⁽²⁾ After elimination of impairment, amortization of intangibles arising on acquisitions and the tax credit arising on the deferred tax liability on the Oceane 2014 convertible bond.

Maurice Lévy, Chairman and Chief Executive Officer of Publicis Groupe declares:

“With organic growth of 7.1% for the second quarter of 2010 and 5.3% for the half-year, an operating margin of 14.5% and net income up by 27.5%, Publicis Groupe has once again given proof of its energy and ability to create value, even in the aftermath of the worst global economic crisis in many years.

This growth is the result of a strategy that has been effectively executed over a number of years. We were quick to take the digital route, gaining a decisive lead over our competitors and providing clients with the best and most innovative solutions for the new landscape being shaped by the explosion of digital technology.

We also opted for expansion in emerging markets. The economic crisis may have slowed the pace of their growth, but ZenithOptimedia’s latest estimates for 2011 and 2012 bode well for strong growth.

The challenges our clients face demand from us greater inventiveness, creativity and innovation, and relentless operational efforts to ensure that they win whatever the circumstances. I would like to thank them for their confidence, and to pay tribute to the hard work of all our teams who have performed wonders within the constraints of strict cost controls, enabling Publicis Groupe to emerge stronger than ever from the crisis.

Tight cost containment since end 2008 and strong growth in revenue have boosted operating margin to an impressive 14.5%, despite the fact that Razorfish is still in the integration phase with a margin that, while improving, is still well below average for the Groupe.

Without lapsing into the euphoria that these half-year results for our Groupe might warrant, I remain firmly convinced that Publicis Groupe will succeed in outperforming the market in terms of both growth and margin.”

At its meeting on July 28, 2010, chaired by Mrs. Elisabeth Badinter, the Supervisory Board of Publicis Groupe examined the first half results for 2010 presented by Mr. Maurice Lévy, Chairman and Chief Executive Officer of Publicis Groupe.

⁽¹⁾ The average number of shares used to calculate earnings per share was 204.5 million for 1st Half 2010 and 200.8 million for 1st Half 2009.

⁽²⁾ The average number of shares used to calculate diluted earnings per share was 237.1 million for 1st Half 2010 and 206.3 million for 1st Half 2009. This includes stock options, free shares, equity warrants and convertible bonds with a dilutive effect on EPS. For the first six months of 2010, the instruments that diluted EPS were the Oceane convertible bonds, equity warrants, free shares and certain tranches of stock options with a strike price below the average price over the period.

Analysis of key figures

I. First half 2010 activity

The global economy rallied over the first half of 2010. After forecasting a 0.9% increase in 2010 global advertising expenditure in its December 2009 forecast, ZenithOptimedia upgraded its forecast in April this year to 2.2% growth and upped its latest estimate yet again, on July 19, to 3.5%. This steady improvement in growth forecasts is most encouraging.

As the advertising market recovered, Publicis Groupe posted an increase of **14.9%** in reported revenue for the first half and organic growth of **+5.3%**.

Second quarter revenue was up by **21.3%** and organic growth rose to **7.1%**.

- **Revenue in first half 2010**

Consolidated revenue for the first half of 2010 was EUR **2,538** million compared to EUR 2,209 million for the first half of 2009, an increase of **14.9%** (exchange rate impact was positive at EUR 55 million).

Organic growth was **5.3%**.

First half growth reflects the strong recovery in advertising expenditure after the record slump triggered by the 2009 economic crisis. The larger networks, in particular Leo Burnett and Publicis Worldwide along with VivaKi, made the most of the upturn, and digital activities maintained their strong growth trend.

The breakdown of consolidated revenue for the first half of 2010 is as follows: 33% from advertising, 20% from media and 47% from specialized agencies and marketing services (including digital activities).

- **Breakdown of first half 2010 revenue by region**

<i>(EUR million)</i>	<i>Revenue</i>		<i>Organic Growth</i>
	1st half 2010	1st half 2009	
Europe	805	738	+3.1%
North America	1,258	1,061	+6.6%
Asia-Pacific	286	238	+6.0%
Latin America	126	109	+10.8%
Africa and Middle East	63	63	-3.3%
Total	2,538	2,209	+5.3%

Almost all the regions, Europe included, saw a return to growth, with the exception of Africa and the Middle East, which is still suffering from Dubai's financial crisis.

North America continues to enjoy good growth. Organic growth for the USA was 7.2%, fuelled by strong growth from all the agencies and significant contributions from the healthcare and digital activities, the latter accounting for 42.5% of the region's revenue.

The Asia Pacific region is growing again, thanks largely to India and Korea.

Every country in Latin America except Chile reported growth.

Expressed in US dollars, first half revenue was USD 3,362 million, an increase of 14.3%.

- **Revenue in 2nd quarter 2010**

Consolidated second quarter 2010 revenue was EUR **1,376** million, an increase of **21.3%** on the figure of EUR 1,134 million for the corresponding period in 2009 (the exchange rate impact was positive at EUR 73 million).

Organic growth was **+7.1%** in the second quarter, a significant improvement on first quarter organic growth of +3.1%.

The second quarter undoubtedly benefited from a low basis of comparison, but the marked upswing in advertising business seen in the first quarter was also maintained.

Growth was also fuelled by new business wins in 2009 and by an increase in advertising spending by major clients.

- Breakdown of 2nd quarter 2010 revenue by region

<i>(EUR million)</i>	<i>Revenue</i>		<i>Organic Growth</i>
	2nd quarter 2010	2nd quarter 2009	
Europe	437	381	+7.3%
North America	679	535	+8.1%
Asia-Pacific	154	123	+5.3%
Latin America	71	58	+11.5%
Africa and Middle East	35	37	-10.4%
Total	1,376	1,134	+7.1%

Europe performed well in the second quarter. Only Africa and the Middle East posted negative figures.

Operating margin and operating income

Operating margin before depreciation and amortization was EUR **422** million in first half 2010, up **26.7%** from EUR 333 million for the first half of 2009.

Operating margin was EUR **369** million compared with EUR 287 million for the same period in 2009, an increase of **28.6%**.

Operating margin rate for the first half of the year was **14.5%**, up from **13%** for the same period in 2009. This reflects the significant upturn in activity as compared with first half 2009, and continued tight control over costs. The effects of measures taken in 2009, particularly with regard to containing personnel costs, are beginning to be felt.

Operating income for first half 2010 was EUR **353** million compared to EUR 257 million for the corresponding period in 2009, an increase of **37.4%**.

Net income

Net income attributable to the Group was EUR **213** million, an increase of **27.5%** on the net income of EUR 167 million reported for the first half of 2009.

Net income includes a net financial expense of EUR 42 million and a tax charge of EUR 89 million for the half-year.

Free Cash Flow

The Groupe's free cash flow, excluding changes in WCR, was up sharply (**+42%** on the corresponding period of 2009) at EUR **277** million. The increase is directly linked to the increase in operating margin before depreciation and amortization.

Net financial debt at June 30, 2010

Net financial debt was EUR **618** million at June 30, 2010 compared to **899** EUR million at June 30, 2009. This figure includes the impact of the partial buyback of Publicis Groupe shares held by SEP Badinter-Dentsu at a cost of EUR 217.5 million. Net financial debt at December 30, 2009 was EUR **313** million, the raise observed at June 30, 2010 reflecting the usual seasonal effect.

The Groupe's average net debt for the first half of 2010 was EUR **673** million, down sharply on the figures of EUR 1,002 million for first half 2009 and EUR **929** million for the full year 2009.

The Groupe's available liquidity position at June 30, 2010 was EUR **3.6** billion.

Shareholders' equity at June 30, 2010

Consolidated shareholders' including minority interests was EUR 3,111 million at June 30, 2010, compared with EUR 2,838 million at December 31, 2009. This includes the impact of allocation of 2009 income (dividends of EUR 107 million distributed).

The debt/equity ratio thus rose from 0.14 at December 31, 2009 to **0.20 at June 30, 2010**.

II. NETWORKS

The upturn in advertising markets over the course of the first half of the year is benefiting all the Groupe's networks. The growing contribution from digital activities, up to **28.1%** of first half revenue compared with **20.7%** (at 2010 exchange rate) for the first half of 2009, once again confirms the Groupe's strategic decision to help its clients keep pace with a changing consumer landscape and the new digital audience. Digital activities are now making their way into every one of the Groupe's networks, bringing the benefits of expertise and new ideas in virtually every area of digital operations, be it search, display, or the social and mobile networks made possible by the creation of the VivaKi Nerve Center (and at the same time avoiding duplication of investments).

III. COST CONTROL

The Groupe continues to exercise tight control over its costs. Cost optimization programs are the focus of unrelenting attention and are ongoing. The deployment of shared service centers, initiated some years ago, continues, as does the process of regionalization. The “Americas” platform, designed to serve the entire continent, is scheduled to go fully operational at the end of this year. The rollout (first local and subsequently global) of ERP, made possible by the integration of most agencies into shared service centers and the adoption of shared processes, continues. The Group expects to achieve a significant reduction in its operating costs from this investment, through global harmonization of processes and systems as from 2012.

Thanks to a solid balance sheet and improved cost control, the Groupe is well placed to meet market needs and sharpen its competitive edge.

IV. NEW BUSINESS: USD 2.1 BILLION IN NET WINS

Publicis Groupe took in USD **2.1** billion in net new business in the first half of 2010, clear testimony to the attractiveness of its products and services (see Appendix for list).

V. ACQUISITIONS

Publicis Groupe has embarked on a process of securing long-term growth by ramping up its engagement in digital activities and emerging economies, both of which are growth drivers for the communications sector today and in the future.

A significant number of targets have been identified, with special interest focusing on the opportunities offered by China.

On March 30, Publicis Groupe announced it had acquired a minority stake in Taterka Comunicações (Taterka), an advertising agency based in São Paulo, Brazil.

On April 6, 2010, the Groupe acquired Canadian agency In-Sync. Founded in 1989, the Toronto-based agency operates in the health and wellness space, specializing in market research consultancy and offering innovative marketing solutions to its biopharma clients.

At the end of April, Publicis Groupe bought out the minority interests in W&K and holds now 100% of the capital of this Chinese agency, now rebranded Leo Burnett Beijing Communications Co., Ltd.

On May 19, 2010, Publicis Groupe acquired Resolute Communications Ltd. Founded in 2002, Resolute Communications provides healthcare communications programs spanning strategic consulting, medical education, and media and public relations. Resolute is headquartered in London with an office in New York. Resolute will be merged with Publicis Life Brands in London to form a new entity renamed Publicis Life Brands Resolute, that will further entrench Publicis Healthcare Communications Group (PHCG) as a leader in the United Kingdom.

VI. FINANCE

January 2010 saw the early redemption of some of the outstanding 2018 Oceane convertible bonds. According to the 2018 Oceane prospectus, any holder was entitled to request early redemption of all or part of its Oceane bonds at the early redemption price of EUR 45.19 per bond. At the early redemption date, i.e. January 18, 2010, a total of 617,985 Oceane bonds were repaid early for a total amount of EUR 28 million.

The number of Oceane bonds subsequently outstanding is 2,624,538, representing 14.9% of the number initially issued (17,624,521).

Furthermore, in view of the authorization granted by the Combined Annual General Meeting of the shareholders on June 9, 2009, Publicis Groupe SA entered into an agreement on January 8, 2010, with an authorized intermediary, with a view to purchasing 2.7 million Publicis Groupe shares. This authorization was granted for a period of eighteen months from June 9, 2009, i.e. until December 8, 2010. To date, 2,482,440 shares have been purchased under this program.

On May 10, 2010 Publicis Groupe purchased from Dentsu Inc. a block of 7,500,000 of its own shares, held by SEP Dentsu-Badinter, to be cancelled. The total price paid for the block was EUR 217.5 million, equivalent to EUR 29 per share. The shares were immediately cancelled.

VII. RECENT EVENTS

Acquisitions

On July 12, 2010, Publicis Groupe announced its acquisition of G4, a Beijing-based advertising agency. Launched in 2009, G4 offers integrated communications solutions, including advertising, design and strategic consulting, to Nestlé in China. G4 has rebranded as Publicis G4 and will join forces with the Publicis Beijing Nestlé team. Concentrating all the skills and resources dedicated to Nestlé within Publicis G4 will provide an enhanced service to this key customer throughout Greater China and the Asia region.

New Business

New business maintained its dynamic pace at the beginning of second half 2010 after total gains of USD 1 billion for the second quarter.

VIII. Outlook

For the second time in succession, ZenithOptimedia has upgraded its forecasts of growth in global advertising expenditure for 2010, most recently to 3.5% growth. These significantly higher forecasts confirm the upturn in the market, after a year of record decline in global advertising expenditure in 2009.

Publicis Groupe's growth rates for the first two quarters of 2010 are a mark of excellent performance and testimony to its judicious strategic choices, with digital activities continuing to expand across all the Groupe's networks and creating the right conditions for innovation and value

creation. Emerging economies are returning to growth rates more commensurate with their level of development and opening up new prospects for the Groupe.

These two cornerstones offer assurances of growth both now and in the future.

Investments in talent and in digital activities are still very much ongoing, made possible by strict cost control and a sound financial situation.

With many emerging economies, China in particular, returning to high growth, a recovering US economy (although flat since May), and certain European countries (including France and the UK) holding up well, Publicis Groupe confirms its target of outperforming the market on growth for full year 2010.
