

Result of the option given to receive dividends in the form of shares for fiscal 2015

The option to receive stock dividends for 2015 was largely accepted by GL events shareholders: 83.95% of the voting rights were exercised in favour of this option to receive stock dividends at the end of the period provided for exercising this option from 30 May to 17 June inclusive.

The majority of the Group shareholders thus opted to reinvest this dividend in the company, highlighting their confidence in and support for the Group's development projects in France and international markets.

For the record, the annual general meeting of GL events of 29 April 2016 decided to pay a dividend for fiscal 2015 in the amount of €0.60 per share, with an option to receive payment of the dividend in the form of new shares of the Company.

The price of the new share remitted in payment for the dividend was set at €14.98 or a unit price equal to 90% of the weighted average price of the GL events share on Euronext Paris over the 20 trading days preceding the general meeting, minus net dividend amount per share.

This corporate action entails the creation of 748,791 new shares with their issuance resulting in a capital increase of the company amounting to €2,995,164 and bringing the total number of shares making up the share capital to 23,402,711.

These new shares will be fungible and rank *pari passu* with existing shares and as such are issued with the same dividend rights, i.e. conferring a right to any payments distributed from their grant date.

Upcoming events:

First-half revenue: 12 July 2016 (after the close of trading)
