Third-quarter 2013 activity

Audika Group made a return to growth in the third quarter (July to September), thereby confirming the improvement witnessed in its business indicators since mid-June. Third-quarter revenues totaled EUR 21.0 million, an increase of 1.6%, including -0.1% organic growth.

In France, Audika generated third-quarter revenues of EUR 19.5 million, up 1.8%, including 0.7% organic growth, which marked a reversal in the trend seen last quarter. Although the market backdrop remained sluggish, the Group drew on the positive impacts of its marketing campaigns, which bolstered the number of center visits.

Internationally (Italy and Belgium), Audika generated total revenues of EUR 1.5 million, which was stable compared to the same period

last year. The EUR 0.15 million in revenues generated in Belgium exactly offsets the decline in activity in Italy. The Group is still being impacted by Italy's poor economic backdrop.

Second-half 2013 targets confirmed

Overall, the growth generated in the third quarter brought the decline in revenues over the first nine months of the year down to 4.7%. In the fourth quarter, which is traditionally the busiest of the year, Audika will continue to draw on the impacts of its marketing campaign in France.

While remaining conservative in light of the economic climate, the Group is confirming its target of generating higher revenues in the second half of the year than the first, with operating income for the period of at least 10% of revenues.
