

DON'T NOD Reveals New Trailer for Aphelion before it's upcoming launch

Aired at the ID@Xbox showcase, the trailer is a deep dive into the narration of the game

Paris, 23 April 2026 – DON'T NOD, an independent video game publisher and studio, NOD has presented a new trailer for **Aphelion**, its upcoming cinematic third-person action-adventure game at the ID@Xbox Showcase. The game will be launching April 28th, 2026 on PC (Steam), Xbox Series X|S, and PlayStation 5.

This new trailer focuses on Ariane and how she feels along her journey, and hints at the past relationship between Ariane and Thomas. It takes the audience through a new panorama of Persephone, both its breathtaking and dangerous sides, and displays new gameplay featuring the Nemesis.

On April 26th at 6pm CEST, players will also be able to learn more about the game by watching DON'T NOD's Q&A at the Games Made In France event, featuring members of the production team.

Aphelion is a sci-fi action-adventure game at the edge of our solar system. In the shoes of ESA astronauts Ariane and Thomas, players will explore and survey the uncharted planet Persephone, and solve the mystery of the crash, all while trying to survive in the terrifying presence of a hostile and unknown lifeform.

Xbox and PlayStation players can pre-order now to get the Day One Edition at 10% off on both platforms (only for PS+ users on PlayStation). The PlayStation 5 retail edition, named **Pioneer Edition**, is already available to [pre-order](#) and will be released July 2nd.

About European Space Agency

The European Space Agency (ESA) provides Europe's gateway to space.

ESA is an intergovernmental organisation, created in 1975, with the mission to shape the development of Europe's space capability and ensure that investment in space delivers benefits to the citizens of Europe and the world.

ESA has 23 Member States: Austria, Belgium, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Luxembourg, the Netherlands, Norway, Poland, Portugal, Romania, Slovenia, Spain, Sweden, Switzerland and the United Kingdom. Latvia, Lithuania and Slovakia are Associate Members.

ESA has established formal cooperation with four Member States of the EU. Canada takes part in some ESA programmes under a Cooperation Agreement.

By coordinating the financial and intellectual resources of its members, ESA can undertake programmes and activities far beyond the scope of any single European country. It is working in particular with the EU on implementing the Galileo and Copernicus programmes as well as with Eumetsat for the development of meteorological missions.
