The Group is continuing to develop its business at a sustained rate, with revenues climbing 10.3% over the third quarter, underpinned by organic growth of 10.6%.

In France, Korian is focusing on its strategy to ensure the more consistent development of its activities by setting up and strengthening local networks that are effectively integrated into the health sectors. In this way, the Group is continuing to roll out its targeted investment plan on strong value-added projects, particularly those linked to the creation of new beds. Also within this framework, Korian has sold off four facilities during the second half of the year.

In both Italy and Germany, Korian is able to confirm that its roadmap is moving ahead well. Its two platforms are continuing to ramp up, while increasing their profitability.

As Rose-Marie Van Lerberghe, Chairman of Korian's Executive Board, confirms: "Within this favourable context, Korian aims to achieve at least €840 million in revenues for 2009. We are also looking at with attention to external growth opportunities in France and Italy".

Next announcement: 2009 annual revenues before start of trading on 11 February 2010
