated by reference to a proportion of the nominal amount of such Note, such proportion) for all purposes with effect from the related Instalment Date, unless payment of the Instalment Amount is improperly withheld or refused (i) in the case of Dematerialised Notes, on the due date for such payment or (ii) in the case of Materialised Notes, on presentation of the related Receipt, in which case, such amount shall remain outstanding until the Relevant Date relating to such Instalment Amount.

(c) *Redemption at the Option of the Issuer, Exercise of Issuer's Options and Partial Redemption*

If a Call Option is specified in the relevant Final Terms, the Issuer may, subject to the prior approval of the SGCB and the non-objection of the FSA in the case of Subordinated Notes the proceeds of which constitute Upper Tier 2 Capital, Lower Tier 2 Capital or Tier 3 Capital and subject to compliance by the Issuer of all the relevant laws, regulations and directives and on giving not less than 15 nor more than 30 days' irrevocable notice in accordance with Condition 16 to the holders of Notes (or such other notice period as may be specified in the relevant Final Terms) redeem all or, if so provided, some, of the Notes on any Optional Redemption Date, which shall not be less than five years and one day from the Issue Date in relation to Undated Subordinated Notes the proceeds of which constitute Upper Tier 2 Capital and Dated Subordinated Notes the proceeds of which constitute Lower Tier 2 Capital and not less than two years from the Issue Date in relation to Dated Subordinated Notes the proceeds of which constitute Tier 3 Capital. Any such redemption of Notes shall be at their Optional Redemption Amount together with interest accrued to the date fixed for redemption (including, where applicable, any Arrears of Interest), if

any. Any such redemption must relate to Notes of a nominal amount at least equal to the minimum nominal amount to be redeemed as specified in the relevant Final Terms and no greater than the maximum nominal amount to be redeemed as specified in the relevant Final Terms.

If any other Issuer's Option (as may be described in the relevant Final Terms) is specified in the relevant Final Terms (as approved by the SGCB, in the case of Subordinated Notes the proceeds of which constitute Upper Tier 2 Capital, Lower Tier 2 Capital or Tier 3 Capital), the Issuer may, subject to compliance by the Issuer of all the relevant laws, regulations and directives and on giving not less than 15 nor more than 30 days' irrevocable notice in accordance with Condition 16 to the holders of Notes (or such other notice period as may be specified in the relevant Final Terms) exercise any Issuer's Option in relation to, all or, if so provided, some, of the Notes on any Option Exercise Date. Any such exercise must relate to Notes of a nominal amount at least equal to the minimum nominal amount in respect of which such option has been exercised as specified in the relevant Final Terms and no greater than the maximum nominal amount in respect of which such option has been exercised as specified in the relevant Final Terms.

All Notes in respect of which any such notice is given shall be redeemed, or the Issuer's option shall be exercised, on the date specified in such notice in accordance with this Condition.

In the case of a partial redemption or a partial exercise of an Issuer's Option in respect of Materialised Notes, the notice to holders of such Materialised Notes shall also contain the numbers of the Definitive Materialised Notes to be redeemed or in respect of which such Option has been exercised, which shall have been drawn in such place and in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices, subject to compliance with any applicable laws and Regulated Market or unregulated stock exchange requirements.

In the case of a partial redemption of, or a partial exercise of an Issuer's Option in respect of, Dematerialised Notes, the redemption may be effected, at the option of the Issuer, either (i) by reducing the nominal amount of all such Dematerialised Notes in a Series in proportion to the aggregate nominal amount redeemed or (ii) by redeeming in full, or applying the option to, some only of such Dematerialised Notes and, in such latter case, the choice between those Dematerialised Notes that will be fully redeemed or in respect of which such Option has been exercised and those Dematerialised Notes of any Series that will not be redeemed or in respect of which such Option has not been exercised shall be made in accordance with Article R.213-16 of the French *Code monétaire et financier* and the provisions of the relevant Final Terms, subject to compliance with any other applicable laws and Regulated Market or unregulated stock exchange requirements.

So long as the Notes are admitted to trading on the Luxembourg Stock Exchange's Regulated Market and the rules applicable to that Regulated Market so require, the Issuer shall, once in each year in which there has been a partial redemption of the Notes, cause to be published in a leading newspaper of general circulation in Luxembourg a notice specifying the aggregate nominal amount of Notes outstanding and, in the case of Materialised Notes, a list of any Materialised Notes drawn for redemption but not surrendered.

(d) *Redemption at the Option of Noteholders and Exercise of Noteholders' Options*

If a Put Option is specified in the relevant Final Terms and provided that the relevant Note is not a Subordinated Note the proceeds of which constitute Upper Tier 2 Capital, Lower Tier 2 Capital and Tier 3 Capital, the Issuer shall, at the option of the Noteholder, upon the Noteholder giving not less than 15 nor more than 30 days' notice to the Issuer (or such other notice period as may be specified in the relevant Final Terms) redeem such Note on the Optional Redemption Date(s) at its Optional Redemption Amount

together with interest accrued to the date fixed for redemption including, where applicable, any Arrears of Interest.

If any other Noteholder's Option (as may be described in the relevant Final Terms) is specified in the relevant Final Terms and provided that the relevant Note is not a Subordinated Note the proceeds of which constitute Upper Tier 2 Capital, Lower Tier 2 Capital or Tier 3 Capital, the Issuer shall, at the option of the Noteholder, upon the Noteholder giving not less than 15 nor more than 30 days' notice to the Issuer (or such other notice period as may be specified in the relevant Final Terms) exercise any Noteholder's Option in relation to such Note on the Option Exercise Date at its Optional Redemption Amount together with interest accrued to the date fixed for redemption including, where applicable, any Arrears of Interest.

To exercise such option or any other Noteholders' option that may be set out in the relevant Final Terms the Noteholder must deposit with a Paying Agent at its specified office a duly completed option exercise notice (the "**Exercise Notice**") in the form obtained during normal business hours from any Paying Agent or the Registration Agent, as the case may be, within the notice period. In the case of Materialised Notes, the Exercise Notice shall have attached to it the relevant Notes (together with all unmatured Receipts and Coupons and unexchanged Talons). In the case of Dematerialised Notes, the Noteholder shall transfer, or cause to be transferred, the Dematerialised Notes to be redeemed to the account of the Paying Agent with a specified office in Paris, as specified in the Exercise Notice. No option so exercised and, where applicable, no Note so deposited or transferred, may be withdrawn without the prior consent of the Issuer.

(e) *Early Redemption*

(i) Zero Coupon Notes

- (A) The Early Redemption Amount payable in respect of any Zero Coupon Note, the amount of which is not linked to an index and/or a formula, upon redemption of such Note pursuant to Condition 7(f) or upon it becoming due and payable as provided in Condition 11 shall be the Amortised Nominal Amount (calculated as provided below) of such Note unless otherwise specified in the relevant Final Terms.
- (B) Subject to the provisions of sub-paragraph (C) below, the Amortised Nominal Amount of any such Note shall be the scheduled Final Redemption Amount of such Note on the Maturity Date discounted at a rate per annum (expressed as a percentage) equal to the Amortisation Yield (which, if none is shown in the relevant Final Terms, shall be such rate as would produce an Amortised Nominal Amount equal to the issue price of the Notes if they were discounted back to their issue price on the Issue Date (the "**Amortisation Yield**")) compounded annually (the "**Amortised Nominal Amount**").
- (C) If the Amortised Nominal Amount payable in respect of any such Note upon its redemption pursuant to Condition 7(f) or upon it becoming due and payable as provided in Condition 11 is not paid when due, the Early Redemption Amount due and payable in respect of such Note shall be the Amortised Nominal Amount of such Note as defined in sub-paragraph (B) above, except that such sub-paragraph shall have effect as though the date on which the Note becomes due and payable was the Relevant Date. The calculation of the Amortised Nominal Amount in accordance with this sub-paragraph shall continue to be made (as well after as before judgement) until the Relevant Date, unless the Relevant Date falls on or after the Maturity Date, in which case the amount due and payable shall be the scheduled Final

Redemption Amount of such Note on the Maturity Date together with any interest that may accrue in accordance with Condition 4(d).

Where such calculation is to be made for a period of less than one year, it shall be made on the basis of the Day Count Fraction as provided in the relevant Final Terms.

(ii) Physical Delivery Notes

In the case of Physical Delivery Notes, in accordance with Condition 8(b) and as determined in the manner specified in the applicable Final Terms.

(iii) Other Notes

The Early Redemption Amount payable in respect of any Note (other than Notes described in (i) above), upon redemption of such Note pursuant to Condition 7(f) or upon it becoming due and payable as provided in this Condition 11 shall be the Final Redemption Amount together with interest accrued to the date fixed for redemption (including, where applicable, any Arrears of Interest) unless otherwise specified in the relevant Final Terms.

(f) *Redemption for Taxation Reasons:*

If, by reason of any change in French law, or any change in the official application or interpretation of such law, becoming effective after the Issue Date, the Issuer would on the occasion of the next payment of principal or interest due in respect of the Notes, not be able to make such payment without having to pay additional amounts as specified under Condition 9(b) below, the Issuer may, at its option, on any Interest Payment Date or, if so specified in the relevant Final Terms, at any time, subject to having given not more than 45 nor less than 30 days' notice to the Noteholders (which notice shall be irrevocable), in accordance with Condition 16, and, in the case of Subordinated Notes the proceeds of which constitute Upper Tier 2 Capital, Lower Tier 2 Capital or Tier 3 Capital, subject to the prior approval of the SGCB and the non-objection of the FSA, redeem all, but not some only, of the Notes at their Early Redemption Amount together with, unless otherwise specified in the Final Terms, any interest accrued to the date set for redemption (including, where applicable, any Arrears of Interest) provided that the due date for redemption of which notice hereunder may be given shall be no earlier than the latest practicable date on which the Issuer could make payment of principal and interest without withholding for French taxes.

If the Issuer would, on the next payment of principal or interest in respect of the Notes, be prevented by French law from making payment to the Noteholders or, if applicable, Couponholders of the full amounts then due and payable, notwithstanding the undertaking to pay additional amounts contained in Condition 9(b) below, then the Issuer shall forthwith give notice of such fact to the Fiscal Agent and the Issuer shall upon giving not less than seven days' prior notice to the Noteholders in accordance with Condition 16, and, in the case of Subordinated Notes the proceeds of which constitute Upper Tier 2 Capital, Lower Tier 2 Capital or Tier 3 Capital, subject to the prior approval of the SGCB and the non-objection of the FSA, redeem all, but not some only, of the Notes then outstanding at their Early Redemption Amount together with, unless otherwise specified in the Final Terms, any interest accrued to the date set for redemption (including, where applicable, any Arrears of Interest) on (A) the latest practicable Interest Payment Date on which the Issuer could make payment of the full amount then due and payable in respect of the Notes, provided that if such notice would expire after such Interest Payment Date the date for redemption pursuant to such notice of Noteholders shall be the later of (i) the latest practicable date on which the Issuer could make payment of the full amount then due and payable in respect of the Notes and (ii) 14 days after giving notice to the Fiscal Agent as aforesaid or (B) if so

specified in the relevant Final Terms, at any time, provided that the due date for redemption of which notice hereunder shall be given shall be the latest practicable date at which the Issuer could make payment of the full amount payable in respect of the Notes, or, if applicable, Receipts or Coupons or, if that date is passed, as soon as practicable thereafter.

(g) *Partly Paid Notes*

Partly Paid Notes will be redeemed, whether at maturity, early redemption or otherwise, in accordance with the provisions of this Condition 7 and the provisions specified in the relevant Final Terms.

(h) *Purchases*

In compliance with applicable law and regulation, the Issuer shall have the right at all times to purchase Notes (provided that, in the case of Materialised Notes, all unmatured Receipts and Coupons and unexchanged Talons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise (including by tender offer) at any price. In the case of a Series of Subordinated Notes the proceeds of which constitute Upper Tier 2 Capital, Lower Tier 2 Capital or Tier 3 Capital, any such purchase will be subject to the non-objection of the FSA and the prior approval of the SGCB if it relates (individually or when aggregated with any previous purchase) to approximately ten per cent. or more of the principal amount of the Notes or if it is made by tender offer or exchange offer.

(i) *Cancellation*

All Notes purchased by or on behalf of the Issuer must be cancelled, in the case of Dematerialised Notes, by transfer to an account in accordance with the rules and procedures of Euroclear France and, in the case of Materialised Notes, by surrendering the relevant Temporary Global Certificate or the Definitive Materialised Notes in question, together with all unmatured Receipts and Coupons and all unexchanged Talons, if applicable, to the Fiscal Agent and, in each case, if so transferred or surrendered, shall, together with all Notes redeemed by the Issuer, be cancelled forthwith (together with, in the case of Dematerialised Notes, all rights relating to payment of interest and other amounts relating to such Dematerialised Notes and, in the case of Definitive Materialised Notes, all unmatured Receipts and Coupons and unexchanged Talons attached thereto or surrendered therewith). Any Notes so cancelled or, where applicable, transferred or surrendered for cancellation may not be reissued or resold and the obligations of the Issuer in respect of any such Notes shall be discharged.

8. **Payments and Talons**

For the purposes of this Condition 8, references to payment or repayment (as the case may be) of principal and/or interest and other similar expressions will, where the context so admits, be deemed also to refer to delivery of any Physical Delivery Amount(s).

(a) *Dematerialised Notes*

Payments of principal and interest in respect of Dematerialised Notes shall (i) in the case of Dematerialised Notes in bearer dematerialised form or administered registered form, be made by transfer to the account denominated in the relevant currency of the relevant Account Holders for the benefit of the holders of Notes and, (ii) in the case of Dematerialised Notes in fully registered form, to an account denominated in the relevant currency with a Bank (as defined below) designated by the relevant holder of Notes. All payments validly made to such Account Holders or Bank will be an effective discharge of the Issuer in respect of such payments.

(b) *Definitive Materialised Notes*

(i) Method of payment

- (A) Subject as provided below, payments in a Specified Currency will be made by credit or transfer to an account denominated in the relevant Specified Currency, or to which the Specified Currency may be credited or transferred (which, in the case of a payment in Japanese yen to a non-resident of Japan, shall be a non-resident account) maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is euro, shall be any country in the Euro-zone, and, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney or Auckland, respectively).
- (B) In the case of Physical Delivery Notes which are settled by way of delivery, on the due date for redemption, the Issuer shall deliver, or procure the delivery of, the documents evidencing the number of, and/or constituting the Physical Delivery Amount to or to the order of the Noteholder in accordance with the instructions of the Noteholder contained in the Transfer Notice (as defined below). The Physical Delivery Amount shall be evidenced in the manner described in the applicable Final Terms.
- (C) In the case of Physical Delivery Notes, the applicable Final Terms may also contain provisions for variation of settlement pursuant to an option to such effect or where the Issuer or the holder of a Physical Delivery Note (as the case may be) is not able to deliver, or take delivery of, (as the case may be) the Underlying Assets or where a Settlement Disruption Event (as described in the applicable Final Terms) has occurred, all as provided in the applicable Final Terms.

(ii) Presentation and surrender of Definitive Materialised Notes, Receipts and Coupons

Payments of principal in respect of Definitive Materialised Notes will (subject as provided below) be made in the manner provided in paragraph (a) above only against presentation and surrender (or, in the case of partial payment of any sum due, annotation) of such Notes, and payments of interest in respect of Definitive Materialised Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, annotation) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)).

Payments of instalments of principal (if any) in respect of Definitive Materialised Notes, other than the final instalment, will (subject as provided below) be made in the manner provided in paragraph (a) above only against presentation and surrender (or, in the case of part payment of any sum due, annotation) of the relevant Receipt in accordance with the preceding paragraph. Payment of the final instalment will be made in the manner provided in paragraph (a) above only against presentation and surrender (or, in the case of part payment of any sum due, annotation) of the relevant Note in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the Definitive Materialised Note to which it

appertain. Receipts presented without the Definitive Materialised Note to which they appertain do not constitute valid obligations of the Issuer.

Upon the date upon which any Definitive Materialised Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment will be made in respect thereof.

Fixed Rate Notes in definitive form (other than Dual Currency Notes, Index-Linked Interest Notes or Physical Delivery Notes) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 12) or, if later, 5 years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note in definitive form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note, Dual Currency Note, Index-Linked Interest Note or Physical Delivery Note in definitive form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof.

If the due date for redemption of any Definitive Materialised Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against presentation and surrender (if appropriate) of the relevant Definitive Materialised Note.

(c) *Payments in the United States*

Notwithstanding the foregoing, if any Materialised Notes are denominated in U.S. dollars, payments in respect thereof may be made at the specified office of any Paying Agent in New York City in the same manner as aforesaid if (i) the Issuer shall have appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment of the amounts on the Notes in the manner provided above when due, (ii) payment in full of such amounts at all such offices is illegal or effectively precluded by exchange controls or other similar restrictions on payment or receipt of such amounts and (iii) such payment is then permitted by United States law, without involving, in the opinion of the Issuer, any adverse tax consequence to the Issuer.

(d) *Payments subject to Fiscal Laws*

All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives in the place of payment but without prejudice to the provisions of Condition 9. No

commission or expenses shall be charged to the holders of Notes or Couponholders in respect of such payments.

(e) *Appointment of Agents*

The Fiscal Agent, the Paying Agent, the Calculation Agent and the Registration Agent initially appointed by the Issuer and their respective specified offices are listed at the end of the Base Prospectus relating to the Programme of the Notes of the Issuer. The Fiscal Agent, the Paying Agents and the Registration Agent act solely as agents of the Issuer and the Calculation Agent(s) act(s) as independent experts(s) and, in each case such, do not assume any obligation or relationship of agency for any Noteholder or Couponholder. The Issuer reserves the right at any time to vary or terminate the appointment of the Fiscal Agent, any other Paying Agent, Registration Agent or Calculation Agent and to appoint other Fiscal Agent, Paying Agent(s), Registration Agent(s) or Calculation Agent(s) or additional Paying Agent(s), Registration Agent(s) or Calculation Agent(s), provided that the Issuer shall at all times maintain (i) a Fiscal Agent, (ii) one or more Calculation Agent(s) where the Conditions so require, (iii) Paying Agents having specified offices in at least two major European cities (including Luxembourg so long as the Notes are listed and admitted to trading on the Luxembourg Stock Exchange's Regulated Market and, so long as the Notes are listed and admitted to trading on any other Regulated Market, such other city where the Notes are to be listed and admitted to trading) (iv) in the case of Materialised Notes, a Paying Agent having its specified office in a Member State of the EU that will not be obliged to withhold or deduct tax pursuant to European Council Directive 2003/48/EC or any other EU Directive implementing the conclusions of the ECOFIN Council meeting of 26-27 November 2000 on the taxation of savings income or any law implementing or complying with, or introduced in order to, such Directive (which may be any of the Paying Agents referred to in (iii) above), (v) in the case of Dematerialised Notes in fully registered form, a Registration Agent and (vi) such other agents as may be required by the rules of any other stock exchange on which the Notes may be listed and admitted to trading.

In addition, the Issuer shall forthwith appoint a Paying Agent in New York City in respect of any Materialised Notes denominated in U.S. dollars in the circumstances described in paragraph (c) above.

Notice of any such change or any change of any specified office shall promptly be given to the holders of Notes in accordance with Condition 16.

(f) *Talons*

On or after the Interest Payment Date for the final Coupon forming part of a Coupon sheet issued in respect of any Materialised Note, the Talon forming part of such Coupon sheet may be surrendered at the specified office of the Fiscal Agent in exchange for a further Coupon sheet (and if necessary another Talon for a further Coupon sheet) (but excluding any Coupons that may have become void pursuant to Condition 12).

(g) *Business Days for Payment*

(b) *Physical Delivery*

Notwithstanding Condition 8(b) above, in relation to Physically Settled Notes and/or where the Issuer has elected Physical Settlement, and subject to the other provisions of the relevant Final Terms:

- (i) (A) The Issuer shall discharge its obligation to redeem the relevant proportion of the Notes by delivering, or procuring the delivery of, the Securities Transfer Amount on the Settlement Date to the Clearance System for credit to the account with the Clearance System specified in the Transfer Notice of the relevant Noteholder.
- (B) The number of Securities to be delivered to or for the account of each Noteholder shall be a number of Securities equal to the number of Notes in respect of which such Noteholder is the holder as specified in the relevant Transfer Notice multiplied by the Securities Transfer Amount; provided, however, that if a Noteholder would become entitled to a number of Securities which is not equal to a board lot of the Securities at such time, as determined by the Calculation Agent, or an integral multiple thereof, then the Noteholder's entitlement to delivery of Securities shall be rounded down to the nearest whole Security.
- (C) In relation to each Noteholder, the Calculation Agent shall calculate the Residual Amount and the Residual Cash Amount. The Residual Cash Amount shall be paid by the Issuer to the relevant Noteholder on the Settlement Date.
- (D) Each Noteholder shall be required as a condition of its entitlement to delivery of Securities in respect of any Notes to pay all Transfer Expenses in respect of such Notes.

- (E) After delivery to or for the account of a Noteholder of the relevant Securities Transfer Amount and for such period of time as the transferor or its agent or nominee shall continue to be registered in any clearing system as the owner of the Securities comprised in such Securities Transfer Amount (the "**Intervening Period**"), none of such transferor or any agent or nominee for the Issuer or such transferor shall (i) be under any obligation to deliver to such Noteholder or any other person any letter, certificate, notice, circular, dividend or any other document or payment whatsoever received by the Issuer or such transferor, agent or nominee in its capacity as holder of such Securities, (ii) be under any obligation to exercise any rights (including voting rights) attaching to such Securities during the Intervening Period, or (iii) be under any liability to such Noteholder or any other person in respect of any loss or damage which the Noteholder or any other person may sustain or suffer as a result, whether directly or indirectly, of the Issuer or such transferor, agent or nominee being registered in such clearing system during such Intervening Period as legal owner of such Securities.
- (F) All dividends on Securities to be delivered will be payable to the party that would receive such dividends according to market practice for a sale of the Securities executed on the Notional Sale Date to be delivered in the same manner as such Securities. Any such dividends will be paid to or for credit to the account specified by the Noteholder in the relevant Transfer Notice. No right to dividends on the Securities will accrue to Noteholders prior to the Notional Sale Date.
- (ii) the Calculation Agent shall determine, in its sole and absolute discretion, whether or not at any time a Settlement Disruption Event has occurred and where it determines such an event has occurred and so has prevented delivery of Securities on the original day that but for such Settlement Disruption Event would have been the Settlement Date, then the Settlement Date will be the first succeeding day on which delivery of such Securities can take place through the relevant Clearance System unless a Settlement Disruption Event prevents settlement on each of the eighth relevant Clearance System Business Days immediately following the original date (or during such other period specified in the relevant Final Terms) that, but for the Settlement Disruption Event, would have been the Settlement Date. In that case, if the Securities are debt securities, the Issuer shall use reasonable efforts to deliver such Securities promptly thereafter in a commercially reasonable manner (as determined by the Calculation Agent in its sole and absolute discretion) outside the Clearance System and in all other cases (a) if such Securities can be delivered in any other commercially reasonable manner (as determined by the Calculation Agent in its sole and absolute discretion), then the Settlement Date will be the first day on which settlement of a sale of Securities executed on that eighth relevant Clearance System Business Day, or during such other period specified in the relevant Final Terms, customarily would take place using such other commercially reasonable manner (as determined by the Calculation Agent in its sole and absolute discretion) of delivery (which other manner of delivery will be deemed the relevant Clearance System for the purposes of delivery of the relevant Securities), and (b) if such Securities cannot be delivered in any other commercially reasonable manner (as determined by the Calculation Agent in its sole and absolute discretion), then the Settlement Date will be postponed until delivery can be effected through the relevant Clearance System or in any other commercially reasonable manner.

For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Securities comprised in a basket, the Settlement Date for Securities not affected by the Settlement Disruption Event will be the first day on which settlement of a sale of such Securities executed on the Maturity Date customarily would take place through the relevant Clearance System.

- (iii) In the case of Notes to which this Condition 10(a)(E)(c) is applicable, if the Calculation Agent determines, in its sole and absolute discretion, that a Delivery Disruption Event has occurred, it shall notify the Issuer who shall promptly notify the relevant Noteholder(s) and the Issuer may then:
 - (A) determine, in its sole and absolute discretion, that the obligation to deliver the relevant Securities Transfer Amount will be terminated and the Issuer will pay such amount as in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion) is fair in the circumstances by way of compensation for the non-delivery of the Securities Transfer Amount, in which event the entitlements of the respective Noteholder(s) to receive the relevant Securities Transfer Amount shall cease and the Issuer's obligations under the Notes shall be satisfied in full upon payment of such amount; or
 - (B) deliver on the Settlement Date such amount of the Securities Transfer Amount (if any) as it can deliver on that date and pay such amount as in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion) is fair in the circumstances by way of compensation for the non-delivery of the remainder of the Securities Transfer Amount, in which event the entitlements of the respective Noteholder(s) to receive the relevant Securities Transfer Amount shall cease and the Issuer's obligations under the Notes shall be satisfied in full upon payment of such amount.

Where this Condition 10(a)(E)(c) falls to be applied, insofar as the Calculation Agent determines in its sole and absolute discretion to be practical, the same shall be applied as between the Noteholders on a *pro rata* basis, but subject to such rounding down (whether of the amount of a payment or of a number of Securities to be delivered) and also to such other adjustments as the Calculation Agent, in its sole and absolute discretion, determines to be appropriate to give practical effect to such provisions.

(c) *Consequences of the occurrence of an Automatic Early Redemption Event*

If Automatic Early Redemption Event is specified as applicable in the Final Terms, then unless previously redeemed or purchased and cancelled, if on any Automatic Early Redemption Valuation Date the Automatic Early Redemption Event occurs, then the Notes will be automatically redeemed in whole, but not in part, on the Automatic Early Redemption Date immediately following such Automatic Early Redemption Valuation Date and the Redemption Amount payable by the Issuer on such date upon redemption of each Note shall be an amount in the relevant currency equal to the relevant Automatic Early Redemption Amount.

(d) *Adjustments to Index and Basket of Indices*

This Condition 10(a)(E)(e) is applicable only in relation to Notes specified in the relevant Final Terms as being Index Linked Notes.

- (i) If, the relevant Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Issuer, or (ii) replaced by a successor

Index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the "**Successor Index**") will be deemed to be the Index.

- (ii) If (i) on or prior to any Valuation Date the Index Sponsor announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalization and other routine events) (an "**Index Modification**") or permanently cancels the Index and no Successor Index exists (an "**Index Cancellation**") or (ii) on any Valuation Date, the Index Sponsor fails to calculate and announce a relevant Index (an "**Index Disruption**" and together with an Index Modification and an Index Cancellation, each an "**Index Adjustment Event**"), then the Calculation Agent shall determine if such Index Adjustment Event has a material effect and, if so, shall calculate the relevant amount using, in lieu of a published level for that Index, the level for that Index as at that Valuation Date as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event;
- (iii) In the event that any price or level published on the Exchange or by the Index Sponsor and which is utilised for any calculation or determination made under any Note is subsequently corrected and the correction is published by the Exchange or by the Index Sponsor within one Settlement Cycle after the original publication The Calculation Agent will make such adjustment as it in its sole and absolute discretion determines to be appropriate, if any, to the settlement or payment terms of the Notes to account for such correction Provided that if any amount has been paid in an amount which exceeds the amount that would have been payable if the correction had been taken into account, no further amount in an amount at least equal to the excess is payable in respect of the Notes and the Calculation Agent determines that it is not practicable to make such an adjustment to account fully for such correction, the Issuer shall be entitled to reimbursement of the relevant excess payment (or, as the case may be, the proportion thereof not accounted for by an adjustment made by the Calculation Agent) by the relevant Noteholder, together with interest on that amount for the period from and including the day on which payment was originally made to the day of payment of reimbursement by the Noteholder (all as calculated by the Calculation Agent in its sole and absolute discretion). Any such reimbursement shall be effected in such manner as the Issuer shall determine.

(e) *Consequence of Disrupted Days for Valuation Dates and Averaging Dates*

If a Valuation Date or Averaging Date is a Disrupted Day, then the relevant Valuation Date shall be decided in accordance with the definition of Consequences of Disrupted Day and the Averaging Date in accordance with the definition of Averaging Date Disruption.

(f) *Barrier Provisions*

If "**Knock-in Event**" is specified as applicable in the Final Terms in relation to any Cash Equity Note, Equity-Linked Note or Index Linked Note, then each payment and/or delivery in respect of which a Knock-in Event applies, as specified in the relevant Final Terms, shall be conditional upon the occurrence of such Knock-in Event

If "**Knock-out Event**" is specified as applicable in the Final Terms in relation to any Cash Equity Note, Equity-Linked Note or Index Linked Note, then each payment and/or delivery in respect of which a Knock-out Event applies, as specified in the relevant Final Terms, shall be conditional upon the occurrence of such Knock-out Event.

(g) *Adjustments and Extraordinary Events affecting Securities*

This Condition 10(a)(E)(h) is applicable only in relation to Equity Linked Notes and Cash Equity Notes.

Correction of Security Prices and Index Levels.

In the event that any price or level published on the Exchange or by the Index Sponsor and which is utilised for any calculation or determination made under a Notes is subsequently corrected and the correction is published by the Exchange or the Index Sponsor within one Settlement Cycle after the original publication, the Issuer may notify the Noteholders of that correction and the Calculation Agent will determine the amount that is payable or deliverable as a result of that correction, and, to the extent necessary, will adjust the terms of such Notes to account for such correction.

(i) *Adjustments*

The Calculation Agent shall determine, in its sole and absolute discretion, whether or not at any time a Potential Adjustment Event has occurred and where it determines such an event has occurred, the Calculation Agent will, in its sole and absolute discretion, determine, whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Securities and, if so, will make such adjustment as it in its sole and absolute discretion determines to be appropriate, if any, to the formula for the Final Redemption Amount set out in the relevant Final Terms, the number of Securities to which each Note relates, the number of Securities comprised in a basket, the amount, the number of or type of shares, other securities or other property which may be delivered pursuant to such Notes and/or any other adjustment and, in any case, any other variable relevant to the settlement or payment or other terms of the relevant Notes as the Calculation Agent determines, in its sole and absolute discretion, to be appropriate to account for that diluting or concentrative effect and determine, in its sole and absolute discretion, the effective date(s) of such adjustment(s).

(ii) *Merger Event and Tender Offer*

Following the occurrence of any Merger Event or Tender Offer, the Calculation Agent will, in its sole and absolute discretion, determine whether or not the relevant Notes shall continue and, if so, determine, in its sole and absolute discretion, any adjustments to be made. If the Calculation Agent determines that the relevant Notes shall continue, it may make such adjustment as it, in its sole and absolute discretion, determines to be appropriate, if any, to the formula for the Final Redemption Amount set out in the relevant Final Terms, the number of Securities to which each Note relates, the number of Securities comprised in a basket, the amount, the number of or type of

shares, other securities or other property which may be delivered pursuant to such Notes and, in any case, any other variable relevant to the settlement or payment or other terms of the relevant Notes and/or any other adjustment which change or adjustment shall be effective as soon as practical after the date upon which all holders of the Securities (other than, in the case of a takeover, Securities owned or controlled by the offeror) become bound to transfer the Securities held by them. If the Calculation Agent determines in its sole and absolute discretion that the relevant Notes shall be terminated, then the Notes shall be terminated as of the date selected by the Calculation Agent in its sole and absolute discretion and the entitlements of the relevant Noteholders to receive the relevant Securities Transfer Amount or Final Redemption Amount, as the case may be, shall cease and the Issuer's obligations under the relevant Notes shall be satisfied in full upon payment of the Merger Event Settlement Amount (as defined below).

(h) *Nationalisation, Insolvency and Delisting*

If:

- (i) all the Securities or all or substantially all the assets of the Underlying Company are nationalized, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof ("**Nationalisation**") or;
- (ii) by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting an Underlying Company, (A) all the Securities of that Underlying Company are required to be transferred to a trustee, liquidator or other similar official or (B) holders of the Securities of that Underlying Company become legally prohibited from transferring them ("**Insolvency**"); or
- (iii) the Exchange announces that pursuant to the rules of such Exchange, the Securities cease (or will cease) to be listed, traded or publicly quoted on the Exchange for any reason (other than a Merger Event or Tender Offer) and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as the Exchange (or, where the Exchange is within the European Union, in any member state of the European Union) ("**Delisting**"),

then the Issuer may determine, in its sole and absolute discretion, that the relevant Notes shall be terminated as of the date determined by the Calculation Agent in its sole and absolute discretion and it shall pay such amount as, in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion), is fair in the circumstances by way of compensation for the termination of the Notes, in which event the entitlements of the relevant Noteholders to receive the relevant Securities Transfer Amount or Final Redemption Amount, as the case may be, shall cease and the Issuer's obligations under the Notes shall be satisfied in full upon payment of such amount.

(i) *Additional Disruption Events.*

(a) Each of the following terms shall have the meaning set forth below:

- (i) "**Additional Disruption Event**" means any of the events set forth in paragraphs (ii) and (iii) below;
- (ii) "**Change in Law**" means that, on or after the Issue Date (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B)

due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in good faith that (X) it has become illegal to hold, acquire or dispose of the Securities, or (Y) it will incur a materially increased cost in performing its obligations under the Notes (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position);

(iii) **"Insolvency Filing"** means that the issuer of the Securities institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organization or the jurisdiction of its head or home office, or it consents to a proceeding seeking a judgment of Insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the issuer of the Securities shall not be deemed an Insolvency Filing;

(b) For the purpose of determining the consequence of an Additional Disruption Event:

(i) If "Change in Law" or "Insolvency Filing" is specified in the Final Terms, then upon the occurrence of such an event the Issuer may elect to redeem the Notes upon at least two Scheduled Trading Days' notice to the Noteholders specifying the date of such termination (or such lesser notice as may be required to comply with the Change in Law), in which event the Calculation Agent will determine the Redemption Amount.

(j) *Conversion*

In respect of an Equity Linked Note or a Cash Equity Note which relates to debt securities, following the occurrence of any Conversion, the Calculation Agent will, in its sole and absolute discretion, determine whether or not the Notes will continue and, if so, determine, in its sole and absolute discretion, any adjustments to be made. If the Calculation Agent determines that the Notes shall continue, it may make such adjustment as it, in its sole and absolute discretion, determines to be appropriate to the formula for the Final Redemption Amount set out in the relevant Final Terms, the number of Securities to which each Note relates, the number of Securities comprised in a basket, the amount, number of or type of shares, other securities or other property which may be delivered under such Notes and, in any case, any other variable relevant to the settlement or payment terms of the relevant Notes and/or any other adjustment and determine, in its sole and absolute discretion, the effective date(s) of such adjustment. If the Calculation Agent determines, in its sole and absolute discretion, that the Notes shall be terminated, then the Notes shall be terminated as of the date selected by the Calculation Agent in its sole and absolute discretion and the entitlements of the respective exercising Noteholders to receive the relevant Securities Transfer Amount or Final Redemption Amount, as the case may be, shall cease and the Issuer's obligations under the Notes shall be satisfied in full upon payment of the Conversion Settlement Amount.

(k) *Corrections to Published Prices affecting debt securities*

In respect of an Equity Linked Note or a Cash Equity Note which relates to debt securities, if the price published or announced on a given day and used or to be used by the Calculation Agent to determine a Spot Price is subsequently corrected and the correction is published or announced by the person responsible for that publication or announcement within 30 days of the original publication or announcement, and an amount is repayable to the Issuer as a result of that correction, the Issuer shall be entitled to reimbursement of the relevant payment by the relevant Noteholder, together with interest on that amount (at a rate per annum that the Calculation Agent determines, in its sole and absolute discretion, to be the spot offered rate for deposits in the Specified Currency in the London interbank market as at approximately 11:00 a.m. London time, or, if spot rates for deposits in such Specified Currency in the London interbank market, at a rate per annum that the Calculation Agent determines, in its sole and absolute discretion, to be the spot offered rate for deposits in the Specified Currency in the interbank market for such Specified Currency as at approximately the time the spot offered rate is fixed for such Specified Currency, on the relevant Cash Settlement Payment Date) for the period from and including the day of payment of the refund or payment resulting from that correction (all as calculated by the Calculation Agent in its sole and absolute discretion). Any such reimbursement shall be effected in such manner as the Issuer shall agree with the Calculation Agent and notified to the relevant Noteholder by facsimile or telex.

(l) *Effects of European Economic and Monetary Union*

Following the occurrence of an EMU Event, the Calculation Agent shall make such adjustment (and determine, in its sole and absolute discretion, the effective date of such adjustment) as it, in its sole and absolute discretion, determines to be appropriate, if any, to the formula for the Final Redemption Amount set out in the relevant Final Terms, the formula for and method of calculating the relevant Index and/or the securities or other property comprising the relevant Index, the number of and type of Securities to which each Note relates, the number of and type of Securities comprised in a basket, the amount, the number of or type of shares, other securities or other property which may be delivered under such Notes and/or any other adjustment and, in any case, any other variable relevant to the settlement or payment terms of the relevant Notes.

Following the occurrence of an EMU Event, without prejudice to the generality of the foregoing, the Issuer shall be entitled to make such conversions between amounts denominated in the national currency units (the "**National Currency Units**") of the Participating Member States and the euro, and the euro and the National Currency Units, in each case, in accordance with the conversion rates and rounding rules in Regulation (EC) No. 1103/97 as it, in its sole and absolute discretion, determines to be appropriate. Neither the Issuer nor the Calculation Agent will be liable to any Noteholder or other person for any commissions, costs, losses or expenses in relation to or resulting from any currency conversion or rounding effected in connection therewith.

In this paragraph,

"**EMU Event**" means the occurrence of any of the following, as determined by the Calculation Agent, in its sole and absolute discretion:

- (i) the redenomination of any security into euro;

- (ii) the change by any organised market, exchange or clearing, payment or settlement system in the unit of account of its operating procedures to the euro;
- (iii) any change in the currency of denomination of any Index; or
- (iv) any change in the currency in which some or all of the securities or other property comprising any Index is denominated.

"**Participating Member State**" means any member state of the European Union which adopts the single currency in accordance with the Treaty.

(m) *Other Adjustments*

Upon the occurrence of any event(s) that the Calculation Agent determines (in its discretion, but acting reasonably) affects or could potentially affect the value of an Index Linked Note, an Equity Linked Note or a Cash Equity Note, the Calculation Agent may (in its discretion, but acting reasonably) make any additional adjustments to the Strike Price, the number and/or type of Securities and/or Indices to which such an Index Linked Note, an Equity Linked Note or a Cash Equity Note relates, and to any other exercise, settlement, payment or other term of such an Index Linked Note, an Equity Linked Note or a Cash Equity Note including, without limitation, the amount, number or type of cash, shares, other securities or property which may be transferred under such Index Linked Note, an Equity Linked Note or a Cash Equity Note, and determine the effective date(s) of such adjustments.

(n) *Additional Provisions related to American Depositary Receipt Linked Notes*

- (i) For the purposes of these additional provisions, the following definitions will apply:

The definition of Potential Adjustment Event shall include, in relation to the ADR Securities:

- (A) the occurrence of any Potential Adjustment Event in relation to the Underlying ADR Securities or any other shares or securities represented by the ADR Securities; and
 - (B) the making of any amendment or supplement to the terms of the Depositary Agreement.
- (ii) The definition of Merger Event shall include, in relation to Securities, the occurrence of any Merger Event in relation to the Underlying ADR Securities.
 - (iii) The definitions of "**Nationalisation**" and "**Insolvency**" shall be construed in relation to the ADR Securities as if references to the ADR Securities were references to Underlying ADR Securities;
 - (iv) If the Deposit Agreement is terminated, then on or after the date of such termination, references to ADR Securities herein shall be replaced by references to the Underlying ADR Securities and the Calculation Agent will adjust any relevant terms and will determine the effective date of such replacement and adjustments.
 - (v) the definition of Market Disruption Event shall include, in relation to the ADR Securities, the occurrence of a Market Disruption Event in relation to the Underlying ADR Securities;

- (vi) each American Depository Receipt Linked Note, which for the avoidance of doubt, may also be an Equity Linked Note, a Cash Equity Note and/or a Physical Delivery Note, will be linked to an Equity Element.

11. Events of Default

The Representative (as defined in Condition 13) acting on behalf of the *Masse* (as defined in Condition 13), upon request of any Noteholder, or in the event the Noteholders of any Series have not been grouped in a *Masse*, any Noteholder, may, upon written notice to the Fiscal Agent (with copy to the Issuer) given before all defaults shall have been cured, cause the principal amount of all Notes held by such Noteholder to become due and payable, together with any accrued interest (including Arrears of Interest if any) thereon, as of the date on which such notice for payment is received by the Fiscal Agent if:

- (a) *In the case of Unsubordinated Notes*
 - (i) the Issuer is in default in the payment of principal of, or interest on, any Note (including the payment of any additional amounts mentioned in Condition 9) when due and payable and such default shall continue for more than thirty (30) days thereafter; or
 - (ii) the Issuer is in default in the performance of any of its other obligations under the Notes and such default has not been cured within forty-five (45) days after the receipt by the Fiscal Agent of the written notice of such default by the Representative or a Noteholder; or
 - (iii) the Issuer sells, transfers or otherwise disposes of, directly or indirectly, the whole or a substantial part of its assets, or the Issuer enters into voluntary liquidation, except in the case of a disposal, liquidation, merger or other reorganisation in which all of or substantially all of the Issuer's assets are transferred to a legal entity which assumes all of the Issuer's liabilities including the Notes and whose main purpose, or one of whose main purpose, is the continuation of, and which effectively continues, the Issuer's activities; or
 - (iv) the Issuer applies for or is subject to the appointment of an ad hoc representative (*mandataire ad hoc*) or has applied to enter into a conciliation procedure (*procédure de conciliation*) or into a safeguard procedure (*procédure de sauvegarde*) or a judgement is rendered for its judicial liquidation (*liquidation judiciaire*) or for a transfer of the whole of the business (*cession totale de l'entreprise*) or makes any conveyance for the benefit of, or enters into any agreement with, its creditors.
- (b) In the case of Subordinated Notes and in accordance with Condition 3(b), (i) if any judgment shall be issued for the judicial liquidation (*liquidation judiciaire*) of the Issuer or (ii) if the Issuer is liquidated for any other reason.

12. Prescription

Claims against the Issuer for payment in respect of the Notes, Receipts and Coupons (which for this purpose shall not include Talons) shall be prescribed and become void unless made within 10 years (in the case of principal) or 5 years (in the case of interest) from the appropriate Relevant Date in respect of them.

13. Representation of Noteholders

Except as otherwise provided by the relevant Final Terms, holders of Notes will, in respect of all Tranches in any Series, be grouped automatically for the defence of their common interests in a *masse* (in each case, the "**Masse**").

The Masse will be governed by the provisions of the French *Code de commerce* (the "**Code**") with the exception of Articles L.228-48, L.228-59, L.228-65 I (1°), (3°) and (4°), L.228-71, R.228-63, R-228-67 and R.228-69 subject to the following provisions:

(a) *Legal Personality*

The Masse will be a separate legal entity and will act in part through a representative (the "**Representative**") and in part through a general meeting of the holders of Notes (the "**General Meeting**").

The Masse alone, to the exclusion of all individual holders of Notes, shall exercise the common rights, actions and benefits which now or in the future may accrue respectively with respect to the Notes.

(b) *Representative*

The office of Representative may be conferred on a person of any nationality. However, the following persons may not be chosen as Representatives:

- (i) the Issuer, the members of its *Conseil d'Administration*, its general managers (*directeurs généraux*), its statutory auditors, its employees and their ascendants, descendants and spouses; or
- (ii) companies guaranteeing all or part of the obligations of the Issuer, their respective managers (*gérants*), general managers (*directeurs généraux*), members of their board of directors, executive board or supervisory board, their statutory auditors, employees and their ascendants, descendants and spouses; or
- (iii) companies holding 10 per cent. or more of the share capital of the Issuer or companies having 10 per cent. or more of their share capital held by the Issuer; or
- (iv) persons to whom the practice of banker is forbidden or who have been deprived of the right of directing, administering or managing an enterprise in whatever capacity.

The names and addresses of the initial Representative and its alternate will be set out in the Final Terms. The Representative appointed in respect of the first Tranche of any Series of Notes will be the Representative of the single Masse of all Tranches in such Series.

The Representative will be entitled to such remuneration in connection with its function or duties, if any, as set out in the relevant Final Terms.

In the event of death, retirement or revocation of appointment of the Representative, such Representative will be replaced by the alternate Representative. In the event of the death, retirement or revocation of appointment of the alternate Representative, an alternate will be elected by the General Meeting.

All interested parties will at all times have the right to obtain the names and addresses of the initial Representative and the alternate Representative at the head office of the Issuer and the specified offices of any of the Paying Agents.

(c) *Powers of Representative*

The Representative shall (in the absence of any decision to the contrary of the General Meeting) have the power to take all acts of management necessary in order to defend the common interests of the holders of Notes.

All legal proceedings against the Noteholders or initiated by them, must be brought by or against the Representative.

The Representative may not be involved in the management of the affairs of the Issuer.

(d) *General Meeting*

A General Meeting may be held at any time, on convocation either by the Issuer or by the Representative. One or more Noteholders, holding together at least one-thirtieth of the principal amount of the Notes outstanding, may address to the Issuer and the Representative a demand for convocation of the General Meeting. If such General Meeting has not been convened within two months after such demand, the Noteholders may commission one of their members to petition a competent court in Paris to appoint an agent (*mandataire*) who will call the General Meeting.

Notice of the date, hour, place and agenda of any General Meeting will be published as provided under Condition 16.

Each Noteholder has the right to participate in a General Meeting in person or by proxy, correspondence or, if the *statuts* of the Issuer so specify, videoconference or any other means of telecommunications allowing the identification of the participating Noteholders¹. Each Note carries the right to one vote or, in the case of Notes issued with more than one Specified Denomination, one vote in respect of each multiple of the lowest Specified Denomination comprised in the principal amount of the Specified Denomination of such Note.

(e) *Powers of the General Meetings*

The General Meeting is empowered to deliberate on the dismissal and replacement of the Representative and the alternate Representative and also may act with respect to any other matter that relates to the common rights, actions and benefits which now or in the future may accrue with respect to the Notes, including authorising the Representative to act at law as plaintiff or defendant.

The General Meeting may further deliberate on any proposal relating to the modification of the Conditions including any proposal, whether for arbitration or settlement, relating to rights in controversy or which were the subject of judicial decisions, it being specified, however, that the General Meeting may not increase amounts payable by Noteholders, nor establish any unequal treatment between the Noteholders, nor amend the status of Subordinated Notes the proceeds of which constitute (i) Upper Tier 2 Capital; (ii) Lower Tier 2 Capital; and (iii) Tier 3 Capital.

¹ At the date of this Base Prospectus, the *statuts* of the Issuer do not contemplate the right for a Noteholder to participate in a General Meeting by videoconference or any other means of telecommunication allowing the identification of the participating Noteholders.

General Meetings may deliberate validly on first convocation only if Noteholders present or represented hold at least a fifth of the principal amount of the Notes then outstanding. On second convocation, no quorum shall be required. Decisions at meetings shall be taken by a two-third majority of votes cast by Noteholders attending such General Meetings or represented thereat.

Decisions of General Meetings must be published in accordance with the provisions set forth in Condition 16.

(f) *Information to Noteholders*

Each Noteholder or Representative thereof will have the right, during the 15-day period preceding the holding of each General Meeting, to consult or make a copy of the text of the resolutions which will be proposed and of the reports which will be presented at the General Meeting, all of which will be available for inspection by the relevant Noteholders at the registered office of the Issuer, at the specified offices of any of the Paying Agents and at any other place specified in the notice of the General Meeting.

(g) *Expenses*

The Issuer will pay all expenses relating to the operation of the Masse, including expenses relating to the calling and holding of General Meetings and, more generally, all administrative expenses resolved upon by the General Meeting, it being expressly stipulated that no expenses may be imputed against interest payable under the Notes.

(h) *Single Masse*

The holders of Notes of the same Tranche or Series, and the holders of Notes of any other Tranche or Series which have been assimilated with the Notes of such first mentioned Tranche or Series in accordance with Condition 15, shall, for the defence of their respective common interests, be grouped in a single Masse. The Representative appointed in respect of the first Tranche or Series of Notes will be the Representative of the single Masse of all Tranches in such Series.

TEMPORARY GLOBAL CERTIFICATES IN RESPECT OF MATERIALISED NOTES

Temporary Global Certificates

A Temporary Global Certificate without interest coupons (a "**Temporary Global Certificate**") will initially be issued in connection with each Tranche of Materialised Notes, which will be delivered on or prior to the issue date of the Tranche with a common depositary (the "**Common Depositary**") for Euroclear Bank S.A./N.V. ("**Euroclear**") and for Clearstream banking, société anonyme ("**Clearstream, Luxembourg**"). Upon the delivery of such Temporary Global Certificate with a Common Depositary, Euroclear, Clearstream, Luxembourg will credit each subscriber with a nominal amount of Notes equal to the nominal amount thereof for which it has subscribed and paid.

The Common Depositary may also credit with a nominal amount of Notes the accounts of subscribers with (if indicated in the relevant Final Terms) other clearing systems through direct or indirect accounts with Euroclear and Clearstream, Luxembourg held by such other clearing systems. Conversely, a nominal amount of Notes that is initially deposited with any other clearing system may similarly be credited to the accounts of subscribers with Euroclear, Clearstream, Luxembourg, or other clearing systems.

Exchange

Each Temporary Global Certificate issued in respect of Materialised Notes will be exchangeable, free of charge to the holder, on or after its Exchange Date (as defined below):

- (i) if the relevant Final Terms indicates that such Temporary Global Certificate is issued in compliance with the C Rules or in a transaction to which TEFRA is not applicable (as to which, see "Summary of the Base Prospectus -Selling Restrictions"), in whole, but not in part, for Definitive Materialised Notes and
- (ii) otherwise, in whole but not in part, upon certification, if required under U.S Treasury regulation section 1.163-5(C)(2)(i)(D)(3), as to non-U.S. beneficial ownership for Definitive Materialised Notes.

Delivery of Definitive Materialised Notes

On or after its Exchange Date, the holder of a Temporary Global Certificate may surrender such Temporary Global Certificate to, or to the order of, the Fiscal Agent. In exchange for any Temporary Global Certificate, the Issuer will deliver, or procure the delivery of, an equal aggregate nominal amount of duly executed and authenticated Definitive Materialised Notes. In this Base Prospectus, "**Definitive Materialised Notes**" means, in relation to any Temporary Global Certificate, the Definitive Materialised Notes for which such Temporary Global Certificate may be exchanged (if appropriate, having attached to them all Coupons and Receipts in respect of interest or Instalment Amounts that have not already been paid on the Temporary Global Certificate and a Talon). Definitive Materialised Notes will be security printed in accordance with any applicable legal and stock exchange requirement.

Exchange Date

"**Exchange Date**" means, in relation to a Temporary Global Certificate in respect of any Materialised Notes, the day falling after the expiry of 40 days after its issue date, provided that in the event any further Materialised Notes which are to be assimilated with such first mentioned Materialised Notes are issued prior to such day pursuant to Condition 13(a), the Exchange Date may, at the option of the Issuer, be postponed to the day falling after the expiry of 40 days after the issue date of such further Materialised Notes.

In the case of Notes with an initial maturity of more than 365 days (and that are not relying on the TEFRA C Rules), the Temporary Global Certificate shall bear the following legend:

ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES FEDERAL INCOME TAX LAWS INCLUDING THE LIMITATION PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE.

TAXATION

The following is a summary limited to certain tax considerations in France and in Luxembourg relating to the Notes that may be issued under the Programme and specifically contains information on taxes on the income from the securities withheld at source. This summary is based on the laws in force in France and in the Grand Duchy of Luxembourg as of the date of this Base Prospectus and are subject to any changes in law. It does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to purchase, own or dispose of the Notes. Each prospective holder or beneficial owner of Notes should consult its tax advisor as to the tax consequences of any investment in or ownership and disposition of the Notes.

EU Savings Directive

On 3 June 2003, the European Union adopted the Directive 2003/48/EC regarding the taxation of savings income in the form of interest payments (the “Directive”). The Directive requires Member States as from 1 July 2005 to provide to the tax authorities of other Member States details of payments of interest and other similar income within the meaning of the Directive made by a paying agent within its jurisdiction to (or under circumstances to the benefit of) an individual resident in another Member State, except that Belgium, Luxembourg and Austria will instead impose a withholding system for a transitional period unless the beneficiary of interest payment elects for the exchange of information. The same regime applies to payments to individuals resident in any of the following territories: Netherlands Antilles, Aruba, Guernsey, Jersey, the Isle of Man, Montserrat and the British Virgin Islands.

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of tax were to be withheld from that payment, neither the Issuer nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the imposition of such withholding tax. If a withholding tax is imposed on payment made by a Paying Agent, the Issuer will be required to maintain a Paying Agent in a Member State that will not be obliged to withhold or deduct tax pursuant to the Directive.

French Withholding Tax

The Directive has been implemented in French law by Article 242 *ter* of the French General Tax Code and Articles 49 I *ter* to 49 I *sexies* of the Schedule III to French General Tax Code. Article 242 *ter* of the French *Code Général des Impôts*, imposes on paying agents based in France an obligation to report to the French tax authorities certain information with respect to interest payments made to beneficial owners domiciled in another Member State, including, among other things, the identity and address of the beneficial owner and a detailed list of the different categories of interest paid to that beneficial owner.

Payments of interest and other revenues with respect to Notes which constitute *obligations* under French law and are issued or deemed to be issued by the Issuer outside the Republic of France benefit from the exemption from deduction of tax at source on interest set out under Article 125 A III of the French *Code Général des Impôts*, as provided for in Article 131 *quater* of the French *Code Général des Impôts*. Accordingly, such payments do not give the right to any tax credit from any French source.

Notes constituting *obligations* under French law will be issued (or deemed to be issued) outside France by the Issuer (i) in the case of syndicated or non-syndicated issues of Notes, if such Notes are denominated in euro, (ii) in the case of syndicated issues of Notes denominated in currencies other than euro, if, *inter alia*, the Issuer and the relevant Dealers agree not to offer the Notes to the public in the Republic of France in connection with their initial distribution and such Notes are offered in the Republic of France only through an international syndicate

to qualified investors (*investisseurs qualifiés*) as described in Article L. 411-2 of the French *Code monétaire et financier* or (iii) in the case of non-syndicated issues of Notes denominated in currencies other than euro, if each of the subscribers of the Notes is domiciled or resident for tax purposes outside the Republic of France and does not act through a permanent establishment or fixed base therein, in each case as more fully set out in the Circular 5 I-11-98 of the *Direction Générale des Impôts* dated 30 September 1998.

However, if so provided in the relevant Final Terms, Notes constituting *obligations* denominated in currencies other than euro may be issued on a non-syndicated basis and placed with subscribers not all of whom are resident outside the Republic of France. In such cases, the Notes will not benefit from the exemption from deduction at source provided for in Article 131 *quater* of the French *Code Général des Impôts* and interest payments under such Notes made to a non-French resident will be exempt from withholding or deduction imposed by or on behalf of the Republic of France at source only if the beneficiary of the payment provides certification that he is not resident in the Republic of France, all in accordance with the provisions of Article 125 A III of the French *Code Général des Impôts*, as more fully described in Condition 9.

See “*Terms and Conditions of the Notes – Taxation*”.

The tax regime applicable to Notes which do not constitute *obligations* will be set out in the relevant Final Terms.

Luxembourg Withholding Tax

The Directive has been implemented in Luxembourg law by Act of 21 June 2005.

Individuals

Luxembourg residents

A 10% withholding tax has been introduced, as from 1 January 2006, on interest payments made by Luxembourg paying agents (defined in the same way as in the Directive) to Luxembourg individual residents. Only interest accrued after 1 July 2005 falls within the scope of this withholding tax. Income (other than interest) from investment funds and from current accounts provided that the interest rate is not higher than 0,75% are exempt from the withholding tax. Furthermore, interest which is accrued once a year on savings accounts (short and long term) and which does not exceed €250 per person and per paying agent is exempted from the withholding tax.

This withholding tax represents the final tax liability for the Luxembourg individual resident taxpayers.

Luxembourg non-residents

Subject to the application of the Directive and the Laws, there is no withholding tax on payments of interest (including accrued but unpaid interest) made to Luxembourg non-resident Noteholders.

Under the Directive and the Laws, a Luxembourg based paying agent (within the meaning of the Directive) is required since 1 July 2005 to withhold tax on interest and other similar income paid by it to (or under certain circumstances, to the benefit of) an individual resident in another Member State unless the beneficiary of the interest payments elects for the exchange of information. The same regime applies to payments to individuals or Residual Entities resident in certain dependent territories.

The withholding tax rate is initially 15%, increasing steadily to 20% and to 35%. The withholding tax system will only apply during a transitional period, the ending of which depends on the conclusion of certain agreements relating to information exchange with certain other countries.

Corporations

There is no withholding tax for Luxembourg resident and non-resident corporations holders of the Notes on payments of interest (including uncured but unpaid interest).

The Notes may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the relevant Dealer. The Notes may also be sold by the Issuer through the Dealers, acting as agents of the Issuer. The Dealer Agreement also provides for Notes to be issued in syndicated Tranches that are jointly and severally underwritten by two or more Dealers.

The Issuer will pay each relevant Dealer a commission as agreed between them in respect of Notes subscribed by it. The Issuer has agreed to reimburse the Arranger for its expenses incurred in connection with the Programme and the Dealers for certain of their activities in connection with the Programme. The commissions in respect of an issue of Notes which have a denomination of less than €50,000 on a syndicated basis will be stated in the relevant Final Terms.

The Issuer has agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Notes. The Dealers have agreed to indemnify the Issuer against certain liabilities in connection with the offer and sale of the Notes. The Dealer Agreement entitles the Dealers to terminate any agreement that they make to subscribe Notes in certain circumstances prior to payment for such Notes being made to the Issuer.

Selling Restrictions

General

These selling restrictions may be modified by the agreement of the Issuer and the Dealers in particular following a change in a relevant law, regulation or directive. Any such modification will be set out in the Final Terms issued in respect of the issue of Notes to which it relates or in a supplement to this Base Prospectus.

Each Dealer has agreed that it will comply with all relevant laws, regulations and directives in each jurisdiction in which it purchases, offers, sells or delivers Notes or has in its possession or distributes the Base Prospectus, any other offering material or any Final Terms and neither the Issuer nor any other Dealer shall have responsibility therefore.

European Economic Area

In respect of Notes the denomination per unit of which is less than Euro 50,000 (or its equivalent in another currency):

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**"), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**") it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Prospectus as completed by the final terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of Notes to the public in that Relevant Member State:

- (a) if the final terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State (a "**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the final terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable;
- (b) at any time to legal entities which are authorised or regulated to operate in the financial markets or, if not so authorised or regulated, whose corporate purpose is solely to invest in securities;

- (e) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Notes referred to in (b) to (e) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an "offer of Notes to the public" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression "**Prospectus Directive**" means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account of U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S.

The Notes are being offered and sold outside the United States to non-U.S. persons in reliance on Regulation S.

In addition, until 40 days after the commencement of the offering of an identifiable Tranche of Notes, an offer or sale of Notes within the United States by any dealer (whether or not participating in the offering of such Tranche of Notes) may violate the registration requirements of the Securities Act.

This Base Prospectus has been prepared by the Issuer for use in connection with the offer and sale of the Notes outside the United States. The Issuer and the Dealers reserve the right to reject any offer to purchase the Notes, in whole or in part, for any reason. This Base Prospectus does not constitute an offer to any person in the United States. Distribution of this Base Prospectus by any non-U.S. person outside the United States to any U.S. person or to any other person within the United States is unauthorised and any disclosure without prior written consent of the Issuer of any of its contents to any such U.S. person or other person within the United States, is prohibited.
