EURAZEO SUPPORTS FONROCHE DEVELOPMENT

Fonroche Energy, one of France's leading renewable energy producers, announced that it has signed an agreement for a 52 million euros credit line with a banking syndicate led by Credit Agricole, as part of its continued development in renewable energies, including in the photovoltaic industry. The financial resources will enable Fonroche to build 20 MW of photovoltaic greenhouses which, in addition to producing solar energy, will create jobs in agriculture.

Fonroche is also negotiating the construction of photovoltaic power plants in several countries around the world, allowing it to grow rapidly despite the regulatory slowdown in France. Fonroche has already signed several construction projects for biogaz power plants, expanding its range of energy production.

Eurazeo is providing Fonroche with additional resources to support its rapid growth through a 15 million euros tranche in equity which follows an initial investment of 25 million euros in April 2010.
