

L'HYDROGÈNE, PILIER DE LA MOBILITÉ DÉCARBONÉE

NEW ORDER FOR HYDROGEN REFUELLING STATION IN FRANCE

Grenoble, December 18, 2023 - **HRS**, a European designer and manufacturer of hydrogen refueling stations, announces that it has received a new order for an HRS14 hydrogen refuelling station, with a capacity of 200 kg/day to 300 kg/day.

HRS will design, supply and install a transportable refueling station, to be installed in the Île-de-France region in 2024. This station will be white-labelled, in response to a request from a long-standing **HRS** customer.

This most recent success for **HRS** in France consolidates the Company's position as the leading French supplier of hydrogen refueling stations.

Hassen Rachedi, HRS Founding Chairman and CEO, added: « *We are delighted to receive this new mark of confidence from one of our long-standing customers. At HRS, we are able to adapt to any type of request, from the specification of our stations to the customisation of their environment.* »

ABOUT HRS

Founded in 2004, Hydrogen-Refueling-Solutions (**HRS**), formerly TSM, is pioneer in hydrogen mobility. European designer and manufacturer of hydrogen refueling stations, for over ten years, the Company has been committed to reducing transport emissions.

At its new Champagnier site, **HRS** will have the mass production capacity to assemble up to 180 units a year, in record time - as little as 8 weeks.

The Company posted 2022/2023 revenue of €30.1 million. As of June 30, 2023, the company had 135 employees. (ISIN code: FRO014001PM5 - ticker symbol: ALHRS).
