

**NINE-MONTH REVENUE GROWTH: +17.8%**

**Cybersecurity solutions and products platform extended  
Autonomous vehicles business ramping up**

GECI International, the digital transformation and technology consulting specialist, is reporting nine-month revenues (April-December 2018) of €23.1m, up 17.8% from €19.6m the previous year, confirming the robust development of its business lines.

The Group has ramped up its Marketing and Partnerships policy, organizing an industrial cybersecurity event in November last year in Paris alongside its partner CyberX, and more recently with the presence of a prototype for the autonomous shuttle Milla at the CES in Las Vegas in January, as well as the two commercial partnership deals signed during the CyberTech show in Tel Aviv, expanding its platform for cybersecurity solutions and products.

The first nine months of the year were marked by the renewed confidence and trust of the Group's clients, as well as the new accounts brought on board in the banking, transport, defense and telecommunications sectors.

Alongside this, GECI International has maintained its focus on strong development for mobility solutions and is becoming a recognized player in the autonomous vehicles sector.

**Third-quarter revenues**

Third-quarter revenues came to €7.8m, up 9.9% from €7.1m for the third quarter of the previous year, compared with a high reference basis. This level of business confirms the Group's continued dynamic development, with four successive quarters of growth.

Quarterly revenues €m (unaudited consolidated data)	FY 2018-19	FY 2017-18	Change
1st quarter (April-June)	8.0	6.5	+23.1%
2nd quarter (July-September)	7.3	6.0	+21.7%
3rd quarter (October-December)	7.8	7.1	+9.9%

### OUTLOOK

Over the coming months, the GECI International Group plans to consolidate the transformation of its business model around its main activities of Mobility and Technology Consulting and Digital Transition, while further developing its cross-company Cybersecurity offer.

**Serge Bitboul, GECI International's Chairman and CEO, concludes:** *"One by one, we are activating all the drivers from our business model, from recruiting advanced skills to enhancing our solutions, setting up partnerships and developing international collaboration between our business units. With cybersecurity and autonomous vehicles leading the way forward, we want to position ourselves as the dedicated platform serving the success of our clients, our partners and our employees".*
