## Intrasense and MinFound sign a cooperation agreement

Intrasense (FR0011179886 - ALINS), specialist in medical imaging software solutions and MinFound Medical Systems, the leading manufacturer of medical imaging equipment in China, announce the signing of a research agreement. The partners joined forces to accelerate MinFound's product development, based on the Myrian® platform.

### A high added-value partnership serving innovation

MinFound collaborates closely with Intrasense [since 2017](#), developing new medical imaging software dedicated to the advanced viewing of scanners images. Using Myrian® Studio, MinFound team will accelerate the development of clinical applications, improving their diagnosis workstations based on Myrian® technologies.

Huasu Pan, Chairman of MinFound, comments: « *We are very pleased to cooperate with Intrasense for R&D, we will quickly develop a world-class medical imaging post-processing workstation to improve our equipment competitiveness through this cooperation.* »

### A new step on the Chinese market

« *We are honored to collaborate with such a dynamic and innovative company. This agreement is a new proof of the relevancy of a key aspect of our [new strategy](#), based on Myrian® Studio. Furthermore, it strengthens our presence in China a [high potential area](#) for Intrasense.* » adds Stéphane Chemouny, Chairman and Chief Executive Officer of Intrasense.

### About Intrasense

Founded in 2004, Intrasense develops and markets a unique medical device called Myrian®, a software platform that facilitates diagnosis, decision-making and therapeutic follow-up and makes them more secure. Thanks to Myrian®, more than 800 health institutions spread over 40 countries use a unique and integrated platform supporting all types of imaging modalities (MRI, scanner...). Enriched with expert clinical modules dedicated to specific pathologies, Myrian® also provides a universal image treatment solution that can be fully integrated in any health information system. Intrasense includes

45 employees among which 20 are dedicated to Research & Development. Intrasense has been labelled 'innovative company' by the BPI and invested more than 10 million euros in Research & Development since its creation.
