INFOVISTA ANNOUNCES POSITIVE FY2011 OUTLOOK

- *Return to double-digit license revenue growth*
- *Improvement of bottom line performance*

Paris, France – September 9, 2010 – InfoVista (Euronext: IFV, ISIN: FR0004031649), the leading provider of Service Performance Assurance solutions, today announced its objectives for the fiscal year ending June 30, 2011.

Top line is to grow by about 10% to over €47million, with license revenues expected to jump at least 15%.

In terms of profitability, the Company aims to achieve an operating margin of 7% to 10%, a sharp improvement over the past year.

Commenting on the Company's outlook, Philippe Ozanian, Chief Executive Officer, said: "Our objectives for FY11 reflect the significant increase in our pipeline over the past six months. Three factors explain this growth: first, the successful and rapid adoption of our new solutions; next, emerging markets, which continue to provide a healthy source of growth; and last but not least, our partnerships, which represent an important incremental source of opportunities." Mr. Ozanian added: "Over the past two years, we have accomplished a lot to restore profitability and growth. Everything is now in place to build upon this solid foundation and expand our revenues."

Conference call replay
