Montpellier, June 3<sup>rd</sup> 2019 – 18h00 CEST

## Myrian® XP-Mammo has been CE marked

Intrasense (FR0011179886 - ALINS), specialist in medical imaging software solutions and Myrian® designer, continues to enrich its portfolio of certified applications and obtained CE marking on May 14<sup>th</sup>, 2019 for the European market of the Myrian® XP-Mammo application.

### A growing application portfolio

Intrasense™ continues to develop its application offering with the aim of providing medical imaging professionals with more innovative tools for standardized image post-processing, integrated into clinical workflow, making reading and interpretation work easier and increasing quality of patient care.

The solution developed by Intrasense™ uses advanced analysis tools to visualize, characterize and measure mammographic image examinations. It also provides integrated structured reports into the clinical workflow. Myrian® XP-Mammo allows both viewing and comparative display of exams and different incidences. Advanced visualization tools are also integrated as zooms on specific areas. The quality control carried out on the calibration of the screens is fully automated.

The first deliveries of this new clinical module will be made in October 2019, a source of future growth for the company.

### About Intrasense™

Founded in 2004, Intrasense develops and markets a unique medical device named Myrian®, a software platform facilitating and ensuring diagnosis, decision-making and therapeutic follow-up. Thanks to Myrian®, more than 1000 hospitals and clinics spread over 40 countries use a unique and integrated platform supporting all types of imaging modalities (MRI, scanner...). Enriched with expert clinical modules dedicated to specific pathologies and organs, Myrian® provides a universal medical image processing solution which can be fully integrated into any healthcare information system. Intrasense has more than 40 employees among which 20 are dedicated to Research & Development. Intrasense has been labelled 'innovative company' by the BPI and has invested more than 10 million euros in Research & Development since its creation.
