SES AND SKYSTREAM STRENGTHEN PARTNERSHIP TO DELIVER VSAT SERVICES ACROSS THE MIDDLE EAST

DUBAI, March 11, 2015 -- SES (NYSE Euronext Paris and Luxembourg Stock Exchange: SESG) announced today that SkyStream FZ LLC has renewed capacity on SES's NSS-6 satellite and has taken on additional capacity on SES's NSS-12 satellite to deploy VSAT networks across the Middle East.

SkyStream will utilise the Ku-band capacity on NSS-6 at 95 degrees East and NSS-12 at 57 degrees East to serve the maritime and oil and gas industries.

"SES has been providing SkyStream with reliable and premium satellite capacity for years. We are glad to renew and expand capacity agreements with SES in order to support the growth of our customers in the maritime and oil and gas industries," said Riyadh Al Adely, Managing Director at SkyStream.

"This series of agreements is a vote of confidence from SkyStream that we have been a reliable partner – and one who is flexible and adapts quickly to their changing market needs. We look forward to strengthening our relationship with SkyStream in the future," said Deepak Mathur, Senior Vice President, Commercial, Asia-Pacific & the Middle East at SES.

About SES

SES (NYSE Euronext Paris and Luxembourg Stock Exchange: SESG) is the world-leading satellite operator with a fleet of more than 50 geostationary satellites. The company provides satellite communications services to broadcasters, content and internet service providers, mobile and fixed network operators and business and governmental organisations worldwide.

SES stands for long-lasting business relationships, high-quality service and excellence in the broadcasting industry. The culturally diverse regional teams of SES are located around the globe and work closely with customers to meet their specific satellite bandwidth and service requirements.

SES holds a participation in O3b Networks, a next generation satellite network combining the reach of satellite with the speed of fiber.
