

PRESS RELEASE

Turnover for the first half of 2011: €8.8M (+11% compared to H1 2010 restated)

Suresnes, France, July 12, 2011: XIRING, a security solutions provider for electronic transactions, announces turnover for the first half of 2011 of 8.8 million euros, i.e. 11% growth over 2010 (restated to allow a strict comparison with e-Health and e-ID perimeter).

Turnover H1-2011	Turnover H1-2010 (restated)	Variation	Turnover H1-2010 (released)
€8.8M	€7.9M	+11%	€9.5M

Note: The released H1 2010 turnover included a remainder from the management of the end of a bank authentication contract completed on behalf of the purchaser of this activity. The restated H1 2010 turnover takes this fact into account to allow comparison versus H1 2011 turnover.

The turnover for the second quarter amounts 4.9 million euros, up 12.1% compared to Q2 2010 restated. With respect to the e-ID activity, the French National e-ID Card program has passed a significant step with the adoption of the legislative bill by the French National Assembly on July 7th and its submission to the Senate for review, thus validating XIRING's strategy and its prospects on this market for the years to come.

Georges LIBERMAN, Chairman and CEO, stated: *"Our double-digit growth, in line with the trend of the first quarter, confirms the dynamic nature of our activity. The French Minister of Health, Mr. Xavier BERTRAND, chose to visit XIRING's R&D offices at the end of June, reflecting our position as a major player in e-Health security solutions".*

Next important date: September 13, 2011: Publication of the results for the first half of 2011

About XIRING

Xiring, a security solutions provider for electronic transactions, develops security software embedded in smart card readers and terminals for strong authentication and electronic signatures. XIRING is the market leader in SESAM-Vitale healthcare terminals for generating and signing electronic medical claim forms or for updating healthcare cards in France and also works alongside authorities in the field of healthcare system dematerialization in international markets. In the area of electronic identity (e-ID), XIRING proposes a broad range of solutions for public authority staff and citizens to meet the latest market challenges with secure electronic identity documents systems: electronic national identity cards, electronic passports, public transport cards and professional cards. XIRING is listed on the Alternext compartment of the NYSE-Euronext Paris stock exchange. For further information: www.xiring.com
