Section B– Issuer and Guarantor

Element	Title	
B.1	Legal and commercial name of the Issuer	The Issuer of the Notes is BNP Paribas Fortis Funding ("BP2F").
B.2	Domicile/ legal form/ legislation/ country of incorporation	BP2F was incorporated as a <i>société anonyme</i> under the laws of the Grand Duchy of Luxembourg having its registered office at 19 rue Eugène Ruppert L-2453 Luxembourg, Grand Duchy of Luxembourg.

<p>B.4b</p>	<p>Trend information</p>	<p><i>Macro-economic environment</i></p> <p>Market and macroeconomic conditions affect BP2F's results. The nature of BP2F's business makes it particularly sensitive to market and macroeconomic conditions in Europe, which have been difficult and volatile in recent years.</p> <p>In 2014, the global economy continued its slow recovery but there remain uncertainties, in particular in Europe where the economic performance during the second half of 2014 was weaker than expected. IMF and OECD¹ economic forecasts for 2015 indicate a continuation of moderate growth in developed economies but with differences between countries, including in the euro-zone, where growth is forecast to be weak in certain countries (including France and Italy). The forecast is similar for emerging markets (i.e., moderate growth but with areas of weakness). Short term risks to macroeconomic growth highlighted by the IMF include heightened geopolitical tensions and increased financial market volatility; medium-term risks highlighted include weak economic growth or stagnation in developed countries. Deflation remains a risk in the euro-zone, although the risk has been reduced through the ECB's announcement of non-conventional policy measures.</p> <p>BP2F is dependent upon BNPPF. BP2F is 99.995% owned by BNPPF and is specifically involved in the issuance of securities such as notes, warrants or certificates or other obligations which are developed, set up and sold to investors via intermediaries including BNPPF. BP2F enters into hedging transactions with BNPPF and with other entities of the BNP Paribas Group. As a consequence, the Trend Information with respect to BNPPF shall also apply to BP2F. BP2F may also enter into hedging transactions with third parties not belonging to the BNP Paribas Group.</p> <p><i>Laws and Regulations Applicable to Financial Institutions.</i></p> <p>Laws and regulations applicable to financial institutions that have an impact on BNPPF have significantly evolved in the wake of the global financial crisis. The measures that have been proposed and/or adopted in recent years include more stringent capital and liquidity requirements (particularly for large global banking groups such as the BNP Paribas Group), taxes on financial transactions, restrictions and taxes on employee compensation, limits on the types of activities that commercial banks can undertake and ring-fencing or even prohibition of certain activities considered as speculative within separate subsidiaries, restrictions on certain types of financial products, increased internal control and reporting</p>

More generally, regulators and legislators in any country may, at any time, implement new or different measures that could have a significant impact on the financial system in general or BNPPF in particular.</p>

B.19/B.2	Domicile/ legal form/ legislation/ country of incorporation	The Guarantor is incorporated as a public company with limited liability (<i>société anonyme/naamloze vennootschap</i>) under the laws of Belgium with its registered office at 1000 Brussels, Montagne du Parc 3 and is a credit institution governed by the Belgian Banking Law.
B.19/B.4b	Trend information	<p>Macro-economic environment.</p> <p>Market and macroeconomic conditions affect BNPPF's results. The nature of BNPPF's business makes it particularly sensitive to market and macroeconomic conditions in Europe, which have been difficult and volatile in recent years.</p> <p>In 2014, the global economy continued its slow recovery but there remain uncertainties, in particular in Europe where the economic performance during the second half of 2014 was weaker than expected. IMF and OECD² economic forecasts for 2015 indicate a continuation of moderate growth in developed economies but with differences between countries, including in the euro-zone, where growth is forecast to be weak in certain countries (including France and Italy). The forecast is similar for emerging markets (i.e., moderate growth but with areas of weakness). Short term risks to macroeconomic growth highlighted by the IMF include heightened geopolitical tensions and increased financial market volatility; medium-term risks highlighted include weak economic growth or stagnation in developed countries. Deflation remains a risk in the euro-zone, although the risk has been reduced through the ECB's announcement of non-conventional policy measures.</p> <p>Laws and Regulations Applicable to Financial Institutions.</p> <p>Laws and regulations applicable to financial institutions that have an impact on BNPPF have significantly evolved in the wake of the global financial crisis. The measures that have been proposed and/or adopted in recent years include more stringent capital and liquidity requirements (particularly for large global banking groups such as the BNP Paribas Group), taxes on financial transactions, restrictions and taxes on employee compensation, limits on the types of activities that</p>

The measures that were recently adopted, or in some cases proposed and still under discussion, that have or are likely to affect BNPPF, include in particular the EU Directive and Regulation on prudential requirements “CRD IV” dated 26 June 2013 and many of whose provisions have been applicable since 1 January 2014; the proposals of technical regulatory and execution rules relating to the Directive and Regulation CRD IV published by the EBA; the Belgian Banking Law dated 25 April 2014 replacing the previous law of 1993 and introducing important changes; the Belgian Royal Decrees dated 22 February 2015 determining the entry into force of the Belgian Banking Law provisions relating to resolution (including the establishment of a Belgian Resolution Authority) and creating two preferential rights on the bank’s movables; the public consultation for the reform of the structure of the EU banking sector of 2013 and the European Commission’s proposed regulation on structural measures designed to improve the strength of EU credit institutions of 29 January 2014; the proposal for a regulation on indices used as benchmarks in financial instruments and financial contracts; the European Single Supervisory Mechanism; the European Single Resolution Mechanism dated 15 July 2014 and the European Directive on Bank Recovery and Resolution dated 15 May 2014; the European Directive on Revised Deposit Guarantee Schemes dated 16 April 2014; the final rule for the regulation of foreign banks imposing certain liquidity, capital and other prudential requirements adopted by the U.S. Federal Reserve; the proposal of the U.S. Federal Reserve relating to liquidity ratios of large banks; and the “Volcker” Rule imposing certain restrictions on investments in or sponsorship of hedge funds and private equity funds and proprietary trading activities (of U.S. banks and to some extent non-U.S. banks) that was recently adopted by the U.S. regulatory authorities. More generally, regulators and legislators in any country may, at any time, implement new or different measures that could have a significant impact on the financial system in general or BNPPF in particular.</p>

conditions relating to, among other matters:

Status and Subordination

Notes may be issued on either a senior, a senior subordinated or a junior subordinated basis or as Subordinated Tier 2 Notes. Notes issued on a senior basis (the "**Senior Notes**") constitute direct, unconditional, unsubordinated and unsecured and general obligations of the relevant Issuer and will rank *pari passu* (subject to mandatorily preferred debts under applicable laws) among themselves and at least equally and rateably with all other present and future outstanding unsecured and unsubordinated obligations including guarantees and other obligations of a similar nature of the relevant Issuer.

Notes issued on a senior subordinated basis (the "**Senior Subordinated Notes**") constitute senior subordinated obligations of the relevant Issuer and rank *pari passu* (subject to mandatorily preferred debts under applicable laws) without any preference among themselves and at least equally and rateably with all other present and future outstanding senior subordinated obligations, including guarantees and other obligations of a similar nature of such Issuer. Accordingly, the liabilities of the relevant Issuer under or pursuant to the Senior Subordinated Notes shall not be required to be satisfied until satisfaction of all indebtedness of such Issuer to the depositors (in the case of BNPPF) and all present and future unsubordinated creditors of the relevant Issuer or the amount necessary for that purpose shall have been deposited in consignment.

Notes issued on a junior subordinated basis (the "**Junior Subordinated Notes**") constitute direct, unsecured, junior subordinated and conditional obligations of such Issuer and rank (a) *pari passu* without any preference among themselves and with any other Junior Subordinated Notes and, in the case of BNPPF, the junior subordinated guarantees, (b) junior to all present and future unsecured obligations of such Issuer which are or are expressed to be subordinated to the unsecured, unsubordinated obligations of such Issuer but not further or otherwise (the "**Senior Subordinated Obligations**"), (c) at least equally and rateably with all other present and future obligations of such Issuer which rank or are expressed to rank junior to the Senior Subordinated Obligations and (d) in priority to the rights and claims of holders of all classes of equity (including holders of preference shares (if any)) issued by such Issuer, subject to mandatory provisions of Belgian law (in the case of Junior Subordinated Notes issued by BNPPF) or the laws of Luxembourg (in the case of Junior Subordinated Notes issued by BP2F).

Claims in respect of the Junior Subordinated Notes are subordinated to the claims of senior and subordinated creditors and payments of principal and interest by the relevant Issuer in respect of Junior Subordinated Notes will be conditional upon such Issuer being solvent at the time of payment by that Issuer and no principal or interest shall be due and payable in respect of Junior Subordinated Notes except to the extent that (assuming a payment was then due by the relevant Issuer) such Issuer could make such payment in whole or in part, rateably with payments in respect of other *pari passu* claims, and still be solvent immediately thereafter.

Notes issued as Subordinated Tier 2 Notes constitute direct, unconditional and unsecured obligations of the relevant Issuer and rank *pari passu* (subject to mandatorily preferred debts under applicable laws) without any preference among themselves and with any other Subordinated Tier 2 Notes. The rights and claims of the Noteholders in respect of the Subordinated Tier 2 Notes are subordinated in the manner set out below.

In the event of an order being made, or an effective resolution being passed, for the liquidation, dissolution or winding-up of the relevant Issuer by reason of bankruptcy or otherwise (except, in any such case, a solvent liquidation, dissolution or winding-up solely for the purposes of a reorganisation, reconstruction or amalgamation of the relevant Issuer or substitution in place of such Issuer or a successor in the business of such Issuer), the rights and claims of the relevant Issuer in respect of or arising under (including any damages awarded for the breach of any obligation under) the Subordinated Tier 2 Notes shall, subject to any obligations which are mandatorily preferred by law, rank (a) junior to the claims of all the Senior Creditors of the relevant Issuer, (b) in respect of Subordinated Tier 2 Notes issued by BNPPF, at least *pari passu* with the claims of holders of all obligations of BNPPF which constitute, or would but for any applicable limitation on the amount of such capital constitute, Tier 2 Capital of BNPPF and (c) senior to (i) the claims of holders of all share capital of the relevant Issuer, (ii) in respect of Subordinated Tier 2 Notes issued by BNPPF, the claims of holders of all obligations of BNPPF which constitute Tier 1 Capital of BNPPF and (iii) the claims of holders of all obligations of the relevant Issuer which are or are expressed to be subordinated to the Subordinated Tier 2 Notes.

“**Senior Creditors**” means creditors of the relevant Issuer whose claims are in respect of obligations which are unsubordinated (including, for the avoidance of doubt, holders of Senior Notes) or, in respect of Subordinated Tier 2 Notes issued by BNPPF, which otherwise rank, or are expressed to rank, senior to obligations (including Subordinated Tier 2 Notes) which constitute Tier 1 Capital or Tier 2 Capital of BNPPF.

“**Tier 1 Capital**” and “**Tier 2 Capital**” have the respective meanings given to such terms in the Applicable Banking Regulations from time to time.

“**Applicable Banking Regulations**” means, at any time, the laws, regulations, guidelines and policies of the Relevant Regulator, or the European Parliament and Council then in effect in Belgium, relating to capital adequacy and applicable to BNPPF (and, for the avoidance of doubt, including the rules contained in, or implementing, CRD IV).

Section D– Risks

Element	Title	
D.2	Key risks regarding the Issuer and the Guarantor	<p>In purchasing Notes, investors assume the risk that the relevant Issuer and/or, if BP2F is the Issuer, the Guarantor, may become insolvent or otherwise be unable to make all payments due in respect of the Notes. In the event of the insolvency of BNPPF or BP2F, as applicable or if it is otherwise unable or unwilling to repay the Notes when repayment falls due, an investor may lose all or part of his investment in the Notes.</p> <p>There is a wide range of factors which individually or together could result in the relevant Issuer and the Guarantor, where applicable, becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, the Issuers and the Guarantor may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of the occurrence of events outside the Issuer's and/or the Guarantor's control. The Issuers and/or the Guarantor have identified a number of factors which could materially adversely affect their businesses and ability to make payments due under the Notes. These factors include:</p> <p><i>BNPPF/the Guarantor:</i></p> <p>The following is a summary of some of the investment considerations relating to the business of BNPPF:</p>

- (a) Difficult market and economic conditions including, without limitation, concerns regarding the ability of certain countries in the eurozone to refinance their debt obligations, could in the future have a material adverse effect on the operating environment for financial institutions and hence on BNPPF's financial condition, results of operations and cost of risk.
- (b) Legislative action and regulatory measures taken in response to the global financial crisis may materially impact BNPPF and the financial and economic environment in which it operates.
- (c) BNPPF's access to and cost of funding could be adversely affected by a further deterioration of the euro zone sovereign debt crisis, worsening economic conditions, a ratings downgrade or other factors.
- (d) The soundness and conduct of other financial institutions and market participants could adversely affect BNPPF.
- (e) BNPPF may incur significant losses on its trading and investment activities due to market fluctuations and volatility.
- (f) A substantial increase in new provisions or a shortfall in the level of previously recorded provisions could adversely affect BNPPF's results of operations and financial condition.
- (g) BNPPF may generate lower revenues from brokerage and other commission and fee-based businesses during market downturns.
- (h) BNPPF's hedging strategies may not prevent losses.
- (i) Significant interest rate changes could adversely affect BNPPF's net banking income or profitability.
- (j) Protracted market declines can reduce liquidity in the markets making it harder to sell assets and possibly leading to material losses.
- (k) Notwithstanding BNPPF's risk management policies, procedures and methods it could still be BNPPF exposed to unidentified or unanticipated risks, which could lead to material losses.
- (l) While each of BNPPF's businesses manages its operational risks, these risks remain an inherent part of all of the BNPPF's businesses.

- (m) BNPPF has significant counterparty risk exposure and exposure to systemic risks.
- (n) BNPPF's competitive position could be harmed if its reputation is damaged.
- (o) An interruption in or a breach of BNPPF's information systems may result in lost business and other losses.
- (p) Litigation or other proceedings or actions may adversely affect BNPPF's business, financial condition and results of operations.
- (q) Uncertainty linked to fair value accounting and use of estimates.
- (r) A deterioration of the credit rating of BNP Paribas of its debt quality could adversely affect BNPPF.
- (s) Unforeseen external events can interrupt BNPPF's operations and cause substantial losses and additional costs.
- (t) BNPPF is subject to extensive and evolving regulatory regimes in the countries and regions in which it operates.
- (u) Intense competition in the financial services industry could adversely affect BNPPF revenues and profitability.

BP2F:

The following is a summary of some of the additional investment considerations relating to the business of BP2F:

- (a) The primary credit protection for Notes issued by BP2F will derive from the guarantees given by BNPPF.
- (b) BP2F's ability to make payments under the Notes may depend on the operating performance of those companies to which the proceeds of the Notes are lent.
- (c) BP2F's ability to perform its obligations in respect of the structured return on structured securities may depend on the ability of its hedging counterparties to meet their obligations under any hedge.
- (d) The financial condition of the operating companies to which the proceeds of the Notes are lent may deteriorate and this may affect BP2F's ability to

		<p>make payments under the Notes which it issues.</p> <p>(e) During deteriorating or challenging economic conditions BP2F may find it difficult to raise further finance.</p> <p>(f) Transfer pricing tax rules in Luxembourg generate additional costs, which may vary from time to time.</p>
D.3	Key risks regarding the Notes	<p>There are certain factors which are material for the purposes of assessing the market risks associated with Notes issued under the Programme, including that:</p> <p>The trading price of the Notes is affected by a number of factors including, but not limited to, the price of the relevant underlying reference(s), time to expiration or redemption and volatility and such factors mean that the trading price of the Notes may be below the Final Redemption Amount;</p> <p>The occurrence of an additional disruption event or optional additional disruption event may lead to an adjustment to the Notes, or early redemption or may result in the amount payable on scheduled redemption being different from the amount expected to be paid at scheduled redemption and consequently the occurrence of an additional disruption event and/or optional additional disruption event may have an adverse effect on the value or liquidity of the Notes;</p> <p>Expenses and taxation may be payable in respect of the Notes;</p> <p>The Global Notes are held by or on behalf of the clearing systems, therefore investors will have to rely on their procedures for transfer, payment and communication with the Issuer and the Guarantor;</p> <p>The Issuer and the Guarantor will discharge their payment obligations under the Notes by making payments to the relevant common depository for the relevant clearing system for distribution to their account holders. The Issuer and the Guarantor will have no responsibility for the proper performance by the clearing systems relating to payments made in respect of, the Notes within any relevant clearing system;</p> <p>The Notes may be redeemed in the case of illegality or impracticability and such cancellation or redemption may result in an investor not realising a return on an investment in the Notes;</p> <p>The meetings of Holders provisions permit defined majorities to bind all Holders;</p> <p>Any judicial decision or change to an administrative practice or change to English law after the date of the Base</p>

		<p>Prospectus could materially adversely impact the value of any Notes affected by it;</p> <p>A reduction in the rating, if any, accorded to outstanding debt securities of the Issuer or Guarantor (if applicable) by a credit rating agency could result in a reduction in the trading value of the Notes;</p> <p>Certain conflicts of interest may arise (see Element E.4 below);</p> <p>The only means through which a Holder can realise value from the Notes prior to its Maturity Date is to sell it at its then market price in an available secondary market and that there may be no secondary market for the Notes (which could mean that an investor has to exercise or wait until redemption of the Notes to realise a greater value than its trading value) and the conditions of the Notes contain provisions which may permit their modification without the consent of all investors.</p> <p>In certain circumstances Holders may lose the entire value of their investment.</p>
