## Intrasense and Evolucare sign a multi-year partnership agreement

Intrasense (FR0011179886 - ALINS), specialist in medical imaging software solutions and Evolucare, the European leader in expert hospital information systems (EMR, PACS, RIS...), announce the signature of a multi-year strategic partnership agreement.

Providing Myrian® Imaging Layer visualization solutions and clinical applications, Intrasense will help upgrading performance of Evolucare offer for both new markets and its 1.900 healthcare institution customers, in France and internationally.

This 5-year agreement guarantees Intrasense recurring revenues with this new partner and strengthens the growth potential of Evolucare's offer on its markets.

### Disseminating widely performance in radiology

Associating [Myrian® Imaging Layer](#) to its radiology offer, Evolucare has chosen to stand out on health informatics market, proposing expert solutions on advanced visualization, directly available for radiologists from their workstation. All Myrian® clinical visualization solutions will be integrated into the information systems commercialized by Evolucare.

### Business perspectives in France and internationally

Intrasense solutions and applications will enable Evolucare to boost its offer performance and to differentiate itself in the French, Chinese and American health information markets, where proposing both generalist and specialized visualization solutions has become highly strategic.

*« We are happy to expand our offer relying on a robust, seamlessly integrable and expert solution such as Myrian®. New markets are opening up to us integrating this complete solution. »* Elie Le Guilcher, Chief Executive Officer of Evolucare comments.

*« We are very pleased of this privileged agreement with Evolucare. It opens highly promising shared business perspectives for the coming years. This new success with our Myrian® Imaging Layer offer also demonstrates the relevance of the recent Intrasense [strategic choices](#). »* Nicolas Reymond, Chief Executive Officer of Intrasense concludes.

### About Intrasense

Founded in 2004, Intrasense develops and markets a unique medical device called Myrian®, a software platform that facilitates diagnosis, decision-making and therapeutic follow-up and makes them more secure. Thanks to Myrian®, more than 800 health institutions spread over 40 countries use a unique and integrated platform supporting all types of imaging modalities (MRI, scanner...). Enriched with expert clinical modules dedicated to specific pathologies, Myrian® also provides a universal image treatment solution that can be fully integrated in any health information system. Intrasense includes 45 employees among which 20 are dedicated to Research & Development. Intrasense has been labelled 'innovative company' by the BPI and invested more than 10 million euros in Research & Development since its creation.
