

Press release

Montpellier, France, September 29, 2022 - 5:45PM CEST

Intrasense attends the 70th edition of the « Journées Francophones de Radiologie »

Intrasense (FR0011179886 - ALINS), specialist in medical imaging software solutions and developer of Myrian®, is pleased to announce its participation in the Journées Francophones de Radiologie (JFR). The exhibition will be held at the Palais des Congrès in Paris. The 2022 edition is dedicated to the continuity of care pathways and to "digital health". This international medical imaging congress will gather more than 10,000 visitors between October 7 and 10.

[Intrasense to present its latest AI innovations](#)

The new version of the Myrian platform will be presented by the Intrasense team. Myrian 2.10 is composed of new clinical applications that fully integrate new artificial intelligence algorithms at the service of the radiologist. The ergonomics have also been optimized to provide a more intuitive user experience.

The new versions of the applications dedicated to vascular analysis, lung monitoring and bone fracture detection, which are natively integrated with AI, will be particularly highlighted by Intrasense teams during the show. A new application dedicated to dental scanner imaging will also enrich the Group's clinical catalog, which offers its partners ever more complete and efficient solutions.

[Intrasense, partner of breast cancer screening training workshops](#)

During the JFR, the reference organizations for medical training, Forcomed and CERF, are partnering with Intrasense to train radiology interns in the organization of breast cancer screening and quality control in digital mammography.

This collaboration is a new opportunity to reinforce Intrasense's commitment to the user experience and demonstrates the clinical value of its applications dedicated to Women's imaging. This alliance is part of the [5-year partnership signed between Intrasense and Forcomed in February 2022](#).

Release of 2022 half-year results and organization of a webinar

Intrasense will publish its 2022 half-year results on October 12. The company invites its shareholders to participate in a webinar on October 18 at 6:00 pm during which Nicolas Reymond, CEO, will detail and analyze the financial results and answer questions.

About Intrasense

Founded in 2004, Intrasense develops and markets a unique medical device named Myrian®, a software platform facilitating and ensuring diagnosis, decision-making and therapeutic follow-up. Thanks to Myrian®, more than 1000 hospitals and clinics spread over 40 countries use a unique and integrated platform supporting all types of imaging modalities (MRI, scanner...). Enriched with expert clinical modules dedicated to specific pathologies and organs, Myrian® provides a universal medical image processing solution which can be fully integrated into any healthcare information system. Intrasense has 56 employees among which 16 are dedicated to Research & Development. Intrasense has been labelled 'innovative company' by the BPI and has invested more than 10 million euros in Research & Development since its creation.
