EDF Energies Nouvelles commissions the Sauveterre wind farm in France

EDF Energies Nouvelles announced the commissioning of a 12 MW wind farm in the south of France, increasing to 23.5 MW the capacity commissioned by the Group in France since the beginning of the year. In northern France, the Fiennes wind farm was put into operation during the first quarter.

The new Sauveterre wind farm is located in the Tarn department. With 12 MW in installed capacity, it comprises six 2 MW turbines supplied by the Danish manufacturer Vestas.

The commissioning of this new facility follows the entry into service in March 2009 of the Fiennes wind farm in the Pas de Calais department. The latter comprises five turbines with a total installed capacity of 11.5 MW, supplied by German manufacturer Enercon.

To date, EDF Energies Nouvelles has commissioned 371.1 MW in gross capacity in France, including 84.2 MW from the DSSA¹ business.

About EDF Energies Nouvelles

With operations in ten European countries and in America, EDF Energies Nouvelles is a market leader in renewable energies. With a development focused on wind energy for several years and more recently on solar photovoltaic, now a second priority avenue of development, the Group is also present in other segments of the renewable energies market: small hydro, biomass, biofuel and biogas. In addition, the Group is expanding its presence in the distributed renewable energies sector.

EDF Energies Nouvelles is a 50 %-owned subsidiary of the EDF Group. Since November 2006, EDF Energies Nouvelles is listed in Euronext Paris, code "EEN", ISIN code: FR0010400143).
