

Paris – 3 March 2009

Guillaume Faury Appointed Vice President, Manufacturing and Components

Guillaume Faury, currently Chairman of the Management Board of Segula Technologies, is going to join PSA Peugeot Citroën on 30 March as Vice President, Manufacturing and Components, reporting directly to Roland Vardanega, Executive Vice President, Manufacturing and Components. Following an orientation period within the Group, he will succeed Mr. Vardanega as Executive Vice President.

Guillaume Faury, 41, graduated from Ecole Polytechnique and Ecole Nationale Supérieure de l'Aéronautique et de l'Espace. He spent most of his career at Eurocopter, where he held a variety of executive positions, including Executive Vice President, Commercial Helicopters and Executive Vice President, Research and Development. He was appointed to the Eurocopter Executive Committee in 2006.
