Proventec Healthcare provides innovative solutions for infection control and effective cleaning in the healthcare sector. The Company's specialist steam cleaning technology has been successfully proven in clinical trials with University College London Hospitals to rid all areas and combat the spread of micro-organisms, including 'superbugs' such as MRSA and *Clostridium difficile*. The Company has developed specialist, patented tooling, which has been designed to be used within hospitals on a daily basis and enable the user to clean difficult to reach areas including mattresses, bed frames and curtains without the use of antimicrobial chemicals that may contribute to microbial resistance.

The Company joined the AIM Market in June 2002 and was dual listed on Alternext in May 2008. For further information please visit www.proventecplc.com
