

## OUTREMER TELECOM ANNOUNCES THE DEPLOYMENT OF A 3G NETWORK IN MAYOTTE

**Paris, 24<sup>th</sup> June 2011:** Groupe Outremer Telecom (FR0010425587 - OMT), the leading alternative telecom operator in the French Overseas Regions (FOR), announces that the ARCEP regulator has granted it authorisation to use and operate a Third Generation (3G) mobile phone network in Mayotte.

Outremer Telecom already deploys its 3G networks in the French West Indies, French Guiana and Reunion. These initiatives were adopted to meet the substantial increase in the Group's number of mobile subscribers, but also to allow these clients to benefit from the most advanced voice and data offers with an ever-improving quality of service.

Outremer Telecom is thus reaffirming its commitment to reducing the digital divide by enabling the inhabitants of Mayotte to at last benefit from mobile broadband.

Mayotte was until now the only remaining French department without 3G mobile telephony. The Group's subscribers will thus now have access to new broadband mobile offers with significantly superior connection speeds and quality.

The networks will be deployed with the help of ZTE, one of the world's largest suppliers of mobile telephone network infrastructures and a long-term partner of Outremer Telecom.

These new offers will be marketed very soon.

### About Outremer Telecom

Founded in 1986, Groupe Outremer Telecom has established itself in the French Overseas Regions (Martinique, Guadeloupe, French Guiana, Reunion and Mayotte) as the leading alternative telecom operator able to offer a full range of fixed line, mobile and Internet access services for both residential and business customers. Groupe Outremer Telecom has developed its own telecom network and has a single brand; Only. The group intends to develop the convergence of its various offers, its business customers and pursue its innovative and competitive services.
