

Press release

SES AND STUDIOTECH PARTNER TO PROVIDE SATELLITE CAPACITY TO TELEWIZJA POLSKA AT ASTRA 23.5 DEGREES EAST

Studiotech Poland will use SES capacity for Polish public broadcaster Telewizja Polska's Digital Satellite News Gathering stations

LUXEMBOURG/WARSAW, 1 June 2016 -- SES S.A. (Euronext Paris and Luxembourg Stock Exchange: SESG), one of the world-leading satellite operators, announced today a long-term partnership with Studiotech Poland, a leading audiovisual engineering company and manufacturer of digital broadcast solutions, to provide satellite capacity to the Polish public broadcaster Telewizja Polska (TVP) at 23.5 degrees East.

Studiotech Poland, who recently won TVP's public tender, will use satellite capacity from SES to provide for Polish broadcaster's Satellite News Gathering (SNG) needs.

"We are pleased to enter into cooperation with Studiotech, recognized for providing quality professional audio and video equipment, and supplying turnkey services," said Norbert Hölzle, Senior Vice President, Commercial, Europe, at SES. "The positive outcome of the public tender proves TVP's confidence, as well as Studiotech's, in our ability to deliver reliable satellite services. We are very satisfied that we were able to fulfill their high expectations."

"We are excited to be partnering with SES for this contract with TVP. We believe that having SES as our strategic partner places us in an ideal position to meet the occasional and long-term needs of our customers for satellite capacity. We're looking forward to a long and prosperous partnership," said Elwira Machowska, CEO at Studiotech Poland.

About SES

SES (Euronext Paris and Luxembourg Stock Exchange: SESG) is the world-leading satellite operator with a fleet of more than 50 geostationary satellites. The company provides satellite communications services to broadcasters, content and internet service providers, mobile and fixed network operators and business and governmental organisations worldwide.

SES stands for long-lasting business relationships, high-quality service and excellence in the satellite industry. The culturally diverse regional teams of SES are located around the globe and work closely with customers to meet their specific satellite bandwidth and service requirements.

SES holds a participation in O3b Networks, a next generation satellite network combining the reach of satellite with the speed of fibre.
