

Smart Safety Systems

Protection in Nuclear Environments

Industrial Projects and Services

3D Printing

About Groupe Gorgé

Established in 1990, Group Gorgé is an industrial group operating in different areas of expertise:

Smart Safety Systems – Using technology to work in risk environments;

Protection in Nuclear Environments – Protecting people and securing buildings operating with radioactive materials;

Industrial Projects & Services
Conducting Robotics and Fire protection systems projects for industry and service-sector player;

3D Printing – Enabling major industry players to find new routes to successful innovation and production processes by providing systems, 3D printers and new premium material.

In 2014, the Group reported revenue of €223.3 million. It is backed by 1,370 employees and operations in over ten countries.

Ticker Code: GGRGY / GGRGF

Neutralization of malicious drones: ECA Group, a Groupe Gorgé subsidiary, is innovating and validates a unique technology to locate drone operators

ECA Group, a Groupe Gorgé subsidiary specialized in robotics, has developed innovative on-board technology for its IT180 drone. This technology can locate malicious drone operators in under a minute.

The prevention of unauthorized drone flights over sensitive areas has become a national challenge. ECA Group, a leading robotics company for more than thirty years and Groupe Gorgé subsidiary, recently made a major contribution to this struggle by developing a drone able to locate, identify and track offending operators and aircraft.

The system was developed with a partner. It is based on the use of ECA Group's IT180 drone, including several transponders. After detecting the offending drone through land-based resources, the strategy consists of activating the IT180 drone: first, it will locate the operator using its on-board technology; second, it will approach and identify the operator using its cameras.

Unlike the solutions available until now, which focus mainly on the neutralization of drones in flight, ECA Group has developed a solution that makes it impossible for malicious operators to disappear. This new system enables security forces to approach them discreetly and to catch them in the act of committing the offense, while collecting all the evidence required for future prosecution.

Contacts

Groupe Gorgé - Raphaël GORGÉ – CEO - Tél. : 01 44 77 94 77 - E-mail : contact@groupe-gorge.com

Actus Finance - Anne-Pauline PETUREAUX - Analysts/Investors Relations - Tél. : 01 53 67 36 72 - E-mail : apetureauux@actus.fr

Actus Finance - Jean-Michel MARMILLON – Press Relations - Tél. : 01 53 67 36 73 - E-mail : jmmarmillon@actus.fr

Image 7 – Lauranne Guirlinger – Press Relations – Tél. : +33 1 53 70 74 18 – E-mail : lguirlinger@image7.fr

The system has already been assessed twice by French government authorities, who were fully satisfied. It located and identified operators within a 700-meter radius in under a minute after detecting their drones in flight over a sensitive area.
