

PRESS RELEASE

SOPHIA ANTIPOLIS, 29<sup>th</sup> JULY 2015

## LOGIN PEOPLE: 10 000 USERS DEAL WITH NATIONAL FRENCH TV GROUP

Login People (FR0010581363: ALLP.PA), a leading software vendor of innovative multi-factor authentication solutions to protect access to public and private networks, announces the signature of a significant contract with a French national TV broadcasting group to secure network access for 10,000 employees.

The project started with a first proof of concept trial in March 2015. The contract was achieved in collaboration with SCC (Europe's largest privately-owned IT services business reseller based in United Kingdom), UGAP (Union des Groupements d'Achats Publics, a French public central purchasing body), and a new system integrator, PI Services. The relationship with PI Services reinforces Login People's channel network.

### About Login People

Login People® (FR0010581363) is a security software vendor that provides innovative multi-factor authentication to secure access to networks and applications for organisations. Its patented Digital DNA Technology® demonstrates Login People®'s leadership in security cyberspace for the Cloud, the BYOD, the Internet of Things and Big Data. Its products strengthen the "Login / Password" combination by automatically incorporating the unique and seamless identification of the user's digital DNA device (smartphone, tablet, PC). Login People® delivers an unmatched simplified user experience with multi-factor authentication without the use of a token or OTP and facilitates administration. The performance of its solutions provides optimised CAPEX and OPEX amongst the lowest on the market. Login People® products are pre-configured with major I.T. solutions such as Microsoft, F5, CISCO and Stormshield. Its technology is certified by the French National Cybersecurity Agency and validated by the French Ministry of Health. Login People® resells its products through a global network of distributors and integrators.
