WAB SUITE RATED “BEST BUY” BY SC MAGAZINE

WALLIX, a software company providing cyber-security and governance solutions for information systems access, has announced that its new software solution, WAB Suite, has been rated as “Best Buy” by SC Magazine, a benchmark English review for sector professionals.

Launched last January, Wallix AdminBastion Suite incorporates an array of functionalities from password management and access control to a one-click web portal, real-time supervision and exhaustive session recording. Currently the fastest solution to deploy as it operates without the need for any dedicated agents, its Single Sign-On system also makes it the easiest to use. A ground-breaking and flexible model, Wallix AdminBastion Suite has a natural advantage over competitive offers.

Rated by the SC Magazine team as “great value for money” and a “product (that) can be easily integrated into any environment and begin offering exceptional value from the moment it is deployed”, the reviewers went on to conclude that “For its unique approach to the entire privileged account management problem, we make Wallix (AdminBastion Suite) our Best Buy”.

Jean-Noël de Galzain, Chairman of the WALLIX Management Board, said: “This recognition by one of the sector’s most-renowned reviews once again demonstrates the quality of our offer and the value of our model which seeks to generate the fastest return on investment for clients in an industry where competitor solutions are often too expensive and too complicated to deploy. This rating will strengthen our visibility and give us substantial leverage in an increasingly concentrated market”.
