Press release

Paris, April 8, 2009

Cap Gemini launches an offering of bonds convertible into and/or exchangeable for new or existing shares (OCEANE) in the amount of approximately €500 million

Offer to repurchase the existing OCEANE maturing January 1, 2010 by soliciting indications of selling interests from the holders of such 2010 OCEANEs through a “reverse bookbuilding” procedure

Launch of an offering of OCEANEs due 2014 of a size of approximately €500 million

Cap Gemini S.A. (“Cap Gemini” or the “Company”) is launching today an offering of bonds (the “Bonds”) convertible into and/or exchangeable for new or existing shares of Cap Gemini due January 1, 2014. The Offering size will be approximately €500 million and may be further increased up to a maximum of €575 million in the event that the over-allotment option granted to BNP Paribas, J.P. Morgan Securities Ltd. and Morgan Stanley & Co. International Plc (the “Joint Lead-Managers and Joint Bookrunners”) is exercised in full.

The purpose of the issue is to respond to the Company’s general financing needs as well as to enable the refinancing of the Company’s debt and the extension of the maturity of such debt. In addition, all or part of the proceeds of the issue may be used to finance the off-market repurchase followed by, if applicable, a market repurchase pursuant to a standing offer for all of the Company’s outstanding bonds convertible into or exchangeable for new or existing shares due January 1, 2010 (the “2010 OCEANEs”), of which the principal amount outstanding is approximately €460 million.

The nominal value of the Bonds will correspond to an issue premium between 25% and 30% over Cap Gemini’s reference share price¹ on Euronext Paris. The conversion / exchange ratio of the Bonds will be one new or existing Cap Gemini share per Bond, subject to potential adjustments.

¹ The reference share price will be the volume-weighted average price (VWAP) of Cap Gemini’s shares quoted on Euronext Paris from the opening of trading on April 8, 2009 until the final terms of the Bonds are determined.

The Bonds will bear interest at a rate comprised between 3.25% and 3.75% per annum and will be redeemed in cash at par on January 1, 2014. The Bonds may be redeemed early at the option of Cap Gemini subject to certain conditions.

The expected date of issue and settlement and delivery for the Bonds is April 20, 2009.

Repurchase of the 2010 OCEANES

Concurrently with the offering of the Bonds to institutional investors, the Company will solicit, via the Joint Lead Managers and Joint Bookrunners, indications of interest from certain holders of the 2010 OCEANES of their interest in selling such OCEANES to the Company as part of a reverse bookbuilding process. Based on the indications of interest received, the Company may decide to purchase the 2010 OCEANES presented to the Company, subject to the condition precedent of the settlement and delivery of the Bonds. In the event that the Bonds were not issued, the Company would, accordingly, not repurchase the 2010 OCEANES.

The 2010 OCEANES will be repurchased after the closing of the market the trading day following the settlement and delivery date of the Bonds, i.e., according to the indicative timetable, April 21, 2009, and then cancelled as provided in their issue contract. The bookbuilding for the Bonds and the reverse bookbuilding for the repurchase of the 2010 OCEANES are independent of one another. The allotments of Bonds are not subject to the indications of interest from holders of the 2010 OCEANES in selling such OCEANES.

Following these repurchases, if they cover more than 20% of the initially issued 2010 OCEANES, the Company will undertake, in order to ensure the fair treatment of all 2010 OCEANE holders, to place a standing repurchase order on the market in France. Immediately following the closing date of the reverse bookbuilding, the Company will provide, if applicable, the terms of the implementation of the standing repurchase order.
