

Advicenne: Official reimbursement of Sibnaya[®] for the treatment of dRTA in France

Paris (France), February 2, 2026 – 7.00AM (CET) – Advicenne (Euronext Growth Paris - FR0013296746 - ALDVI), a pharmaceutical company specializing in the development and marketing of innovative treatments for people suffering from rare kidney diseases, announces today that Sibnaya[®] (a fixed combination of potassium citrate and potassium bicarbonate) is now reimbursed by the French social security system for the treatment of distal Renal Tubular Acidosis (dRTA).

The price of Sibnaya[®] in France for this indication, as published in the Official Journal, is:

- €213.41 including tax for Sibnaya[®] 24 mEq 847mg/1582 mg
- €71.46 including tax for Sibnaya[®] 8 mEq 282 mg/527 mg

The publication of the reimbursement decision ends the early access program and makes the dispensing of Sibnaya[®] directly in retail pharmacies possible.

Didier Laurens, Chief Executive Officer of Advicenne, stated: *"We have finally reached an agreement on the reimbursement of Sibnaya[®] after several years of discussions. It is important that this product, developed in France, manufactured in France, and supported overwhelmingly by French investors, will now be made available to French patients in a simplified manner. We are thinking in particular of patients suffering from dRTA and treated with Sibnaya[®], who will be able to access their treatment more easily through the French pharmacy network."*
