## **EDF Energies Nouvelles announces an agreement with REpower to supply turbines with a total capacity of 954 MW in Canada**

**As part of its development in Canada, EDF Energies Nouvelles announces the signing of a framework agreement with turbine supplier REpower to deliver 954 MW.**

The turbines, with a unit capacity of 2 MW, are intended to cover the needs of the five wind energy projects currently being developed in Quebec by Saint-Laurent Energies Inc., in which EDF EN Canada owns a majority shareholding. These projects currently under development are due to be commissioned between year-end 2011 and year-end 2015, subject to the delivery of all the permits relevant for their construction.

This agreement strengthens the long-term and trustful relationship between EDF Energies Nouvelles and REpower in Europe as well as in the United States.

### **About EDF Energies Nouvelles**

With operations in Europe and North America, EDF Energies Nouvelles is a market leader in green electricity production. With a development focused on wind energy for several years and more recently on solar photovoltaic, the Group is also present in other segments of the renewable energies market: small hydro, marine energy, biomass, biofuel and biogas. In addition, the Group is expanding in the distributed renewable energies sector.

EDF Energies Nouvelles, 50 %-owned by the EDF Group, is listed in Euronext Paris since November 2006 (code "EEN", ISIN code: FR0010400143).
