22 JANUARY 2010

EDF: A USD 2.25 billion bond issue

EDF Group has carried out a bond issue on the US market for a total amount of \$ 2.25 billion.

This private placement to institutional investors, carried out under Rule 144A issue, has two tranches:

- a 10-year tranche of USD 1.4 billion with a 4.60% coupon,
- a 30-year tranche of USD 850 million with a 5.60% coupon

In the context of the global management of its liquidity, EDF chose to come back on the US fixed-income market, which currently provides competitive conditions.

An information document including a summary of significant events since 30 June 2009, as well as an update of risks and financial perspectives is available on EDF website under the following link: <http://investisseurs.edf.com>

The EDF Group, one of the leaders in the energy market in Europe, is an integrated energy company active in all businesses: generation, transmission, distribution, energy supply and trading. The Group is the leading electricity producer in Europe. In France, it has mainly nuclear and hydraulic production facilities where 95% of the electricity output involves no CO2 emissions. EDF's transport and distribution subsidiaries in France operate 1,274,000 km of low and medium voltage overhead and underground electricity lines and around 100,000 km of high and very high voltage networks. The Group is involved in supplying energy and services to more than 38 million customers around the world, including more than 28 million in France. The Group generated consolidated sales of € 64.3 billion in 2008, of which 47% in Europe excluding France. EDF is listed on the Paris Stock Exchange and is a member of the CAC 40 index.
