

## **Transilien SNCF chooses XIRING's Xi-Check to equip its mobile agents with Navigo card terminals**

**Suresnes, France, November 2, 2010 – XIRING, a security solutions provider for electronic transactions, was chosen by the SNCF to provide its mobile teams with contactless card terminals in the Ile-de-France region.**

As part of its efforts to develop e-ticketing in the Ile-de-France region, Transilien SNCF management wishes to equip some of its agents with professional devices that will allow them to check the validity and validation of public transportation contactless cards, whether Passe Navigo, Imagine'R or others.

After a limited call for tenders, Transilien SNCF ordered 1,400 Xi-Check terminals from XIRING. Autonomous and portable, this terminal is made to check and validate contact and contactless cards. Some of its best features are that it is lightweight, simple to use, autonomous and high performing. The Xi-Check recently received the RCTIF V4 certification issued by the Ile-de-France Transport Union (*Syndicat des Transports d'Ile-de-France*).

Georges Liberman, XIRING's Chairman and CEO said: *"We are very proud to provide the SNCF once again with a solution that will improve its operational effectiveness and make its agents' jobs easier. This contract confirms the relevance of our sales, marketing and R&D efforts on our new product lines, particularly on our solutions enabling on-the-spot checking of secure documents such as contact and contactless cards".*

## **About XIRING**

---

XIRING, a security solutions provider for electronic transactions, develops security software embedded in smart card readers and terminals for strong authentication and electronic signatures. XIRING is the market leader in SESAM-Vitale healthcare terminals for generating and signing electronic medical claim forms or for updating healthcare cards in France and also works alongside authorities in the field of healthcare system dematerialization in international markets. In the area of electronic identity (e-ID), XIRING proposes a broad range of solutions for public authority staff and citizens to meet the latest market challenges with secure electronic identity documents systems: electronic national identity cards, electronic passports, public transport cards and professional cards. XIRING is listed on the Alternext compartment of the NYSE-Euronext Paris stock exchange. For further information: [www.xiring.com](http://www.xiring.com)
