## Groupe Gorgé raises considerable funds for its 3D printing subsidiary

### The Fimalac Group invests in Prodways Group

PRODWAYS GROUP, a subsidiary of GROUPE GORGÉ, announces that it has raised €25 million, including €10 million from the FIMALAC Group and a €15 million contribution from GROUPE GORGÉ.

The FIMALAC Group, founded and directed by Marc LADREIT de LACHARRIÈRE, wanted to contribute to the development of PRODWAYS GROUP. "We are pleased to support PRODWAYS GROUP in its aim to represent a leading 3D printing player in Europe capable of competing with key American players. In our view, PRODWAYS GROUP and its teams - widely renowned for their expertise - represent a company capable of fast becoming one of the main leaders in the sector", said Marc LADREIT de LACHARRIÈRE.

This fundraising transaction will speed up the implementation of the strategy to become the third-largest player in the world to offer a range of multi-technological services and all 3D printing services to its customers.

As a leading investor able to support long-term industrial projects, the FIMALAC Group will represent a major partner of PRODWAYS GROUP, alongside GROUPE GORGÉ.
