With constant currencies, Sales would stand at **€11.01 million**, mainly due to fluctuations of the US Dollar and GBP over the period.

Prismaflex International sales at **€11.17 million** are down 11.4% on the same period 2011/2012 due mainly to postponed investment decisions from advertising professionals.

Excluding Home Décor, **Printing activity** is up 10% at **€5.19 million** against €4.71 million on the previous year, with positive results in Canada, England and South Africa. The Spanish market remains sluggish while activity in France is stable.

Home Décor is down 34% at **€2.26 million**, close to 2011/2012 Q4 levels which can be explained by active client destocking. Final in-store sales remain buoyant.

Hardware activity (excluding Home Décor) is down 17% at **€3.72 million** following a drop in scrolling sign sales while LED display sales are up. Advertising professionals currently appear to favor the LED display product range.
