## **EDF Energies Nouvelles is commissioning the Castanet wind farm in France**

**Following on from the entry into service of the Veulettes and Canton de Bonneval wind farms, EDF Energies Nouvelles announces the commissioning of a new 13.8 MW wind farm at Castanet in the south of France.**

The Castanet wind farm is located in the Hérault department. With 13.8 MW in installed capacity, it comprises six 2.3 MW turbines supplied by German manufacturer Enercon.

EDF Energies Nouvelles owns 11.5 MW of this facility. The remainder (2.3 MW) was sold in December 2008 as part of its Development and Sale of Structured Assets business.

The sixth project completed by EDF Energies Nouvelles in France since the beginning of the year, this wind farm strengthens the Group's positions in its home market. To date, EDF Energies Nouvelles has developed and built 442.6 MW in gross capacity in France, 112.2 MW of which has been sold to third parties.

### **About EDF Energies Nouvelles**

With operations in Europe and North America, EDF Energies Nouvelles is a market leader in green electricity production. With a development focused on wind energy for several years and more recently on solar photovoltaic, the Group is also present in other segments of the renewable energies market: small hydro, marine energy, biomass, biofuel and biogas. In addition, the Group is expanding in the distributed renewable energies sector.

EDF Energies Nouvelles, 50 %-owned by the EDF Group, is listed in Euronext Paris since November 2006 (code "EEN", ISIN code: FR0010400143).
