

XIRING, the leader in eHealth security solutions, announces its participation in eHealth Week 2011 in Budapest

Suresnes, France, May 9, 2011 – XIRING, a security solutions provider for electronic transactions, will be participating in eHealth Week 2011, the European eHealth community's annual event, to be held in Budapest from May 10 to 12, 2011.

eHealth Week event has become one of the most significant Pan-European platforms in the field of eHealth. eHealth Week 2011 participants will highlight how IT solutions can help the European continent's healthcare systems face their upcoming challenges.

With over 270,000 smartcard secure terminals delivered by the end of 2010 in the eHealth field, XIRING is an indisputable specialist in Europe. Depending on the context, XIRING provides and manages a complete solution (terminal, embedded software, related service) or partners with local experts in their national system, contributing its technological know-how and technical platforms that are specially designed for eHealth uses.

During eHealth Week, XIRING will present three types of solutions adapted for the various uses:

- Countertop terminals, specifically aimed at pharmacies for e-prescription applications. In France, the **Prium-3S** is the reference in the pharmacy segment.
- Autonomous mobile solutions enabling the generation and signature of electronic medical claim forms, for mobile healthcare professionals who make house visits to patients or who work in several medical facilities. The **T-Rex** was recently introduced in France for nurses; the **Xi-Plus 5** has been released in Germany for doctors.
- USB smartcard readers providing secure access to workstations and confidential medical information. The **Leo**, **Diteo** and **Liteo** contact or contactless smartcard readers are perfectly adapted for hospital use.

*XIRING welcomes visitors to its stand (729) in the main aisle
SYMA Center – Budapest – Hungary
May 10th from 6:30 p.m. to 8 p.m. – May 11th and 12th from noon to 6 p.m.

About XIRING

XIRING, a security solutions provider for electronic transactions, develops security software embedded in smart card readers and terminals for strong authentication and electronic signatures. XIRING is the market leader in SESAM-Vitale healthcare terminals for generating and signing electronic medical claim forms or for updating healthcare cards in France and also works alongside authorities in the field of healthcare system dematerialization in international markets. In the area of electronic identity (e-ID), XIRING proposes a broad range of solutions for public authority staff and citizens to meet the latest market challenges with secure electronic identity documents systems: electronic national identity cards, electronic passports, public transport cards and professional cards. XIRING is listed on the Alternext compartment of the NYSE-Euronext Paris stock exchange. For further information: www.xiring.com
