

## Press release

### SES TO BUILD NEW TELEPORT ON ISLE OF MAN

*SES announces plans to build new teleport with several earth stations*

LUXEMBOURG, 08 September 2016 - SES S.A. (Euronext Paris and Luxembourg Stock Exchange: SESG) announced today that SES Satellite Leasing (SESSL), SES's entrepreneurial investment arm has plans to expand SES's satellite operations by building a new teleport that will have several earth stations on the Isle of Man.

The teleport, which is expected to enter into service in 2017, will be a state-of-the-art facility providing satellite telemetry, tracking and commanding (TT&C) facilities and capacity management, together with a wide range of teleport services such as uplink, downlink, and contribution services for broadcasters and data centres.

"SES's investment in a high-tech teleport on the Isle of Man will further strengthen our infrastructure offering, benefiting all of our customers" said Martin Halliwell, Chief Technology Officer at SES.

Laurence Skelly, Minister for the Department of Economic Development, Isle of Man Government, commented: "The Isle of Man has built a reputation as a test bed for new and innovative technology. Our strong infrastructure and telecoms systems, alongside our support for new and expanding businesses, have seen the Island draw interest from a range of technology sectors and companies. Attracting future investment to the Island is at the core of the work of the Department and we will continue to support our colleagues within the industry as these exciting developments unfold."

SES currently has over 30 teleports, including those of its subsidiaries O3b Networks and MX1 and other partner teleports.

## About SES

SES (Euronext Paris and Luxembourg Stock Exchange: SESG) is the world-leading satellite operator with a fleet of more than 50 geostationary satellites. Focusing on value-added, end-to-end solutions in four key market verticals (video, enterprise, mobility and government), SES provides satellite communications services to broadcasters, content and internet service providers, and mobile and fixed network operators, as well as business and governmental organisations worldwide. SES stands for long-lasting business relationships, high-quality service and excellence in the satellite industry. The culturally diverse regional teams of SES are located around the globe and work closely with customers to meet their specific satellite bandwidth and service requirements.

SES's subsidiary, MX1, is one of the leading media service providers and offers a full suite of innovative digital video and media services.

Through its ownership of O3b Networks, a next generation satellite network combining the reach of satellite with the speed of fibre, SES significantly enhanced existing video and data capabilities. SES is the first satellite provider in the world to deliver a differentiated and entirely scalable GEO-MEO offer with powerful technical capabilities across numerous market segments and geographies.

At SES we are shaping new ecosystems and laying the groundwork for new foundations.
