For Immediate Release:

Watsco Files Form 10-K

MIAMI, FLORIDA, March 1, 2011 -- Watsco, Inc. (NYSE / Euronext Paris: WSO) today informs its shareholders that its Annual Report on Form 10-K for the fiscal year ended December 31, 2010 has been filed with the U.S. Securities and Exchange Commission ("SEC").

Watsco, Inc. makes available free of charge on its website, its Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, reports filed pursuant to Section 16 of the U.S. Securities Exchange Act of 1934 and amendments to those reports filed with or furnished to the SEC as soon as reasonably practicable after Watsco, Inc. electronically files these documents with, or furnishes them, to the SEC. These documents are posted on Watsco, Inc.'s website at <http://www.watsco.com> — under "Investor Relations".

The SEC maintains a website that contains reports, proxy statements and other information regarding issuers that file electronically with the SEC. These materials may be obtained electronically by accessing the SEC's home page at <http://www.sec.gov>.

Copies of the above referenced information will also be made available, free of charge, by calling (305) 714-4100 or upon written request to the address listed above.

Watsco improves indoor living and working environments with air conditioning and heating solutions that provide comfort regardless of the outdoor climate. Our solutions also promote healthier indoor spaces by removing pollutants from the indoor air that can lead to asthma, allergies and reductions in productivity. Furthermore, since heating and cooling accounts for approximately 56% of the energy consumed in a typical United States home, we offer consumers the greatest opportunity to save money on energy by replacing existing air conditioning and heating systems with more energy efficient and environmentally friendly solutions.

There are approximately 74 million central air conditioning and heating systems installed in the United States that have been in service for more than 10 years. Older systems often operate below government mandated energy efficiency and environmental standards. Watsco has an opportunity to accelerate the replacement of these systems at a scale greater than our competitors as the movement toward reducing energy consumption and its environmental impact continues. As the industry leader with over 500 locations in the United States and Puerto Rico, with additional market coverage on an export basis to parts of Latin America and the Caribbean, significant growth potential remains given that our current revenue run-rate is less than 10% of the estimated \$30 billion United States market for HVAC/R products. Additional information about Watsco may be found at <http://www.watsco.com>.
