EDF Energies Nouvelles commissions a 38 MW wind farm in Greece

Pursuing its wind energy expansion in Europe, EDF Energies Nouvelles announces the commissioning of the Viotia 2 wind farm in Greece, which has 38 MW in total capacity.

Located in Beotia, in the North West of Athens, this wind farm is equipped with 19 turbines supplied by Danish manufacturer Vestas.

The Viotia 2 facility is owned by the EDF Energies Nouvelles group, which holds 52.2% through its EDF EN Greece and RETD subsidiaries, and by PPC Renewables, a subsidiary of Greek national electricity company Public Power Corporation.

Number two of the wind energy market in Greece, EDF Energies Nouvelles completes with this wind park its seventh project in the country. To date, EDF EN has commissioned 187.4 MW in gross capacity in Greece.

About EDF Energies Nouvelles

With operations in Europe and North America, EDF Energies Nouvelles is a market leader in green electricity production. With a development focused on wind energy for several years and more recently on solar photovoltaic, the Group is also present in other segments of the renewable energies market: small hydro, marine energy, biomass, biofuel and biogas. In addition, the Group is expanding in the distributed renewable energies sector.

EDF Energies Nouvelles, 50 %-owned by the EDF Group, is listed in Euronext Paris since November 2006 (code "EEN", ISIN code: FR0010400143).
