EDF Energies Nouvelles commissions its Shiloh II wind farm in California (150 MW)

EDF Energies Nouvelles declared commercial operation of the Shiloh II wind farm, one of its most impressive projects to date in the United States, located in California. With 150 MW in capacity, this new facility further strengthens EDF Energies Nouvelles' positions in the US market.

Located in Solano County, California, the Shiloh II wind farm comprises 75 REpower turbines, each with 2 MW in capacity. The power will be sold under a 20-year power purchase agreement to Pacific Gas & Electric, a US electricity company.

During the construction phase, enXco, the US subsidiary of EDF Energies Nouvelles, secured a project financing agreement with Nord LB, in partnership with CIC, Dexia and Société Générale, as well as an agreement with a group of investors led by JP Morgan, together with Wells Fargo and New York Life, which now holds a minority interest in the wind farm.

Commenting on the commissioning of the project, David Corchia said: "Our US teams can be proud of their accomplishment: developing new projects in California is highly challenging and requires a long term local relationship and a high level of development expertise. The financing of the Shiloh II facility, which was arranged in challenging financial conditions, evidences the quality and low-risk profile of the projects developed by EDF Energies Nouvelles."

About EDF Energies Nouvelles

With operations in ten European countries and in America, EDF Energies Nouvelles is a market leader in renewable energies. With a development focused on wind energy for several years and more recently on solar photovoltaic, now a second priority avenue of development, the Group is also present in other segments of the renewable energies market: small hydro, biomass, biofuel and biogas. In addition, the Group is expanding its presence in the distributed renewable energies sector in partnership with EDF.

EDF Energies Nouvelles is a 50 %-owned subsidiary of the EDF Group. Since November 2006, EDF Energies Nouvelles is listed in Euronext Paris, code "EEN", ISIN code: FR0010400143).
