For Immediate Release:

Watsco to Present at the Oppenheimer 6th Annual Industrials Conference

MIAMI, Florida - (BUSINESS WIRE), September 21, 2011 - Watsco, Inc. (NYSE:WSO) announced today that Barry S. Logan, Senior Vice President, is scheduled to present at the Oppenheimer 6th Annual Industrials Conference being held at the InterContinental New York Barclay Hotel on Tuesday, September 27, 2011 at 11:20 a.m. (EDT). Internet users can listen to a live webcast of the presentation at the Investor Relations section of Watsco's website at <http://www.watsco.com>.

About Watsco, Inc.

Watsco improves indoor living and working environments with air conditioning and heating solutions that provide comfort regardless of the outdoor climate. Our solutions also promote healthier indoor spaces by removing pollutants from the indoor air that can lead to asthma, allergies and reductions in productivity. Furthermore, since heating and cooling accounts for approximately 56% of the energy consumed in a typical United States home, we offer consumers the greatest opportunity to save money on energy by replacing existing air conditioning and heating systems with more energy efficient and environmentally friendly solutions.

There are approximately 89 million central air conditioning and heating systems installed in the United States that have been in service for more than 10 years. Older systems often operate below today's government mandated energy efficiency and environmental standards. Watsco has an opportunity to accelerate the replacement of these systems at a scale greater than our competitors as the movement toward reducing energy consumption and its environmental impact continues. As the industry leader with more than 530 locations in the United States, Mexico and Puerto Rico, with additional market coverage on an export basis to Latin America and the Caribbean, significant growth potential remains given that our current revenue run-rate is less than 10% of the estimated \$30 billion United States market for HVAC/R products. Additional information about Watsco may be found at <http://www.watsco.com>.
