

MEMSCAP
The Power of a Small World™

MEMSCAP GETS ITAR CERTIFICATION

Grenoble, France and Durham, North Carolina, September 8, 2009 – MEMSCAP (NYSE Euronext: MEMS), the leading provider of innovative solutions based on MEMS (micro-electro-mechanical systems) technology, announces today the completion of registration under the US Department of State's International Traffic in Arms Regulations (ITAR). This registration documents MEMSCAP's dedication to adhering to the regulations enacted by the United States government, which control the export and import of defence-related articles and services.

Administered by the Office of the Defense Trade Controls Compliance (DDTC), under authority established by the Arms Export Control Act (AECA), ITAR regulates the manufacture, export, import and transfer of defense related articles and services.

"MEMSCAP's ever commitment to providing the highest quality and efficiency devices and solutions, especially in fields where protection, security and reliability are critical, finds a new embodiment in this registration that also reaffirms our dedication to ensuring a safer and more secure world" said Steve Wilcenski, General Manager of MEMSCAP Custom Products Business Unit. "Our ITAR registration now ensures that MEMSCAP Inc. is well positioned to fully support defence related projects in the USA".

About MEMSCAP

MEMSCAP is the leading provider of innovative micro-electro-mechanical systems (MEMS)-based solutions.
