

Prodways launches the new ProMaker LD-3, compact 3D printer, which will open new segment for professional quality in a compact design

Paris, 4th June, 2018, 18:00 p.m.

Prodways partners with W2P to launch a new compact ProMaker LD-3, moving [DLP® 3D printer](#), to help professionals from dental, jewelry, education or prototyping industries by integrating 3D printing through their production processes.

This new ProMaker LD-3, confirms Prodways' drive to offer the professional performance of DLP® technologies in a more compact, multi-functional format at an affordable price, in order to meet the needs of professionals initiating their transition to a digital work stream. In order to adapt to the several markets of dental, jewellery, education or prototyping, the new ProMaker LD-3 3D printer will offer a compact design, in order to fit into all environments with these high performance specifications:

Dimensions:	400 x 400 x 545 mm / 15.74 x 15.74 x 21.46 in
Print Volume:	64 x 120 x 130 mm / 2.52 x 4.72 x 5.12 in
Layer Thickness:	25 – 200 µm/ 0.001 – 0.008 in
Pixel size:	50 µm / 0.0020 in
Technology:	UV-LED DLP® - Wavelength 385 nm
Weight:	Approx. 20 kg / 44lbs
Operating temperature:	18 -28°C/ 64-82°F
Power Requirements:	100 -240 V / 50/60 Hz / 80 W

In the first step (early Q3), this new compact professional 3D printer, ProMaker LD-3, will be exclusively available within a full dental package, which delivers the complete high-value services of Prodways: from specific dental materials to Prodways' dental expert support and training. This package (professional 3D printer + materials + premium services and training), will be sold as a monthly subscription at a total cost of ownership below 1,990 euros*.

This new dental package will also include Prodways Materials' high-performance resins, which meet dental industry standards, including:

- Resins for dental models intended for repair work (crowns, bridges, etc.)
- Resins for dental models used in thermoforming (dental aligners, retainers, etc.)
- Burnout resins for stellite casting or fixed crowns (metal or ceramic)
- [CE certified resins](#) for implant guides

Another package dedicated to jewellery will follow before the end of the year and will be extended to the education and prototyping industries in 2019.

This new ProMaker LD-3 compact 3D printer will allow Prodways to address a new segment of professionals looking for high quality 3D printing in a compact footprint. It confirms Prodways' strategy of offering a broad portfolio of 3D printing machines, from large industrial machines to professional compact machines. All these 3D printers are compatibles with Prodways Materials' resins designed for the most demanding applications and meeting the highest standards.

About Prodways Group

PRODWAYS GROUP is a specialist in industrial and professional 3D printing with a unique positioning as an integrated European player. The group has developed right across the 3D printing value chain (machines, materials, parts & services and software) with a high value added technological industrial solution. PRODWAYS GROUP offers a wide range of 3D printing systems and premium composite, hybrid and powder materials (SYSTEMS division). The company also manufactures and markets parts on demand, prototypes and small production run 3D printed items in plastic and metal (PRODUCTS division). The Group targets a significant number of sectors, from aeronautics to healthcare.

In 2017, the company generated revenue of €34.8 million, including 38% outside of France. Building on revolutionary and proprietary technology, MOVINGLight®, PRODWAYS GROUP today has global visibility in the industrial 3D printing sector and with leading customers.

PRODWAYS GROUP is a Groupe Gorgé company.
